

# KS Glee Clubs Join in Concert

More than 200 voices will be heard when the three K-State glee clubs join to present their annual spring concert tonight at 8 in the University auditorium. The concert is sponsored by the Friends of Music and will follow

## Library Has Music Week Book Exhibit

This week, National Music Week, the Library is featuring an exhibit of books about music in the reference room and in the exhibit cases on first floor.

Many volumes of the works of great masters such as Bach, Chopin, Brahms, Beethoven, and Mozart are available in the Library. Also available are books about music history, musicians of all periods, instruments, music styles, and music in general. The Library subscribes to several music magazines and all publications of the American Institute of Musicology.

the annual Glee Club Recognition banquet in the Union.

Both sections of the Men's Glee club and the Women's Glee club, all directed by Asst. Prof. Morris D. Hayes, are presenting the third of four concerts in observance of National Music week.

Highlight of the banquet will be the presentation of a recognition plaque for the top individual in each glee club.

Prof. Dale Ganz, director of the Varsity Glee club at the University of Nebraska, will be the guest speaker for the banquet. Dr. Arthur E. Westbrook, retired dean of the School of Fine Arts at the University of Nebraska, will be the guest speaker for the banquet. Dr. Arthur E. Westbrook, retired dean of the School of Fine Arts at the University of Nebraska, will be a special guest.

Section 2 of the Men's Glee club will present seven numbers, including the "Alma Mater" for the first part of the concert.

Nine numbers will be sung by the Women's Glee club in the second part of the program.

The final part of the concert will be presented by Section 1 of the Men's Glee club.

NUMBER 139

## Former Tennessee Governor To Be KS Assembly Speaker

One of the nation's young political leaders, Frank Clement of Tennessee, will be the speaker at the all-University annual senior leadership assembly tomorrow at 9:30 a.m. in the University auditorium.

Clement, former governor of Tennessee, gained national recognition when he was selected to keynote the last National Democratic convention.

He was named the outstanding young man in Tennessee by the Junior Chamber of Commerce in 1948 and was selected as one of

10 outstanding young men by the United States Junior Chamber of Commerce in 1953, the first year he served as governor of Tennessee.

Apart from the historical distinction of being the first Tennessee governor to serve a four-year term, Clement, when first elected governor, was the youngest chief executive in the nation.

His successful 1952 campaign for the governorship was his first bid for elective office and he was re-elected in 1954 by winning 94 of Tennessee's 95 counties—a significant first in Tennessee politics.

Clement has held chairmanships of the Southern Governor's conference and the Southern Regional Education board, and is now serving as chairman of the Cordell Hull Foundation for International Education.

Receiving a law degree from Law school at Vanderbilt university in Nashville, Clement was admitted to the bar while a second-year law student with the

highest examination mark among the applicants.

Clement has been a special agent for the Federal Bureau of Investigation, has served as state commander of the American Legion, is two-time state chairman for the March of Dimes, and is a member of several service and honorary organizations.

Frank Clement

## Debaters' Trophies Total 17

By MAGGI SULLIVAN

Seventeen trophies are the proud possessions of this year's debate team, according to James Robbins, speech instructor and assistant debate coach.

The K-State team as well as other college and university debaters have concentrated on one basic subject this year. The subject is, "Resolved: that the further development of nuclear weapons should be prohibited by international agreement."

This subject is decided upon by a committee of the Speech Association of America at the beginning of the year. In two contests K-Staters debated other topics. In the Missouri Valley tournament the subject was Red China, and at the Delta Sigma Rho tournament it was aid to Latin American countries.

According to Robbins, many hours of research are put in by students participating in debate. They are on their own in obtaining material, but are aided to some extent by numerous periodicals of current thought subscribed to by the Speech department.

There are no requisites for de-

bate participation, according to Robbins. The only requirements are intelligence and willingness to work hard. One hour of credit per semester may be earned, up to a total of four semester hours.

Skill in debate cannot be simply drilled in, feels Robbins. The student must be able to think clearly and intelligently for himself. One thing he is apt to learn through debating is to see both sides of a question. He will find that there is truth on both sides. Some students feel it is easier to argue the negative side, since it may be harder to convince a listener that progress and change are better than the present status of a situation.

Members of the debate team this year are C. J. Austermillier, IE Soph; Glenn McGinnis, Sp Soph; Josette Maxwell, PrL Soph; Mary Richardson, SED Soph; Bill Hiett, Sp Sr; Dan Hahn, Sp Sr; Gracella Lane, Sp Fr; Virginia Baxter, Gvt Soph; Suzanne Webster, EEd Fr; Kathleen Bryson, Sp Fr;

Joe Geiger, RM Soph; Judy Hoy, Sp Soph; Ray Tyson, Ar 02; Deanna Atkinson, Psy Fr; Zona Bolton, Sp Fr; Becky Mc-

Mahon, TC Fr; Lois Kinney; and Phil Reid, IE Sr.

The number of miles covered by members of the debate team hasn't yet been computed, but some of the contests they have attended include the Lubbock, Texas, Forensic festival; a tournament at Baylor university, Waco, Texas; another at St. Paul, Minnesota, which was the nation's biggest women's debate tournament, and was won by Virginia Baxter and Gracella Lane; and a recent tournament in Montana in which the team won first in men's debate, women's debate, and in the sweepstakes.

In a tournament at Emporia, Gracella Lane and Virginia Baxter placed third, defeating two men from Northwestern who later won the National Debate tournament at West Point.

Besides debate, the Speech department and Delta Sigma Rho, debate honorary, sponsor oratorical contests and members participate in poetry reading, extemporaneous speaking and oral communications contests. A number of first places have been won in these areas this year.

## Senior Leadership To Be Recognized

Recognition of outstanding work in scholarship and activities will be given to 46 seniors tomorrow at the annual Senior Leadership assembly.

The top three per cent of the seniors to be honored from each school will receive leader badges and engraved certificates during the 9:30 a.m. assembly in the University auditorium.

Recognition requirements are based on a combination of scores for grade points and outside activities, said Prof. Paul E. Sanford, chairman of the committee.

At least a 2.75 grade average

is necessary to be eligible for the awards which include January, May, and August graduates.

A committee of ten, including four faculty members appointed by the Faculty Senate and six students appointed by Student Council, selected the honor seniors, said Sanford.

Several dignitaries, including Gov. and Mrs. George Docking and Frank Clements, former governor of Tennessee, the assembly speaker, will attend a luncheon for the honor seniors at noon tomorrow, Sanford said.

## Kedzie Parker Guilty, Rules Traffic Board

The Traffic Appeals board last night ruled against a student who appealed a ticket received for parking in the basement of the new Kedzie addition. Gerald Faust, IT Jr, was found guilty on the charge that he had parked in an area which was not designated for parking.

Three other cases appealed to the board last night brought two charges of guilty and two charges of not guilty.

Richard J. Hargitt, GA Jr, appealed two tickets to the board. He was found guilty on the count of parking in a lot behind Thompson hall which is restricted to parking at all times. Hargitt was found not guilty on a second ticket given for parking behind the Engineering shops on

the grounds that the area was improperly marked.

Improper marking also provided the ground for determining that Jerry Fife, ChE Jr, was not guilty of a ticket received for parking in a reserved area.

Delmar Rieger, AEd Sr, was found guilty on the ground he had parked in an area which was not designated for parking.

Anyone wanting to appeal a traffic ticket to the Traffic Appeals board will have to do so before May 14. The last meeting of the board for this spring will be May 14 at 4 p.m. in the Union 205.

No student will be able to graduate or enroll next fall until he has paid all violations.

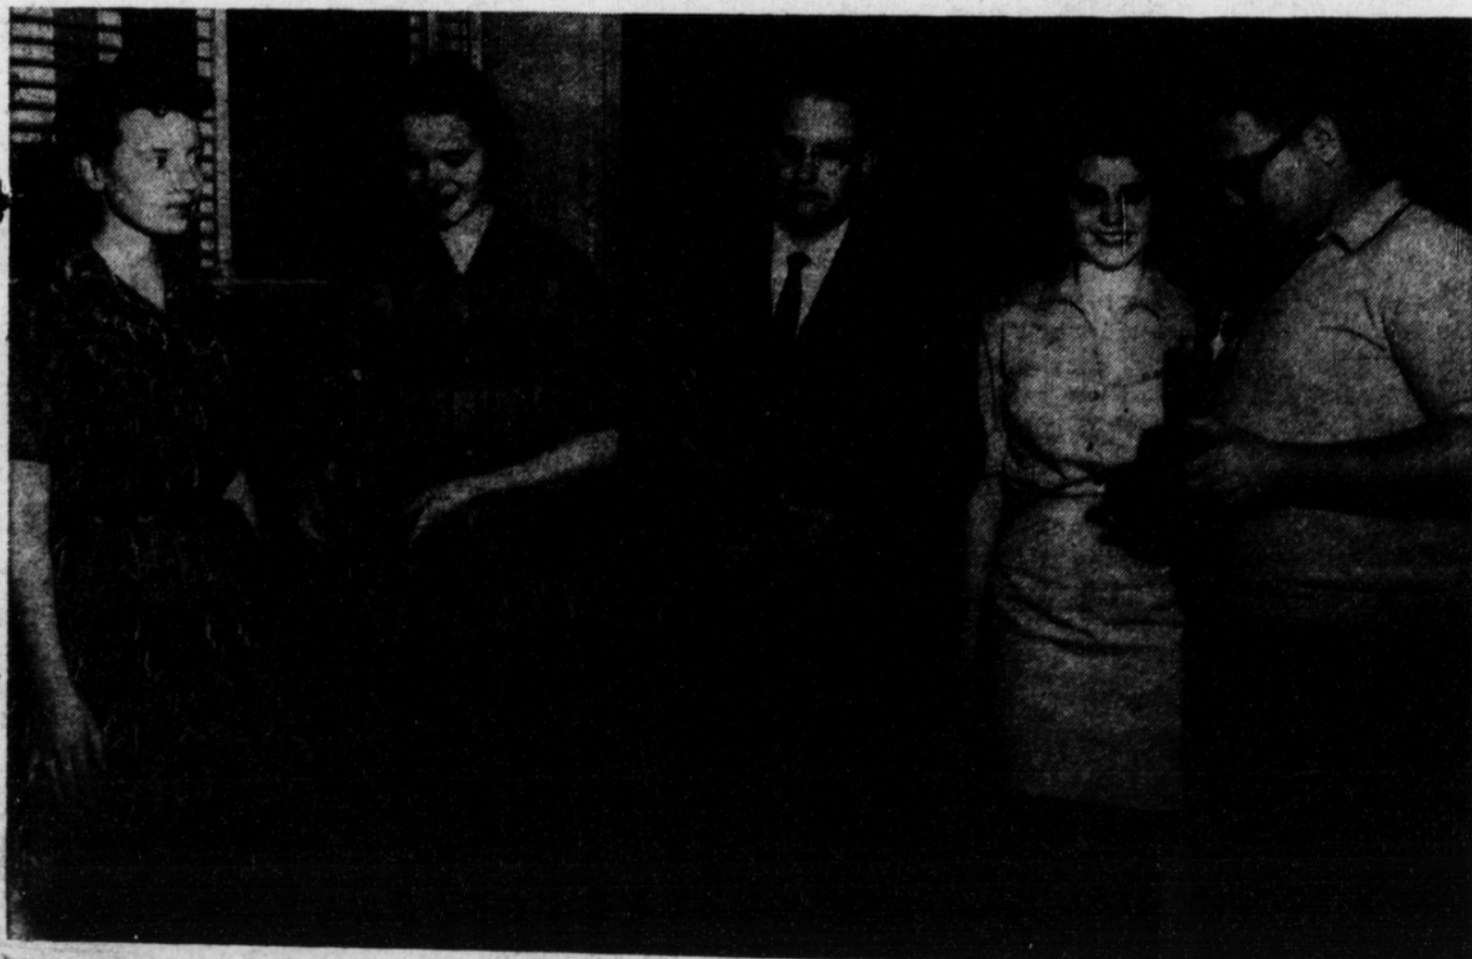

Photo by Jon Peterson

ADMIRING TROPHIES brought home on their recent debate trip are members of the two winning teams of the Kansas State debate squad. Debaters from left: Deanna Atkinson, Psy Fr; Kathleen Bryson, Sp Fr; coach James Robbins; Mary Richardson, SED Soph; and C. J. Austermillier, IE Soph. K-State debaters now have to their credit 17 trophies for the year.

# Recognition of Top KS Students Proves Encouraging, Rewarding

THE MOST NOTICEABLE events at K-State these days are those which include the receiving and recognition or the acceptance into honoraries by students who have made outstanding achievements scholastically and in other ways.

Phi Kappa Phi members have been chosen, Phi Beta Kappa has honored two K-Staters, many honoraries have chosen members, senior leaders will be honored tomorrow, and departments and organizations are honoring their outstanding members.

Also noticeable these days are the numerous scholarships and grants being given to students entering K-State next year and to students who have already achieved excellent records at K-State. Ron Jackson, assistant dean of students, will soon release the results of yesterday's Scholarship committee meeting which chose K-State scholarship recipients for next year.

RECOGNITION and financial aid for good students is a policy which we believe to be both encouraging and rewarding. There is no doubt that both encourage students to do well, and we believe this encouragement results, in the long run, in better students, better graduates, and better citizens.

We are particularly glad to see so many concerns giving financial aid to students. It is regrettable that so much "dead wood" enrolls at K-State, but it is even more regrettable that many potentially good stu-

dents are kept from enrolling by financial problems.

K-State is required to take any student who can pay tuition, with few other limitations, and thus is unable to protect itself against the "dead wood." However, K-State can be protected to some extent against losing many potentially good students—by the giving of financial aid to those who need it.

SO WE SAY congratulations to students who are honored or receive financial aid for outstanding work at K-State, and congratulations to all those who participate in providing this recognition.—st

## Quotes from the News

Hollywood—Eddie Fisher, describing his forthcoming marriage to Elizabeth Taylor:  
"It's going to be a quiet, simple wedding."

London—David J. Muir, agent for an Australian art gallery, who paid the record sum of \$154,000 for a painting by Picasso at a London auction:  
"When the bidding reached 30,000 pounds on the Picasso I began to quiver. And when it mounted to 50,000 pounds I was really sweating. But I was determined to get it."

Chicago—Ex-Communist Negro union leader John R. Hackney, saying it is untrue that the Communists fight for Negro rights:

"They used the grievances of the Negro people for the purpose of building the party. In many cases they destroyed Negro leaders who didn't serve the party."

## World News

# Secretary Herter Will Address U.S. Tonight To Point Out Strategy for Geneva Meeting

Compiled from UPI  
By JOHN HOKANSON

Washington — Secretary of State Christian A. Herter reports to the nation tonight on Allied strategy for the Foreign Ministers' conference with Russia in Geneva next week.

The Secretary, scheduled to deliver his radio-TV address at 7 p.m., CST, had a morning appointment with President Eisenhower to discuss the Geneva meeting and presumably to go over the text of the speech.

Herter planned to outline the results of his talks with other Western foreign ministers in Paris last week and point out the issues at stake in the Geneva meeting which starts Monday.

It will be Herter's first appearance before a nationwide audience since he succeeded ailing John Foster Dulles in the cabinet post on April 22.

Herter is scheduled to leave tomorrow for the Geneva talks which some diplomats believe may be just a formality on the way to a Summit conference later this year.

Enroute to Geneva, Herter

will stop off in Bonn to talk for a few hours with West German Chancellor Konrad Adenauer.

## Steel Outlook Not Good

New York—The steel industry and the Steelworkers union mapped strike strategy behind the scenes today with pessimism mounting that they will be able to reach wage agreement before the July 1 deadline.

The two sides are farther apart on basic contract issues than in previous years and have made it plain they are not playing a cat-and-mouse game with each other.

All semblance of a friendly atmosphere cracked yesterday when the industry announced it was studying a mutual assistance plan to share profits in the event one or more companies are shut down by a strike as part of a union divide-and-conquer plan.

Experienced observers attending the talks between the USW and 12 major steel companies said they have never known

them to be so far apart and so adamant in their stands at they are this year.

After completion of the preliminary talks between the Union and the 12 companies—possibly on Friday—the job of actually negotiating a contract will become the burden of four-man teams representing management and labor.

## TVA Bond Plan Debated

Washington — The House came to work two hours early today—at 10 a.m.—for the first time this session in an effort to reach a final vote by evening on a plan to let the Tennessee Valley Authority raise its own construction money.

Democratic supporters, who have pushed the plan for four years, predicted the House would approve the legislation without any major changes despite President Eisenhower's opposition to its present form.

Republicans, with the President's backing, prepared a series of amendments to give the Treasury control over TVA bond sales, spell out the boundaries of the Authority's service area, and double the rate of TVA repayments of government investments.

Rep. Russell V. Mack (R-Wash.) forecast during debate yesterday that Eisenhower would veto the measure unless the Treasury was given some "say so" over TVA bonds.

## IRBM Ready for Combat

Cape Canaveral, Fla. — A hand-tooled Army Jupiter made a successful 1,500-mile test hop last night and convinced its makers that the intermediate range missile is finally ready for combat duty.

The Jupiter, painstakingly developed by German and American scientists over a period of three and a half years,

will be assigned to Air Force rather than Army troops. The Pentagon has restricted the Army to use of missiles with ranges of 500 miles or less.

The Army after the firing that the Jupiter "has attained an unusual degree of reliability and accuracy and is ready for operational use."

## B-52G Sets Jet Record

Washington — A B-52G jet bomber, newest H-bomb and missile carrier of the Strategic Air Command, has made a record non-stop flight of more than 9,000 miles without refueling.

The spectacular performance took place last December 15, but was disclosed only today. It is the longest flight known to have been made by a jet bomber without refueling.

# KS Grad in Germany Applauds Eddie McCoy Scholarship Drive

Dear Editor,

It is with great humility and deep gratitude that I write this letter to you and the staff of our newspaper at Kansas State. In reading an editorial and news item from one of your recent editions, I find great attention and admiration focused on a young man whom I had the privilege of working with quite intimately for two years.

Eddie McCoy was a very deep and wonderful friend of mine as he was of so many K-Staters. In the course of two years I discovered an unending energy and dynamic realism in Eddie. Debate was a keystone in his undergraduate years as well as his work in political science and the Mock Political convention.

No finer young man represented K-State in so many activities with so much vigor and zeal.

I submit this letter then in

adopt a "Christian attitude" in racial problems.

In a message to the General assembly of Tennessee on January 9, 1957, Clement set forth his stand on the civil rights issue.

"... in our recognition of the existence of different grounds for white and Negro, we must not overlook the fact that the Negro is equal to the white in the eyes of the law and in the sight of God," Clement said.

Clement defended Tennessee's separate-but-equal school facilities, saying he has "tried his best" to make Negro schools equal to white schools. "We have based our public school system on the concept that the separate-but-equal schools open to the Negro afforded them equal protection..."

The 1954 Supreme Court decision "did not purport to require the states to mix arbitrarily persons of different races in the schools. It did not deprive individual rights of voluntarily choosing schools they wished to attend."

His basic goal, as stated in the speech, was peace between the races.

The Tennessean proposed to develop a new legal system for the state's schools. It would include:

1) To provide by local school boards separate schools for white and Negro students.

2) A pupil placement plan by boards of education.

3) Authorizing the transfer by school boards of pupils from one school system to another.

"The Supreme Court did not take over public schools," Clement summed up. "Let the people choose their schools."

Ex-governor Clement supported Adlai Stevenson in the 1956 Democratic convention. He was mentioned as a possible running mate of Stevenson, and said that he hoped to turn the keynote role at the convention into a bid for vice president.

Before his unsuccessful vice presidential bid at the convention, The Nation magazine said, "Nomination of Clement would be 'smart' politics; that is, the kind that appeals to silly minds."

**ROLL YOUR OWN**—Sue Rasher, Sp Soph, demonstrates how to roll your own cigarettes, five at a time, for only about six cents a package. Sue can roll either regulars or filter-tips on this particular machine.

## Roll-Own Machine Answer To Broke Smokers Dream

Owning a roll-your-own machine is the result of a coed's search for an idea to use in an oral communications speech requiring visual aids.

Sue Rasher, PTV Soph, first saw a roll-your-own machine in operation when her brother-in-law demonstrated how to use the one he owned.

At the time, she was searching for a demonstration idea to use in oral communications class and

learned how to use the manually operated machine, which she later purchased from him.

"I was fascinated by the machine and it only took about five minutes to learn how to operate it," said Sue.

Upon talking to another owner of a roll-your-own machine, Sue learned that after the machine had paid for itself, the cost of cigarettes would average about six cents a package.

Supplies for the machine, such as tobacco, papers, and filters, can be re-ordered from a mail order catalog, says Sue.

The machine which is about 14 inches long and six inches high, will roll five standard size cigarettes or four filter tip cigarettes at one time.

## ROTC Cadets Rate Awards at Practice

Eight Kansas State university Air Force and Army ROTC cadets received awards in connection with the Tuesday afternoon practice drill for the joint spring review this afternoon.

Honored by the Air Force were Donald L. Howell, EE Sr, who received the Armed Forces Communications and Electronics association gold medal as the outstanding electrical engineer in AFROTC; Merrill E. Bishop, EE Soph, who received the Convair cadet award, a desk-model F-102, as the outstanding Air Science II cadet; and Marvin H. Hammond, EE Soph, who was awarded the ROTC medal of the National Society of the Sons of the American Revolution, for outstanding scholarship in all college courses.

The Professor of Military Science and Tactics trophy for rifle marksmanship was awarded to Thurston E. Banks, ChE Sr.

Superior cadet ribbons were awarded to Army ROTC students who were outstanding in their classes. The ribbons were won by James P. Lindsay, BAA Sr; Billy G. Davis, BAA Fr; Allen D. Boge, ME Fr; and Donald R. Wier, TA Fr.

## Geologists Go On Field Trip

A group of 56 K-State geology and faculty members left Manhattan yesterday on a five-day field trip which will take them through Wyoming and the Black Hills.

J. R. Chelikowsky, head of the Department of Geology and Geography, said that overnight stops were planned for Cheyenne, Wyo.; Custer, S.D.; Rapid City, S.D.; and Broken Bow, Neb.

The trip will include a stop at the University of Wyoming, where the group will visit the Department of Geology and will attend a lecture on the regional geology around Laramie, Wyo.

This is the 12th annual spring field trip for students interested in geology. Each year a different section of the midwest is visited, so that over a period of three or four years a student will become acquainted with much of the geology of the area, according to Chelikowsky.

# Seniors' Gifts Have Ranged From Trees to Lamp Posts

By JOHN PETERSON

Senior classes have been giving gifts to Kansas State for more than 70 years. Gifts have ranged from elm trees to sun dials.

One of the earliest records of a senior gift is an elm tree given by the class of 1888. The location of the tree is unknown, and according to Charles M. Correll, University historian, the tree probably has been destroyed.

The next year the senior class followed the tradition and planted an elm tree in a grove of maples near Bluemont walk. Bluemont walk is located on the east edge of the campus near Bluemont avenue.

Around the turn of the century there are no records of senior gifts. The next record

of a senior gift is in 1911. The senior class that year constructed gate posts around the south entrance to the campus near Thompson hall.

The class of 1908 left a bronze and stone drinking fountain to the school. It was built between the old library, now Fairchild, and the Auditorium. Vandals destroyed it several years later and it was rebuilt as a sun dial by the class.

All senior classes have not given gifts to the school, according to Correll.

In 1912 the senior class gave the school four lamp posts which were erected in front of the Auditorium. The columns and lights which can be seen on the north

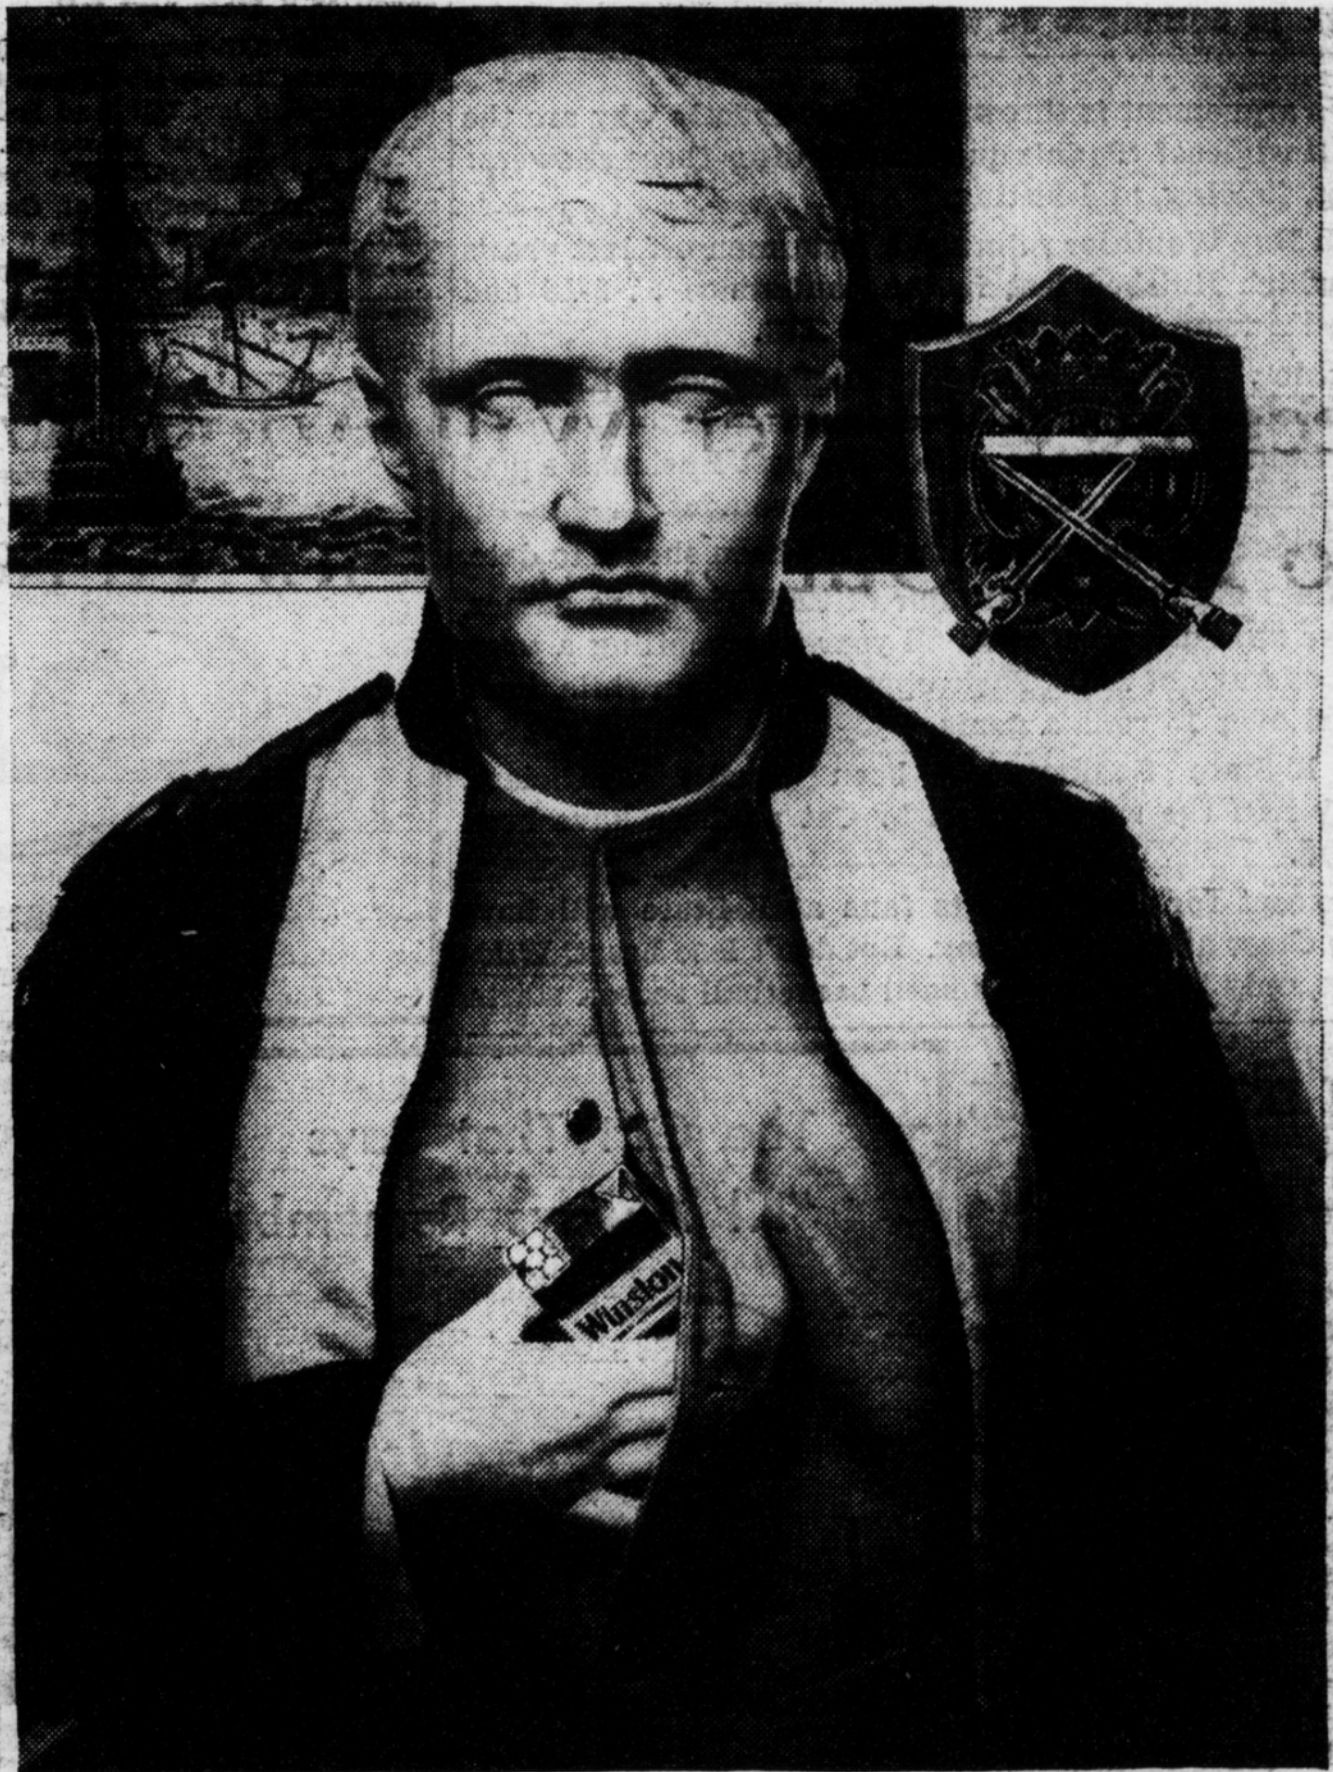

side of the building were the first gifts of this kind.

Also leaving light posts was the class of 1913. The four lamp posts are on the north side of Nichols gymnasium.

The class of 1916 gave the school an entrance-way consisting of four posts and an iron gate. This entrance-way was constructed at the entrance to the old athletic field, but when the stadium was built it was out of place and moved to its present location southwest of Nichols gymnasium.

In the 1940's, senior classes left funds for the construction of a chimes tower similar to the one at Kansas university. The project was given up because of lack of funds.

*"Oh, to be in Elba...  
now that Winston's there!"*

## IT'S WHAT'S UP FRONT THAT COUNTS

The mystery is solved! Napoleon's famous gesture was just to reassure himself that he had plenty of cigarettes. His army may have traveled on its stomach, but the old boy himself wouldn't have been caught at Waterloo if he hadn't been checking the Belgian

bistros for a spare carton of Winstons! There's a rare smoking treat that comes from Winston's famous Filter-Blend—which means a careful selection of fine, mild tobaccos specially processed for filter smoking. Try a pack real soon, and you'll agree that...

Winston tastes good—

*like a cigarette should!*

# Sports At a Glance

By Gary Vacin

K-State's baseball team, still looking for its first win of the season, invades Oklahoma this weekend, and from the way things have been going, the Wildcats are in for another rough series.

The Cats have an 0-8 record and hold down seventh place in the Big Eight, with only the rain to thank that they are not in the cellar. They trailed Iowa State, 3-0, after three and one-half innings Saturday when the rains came. Another loss would have deadlocked them with last-place Kansas at 0-9.

Bob Hurt, in a recent sports column in the Topeka Daily Capital, told of a Manhattanite who offered a "logical" explanation of K-State's dismal showing thus far: "The Wildcats, unlike the other members of the Big Eight, play off the campus in an old park with a skinned infield and no watering facilities."

Hurt went on to say that fan interest in such antiquated surroundings is low and that the Wildcats have little incentive.

If this reason is valid, the problem is solved. Just let the Wildcats play their games in Memorial stadium instead of the present site, Griffith field, and we can sit back and watch baseball fortunes at K-State rise. If the Los Angeles Dodgers can do it, so can we.

Granted that baseball facilities at K-State are far from the best. It is obvious to us, however, that this factor has had little or nothing to do with the Wildcats' lack of success.

If this argument is thrown out, just exactly why are the Cats still winless? To this question we offer three answers: pitching, fielding, and hitting.

Coach Ray Wauthier returned 8 lettermen off last year's squad which finished last in the conference at 2-18 and compiled a team batting average of .188.

Wauthier, however, was optimistic about K-State's chances before the season started, counting on an improved batting attack and what he called "the best freshman squad I've ever had," to account for an improvement.

It is evident that no improvement has been shown to date.

The Cats were shut out in four of their first five games, and have scored only 21 runs all year in compiling a team batting average of .180. Their opponents, meanwhile, have averaged over 15 runs a game.

The K-State fielding has been equally inefficient. Roughly half the runs allowed by Cat pitchers have been unearned.

So, except for track, sports fans at K-State will have little to cheer about this spring. But don't lose heart, Wildcat fans, only 217 more days until basketball season starts.

## Cat Golfers Lose Match To Omaha

Kansas State's golf team dropped a 6½-5½ decision to the University of Omaha yesterday in a match at Omaha.

Omaha Captain Bob Matthews dropped a five-foot putt on the 18th green to give the Indians the triumph.

The loss lowered the Wildcats' record to 2-8-1.

The match was the first on a four-match road trip for the Cats. They will meet Drake today, Iowa State tomorrow, and Nebraska Saturday.

The road trip will be the last action for K-State before the Big Eight meet next weekend at Norman.

Wildcat golfers making the trip are Charles Hostetler, Jerry Hendricks, Dennis Buck, and George Hooper.

## A's Drop to .500 Mark After Losing to Yankees

By UPI

The Kansas City Athletics were back at the .500 mark today after losing to New York for their third defeat in a row.

The Yankees, who temporarily at least have shaken their losing ways, handcuffed the A's, 7-4, last night to sweep the two-game set. Kansas City is now 11-11 for the year.

The Athletics are idle today and begin a 14-day road trip tomorrow night in Detroit. The team returns home May 22 to meet Chicago.

Leadoff batter Tony Kubek slammed a home run in the first inning to get the Yanks off and running.

A's started Bob Grim failed to

get a man out as he and reliever Ralph Terry were touched for three runs. The Yanks plated three more in the second on Norm Seibern's homer with two mates aboard.

The only A's bright spot was the fine relief stint by Bud Daley. He held the New Yorkers to two harmless hits over a six-inning span.

The Yankees slapped out 12 hits, half of those going for extra bases. The A's collected 11, including a homer by Bob Cerv in the eighth.

## Beta Sigs Win IM Playoff Tilt

A home run by Gary Lassman and the steady pitching of Melvin Scheller led Beta Sigma Psi to a 10-1 victory over Lambda Chi Alpha in an intramural softball playoff game yesterday afternoon.

The win earned the Beta Sigs the right to meet Phi Kappa Theta for the Group two championship tomorrow afternoon at 5:15 on the northwest City park field.

The final playoffs, in both the independent and fraternity divisions, will be next week.

## KC Prep Gridder To Attend K-State

Keith LaQuey, all-district football tackle from Center high school in Kansas City, Mo., has informed Bus Mertes, Kansas State football coach, that he will enroll at K-State next fall.

A 6-2, 215-pounder, LaQuey was named to the all-Kansas City district team last fall, and is Missouri state shotput champion.

He has lettered three years each in track football at Center high, helping the school to a conference football championship in

1956, and to track championships the past three seasons.

LaQuey won the conference shotput crown each of the past three seasons.

He plans to enroll in physical education at K-State.

LaQuey raises to 20 the number of high school football stars from Kansas and Kansas City who have announced their intention of enrolling at K-State next fall.

## Joey Giardello Bids For Crack at Webb

Joey Giardello, disregarding brow cuts he suffered in his nationally-televized victory over Holly Mims, bid today for a rematch against Spider Webb to "prove" his right to a shot at the vacant NBA middleweight championship.

Giardello, ranked No. 6 in the 160-pound class, kept his title hopes alive by scoring a split decision over fifth-ranked Mims in their 10-round bout at Washington last night.

The next stop, Joey figures, should be a bout with Webb—the man the National Boxing association says should be the first to get a crack at the winner of a proposed Carmen Basilio-Gene Fullmer middleweight title bout.

The NBA, which last week took the crown away from Ray Robinson, figures that the Basilio-Fullmer winner should defend the crown within 90 days against Chicago's Webb.

# First Year 'Successful' For Scholarship House

Cleaning, minor maintenance work, cooking, and serving is done by residents of the Men's Scholarship house. Don Brewer, ChE Fr, and Marv Daniels, PrV Fr, contribute to the work of the house by helping to prepare a meal. Men who live in the house are able to maintain a low cost of living by doing the work themselves. The house has only two hired employees.

Studying is a major part of the life of men students living in K-State's only scholarship house, which is located at 331 North 17th street. Garfield Schmidt, Math Sr, (left) and Larry Runyan, NE Fr, both residents of the house, study together. Schmidt's grade average is 3.5, and Runyan boasts a 3.8 average. Residence in the house is granted on the same basis as cash scholarships plus "adaptability to group living."

The Scholarship house has been in operation just one year, and according to Kenneth Heywood, director of the Endowment and Development association, "it has been a highly successful year."

Heywood said, "The latest report shows that the actual cost to the boys in the House is about \$38 a month."

The Endowment and Development association is presently working with the Housing office on a few improvements for next year, but, according to Heywood, "the improvements will be very minor."

Contrary to popular belief, the Scholarship house is not a home for men who hold cash scholarships. Rather, because of the lowered costs, the privilege of living in the house is a scholarship itself.

According to Heywood, the selection of men to

live in the house is made by the General Scholarship committee. They are selected on the same basis as recipients of cash scholarships, except for one additional point—their adaptability to group living.

All of the cleaning, minor maintenance, cooking, and serving is done by the residents. This is the main reason for the low cost of living in the house. There are only two paid employees—the housemother, Mrs. Lucille Little, and a student who acts as house manager.

The main duty of the housemother is to prepare the menus and a work sheet for the men to follow in preparing the meals and other household duties.

"In the near future, we hope to be able to open more scholarship houses to give more men the advantages of living in such a house," Heywood said.

Housecleaning is among the duties of the Scholarship house residents. Dennis Esslinger, EE Jr, housemanager, one of the two paid employees at the house, and Gerald Oordt, FT Sr, get out the bucket and mop and prepare to do some cleaning.

A scrapbook contains pictures and clippings of the activities of the Scholarship house residents. Mike Heatherman, PrL Fr, (left) and Bill Mahieu, ME Sr, look over the book. Mahieu is president of the house. The Scholarship house has been in operation for one year, and has been termed a "successful project."

# Sons, Daughters Welcomed By Proud K-State Parents

KANSAS STATE COLLEGIAN  
Thursday, May 7, 1959-6

## 'Pinning Season' Conquers Campus

### Yatsook Son

Mr. and Mrs. John Yatsook of 723 Moro are the parents of a son born March 24 at Riley County hospital. John is a veterinary medicine senior.

### Chesterman Son

A son was born to Mr. and Mrs. Donald Chesterman, 1031 Kearney, at Riley County hospital March 24. Donald is a junior in electrical engineering.

### Harrison Son

A son was born to Mr. and Mrs. James Harrison of 1639 Laramie at Riley County hospital on March 26. James is a speech junior.

### Frontman Daughter

Mr. and Mrs. Gary Troutman, 27 Bertrand, are the parents of a daughter born March 26 at Riley County hospital. Gary is a veterinary medicine senior.

### Montague Daughter

A daughter was born to Mr. and Mrs. Paul Montague March 26 at Riley County hospital. They live at 1-30 Jardine Terrace. Paul is a business administration senior.

### Westfall Daughter

Mr. and Mrs. William Westfall, 1-12 Jardine Terrace, are the parents of a daughter born March 28 at Riley County hospital. William is an electrical engineering junior.

### Regier Son

A son was born to Mr. and Mrs. Fremont Regier of L-31 Jardine Terrace at Riley County hospital March 30. Fremont is an animal husbandry senior.

### Schulz Son

Mr. and Mrs. Bernard Schulz are the parents of a son born April 12 at Riley County hospital.

They live at 9-D Elliot Courts. Bernard is a secondary education senior.

### Wittsell Daughter

Mr. and Mrs. Lawrence Wittsell of 1005 Bluemont are the parents of a daughter born April 3 at Riley County hospital. Lawrence is an agronomy graduate student.

### Cameron Son

Mr. and Mrs. Gary Cameron, Blue Valley Trailer Courts, are the parents of a son born at Riley County hospital on April 5. Gary is a civil engineering freshman.

### Saunders Daughter

A daughter was born to Mr. and Mrs. Noble Saunders, 120 N. Campus Courts, April 6 at Riley County hospital. Noble is a veterinary medicine sophomore.

### Dudek Daughter

Mr. and Mrs. Daniel Dudek, 408 South 17th street, are the parents of a daughter born at Riley County hospital on April 10. Daniel is a milling technology senior.

### Hays Son

A son was born to Mr. and Mrs. Charles Hay of 2005 Platt at Riley County hospital on April 13. Charles is a bacteriology senior.

### Kock Daughter

Mr. and Mrs. Berl Kock, R. R. 1, are the parents of a daughter born April 14 at Riley County hospital. Berl is an assistant professor of animal husbandry.

### Owens Daughter

A daughter was born April 14 to Mr. and Mrs. Gerald Owens, 43-A Hilltop Courts, at Riley County hospital. Gerald is an agricultural economics graduate student.

Woitalewicz Daughter

Mr. and Mrs. Ronald Woitalewicz, 1815 Poyntz Avenue, are the parents of a daughter born April 14 at Riley County hospital. Ronald is a veterinary medicine senior.

### McDaniel Daughter

A daughter was born to Mr. and Mrs. John McDaniel Jr., 1208 Kearney, at Riley County hospital on April 14. John is a geology graduate student.

### Ross Daughter

A daughter was born to Mr. and Mrs. Carlton Ross April 15 at Riley County hospital. They live at 4-B Elliot Courts. Carlton is an industrial technology senior.

### Turney Son

Mr. and Mrs. Forest Turney, 1210 Bertrand, are the parents of a son born April 16 at Riley County hospital. Forest is an agriculture senior.

### Johnston-Moore

DeAnn Johnston, EEd Soph, and Norman Moore, BA Sr, recently announced their pinning. DeAnn is from Kansas City, Mo. and belongs to Kappa Delta. Norman is a Kappa Sig from Muscotah.

### Proudfit-McReynolds

The pinning of Betsy Proudfit, SED Soph, and Max McReynolds, PrD Fr, was announced last Wednesday. Betsy is from Prairie Village and belongs to Alpha Chi Omega. Max is a member of Phi Kappa Tau from Wichita.

### Murdock-Smith

The pinning of Darlene Murdock, EEd Sr, and Mike Smith was announced recently. Darlene is from Pratt. Mike is a member of Sigma Phi Epsilon and is attending Washburn Law school. He formerly attended K-State.

### Ketzner-Jaax

The pinning of Joan Ketzner

and Don Jaax, VM Soph, was announced recently. Joan is from Andale and Don is from Conway Springs. He is a Sigma Nu.

### Peterson-Flowers

Sue Peterson, Gen Fr, and Don Flowers, PrL Soph, announced their pinning April 30. Sue is a member of Kappa Kappa Gamma and Don belongs to Sigma Alpha Epsilon. They are both from Kansas City.

### Hostetler-Siever

The pinning of Sue Hostetler, HE Fr, and Dick Siever, Psy Sr, was announced recently. Sue is from Manhattan and a member of Kappa Kappa Gamma. Dick is a Pi Kappa Alpha from Parsons.

### Parrish-Simmons

John Simmons, BA Jr, announced his pinning to Gail Parrish, BA Fr, at the Sigma Chi formal Saturday. John is from Barnard and Gail is from Mission.

## Picnics Score High On Party Schedule

The Delta Upsilon sponsored Beatnik party for their dates last Saturday. Dr. William Chell, professor of agronomy, and his wife were chaperones.

The ADPis invited their sisters for a Little Sister Weekend last Saturday. They had an informal party after closing hours Saturday evening. A skit was presented and refreshments were served.

Members of Kappa Kappa Gamma invited their mothers to a dinner in their honor last Sunday. About 38 mothers attended.

Members of Alpha Gamma Rho entertained their parents at a special parents' reception at the chapter house last Saturday night.

A party and dance followed the reception.

Chi Omega and Acacia had a picnic at the Acacia house last night.

This weekend will be "Mothers Weekend" at the Acacia fraternity.

Members of Alpha Chi Omega and Alpha Gamma Rho will have a picnic at Sunset Park tonight.

Kappa Delta had an exchange picnic with Beta Sigma Psi last Thursday night at the Beta Sig house.

You'll be pleased with a Collegian classified.

**SYLVIA BREHM**, EEd Soph, was crowned Alpha Kappa Lambda Sweetheart at the AKL Golden Pernet Rose ball Saturday night. She is a member of Pi Beta Phi from Mt. Vernon, Ill. Her escort was Don Neal, ME Soph. The formal dance was at the chapter house. Tommy Lee's dance band played.

## Frats Choose Sweethearts At Their Spring Formals

Pat Zajic, EEd Jr, was crowned Delta Sigma Phi Dream Girl at Delta Sig's Carnation ball Saturday in the Terrace room of the Wareham hotel.

Her attendants were Sue O'Bryan, SP Fr, and Maxine Burton, EEd Fr.

The Sigma Chi's Sweetheart Ball was Saturday evening following a banquet at Jensen's. The Sigma Chi's elected Kay Nordstrom, HT Jr, of Pi Beta Phi, Sweetheart of Sigma Chi. Kay's attendants were Monne Wills, EEd Jr, of Pi Beta Phi, and Carolyn Pults, HEA Sr, of Alpha Delta Pi.

The Phi Delt's participated in a Community Service day Saturday April 25.

Members of Sigma Nu held their annual Parent's Day Sunday. Approximately 50 guests attended.

Sigma Phi Epsilon sponsored their annual Mother's Day dinner Sunday. Attending were 38 moth-

ers from Kansas and two from out of state.

A Senior Recognition Dinner was held at Waltham, Wednesday night. The reading of the class will and prophesy highlighted the evening.

Thursday, Van Zile had a special dinner to honor graduating seniors.

Chi Omega and Sigma Phi Epsilon had a picnic at Sunset park last Thursday.

A travel theme was used for the Beta Sig pledge party Saturday. The pledges and their dates

wore costumes appropriate to the countries they would like to visit.

Kappa Kappa Gamma members will be the guests of Farm House for an after dinner dessert at the fraternity house next Thursday night.

Members of Farm House and Sigma Alpha Epsilon had an exchange dinner Monday.

The Delta Sigs were guests of Van Zile for an hour dance last Thursday.

Royal Burke, CE Fr, and Ted Knapp, AR 01, are new actives of Delta Sigma Phi. Both Royal and Ted are from Gridley.

## KSU Coeds Accept Pins Offered By Extra Special Fraternity Men

### Lehmann-Rood

Paula Lehmann, EEd Soph, and George Rood, ME Sr, recently announced their pinning. Paula is a Chi Omega from Kansas City. George is a member of Delta Tau Delta from Peabody.

### Burnes-Lassman

The pinning of Barbara Burnes, Soc Jr, and Gary Lassman, EE Jr, was announced recently. Barbara is from Kansas City and a member of Chi Omega. Gary is a Beta Sigma Psi from Humboldt.

### Young-Henderson

Judy Young, Psy Soph, and Jim Henderson, PrL Jr, announced their pinning April 23. Judy is

a Kappa Kappa Gamma from Manhattan. Jim is a member of Pi Kappa Alpha from Arkansas City.

### Erickson-Peterson

The pinning of Judy Erickson, EEd Fr, and Max Peterson, EE Soph, was announced Wednesday, April 29, at the Alpha Delta Pi house. Judy and Max are from Marquette. He is a member of Phi Delta Theta.

### Swift-Roberts

The pinning of Dee Swift, HEN Soph, and Jim Roberts, BPM Jr, was announced last Saturday evening at the AKL Banquet. Dee

is from Ft. Smith, Ark. and Jim is a resident of Manhattan.

### Schmidt-Walton

The pinning of Susie Schmidt, EEd Fr, and Buddy Walton, SED Soph, was announced Sunday at the Alpha Kappa Lambda house. Susie is from Mission, and Buddy is from Stafford.

### Cantrell-Wenger

Maurine Cantrell, DIM Soph, and Herb Wenger, AEd Sr, announced their pinning April 8. Maurine is from Wichita and a member of Clovia. Herb is from Powhattan and belongs to Sigma Theta Epsilon, Methodist men's fraternity.

## Diamond Rings Reveal Staters' Wedding Plans

### Cozart-Miller

The engagement of Prestene Cozart, Eng Soph, and Dick Miller, ArE Sr, was announced April 11. Prestene is a Chi Omega from Wichita. Dick is from Kansas City and a member of Sigma Chi.

### Jones-Giannangelo

The engagement of Jeannie Jones, PEW Fr, to Jim Giannangelo was announced at the Clovia house April 8. They are both from Wichita. Jim works for the Wichita Park commission.

### Studer-Carr

The engagement of Sharon Studer, Soc Sr, and Jerry Carr, BS '59, was recently announced. Sharon is from Beloit. Jerry is a member of Farm House. He is

now stationed in Fort Leonard, wood.

### Fulton-Abbott

The pinning and engagement of Jane Fulton, EEd Sr, and Hayden Abbott, BS '58, was announced recently. Jane is a member of Delta Delta Delta from Manhattan. Hayden is from Olathe and belongs to Sigma Alpha Epsilon.

### Kranz-Van Doren

Dolores Kranz, EEd Soph, and Neil Van Doren, LDs Sr, announced their pinning and engagement April 5. Dolores is from Haven and belongs to Chi Omega. Neil is a Sigma Chi from Manhattan.

# Miniwanca Scholarships Available for Freshmen

Applications are now available to freshman men and women for two-week scholarships to Camp Miniwanca, Danforth leadership training camp.

Freshmen interested in the \$55 scholarships have been asked to phone Bob Rees, ME Jr, or Beverly Richardson, HT Jr, as soon as possible for details about application blanks which are due May 15.

Camp dates are August 3 to 16 for women and August 17 to 30 for men.

Camp Miniwanca, just off Lake Michigan at Stony Lake, Mich., offers a four-fold program to campers. The program stresses equal development for the physical, mental, spiritual, and social aspects of life.

## Dairy Science Club

The Dairy Science club has recently elected new officers. They are Gary Albright, DM Sr, president; Gene Harter, DM Jr, vice-president; Jim Swiercinsky, DH Jr, secretary; Charles Fredrick, DM Jr, treasurer; Byron Warta, DM Jr, and Terry Silvius, Ag Fr, program chairmen; Ken McCosh,

DM Jr, reporter; John Scheutz, parliamentarian; Leland Swenson, DH Fr, assistant Dairy Student editor; Joe Mink, DM Fr, display; and Richard Rosenhagen, Ag Soph, Little American Royal chairman.

## Horticulture Trip

Visits to several private gardens, the Reinisch Rose Gardens, and the Willis Nursery company highlighted a horticulture field trip to Topeka yesterday. About 45 students in the landscape design and ornamental horticulture class instructed by Prof. Leon R. Quinlan took the trip.

## AIA Wives

American Institute of Architects wives recently elected officers. They were president, Carol Exline; vice president, Pat Rowland; secretary, Alice Ruthe; treasurer, Shirley Ford; historian, Adelaide Dietrich.

## ASME

Officers elected by members of the American Society of Mechanical Engineers to serve for the coming year are chairman, Karl

Stevens, ME Jr; vice chairman, Lee Scully, ME Jr; secretary, Don Schroeder, ME Jr; and treasurer, William Denton, ME Jr.

Henry M. Neely, instructor of mechanical engineering, was selected as faculty adviser.

## Art Exhibit

John Hannah, art instructor, has had a pencil drawing accepted for exhibition in Washington, D.C., at the 62nd annual exhibition of the Washington Water Color club. The drawing is entitled "Fortifications."

# K-Key Banquet To Be Tonight

The K-Key award for outstanding work on student publications will be presented to 30 students tonight at the annual K-Key banquet.

Only students who have worked on the business or editorial staff of the Collegian, the Royal Purple, or the Student Directory for two semesters in one year are eligible for the K-Key award.

# Former Cafeteria Is Now Classroom

By DORIS MILLER

After serving the dietary needs of college students for 35 years, ivy-covered Thompson hall has become just another classroom building. After 1956, and the opening of the Union it was no longer the meal-time meeting place of K-Staters.

Built as an all-school cafeteria in 1921, Thompson hall has since had many remodelings. Originally, the basement had a vegetable preparatory room, refrigeration and dishwashing facilities, a bakery, storage room, and an auxiliary kitchen. Now, the Illustrations department has temporarily taken over the remodeled space. The original laboratory for household economics is still in use.

On the first floor, the main dining room and cafeteria occupied most of the space. There was still room for another kitchen, offices, and private dining rooms, however. Institutional management department is using the kitchen as an experimental lab and offices for staff members until Justin hall is completed.

The second floor dining room was the scene of many banquets in its day. According to College Historian Charles M. Correll, two or three graduating exercises were held there during World War II,

due to small graduating classes. Also on second floor were classrooms and kitchen facilities.

Offices, classrooms, and laboratories of the geology and geography department are now housed in Thompson in place of the unused kitchen and dining room facilities. As soon as Justin hall is completed and the home economics classes move out of Thompson, the geology and geography department, which is now divided between Thompson and Fairchild, can be consolidated into Thompson.

Thompson will be once more remodeled for geology and geography. The greatest needs of the department are a map and aerial photo-geology classroom, a palentology, and a geochemical room. These, in addition to a lecture room for general geology courses, have been planned.

A hallway museum will be constructed to display the mineralogical, economic, and historical aspects of geology.

The cafeteria in Thompson was taken out when the Student Union was opened. Asst. Prof. Merna M. Zeigler, who is now in charge of the Union food service, held the same position at the Thompson cafeteria. The hall was named after dean of home economics Helen Thompson in 1925.

VOLUME 65

Kansas State University, Manhattan, Kansas, Friday, May 8, 1959

NUMBER 140

**RIGHT TO LEFT, OR LEFT TO RIGHT?**—Two graduating K-State seniors, Anne Pederson, SED, and Don Butel, CE, try to determine tassel etiquette. They were among 46 senior leaders recognized for scholarship and activities at the Senior Leadership assembly this morning.

## Scholarship, Activities Earn Awards for Senior Leaders

Forty-six seniors were given Senior Leader awards at the all-University assembly in the University auditorium this morning. Recognized for outstanding work in scholarship and activities, the top three per cent of the seniors honored from each school received leader badges and engraved certificates.

Receiving awards were Bryan

B. Barr, AH; Sandra A. Wilson Bell, TJ; Marijoe Bestgen, Eng '58; G. Mack Boelling, PBM; Dean N. Bowyer, EE; Richard Dexter Boyd, TJ; Armin Lee Brandhorst, ME; Linnea Ann Brown, ArE; Donald A. Butel, CE; Thomas H. Coblenz, Zoo; Richard W. Corbin, ChE; Thomas H. Cour, ChE; Janice A. Dahl, HT; Peggy Daniels,

Eng; Robert Duane DeCou, MEI; Marvin Keith Drake, NE; Carolyn Ann Eby, BA; S. Kay Eplee, BA;

Kathy Schultis, HEJ; George Rhea Serpan, EE; Carol Sitz, HEJ; Andrew J. Stewart, VM; Charlene Strah, TJ; Charlotte Strah, ArG; Samuel E. Strahm, VM;

Sharon K. Studer, Soc; Donald Lee Stuteville, AEd; Susan Schober True, PEM; Donna J. Turner, MEI; and Karen Vathauer, EEd.

## Twelve Cadets Receive Spring Review Awards

Special awards were presented to twelve outstanding cadets at the joint Army-Air Force ROTC spring review yesterday afternoon in Memorial stadium.

The awards, six to Army cadets, five to Air Force cadets, and one for honorary wing commander, were presented by Gov. George Docking; Maj. Gen. Derrell M. Daniel, commander of the XVIth U.S. Army Corps; Pres. James A. McCain; and John R. Roberts, commander of the Manhattan American Legion.

Governor Docking presented the Quartermaster Association Scholastic key to Gary Rumsey, AE Sr, one of the 10 outstanding advanced ROTC cadets in the nation.

Docking also presented a Lockheed Aircraft corporation F-104 model to Ken McNeill, BA Sr, for distinguished service as the cadet wing commander; a Northrop Aircraft Snark model missile to Larry Van Pelt, ME Sr, the outstanding senior in Air Force ROTC; and the U.S.

Army ROTC medal to John French, BA Jr, for outstanding military proficiency and leadership.

William Schilling, BA Jr, was awarded a Douglas C-124 aircraft model by General Daniel for being the outstanding junior cadet in advanced AFROTC.

The Chicago Tribune medal awards for outstanding academic work by first and second year students in AFROTC went to Hershel Pickett, AE Fr, and Robert Kille, ArE Soph.

Kenneth Brewer, CE Jr, received the American Legion medal for displaying outstanding academic achievement and military proficiency.

President McCain presented George Serpan, EE Sr, the Armed Forces Communications and Electronics association gold medal for being the outstanding Army ROTC senior in electrical engineering.

McCain also awarded the Society of American Military Engineers gold medal to Larry North, ME Sr, who was selected as the outstanding student member of the K-State Society.

William Balfanz, BA Sr, received the Sons of the American Revolution medal for leadership and military proficiency.

Barbara Rittgers, HEA Sr, was selected as honorary wing commander. She was presented the Douglas Aircraft corporation traveling trophy, a B-66 desk model airplane, by President McCain.

### 'Long Drop from Summit'

## Clement Tells KSU Of World Danger

"You and I had better buckle down and make up our minds there is danger in the world today, because it is a long drop from the summit to the pit below," Frank Clement, former governor of Tennessee, said to an audience of approximately 1,400 at the annual Senior Leadership assembly in the Auditorium this morning.

"When we get to the summit we had better have our feet planted securely and a strong foothold, because the higher you go the longer you have to fall," said Clement in his charge to what he termed the "leaders-of tomorrow."

To the students of Kansas State University, Clement said, "You have every opportunity in the world to go forth from here to match wits with the leaders of the whole world. During this age of pigskin and politics. I think you will do the job."

Telling of his recent trip to the Soviet Union, Clement said that while the women are doing much of the labor and professional jobs, the men are in uniform.

Clement pointed out that in Russia the Jews are nothing more than slaves. "The biggest lie that has ever been told to me is that the Jews can get out of Russia," he said.

"We have got to be realistic,"

Clement said. "If somebody wants to get rough, we've got to get rougher."

Clement told the assembly of KSU students and faculty, "We have got to try to make a realism of the things we say we believe and the things we say we want."

The former governor and Kansas Gov. George Docking, who was also present on the platform at the assembly, both received standing ovations when introduced to the assembly. Both men participated in a question and answer coffee hour in the Union after the assembly.

## Lynn Martin Heads New Mortar Board

Lynn Martin, EEd Jr, has been elected president of Mortar Board, senior women's honorary.

Other new officers are Mary Jo Morconi, TxC Jr, vice president; Joanne Taylor, EEd Jr, secretary; Virginia Taylor, SED Jr, historian; Susan Mechesney, EEd Jr, treasurer; Irene Mangelsdorf, EEd Jr, reporter; and Linda Merritt, EEd Jr, song leader.

## Recital by Pianist, Flutist To Be Presented Sunday

A joint recital of music for the piano and flute will be presented by Instructor and Mrs. Joseph Zverow Sunday at 3 p.m. in the Chapel auditorium. The recital is the fourth to be presented in observance of National Music week.

Zverow is an instructor in flute at K-State and at Washburn Municipal university. A graduate of Cosmopolitan School of Music in Chicago, Zverow is also first

flutist in the Topeka Civic symphony.

The program will include Bach's "Sonata in b Minor for Flute and Clavier" and "Largo from Organ Sonata No. 5 in C." Two numbers by Schubert, "Impromptu Op. 90, No. 3" and "Impromptu Op. 90, No. 2" will also be included.

Other selections will include "Gigue," "Piece for Flute Solo," "A Night Piece," and "Waltz from Suite, Op. 116."

Photo by Elliott Parker

**TROOPING THE LINE** in yesterday's combined Army-Air Force spring review were President James A. McCain, Gary Rumsey, AE Sr, and Kansas Governor George Docking. More than 1,500 cadets passed in review.

### Grad Announcements Not Available Monday

Graduation announcements will not be available Monday. An announcement will be made in Monday's Collegian giving the date they may be picked up, which is now tentatively scheduled for Tuesday.

# Optional ROTC at Kansas State Would Raise Program's Quality

WITH YESTERDAY'S spring Army-Air Force ROTC review still in mind, we would like to reiterate the stand of the past two semester's Collegians on the question of compulsory ROTC.

We agree with the Student Council Basic ROTC committee, which, after extensive research, submitted to President McCain last spring a report representing the statement that in order to offer a ROTC program "adequate in quantity, higher in quality, and more desirable to students," it found the optional system far more suitable.

The report was submitted to the Faculty Senate and was placed in committee. The Senate last month delayed consideration of the question until the May meeting.

IT SEEMS TO US that two basic questions should be asked in considering the compulsory-optional problem — which would be best for the ROTC program? And which would be best for the students involved?

We ask—would not the ROTC program

be improved if men enrolled really wanted to be enrolled? Men who actually wanted to be in the ROTC program would enroll and would, in most instances, prove to be much better material. A disinterested, reluctant, or resentful cadet, on the other hand, certainly does the program no good and probably is a detriment.

Obviously the compulsory ROTC program is not going to do much for a student who is not interested in the program or who resents being forced to enroll. To this student it can only be a waste of time which could be spent on more important things—other studies, for instance.

SO WE would criticize not the ROTC department, but the practice of forcing men students to participate in ROTC. It seems to us to be basically illogical to assume that a large number of men, many of whom are resentful about being forced into ROTC and many of whom are just plain disinterested, will make for a better program than would a smaller group of dedicated men.—st

## Ohio Flashcard Section Will Have No Problem

By Margaret Cooper

BLOCK O, which is analogous to our flash card section, will have no problem finding stunts for next year's football season. The Ohio State Morning Lantern reports that the students in architectural design classes at Ohio State university have been given assignments to design flash card stunts based on any visiting teams, aspect of campus life, and traditions at Ohio State.

IT MUST be a disheartening feeling (or is it?) to think you are getting to class on time, only to find that you are exactly one hour late. This might well be the situation at the University of Minnesota where standard time and daylight time are in conflict.

Contrary to student wishes the administration and some university offices are operating on daylight time.

ACCORDING TO the Student Life, sociology students at Utah State university correctly predicted the results of campus elections by a "scientific method." The students conducted a study to answer the question, "Is there a direct relation between the quality of campaign posters and the candidates that get elected?" After judging the campaign signs covering the campus, on human interest aspects and originality appeal, the sociologists named their winners. The winners proved to be the same students who gained the majority votes in the actual student body elections.

THE SENIORS at Colorado State university are having difficulties in deciding what to present to their Alma Mater by which they will long be remembered. A suggestion has been a kissing rock. One of the class members has openly opposed the suggestion through a letter to the editor of the Collegian at CSU. The student doesn't think a kissing rock would contribute anything to the class of '59 or to CSU and wonders what the university would do with it after they got it!

## Deputy Defense Secretary Quarles Dies in Sleep; Had Been Considered as Successor to McElroy

Compiled from UPI  
By JOHN HOKANSON

Washington—Deputy Defense Secretary Donald A. Quarles was found dead at his home today. The 64-year-old administration official was believed to have died in his sleep.

Quarles, a native of Van Buren, Ark., was mentioned prominently in recent weeks as a possible successor to Defense Secretary Neil H. McElroy, who is expected to resign in the near future.

His death was discovered when a member of the household tried to wake him. He was to have appeared on an early morning television show.

Before coming to Washington, as a government official, Quarles had been a successful industrialist with Western Electric and the Bell Telephone laboratories. He had been deputy secretary since March 26, 1957.

He came to the Defense department as Assistant Secretary of Defense for Research and Development in September, 1953. He was appointed Secretary of the Air Force on August 15, 1955.

### Truman Party Tonight

New York—Harry S. Truman, who took over Times Square yesterday, captures the rest of the nation tonight in a star-studded happy 75th birthday party.

An estimated 50,000 persons were expected to turn out to honor the former President at Democratic party dinners in 16 cities, linked by closed-circuit television.

Truman was to join 1,800 guests at a \$100-a-plate dinner in the Waldorf-Astoria hotel here. Speakers at the cross-country party include Adlai Stevenson, Mrs. Eleanor Roosevelt, House Speaker Sam Rayburn, and former Secretary of State Dean Acheson.

### Postal Hike Not Likely

Washington—The Administration's request for a nickel stamp on first class letters appeared likely today to wind up as a dead letter in Congress.

There was no noticeable enthusiasm among congressmen for the Administration proposal to raise the four-cent rate for regular letter to five cents and boost air mail letters from seven to eight cents.

One Republican member of

the House Post Office committee, Rep. H. R. Gross (Iowa), predicted flatly that "there will be no rate bill passed this year."

### West Germany Blamed

Moscow — Communist diplomats today began blaming West Germany—rather than Washington, London, or Paris—for blocking East-West agreement.

"It's a case of the tail wagging the dog," said one Communist ambassador.

The Soviets press has been discreetly silent about the Big Three Western leaders the past few days but has sharply attacked West German leaders.

The government newspaper Izvestia carried extensive quotations from the weekly Hamburg news magazine "Der Spiegel" yesterday to support the thesis that:

—Last week's Paris meeting of Western foreign ministers failed to reach full agreement because West German Chancellor Konrad Adenauer opposes relaxing international tensions.

—Adenauer rejected several Western proposals to establish a Central European zone of controlled armaments and freeze the present level of arms.

—Adenauer turned down an American plan for setting up an all-German federation.

The NATO powers regret that their policy toward the Soviet Union must be subjected to Adenauer's conditions," Izvestia said.

### Herter Leaves Today

Washington — Secretary of State Christian A. Herter leaves today for the Geneva Foreign Ministers' conference prepared to make concessions if the Russians also will give ground.

Herter planned to confer this morning with President Eisenhower and possibly, visit briefly with former Secretary of State John Foster Dulles in the hospital before leaving this afternoon.

Flying by way of Bonn, Herter was to stop off for discussions tomorrow with West German Chancellor Konrad Adenauer. He planned to arrive in Geneva Sunday for the conference which opens Monday.

Herter promised in a radio-

television address last night that the Western powers would stand firm on such basic principles as "freedom for Berlin," German unification, and safeguarded arms control agreements.

In his maiden address to the nation as Secretary of State, Herter pledged the West "honestly and in good faith to seek some advance, even if small, toward a just peace" in bargaining with the Soviets.

Nevertheless, he candidly ad-

mitted, "I do not go to Geneva with great expectations. The past record of negotiating with the Soviets does not warrant much optimism."

"We hope," he said, "the Geneva talks will prove to be businesslike negotiations and not a propaganda exercise."

Addressing himself directly to the Soviet Union, Herter dismissed as unfounded any Russian fears that a reunited Germany would be a threat to peace.

## Guest Scholar Series 'Clicking' In Second Year on KS Campus

The Graduate Seminar and Lecture Series, commonly known to K-Staters as the Guest Scholar program, is now in its second year on the campus.

The idea for the graduate Guest Scholar program originated on the K-State campus from the Graduate Council and Harold Howe, Dean of the Graduate school.

The main purpose of the program is to give a boost to the graduate program and to stimulate interest in graduate work among undergraduate students.

In evaluating the program, Dean Howe, in charge of the

Guest Scholar program, said, "It's successful and has really clicked this year."

"We believe the outstanding scholars in various fields who visit K-State help to challenge, stimulate, and instruct faculty, graduate students, and advanced undergraduates."

Only recognized scholars who are able to present material in an interesting, understandable manner are considered for the program.

Faculty members wishing to invite a scholar investigate the possibility of arranging for him to visit the campus. Upon approval of departments or inter-

departmental groups interested in the man and his field of work, the faculty wishing to bring the scholar to K-State are asked to extend the invitation.

A small committee of interested faculty is then formed to handle arrangements for the visit of each scholar.

A committee appointed by the Graduate Council has the responsibility of arranging a series of seminars, lectures, memorial lectures, clinics, and informal discussions to be presented by the guest scholars invited to the campus.

Honorariums paid to the visiting scholars are obtained from funds from University sources and from the Endowment association.

In general, the honorarium and expenses are from \$50 to \$200, depending on the particular circumstances. The larger figures are for particularly outstanding scholars, and requires that they be at K-State for a longer period of time. Guest scholars are usually on the campus from two to four days.

Fifteen scholars have visited the campus since the program first started in March of 1958. Eleven have visited since last fall. A chemist, T. D. Luckey, who will visit the campus in June, is the last scholar scheduled on the program this year.

"Next year's program depends pretty much on how the departments respond," said Dean Howe. "The faculty have to be behind it before it can be a success."

# K-Keys Awarded To 31 Last Night

Gold K-Key awards were presented to 31 K-State students at the annual Board of Publications awards banquet last night in the Union.

Five of the students honored received awards for more than one position.

The students, who were selected by the Board of Student Publications for their outstanding work on the Collegian, Royal Purple, or Student Directory for two semesters in one year, were presented by C. J. Medlin, graduate manager of Student Publications.

R. R. Lashbrook, head of the Department of Journalism, was master of ceremonies. Skits presented by faculty members and students provided entertainment.

Those receiving awards for editorial work on the Collegian were Janice Bates, HEJ Sr.; Jim Bell, TJ Sr.; Sandy Wilson Bell, TJ Sr.; Eldon Miller, TJ Jr.; Jerry Ratts, TJ Jr.; Joyce Rector, TJ Jr.; Sharon Totten, TJ Sr.; Don Vereska, TJ Jr.; and Gary Vacin, TJ Jr.

For work on the Collegian business staffs, K-Keys were presented to Bob Grippy, BA Sr.; Hal Mitchell, BA Sr.; and Miss Totten.

Students honored for work on the Royal Purple editorial staff were Darryl Heikes, TJ Jr.; Carolyn Moriconi, Eng Soph; Jan Stewart, Soc Soph; Charlene Strah, TJ Sr.; Marilyn Tindall, TJ Jr.; Bell, and Mrs. Bell.

Honored for work on the business staff of the Royal Purple were Frances Boyd, TC Fr.; Charlotte Chastain, TJ Sr.; Irmgard Feldman, Eng Jr.; Anne Hastings, TJ Fr.; Laurel

Lee Johnson, TJ Soph; Eugenia Mangelsdorf, EEd Fr.; Irene Mangelsdorf, EEd Jr.; Monte Miller, TJ Fr.; Karen Oldham, EEd Fr.; and Jay Workman, TJ Sr.

The Student Directory award went to Carol Sitz, HEJ Sr.

Recognition for being on the Board of Student Publications went to Lynn Moxley, HEJ Jr.; Larry Meredith, TJ Soph; Chester Peterson, DH Sr.; Irene Mangelsdorf; Miss Strah; and Miss Totten.

## New Sub-chairmen Are Chosen For KS Student Union Committees

Sub-chairmen for Union committees have been announced.

The Flashcard committee chairmen are Susan G. Peterson, FN Fr, instruction cards; Marcia Dawson, Psy Fr, secretary; Gene Olander, SED Jr, field director; and Gary Bennett, Ch Fr, storage and distribution.

Dance committee sub-chairmen are Marsha McDonald, HEA Fr, secretary; John Denesha, Gen Fr, publicity; Jack Coffman, CE Fr, tickets and programs; Caroline Preddy, SED Fr, decorations; and Larry Kraft, NE Fr, arrangements.

Sub-chairmen of the Movies committee are Gary Servos, GA Jr, Cinema 16; Tausca McClintock, BAA Fr, secretary; Kayla Stever, EEd Fr, publicity; and

Art committee sub-chairmen are Dave Moore, BA Soph, lending library; Gala Shoemaker, Soc Fr, secretary; Judy Ericson, EEd Fr, show case; Sue Greene, HEA Jr, posters; and John Cowan, Ar 02, art lounge.

Sub-chairmen of the Games committees are Sherry Sanborn, HE Fr, secretary; Kris Soelberg, Ch Fr, bowling; Jim Ballen, NE Fr, out-door-sports; Juanita Wille, EEd Soph, table games; Mitch Lane, ChE Fr, publicity; and Jerry Fife, ChE Jr, billiards and table tennis.

Coffee Hours committee sub-chairmen are Judy O'Laughlin, FN Soph, program and Marilyn Miller, HE Fr, secretary.

Jazz committee sub-chairmen are Madison Jone, IE Jr, arrangements; David Rehfeld, PEM Fr, program; Billy Jones, MEI Jr, publicity; and Jeanne Anglemeyer, EEd Fr, secretary.

Sub-chairmen of the Browsing library are Daniel Sullivan, Gen Fr, program; Ruth Hansen, Ec Jr, library; and Linda Roy, EEd Soph, secretary.

Personnel and Research committee sub-chairmen are Tom Carrico, BAA Fr, publicity and research; Lonie Edgerton, EEd

and politically active club, encouraging and giving support to independents who wish to run for campus political positions," said Watkins.

### Young Republicans

At the last meeting of the year last night in the Union the Young Republicans club elected officers for next year. They are Barbara Huff, Gvt Jr, chairman; Jon

Sederquist, ME Soph, vice-chairman; Martha Smith, Soc Jr, recording secretary; Rae Rankin, His Soph, corresponding secretary; and Susan Miller, Eng Soph, treasurer.

### Engineering Council

Leo Scully, ME Jr, was elected president of the Engineering Council yesterday in a re-election conducted because of ties for three positions.

John Harri, ME Jr, was elected Open House chairman and Jim Callen, NE Fr, was elected sophomore representative.

### Beat Hour

The Varsity Club combo will play at the Beat Hour today at 2:30 p.m. in the Union dive.

### Arnold Air Society

William Bayless, ME Jr, has been elected commander of Arnold Air society for the coming year.

Other new officers are Larry Lydick, ME Jr, executive officer; William Schilling, BA Jr, operations officer; Darwin Klein, PEM Fr, comptroller; Norman Hostetler, Hum Jr, adjutant recorder; Richard Goudy, ME Jr, information service officer; and George Burgess, Sp Soph, flight coordinator.

# Cat, Oklahoma Baseballers To Clash in Three Games

Out of the Big Eight cellar but still without a win, K-State's baseball team takes on the Oklahoma Sooners this weekend in a three-game series at Norman.

The teams will clash in a nine-inning game this afternoon, and then meet in a doubleheader tomorrow, with both tilts going seven innings.

The Wildcats combined a rain-out and a three-game Colorado sweep over Kansas last weekend to escape the bottom rung in the conference standings. They are 0-8, while Kansas is 0-9 in league play.

After being shut out in four of their first five starts, the Cats unlimbered their bats to score 15 runs in two games against Iowa State last weekend. The nine runs they scored in the seventh inning of the opener were more than they had tallied in the previous six games.

The Cyclones, however, built up

big leads in the early innings to win, 19-10 and 9-5. The final game was washed out after three and one-half innings with Iowa State on top, 3-0.

Coach Ray Wauthier is encouraged by his team's hitting in the Cyclone series. "We've started to hit the ball a little better," he said. "But we are still having mental lapses in the field, getting our pitchers into trouble."

Wauthier will go with his regular starting pitchers in the Oklahoma series. Al Schierling will work the opener today, with Bob Graham and Brad Bochow slated to face the Sooners tomorrow.

Terry Knowles, Wildcat catcher who injured his shoulder several weeks ago, saw some action against Iowa State and will start behind the plate this afternoon.

The rest of the K-State lineup remains unchanged, with Ken

Jones at second, Tom Dunn at third, Al Thaeimert at short, and Joe Haggard, Paul Bader, and Joe Vader in the outfield.

The Sooners are in fifth place in the Big Eight, with five wins against six losses. They split with Missouri last weekend, losing 3-1 and winning 1-0. The third game was rained out.

A freakish no-hitter by Tommy Jones gave the Sooners the 1-0 win. Missouri's Gene Orf tripled, but was called out because he failed to touch first base.

It was Jones' third win against a lone setback.

Stan Musial hit a dramatic home run in the bottom of the ninth inning yesterday to give the St. Louis Cardinals a 4-3 victory over the Chicago Cubs.

Musial, off to one of the worst starts of his career, was the first St. Louis batter in the ninth.

The homer, struck off reliever Don Elston, was Musial's second in as many games and made him the sixth man in major league history to reach the 400 bracket.

The only five who hit more were Babe Ruth, 714; Jimmy Foxx, 534; Mel Ott, 511; Lou Gehrig,

492; and Ted Williams, 482.

Pittsburgh defeated Philadelphia, 5-4, in 10 innings, and Los Angeles nipped San Francisco, 2-1, in the only other NL games scheduled.

Baltimore took over undisputed possession of second place in the American league with a 10-1 triumph over Washington, and Detroit licked Boston, 3-1, in the only two games played in that circuit.

Norm Larker, subbing for Gil Hodges at first base after the Dodger veteran pulled a muscle in the third inning, belted a two-run homer off Jack Sanford in the fourth and that was all the Dodgers needed as Stan Williams turned back the Giants on six hits.

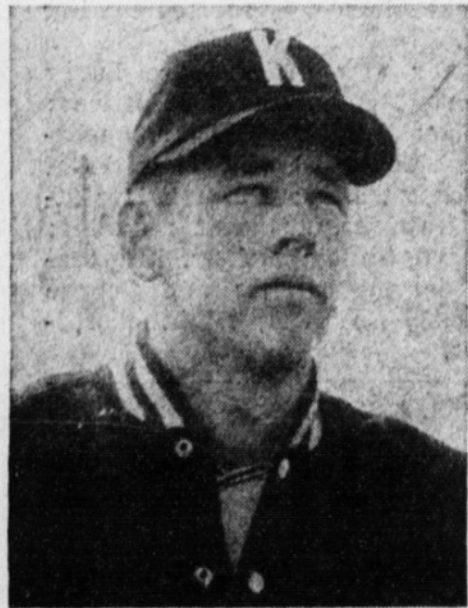

Willie Mays had a single, double and a triple for the Giants and also contributed two stolen bases, but he killed a San Francisco rally when he swung at a wide pitch and popped up as Williams was trying to pass him purposely with two on and one out in the eighth.

## Schoendienst May Begin Light Drills Next Month

Second baseman Red Schoendienst may begin his fight to return to the Milwaukee Braves next month with "light exercise" which could include throwing a baseball.

Braves General Manager John McHale said Thursday night the tuberculosis specialist attending Schoendienst has expressed cautious optimism about the infielder's recovery. The physician said the stricken ballplayer has progressed sufficiently in his seven-month battle with TB that he may take on something more strenuous

than the "long walks" the veteran second baseman has been taking with his young daughters.

**WILDCAT BASEBALL PLAYERS** who will see action this weekend against Oklahoma at Norman: Catcher Terry Knowles, left; and Ken Nakari, reserve infielder.

## Tigers Will Meet I.S.

By UPI

Missouri's Tigers head for a three-game weekend series with Iowa State at Ames in high hopes of overtaking Big Eight baseball leader Oklahoma State.

The Oklahomans are in the driver's seat no matter how you shake it, but Missouri, Colorado, or Iowa State could make it close with a late-season push.

All four first-division teams battle each other in the next two weeks.

Other games this weekend include Nebraska at Kansas, Oklahoma State at Colorado, and Kansas State at Oklahoma.

The second-place Missourians were riding high earlier this season, but Tom Jones hurled a no-

hitter last Saturday for Oklahoma to send the Tigers to a 1-0 defeat, their first of the year. Rain halted the second game after three innings of play.

Oklahoma State, meanwhile, took two of three decisions last weekend against Nebraska to pick up a half-game on Missouri. With nine games to go, Coach Toby Greene's Cowboys have the more favorable schedule, playing six at home while Missouri must play six on the road.

That means Missouri must match Oklahoma State's won-lost record against common opponents during the next two weeks to set up a flag-deciding series at Stillwater on May 22-23.

## Wildcat Golf Team Defeated by Drake

K-State's golf team suffered its second straight 6 1/2-5 1/2 setback as it was beaten by Drake yesterday at Des Moines, Iowa. The loss lowered the Wildcats' record to 2-9-1.

It was the Cats' second match on their current four-game road trip. They wind up by playing Iowa State today and Nebraska tomorrow.

## WHO SAID IT FIRST?

A column of incidental intelligence

by Jockey brand

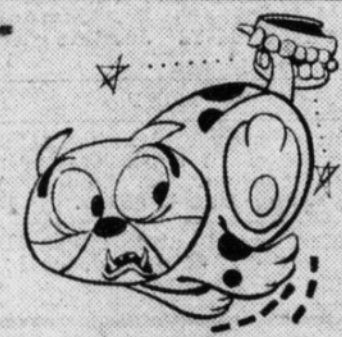

"GENTLEMAN AND SCHOLAR"

High praise, indeed, for any man! But did you know that the description comes from Robert Burns—who said it first about a dog? Here's the quote: "His locked, lettered, braw brass collar Showed him the gentleman and scholar." You'll find the couplet in Burns' "The Two Dogs."

"THE MORNING AFTER"

This horrible time was first immortalized by George Ade in "The Sultan of Sulu." Here's the way he put it:

"But, R-E-M-O-R-S-E-I  
The water-wagon is the place for me;  
It is no time for mirth and laughter,  
The cold, gray dawn of the morning after!"

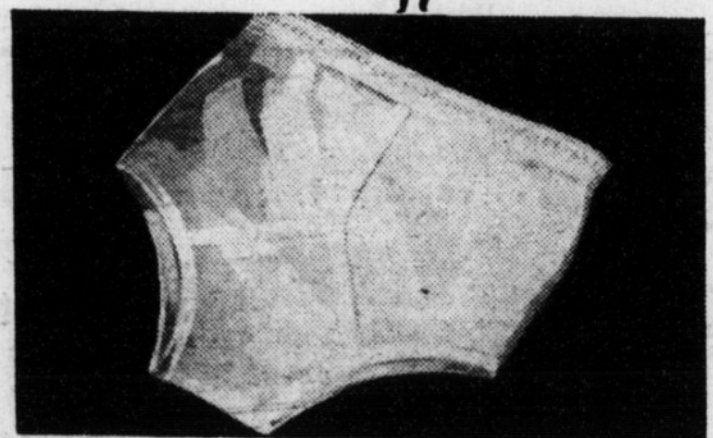

"MAN BITES DOG"

That's everybody's definition of news, and we're all indebted to John B. Bogart, city editor of the old New York Sun (1873-90) who first said: "When a dog bites a man, that is not news, because it happens so often. But if a man bites a dog, that is news!"

## Jockey Underwear

What's true about expressions is also true about styles. Somebody always got there first. Take Jockey brand underwear. Jockey brand is made only by Coopers. Coopers invented Jockey underwear—and no copy can compare with Jockey brand for quality, comfort and fit. For underwear that feels better because it fits better, insist on Jockey brand—the original comfort-tailored underwear. You'll find it at better stores everywhere. Recognize it by the Jockey trade mark.

# Collegian SPORTS

KANSAS STATE COLLEGIAN

5—Friday, May 8, 1959

## KSU Netmen To Meet I.S.

K-State's tennis team will be trying for its seventh win of the season today as it meets the Iowa State Cyclones at Ames. The Cats are 6-5 for the year.

Winston Tilzey, Jim Holwerda, Ed Frankel, Lee Atkins, and Steve Poort will play singles matches for K-State. Tilzey and Holwerda will compose the No. 1 doubles team, with Frankel and Atkins No. 2.

## K-State Track Team Will Meet Iowa State

Shooting for its second straight dual victory, K-State's track team will meet Iowa State tomorrow afternoon at Ames in what will be the Wildcats' last action before the Big Eight meet next weekend at Norman.

The Cats rolled to an easy 106-30 win over Wichita last Saturday.

Coach Ward Haylett has entered the entire 22-man Wildcat varsity squad against the Cyclones.

Among the group are three of K-State's all-time top performers.

Tom Rodda has lowered the mile record to 4:12.2 this season. Al Hamilton stretched his varsity javelin mark to 218 feet against Wichita Saturday. Karl Lindenmuth holds the pole vault record at 13-7 1/2.

Another Wildcat, DeLoss Dodds, shares an all-time K-State record. Dodds ran the 440-yard dash in

47.1 last year to equal the school mark held by Thane Baker.

Sophomore Bob Groszek will enter the 880-yard dash at Ames, and Haylett thinks the lean speedster has a chance to break the varsity mark in that event. Dick Towers set the record in 1953 at 1:53.6.

Jim Cain holds the indoor shot-put record at 55-1/2, and is gunning for the outdoor record of 55-11, set by Elmer Hackney in 1939.

Cedric Price and Steve French will carry the Wildcats' hopes in the high jump. Both have jumped over 6-5 this season. Price will also enter the broad jump, discus, and shot put.

The Cyclones are deeper than K-State in numbers, according to Haylett, although they lack the outstanding individuals the Wildcats boast.

"It could be a fairly close meet," said Haylett, "even though Iowa State may not win many events."

A close race in the hurdles is expected between K-State's Rex Stucker and Ken Sweeney of Iowa State. Sweeney beat Stucker in the 440-meter hurdles at the Kansas relays, but Stucker reversed the decision at the Drake relays. The two will meet in the 120-yard highs and the 220-yard lows tomorrow.

Other top performers for Iowa State are Leo Teghtmeyer in the two mile, Ron Sanson in the mile, Dick Devereaux in the broad jump, and Frank Binder in the shot and javelin.

AL HAMILTON, K-State's all-time greatest javelin thrower, will shoot for another new record tomorrow against Iowa State. Hamilton threw 218 feet to set the record in winning the event against Wichita last week. He had previously reached 214-2 in a triangular meet with Houston and Nebraska.

# Lutheran Students To Attend Meeting

Approximately 20 members of the Kansas State chapter of the Lutheran Students association will attend the Midwest Regional LSA Little Ashram meetings this weekend at the Rock Springs ranch near Junction City.

Lutheran students from the Midwest region, Kansas and Nebraska, will attend the meeting. Besides those from K-State, students from Dana college, Blair, Nebraska; Nebraska university, Lincoln; Bethany college, Linds-

borg; Ft. Hays and Emporia State Colleges are expected to attend the three-day meeting.

Registration will begin at 7 p.m. today and will continue until after worship Sunday morning.

The guest speaker, the Reverend Dale Lund, president of Bethany college, will give an opening address Friday evening, and will present additional talks Saturday and Sunday. The theme of Ashram is "I am only a youth."

The Reverend Wesley Fuerst, professor at Central seminary, Fremont, Nebraska, will conduct the Bible studies, which will be on the book of Jeremiah.

Ashram is an Indian word meaning "corporate spiritual quest." Little Ashram is held annually within the Midwest region. It is a promotion media for the International LSA Ashram which is to be later in the summer. This year, the International LSA Ashram will be in Estes Park, Colo., August 31 through September 6.

Those students attending from Kansas State are: Marilyn Scheleen, HEN Fr; Wendell Nelson, SED Jr; Larry Erickson, CHE Jr; Pat Mathews; Sandra Veatch, HE Fr; Harold Albrecht, Mth Jr; June Luett, HEE Gr; Gary Gabrielson, Phy Fr; athy Forssberg, FCD Soph; Ron Havinstein, CHE Soph; Larry Dannenberg, EE Soph; Barbara Neltzel, HT Soph; Darold Grauerholz, Agr Fr; Jean Hadler; Dennis Shields, AF Fr; Haven Rolander, ME Jr; LaRue Anderson, Mth Sr; Elaine Smith, TJ Fr; and Marju Bakis, ML Gr.

## Coppoc New Head Of Baptist Students

Gordon Coppoc, PrV Soph, was installed recently as president of the Roger Williams fellowship, American Baptist student organization.

Other officers installed include Sue Hiebert, BPM Jr, vice president; Charlene Langford, IMG Gr, secretary; Ross Freeman, Mth Soph, treasurer; Marvin Daniel, EE Jr, financial secretary; Richard Bayles, Eng Soph, worship and music chairman; Janet Schrock, Hum Soph, publicity chairman; Bevely Richardson, HT Jr, food chairman; Dale Horn, BAA Fr, social chairman;

Duane Clum, ME Fr, special projects chairman; Lyle Clum, EE Jr, membership chairman; Gary Johnson, AH Soph, transportation chairman; Max Godfrey, Ag Jr, house chairman; John Clifford, PrV Fr, RCC representative; Paul Priefert, Ag Soph, USCC representative, and Don Mabry, ME Soph, Kansas Baptist Student movement cabinet representative.

## Brand New Babies Received by Parents

# Perfume Fragrances Vary With Individual Skin Types

By WANDA EGGERS

Fragrance is as temperamental as the weather, and the best fore-caster of what scent to wear with spring and summer fashions is you, the individual.

If a fragrance is to do for you what you want it to do, you can and should be completely independent about selecting it.

Because the same scent smells differently on different

people, the test of how it will react on you is your skin chemistry. Perfume oils blend with oils in the skin to create a brand-new scent.

Apart from chemistry, your reaction to a scent is also tied up with your personality and many unconscious thoughts. Very often a certain scent may have a pleasant association for you, and so you will like that odor.

The best guide to buying a

fragrance is to try different scents on your skin. Try three different scents by spraying a little of each one on different spots inside your arm. Let each dry before taking a whiff. If you're undecided, buy a small container of the one you like best.

Your choice of a perfume, a toilet water, or a cologne depends on the degree of intensity you want and how much money you have to spend.

Perfume gives the strongest scent and is the most expensive. Toilet water is lighter in fragrance, and cologne is still lighter.

The seven basic types of fragrances are single florals, floral bouquets, modern blends, oriental blends, woody-mossy types, spicy bouquets, and fruity blends. They range from light, whimsical scents to sophisticated, warm, and intense fragrances.

Uses for cologne and toilet water are to dab or spray it on the body or on the hair, and to spray it in clothes closets and dresser drawers.

Perfume should be applied to the "pulse spots"—inside wrists, inside the crooks of the arms, at the temples, at the side of the neck, and even behind the knees.

If you're switching scents, here's how to prepare your atomizer for the change: After the container is empty, fill it with rubbing alcohol, allow it to stand for about an hour, and empty the alcohol from the atomizer. Fill it with hot, sudsy water, rinse, and allow the container to stand overnight, bottom up.

The best thing to do when a bottle of fragrance is opened is to use it. Always keep the stopper on as tightly as possible and don't leave the bottle near heat.

Another don't for fragrance is watering it down. A milky, cloudy, and ineffective fragrance is the result of this action.

### Williams Son

Mr. and Mrs. George Williams of 42-B Elliot Courts are the parents of a son born April 16 at Riley County hospital. George is an industrial engineering senior.

### Molesworth Son

A son was born to Mr. and Mrs. John Molesworth, 307 North Campus Courts, April 18 at Riley County hospital. John is a pre-veterinary sophomore.

### Weinmeister Daughter

Mr. and Mrs. Donald Weinmeister of 43-D Hilltop Courts are the parents of a daughter born at Riley County hospital April 19. Donald is an electrical engineering junior.

### Cooper Daughter

Mr. and Mrs. Douglas Cooper, 9-A Elliot Courts, are the parents of a daughter born April 19 at Riley County hospital. Douglas is a business administration junior.

### Maxwell Son

A son was born to Mr. and Mrs. Fowden Maxwell, April 20 at Riley County hospital. They live at 45-D Hilltop Courts. Fowden is an entomology graduate student.

### Preston Daughter

Mr. and Mrs. Don Preston, 1208 Pierre, are the parents of a daughter born April 21 at Riley County hospital. Don is a horticulture graduate student.

### Rood Son

A son was born to Mr. and Mrs. Richard Rood of 830 Houston

April 26 at Riley County hospital. Richard is a second year architecture student.

### Morrow Daughter

Mr. and Mrs. Norman Morrow, 1924 Hunting, are the parents of a daughter born April 27 at Riley County hospital. Norman is a veterinary medicine senior.

### Price Daughter

Mr. and Mrs. William T. Price, 1010 Highland Circle, Junction City, are the parents of a daughter born April 8. William is a senior in pre-law.

### Linda Felton Crowned

#### 'Miss Mt. Vernon'

Linda Felton, SEd Jr, was named "Miss Mt. Vernon" in the city's beauty contest. She will enter the Illinois state contest in Moline the last weekend of this month.

Her talent entry was an interpretive dance to Ted Heath's the "Original Creep." She is a member of Alpha Xi Delta.

## 'This Must Be Love,' Many K-Staters Declare

### Groth-Meredith

The pinning of Alice Groth and Larry Meredith, TJ Soph, was announced recently at the Sigma Chi house. Alice is attending Wichita university. They are both from Bushton.

### Smith-Anderson

Cigars were passed at the Alpha Tau Omega house Wednesday night to announce the engagement of Elaine Smith, TJ Fr, to LaRue Anderson, Mth Sr. Both are from Osage City.

### Stivers-Adams

Jane Stivers, ChW Sr, and Dwight Adams, AET Sr, were married March 28 in Pratt. Jane is a Chi Omega from Pratt. Dwight is a member of Sigma Phi Epsilon.

### Stark-Blase

The marriage of Judy Stark, SEd Jr, and Kenneth Blase, Sp Jr, took place recently in Danforth chapel. Judy is an Alpha Xi Delta

from Junction City. Kenneth is from Sylvan Grove and a member of Beta Sigma Psi.

### Coleman-Blossom

The marriage of Marilyn Coleman, DIM Sr, and Dennis Blossom, BA Sr, took place April 21 in Horton. Marilyn is a member of Alpha Xi Delta from Horton. Dennis is a Pi Kappa Alpha from Holton.

### Gaddie-Brethour

Sylvia Gaddie, BS '58, and Lt. William Brethour, BS '58, were married April 12 in Cottonwood Falls. Sylvia is a member of Kappa Kappa Gamma from Bazaar. William is from Maple Hill and belongs to Delta Tau Delta.

### McAlister-Granmer

Judy McAlister, Sp Soph, and Roger Cranmer, NE Soph, announced their pinning recently. She is a member of Delta Delta Delta from Wellington. He is from Mayfield and belongs to Sigma Phi Epsilon.

### Jacobs-Gruendel

The pinning of Joanne Jacobs, Psy Jr, and Gary Gruendel, BA Jr, was announced Wednesday night. Joanne is from Mission and a member of Delta Delta Delta. Gary is a Sigma Alpha Epsilon from Kansas City.

### Bolton-Hahn

The pinning of Zona Bolton, Sp Fr, and Dan Hahn, Sp Sr, was announced recently. Zona is from Macksville and a member of Gamma Phi Beta. Dan is a Sigma Nu from Gypsum.

### Martin-Booth

Rose Mary Martin, TxC Sr, and Ray Booth, GA Sr, announced their engagement recently. Rose Mary is an Alpha Xi Delta from Topeka and Ray is a Pi Kappa Alpha from Lyndon.

### Brooks-Boyd

Mary Beth Brooks, HEJ Jr, and Dick Boyd, TJ Sr, recently announced their engagement. Mary Beth is from Concordia and belongs to Pi Beta Phi. Dick is from Mankato and a member of Beta Theta Pi.

You'll be pleased with a Collegian classified.

## Nan Johnson Named PiKA 'Dream Girl'

Nan Johnson, EEd Jr, was crowned Dream Girl of Pi Kappa Alpha's Dixie ball Saturday night. Her attendants were Jan Claycomb, Sp Soph, and Judy Young, Psy Soph. The dance was at the chapter house with music provided by the Five Guys from Emporia.

Delta Delta Delta and Pi Kappa Alpha had an exchange picnic yesterday at Sunset park.

Alpha Xi Delta and Alpha Tau Omega had an exchange picnic at Sunset park Tuesday.

Gamma Phi Beta's annual Crystal Crescent ball will start tonight with dinner at Jensen's. The dance will be at the chapter house. Tommy Lee's orchestra will furnish the music.

## Frats Issue Bids, Receive Pledges

Charles Helwig, AH Fr, is a new pledge of Pi Kappa Alpha.

New Acacia pledges are Charles L. Pyne, ChE Fr; John H. Kruger, ME Fr; Arthur Maison, NE Fr; Darwin Klein, BAA Jr; Ronald Nitcher, MGS Fr; Jack Britton, Ar Fr; and Clyde Bolin, ME Soph.

Recent pledges of Lambda Chi Alpha are Harold Howard, ME Fr; David Snier, BA Fr; and Dennis Knapp, EE Fr.

# Kansas State Glee Clubs Present Annual Concert

The 62-member Varsity Men's Glee club, Section 1, highlighted the annual Glee club spring concert last night in the University auditorium. Section 2 of the Varsity Men's Glee club and the Women's Glee club, all directed by Asst. Prof. Morris D. Hayes, also appeared in the concert. The concert, the third of four in observance of National Music week, followed the annual Glee club Recognition banquet in the Union.

Featured soloists with Section 2 of the Men's Glee club were Richard Feleay, PEM Fr, bass; tenors Richard Mikesell, ME Fr; Ed Derks, PrV Fr; and Kent Morgan, BPM Fr; and Richard Aberle, ChE Fr, baritone.

Presented the recognition recognition for each glee club were Manuel Pasquil, BAA Jr, Section 2 Varsity Men's Glee club; Pat Myers, Sp Soph, Women's Glee club; and Robert Sanders, MGS Jr, Varsity Men's Glee club, Section 1.

## COLLEGE PUZZLE CONTEST FOR STUDENTS AND FACULTY MEMBERS

### 2 GRAND PRIZES

Rambler "American"!  
Big-car roominess...  
small-car economy...  
tops in performance!

### WIN A RAMBLER STATION WAGON!

**LIGHT UP AND LIVE IT UP!** 3 great cigarettes offer you 627 chances to win! So pick your pack—save the six wrappers—and get going! It's crossword puzzle fun and real smoking pleasure all the way!

**ENTER OFTEN—HAVE FUN—AND WIN!** But think carefully! This puzzle is not as easy as it looks. At first the DOWN and ACROSS clues may appear simple. There may appear to be more than one "right" answer. For example, the clue might read: "Many a coed will be given her best date's P--N." Either "I" (PIN) or "E" (PEN) would seem to fit. But only one answer is apt and logical as decided by the judging staff, and therefore correct. Read the rules carefully. ENTER AS OFTEN AS YOU WISH. Good luck!

#### RULES—PLEASE READ CAREFULLY

1. The College Puzzle Contest is open to college students and college faculty members except employees and their immediate families of Liggett & Myers and its advertising agencies.
2. Fill in all missing letters . . . print clearly. Use of obsolete, archaic, variant or foreign words prohibited. After you have completed the puzzle, send it along with six empty package wrappers of the same brand from L&M, Chesterfield or Oasis cigarettes (or one reasonable hand-drawn facsimile of a complete package wrapper of any one of the three brands) to: Liggett & Myers, P. O. Box 271, New York 46, N. Y. Enter as often as you wish, but be sure to enclose six package wrappers (or a facsimile) with each entry. Illegible entries will not be considered.
3. Entries must be postmarked by midnight, Friday, May 29, 1959 and received by midnight, Friday, June 5, 1959.
4. Entries will be judged by the Bruce-Richards Corporation, an independent judging organization, on the basis of logic and aptness of thought of solutions. In the event of ties, contestants will be required to complete in 25 words or less the following statement: "My favorite cigarette is (Chesterfield) (L&M) or (Oasis) because . . .". Entries will be judged on originality, aptness of thought and interest by the Bruce-Richards Corporation. Duplicate prizes will be awarded in event of final ties. Illegible entries will not be considered. By entering all entrants agree that the decision of the judges shall be final and binding.
5. Solutions must be the original work of the contestants submitting them. All entries become the property of Liggett & Myers and none will be returned.
6. Winners will be notified by mail as soon as possible after completion of the contest.
7. This contest is subject to all Federal, State and local laws and regulations.

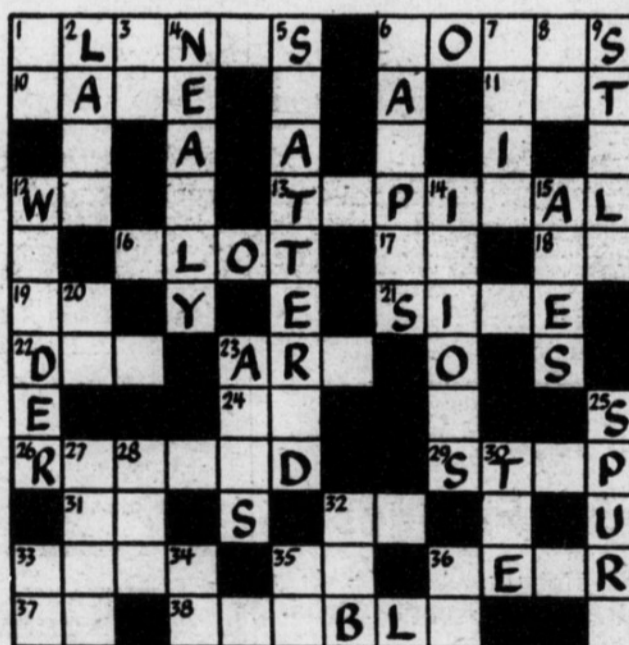

#### HURRY! ENTER NOW! CONTEST CLOSES MAY 29, 1959

##### CLUES ACROSS:

1. These may indicate that a nation is prepared to wage war in the air.
6. Some college students.
10. When at . . . . . Light up an Oasis.
11. Sinking ship deserter.
12. Plural pronoun.
13. One expects . . . . . discussions in a sociology class.
16. A student's careless . . . . . might annoy a short-story instructor.
17. Initials of Uruguay and Denmark.
18. Germanium (Chem.)
19. Nova Scotia (Abbr.)
21. It probably would count when you pick a horse to bet on.
22. Sometimes a girl on a date must . . . . . into her pocketbook to help pay the tab.
23. The muscle-builder's . . . . . may fascinate a poorly developed man.
24. Chemical Engineer (Abbr.)
26. Campers will probably be . . . . . by a forest fire.
29. When starting a trip, tourists usually look forward to the first . . . . .
31. At home.
32. Literate in Arts (Abbr.)
33. Familiar for faculty member.
35. Associate in Arts (Abbr.)
36. One could appear quite harmless at times.
37. Reverse the first part of "L&M".
38. What will soon appear in a bombed-out city.

##### CLUES DOWN:

1. The beginning and end of pleasure.
2. A rural . . . . . can be inviting to a vacationist.
3. Second and third letters of OASIS.
4. When one is . . . . . packed, it could be exasperating to remember a few articles that should be included.
5. It would pay to be careful when glass is . . . . .
6. Grounds to relax on with a mild CHESTERFIELD.
7. Author . . . . . Ambler.
8. District Attorney (Abbr.)
9. A . . . . . from Paris should please the average woman.
12. An inveterate traveler will . . . . . about distant lands.
14. . . . . are hard to study.
15. Stone, Bronze and Iron . . . . .
20. How Mexicans say, "Yes".
23. All L&M cigarettes are " . . . . . high" in smoking pleasure.
25. May be a decisive factor in winning a horse race.
27. Initials of Oglethorpe, Iona, Rutgers and Emerson.
28. United Nations Organization (Abbr.)
30. Golf mound.
32. Colloquial for place where the finest tobaccos are tested for L&M.
33. Poet Laureate (Abbr.)
34. Filter ends.
35. What Abner might be called.
36. Bachelor of Education degree.

**PRINT CLEARLY! ENTER AS OFTEN AS YOU WISH**  
Mail to Liggett & Myers, P. O. Box 271, New York 46, New York. Be sure to attach six empty package wrappers of the same brand (or facsimile) from Chesterfield, L&M, or Oasis cigarettes.

## Top Architecture Grads Get Recognition Awards

Duane Raymond Engle was honored as Kansas State university's outstanding graduating senior in architecture at a dinner given Friday night by the faculty of the Department of Architecture and Allied Arts and by the student chapter of the American Institute of Architects, to honor graduating seniors.

In recognition of his honor, Engle received the American In-

stitute of Architects medal for general excellence.

Both Engle and the runner-up for the general excellence award, Charles John Fager of Osage City, received copies of the book, "Mont Saint-Michel and Chartres," by Henry Adams.

The Alpha Rho Chi architectural fraternity medal for leadership, service, and merit, was awarded to William Davis Peckham Jr., Ar 05.

The Charles W. Shaver scholarship award of \$200, given to a fourth year student of high scholastic attainment, is intended to assist a student to pursue a suitable project.

Douglas W. Moore, Ar 04, will use his award to visit the New England states this summer to study contemporary and colonial architecture of that region.

Two special \$125 scholarship awards were made. A Kansas Concrete Masonry association scholarship was awarded to Howard Allison Stucky, Ar 02, while a similar scholarship provided by the Kansas Structural Clay Products association was

awarded to Barrie Haley Scott, Ar 02.

As the outstanding sophomore in the K-State Department of Architecture and Allied Arts, Robert Kile, ArE Soph, received a \$50 cash award provided annually by the Kansas City chapter of the American Institute of Architects.

## Faculty To Honor Retiring Members

Ten K-State faculty members with a total of 334 years of service to the University will be recognized at a special faculty meeting at 4 p.m. this afternoon. President James A. McCain will present certificates of merit to the individuals, all of whom are retiring this year.

The retiring professor with longest service at K-State is Howard T. Hill, widely known after-dinner speaker. Hill was head of the Department of Speech for 33 years, and has been a staff member 39 years.

Three other retiring faculty members have been at K-State for 38 years. They are Nellie Aberle, who is a member of the English department and has been in charge of the University English proficiency examinations; William Lindquist, who has been a voice teacher, soloist, conductor, and administrator in the Department of Music; and Paul Weigel, who for 31 years was head of the Department of Architecture and Allied Arts.

The other retiring faculty

## Apportioners Set To Hear Requests

The Apportionment board will begin hearings this week on requests of campus departments and organizations for shares of the 1959-60 student activity fees.

The first meeting is tentatively scheduled for this Wednesday, according to Steve Douglas, Gvt Jr, student body president and member of the board.

Preliminary allocation will be made of approximately \$206,000 based on an expected enrollment of 6,700 students next school year.

Many campus groups have not turned in their requests as yet, and therefore the total amount requested of the board is not available.

Organizations which have not submitted their requests are urged by the board to do so as soon as possible, said Douglas.

The requests which have been received include the Athletic de-

partment which is requesting \$6 a student. This is identical with the amount asked last year.

The Agronomy department is asking for \$525 which is the same as its request last year.

Livestock judging is requesting \$2,000 this year, an increase of \$200 from its last request.

Also increasing its request is the meats judging program which is asking \$1,200 compared with \$900 last year.

Members of the Apportionment board are Douglas; Martyn Apley, FT Jr; Gene Olander, SEd Jr; Joyce Rogers, Mth Soph; Gerald Marion, associate professor of dairy husbandry; Henley Haymaker, professor of botany and plant pathology; and Dean of Students Herbert Wunderlich.

## Vet School Admits Eighteen K-Staters

Eighteen additional students have been selected for admission to the School of Veterinary Medicine next September, Dr. D. E. Leasure, dean of the School of Veterinary Medicine, announced Friday.

Forty-seven students were selected for admission to the School of Veterinary Medicine in April, making a total of 65 thus far selected. An entering class of 70 is planned for next fall. Five more students will be chosen.

The following have been selected: Max Mann, Leroy Munk; Gary Lafferty, PrV Soph; Jean Fankhauser, PrV Soph; Paul Tillotson, PrV Soph; George Gammell, PrV Soph; Malcolm Blessing, PrV Soph; Clifford Noffsinger, AgE Jr; Lee Ragains; James Austin; John Austerman, PrV Soph; John McVaney; Irwin Liu, PrV Soph; Michael Hennessy, PrV Soph; Edward Frankel, Bac Jr; Brad Broady, PrV Soph; Donald Hofmaier, and William Jernigan.

## Final Concert Features Flute, Piano Music

A joint recital of flute and piano music yesterday afternoon concluded the series of four concerts sponsored by the Department of Music in observance of National Music Week.

Sunday's concert was presented by Instructor and Mrs. Joseph Zverow in the Chapel auditorium.

Selections played were "Waltz from Suite, Op 116," "Gigue," "Piece for Flute Solo," "A Night Piece," and Bach's "Sonata in B Minor for Flute and Clavier" and "Largo from Organ Sonata No. 5 in C."

Two piano solos, "Impromptu Op. 90, No. 3" and "Impromptu Op. 90, No. 2," were played by Mrs. Zverow.

Zverow is an instructor of flute at K-State and at Washburn Municipal university. A graduate of Cosmopolitan School of Music in Chicago, Zverow is also first flutist in the Topeka Civic symphony.

## Grad Announcements Available Wednesday

Graduation announcements may be picked up in Kedzie 101 beginning at 8 a.m. Wednesday. Extra announcements will also go on sale Wednesday morning on a first come, first served, cash only basis.

## Positions Are Available On Directory, Collegian

Applications for the positions of editor of next year's Student Directory and business manager of the summer school Collegian are open. Application blanks may be obtained in room 204a of Kedzie hall. All applications must be turned in by Thursday at 5 p.m.

## Donald Butel Is Selected Outstanding CE Graduate

The outstanding Kansas State civil engineering graduate this year is Donald A. Butel.

Butel, who will be employed by Sandia corporation, Albuquerque, N.M., following graduation, will receive special recognition from the Kansas section of the American Society of Civil Engineers at a dinner meeting tonight at the University of Kansas.

An outstanding scholar, Butel won freshman Phi Kappa Phi recognition, received the Sigma Tau silver medal for the second highest freshman grades in the Engineering school, and is a member of Phi Eta Sigma, Sigma Tau, and Phi Kappa Phi honoraries.

Other college activities for

Butel included being president of his social fraternity, Sigma Nu; a departmental cochairman for Engineers' Open House; corresponding secretary of the student chapter of the American Society of Civil Engineers; and a member of the St. Pat. St. Patricia committee.

## Best Judgers Get Awards

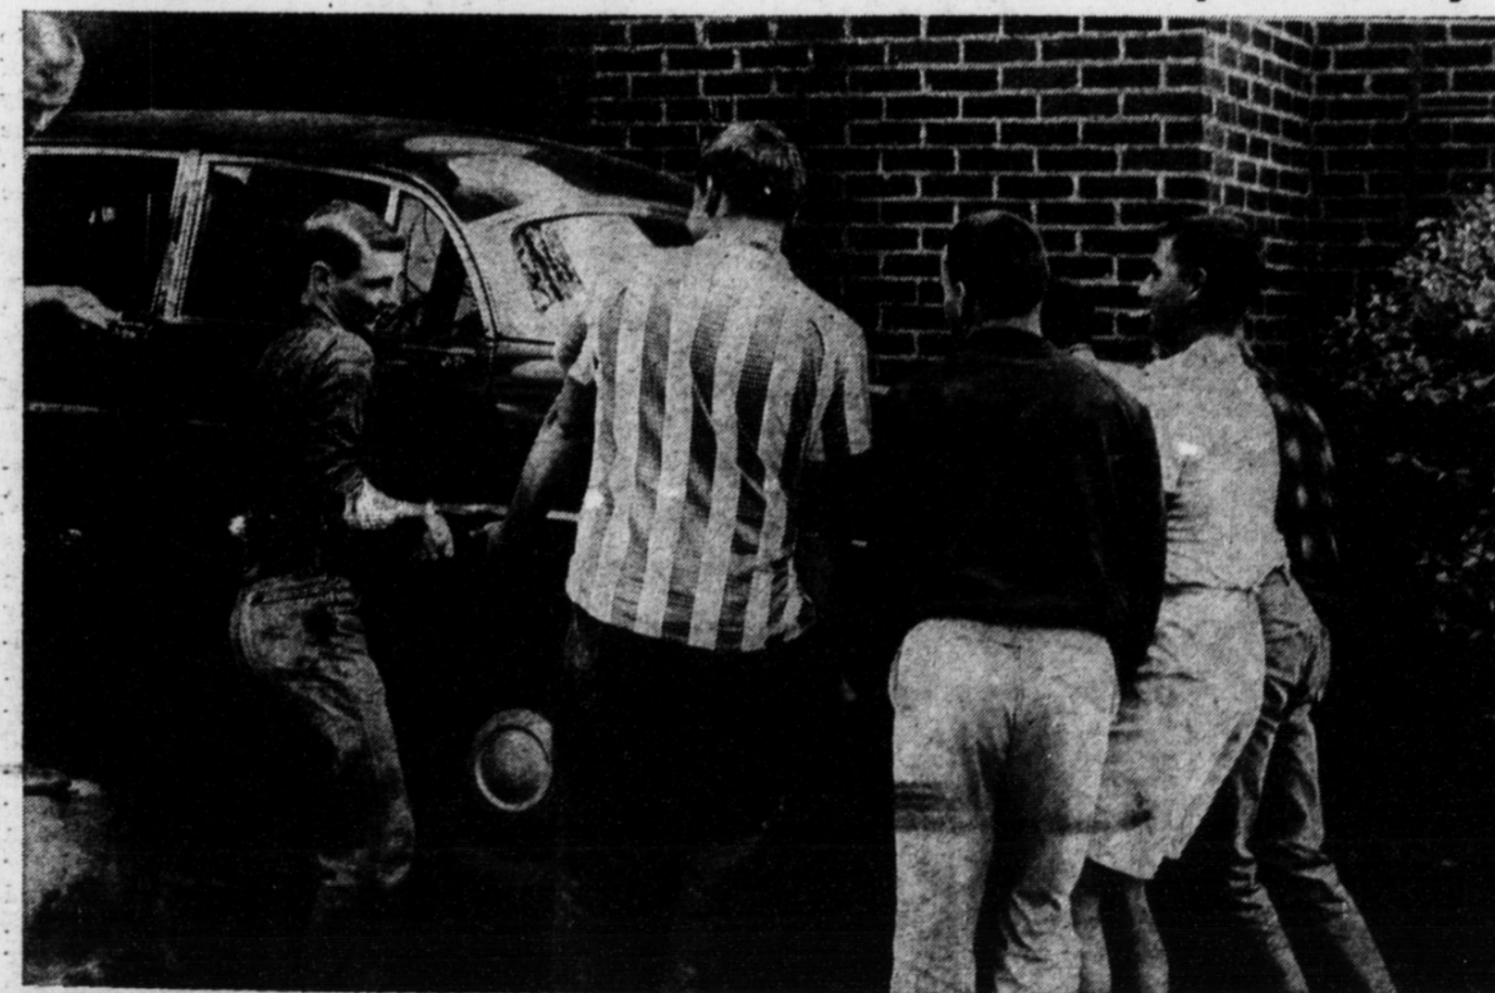

Jim Lonker, AH Jr, and Ha' Moxley, AH Soph, were the high individuals in the annual Block and Bridle club livestock judging contest Saturday.

The top five individuals in the senior division were Lonker, first; Jerry Johnson, AH Jr; Don Mach, AH Jr; Howard Griffin, AH Jr; and Gary Cromwell, AEd Jr.

Lonker won beef cattle and swine judging and Cromwell won in sheep and quarter horse divisions.

In the junior division, Moxley was first; Sheldon DeLange, FT second; J. D. Fowler, AH Soph, third; Jim Lindahl, AEd Soph, fourth; and Ron Janasek, FT Soph, fifth.

## 'Easy-To-Handle-Cars' Gain Popularity

**SMALL CARS** are more and more in evidence on the K-State campus. Proving the ease with which a small car can be handled, members of the Kappa Sigma fraternity lift one to the front porch of their house Saturday. Small car owners, of course, must run the risk of losing their automobile to practical jokers.

# Clement Says Little In Friday's Assembly

AFTER HEARING Frank Clement, former governor of Tennessee, speak at the Senior Leadership assembly Friday, we can say that we have seldom heard so little said in a 60-minute period.

We were disappointed. The former Tennessee governor has been called one of the nation's rising young political leaders. He has to his credit such distinctions as being named the outstanding young man of Tennessee and the first Tennessee governor to serve a four-year term.

In the 1954 Tennessee gubernatorial elections, Clement carried 94 of the state's 95 counties to gain re-election. He became nationally known as keynoter for the Democratic National convention in 1956.

IN HIS BRIEF political career, Clement has spoken most often on one of two subjects—integration and politics on the national level. We would have been happy had he said something of importance on either of these subjects—or on one of many other subjects. We don't believe he did.

The assembly began at 9:30. Senior leadership awards were given, introductions were made, and Clement began to speak. Upon looking at the clock at 10, we realized that he done nothing more than to compliment—and complement again—several people and our University. From 10 until 10:30, Clement made many disconnected and vague statements which we believe added up to practically nothing.

WE ARE DISAPPOINTED that one of the nation's rising young political leaders should have so little to say to those he termed the "leaders of tomorrow."—st

## Weekend News Briefs

### Navy Polaris Missile Makes Successful Flight From Cape Canaveral Testing Grounds Friday

A test version of the Navy's Polaris missile made a perfect flight from Cape Canaveral, Fla., Friday. The rocket is a prototype of the operational Polaris to be launched from submarines.

Navy spokesmen said the test objectives, mainly the separation of the first and second stages, flight control reactions, and performance of solid propellant fuels, were achieved.

The AFL-CIO said Saturday there is "real danger" the nation will face steady unemployment of 3.5 to 4 million persons, despite a strong business upturn.

The views were presented by organized labor in "Economic Trends and Outlook," published by the AFL-CIO Economic Policy committee.

The AFL-CIO economists said 5.8 per cent of the labor force was idle in March, 11 months after the low-point of the 1958 business slump. This compared with 4.1 per cent and 4.5 per cent unemployment figures 11

months after the other two postwar recessions.

Labor leaders said they were concerned because the number of unemployed is becoming to be accepted as normal by the Administration.

A Nile river boat capsized Friday, resulting in the loss of possibly 150 lives.

The boat had approximately 300 persons aboard—mostly women and children—when the catastrophe struck. The vessel had departed from Cairo, Egypt, on a holiday cruise.

Officials accused the captain of the boat of allowing his vessel to be overloaded. A sudden leak was blamed for the tragedy.

A 32-hour, four-day work week will be a demand of the United Steelworkers union, it was disclosed in New York Saturday.

The Union plans to begin pressing for the plan Monday

## Quotes from The News

Geneva—U.S. Assistant Secretary of State Andrew Berding, saying East Germany is welcome at the East-West conference only as an adviser:

"We cannot accede to this Soviet maneuver to get a kind of full partnership for the East Germans in this conference through some procedural device such as seating them at a table, whether it is round or square."

## World News

### Soviet Minister Withdraws Demand To Seat East Germany at Conference

Compiled from UPI  
By JOHN HOKANSON

Geneva—A Soviet demand that East Germany be seated as a full member of the Foreign Ministers conference delayed the conference start by two and a half hours today. Russia withdrew the demand in the face of stonewall Western opposition. The meeting now was scheduled to open at 11 a.m. CST.

It was agreed that both East and West German delegations

would be admitted as "advisers." They will sit at two small tables close to the big one at which the U.S., British, French, and Soviet foreign ministers themselves will be seated.

The agreement was worked out at a meeting this afternoon between the Western foreign ministers and Soviet Foreign Minister Andrei Gromyko. They met at the villa of British Foreign Secretary Selwyn Lloyd.

Thus, the parley called to deal with the problems of Berlin and Germany started off with an initial Western victory.

Gromyko started the wrangle yesterday when he announced the demand that East Germany be admitted as a full and equal member of the Conference.

The West promptly rejected the demand, maintaining its position that it would be willing for East and West Germany to have "advisers" present in the conference room of the Palais Des Nations. The West does not recognize East Germany as a legitimate regime and has shown no inclination of being pressured into recognition here.

Secretary of State Christian A. Herter, Lloyd, and French Foreign Minister Maurice Couve de Murville held emergency talks. Then they sent Lloyd off to try to change Gromyko's mind. He got nowhere.

#### Russian Population Up

Moscow—Results of the first nationwide census in 20 years showed today that the Soviet people are growing in numbers and moving east.

The census figures, published yesterday, showed the population had risen to 208,800,000 from 171,000,000 in 1939, about in line with estimates of the past few years.

The Soviet Union was able to show the growth despite losses of millions in World War II mainly because of its acquisition of the Baltic republics, Bessarabia, eastern sections of Poland, the

Western Ukraine, and other territories.

This enabled Russia to remain behind China and India as the third most populous nation in the world.

The census report said the nation has the world's lowest death rate and highest marriage rate.

The report reflected the Soviet Union's massive effort to settle its vast Asian territory. It showed a shift to the East as pronounced as the Westward movement in the United States.

#### King Will Tour States

Washington—President Eisenhower today welcomes King Baudouin of Belgium to the United States for a three-week visit.

The King, who is making the trip at the President's invitation, will spend three days in Washington before leaving on a nationwide tour. He plans to return to Belgium on May 31.

#### Senator Blasts Surplus

Washington—Sen. Kenneth B. Keating (R-N.Y.) says Congress must quickly do something drastic about the huge wheat surplus because "the public won't stand for it any longer."

Keating said yesterday that "this criminally-expensive wheat glut is a symbol of wrong-headed policy" on farm matters.

By the end of the present growing season, he said, the Federal government will be holding more than one billion bushels of surplus wheat—more than enough to take care of all domestic needs for two years.

Sen. Stuart Symington (D-Mo.) a member of the Senate Agriculture committee, denounced the Administration's farm program in a different way.

Symington said that farm policies of Agriculture Secretary Ezra T. Benson have forced four million persons off farms in the past year and "you'd have many millions more leave" if support programs were abandoned.

### Many Are Unaware of Identities Of Big Four Foreign Ministers

Many are familiar with Christian A. Herter, the United States' delegate to the Foreign Ministers meeting beginning tomorrow in Geneva. But most are probably unfamiliar with even the identities of the other three ministers.

ANDREI GROMYKO, the Russian foreign minister, is an old hand at negotiating for the Communists. He was appointed ambassador to the United States in 1943 at the age of 34. He later became U.N. representative, and cast 24 vetoes for the Soviets. He was named foreign minister in 1957. Gromyko had held the the seating of East Germany in the Foreign Ministers meeting.

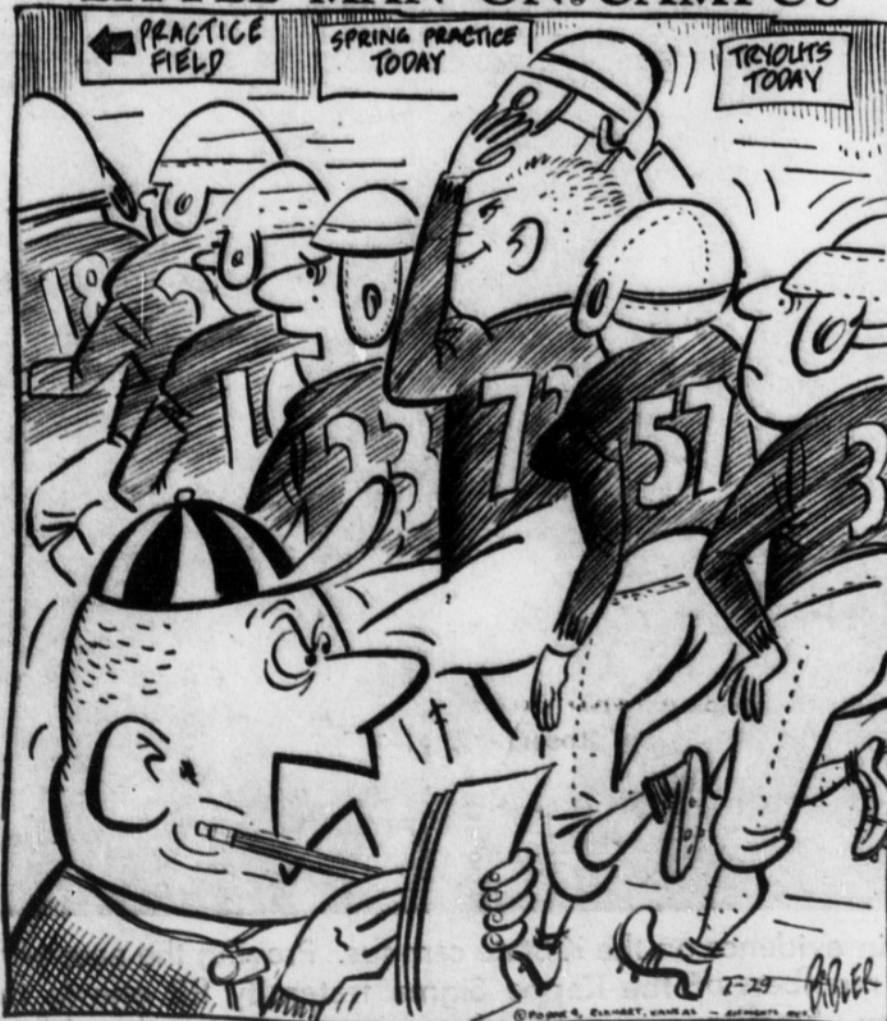

BRITISH FOREIGN Minister Selwyn Lloyd executes Prime Minister Harold Macmillan's policies.

He became foreign minister in 1955 under Anthony Eden, and stayed on at the post when Eden quit under fire after the 1956 Suez invasion. He is a Tory.

Newspapers assail his often weak Parliamentary speeches, and call him a "political pigmy," and "the highest paid office boy in the land. But Lloyd has gained the respect of many for his quiet dedication to his office.

LEAST KNOWN of the three is Couve de Murville, the French foreign minister. He was a member of the French underground in WWII, and after the war served as envoy to Washington, Rome, Cairo, the U.N., and West Germany. Fellow diplomats call de Murville, who was selected by Premier Charles de Gaulle in 1958, a "diplomat's diplomat."

# K-State Golfers Lose Two

K-State's golf team closed out its four-day road trip without a win last weekend as it was defeated 6½-5½ by Iowa State at Ames and 8½-3½ by Nebraska at Lincoln.

The loss to Iowa State was the Wildcats' third straight 6½-5½ setback. They lost to Omaha and Drake by that score in the first two matches of the trip.

Sophomore Dennis Buck shot a one under par 71 to take medalist honors for K-State against Ne-

braska. Buck shot rounds of 34 and 37 over the par 36-36 course.

Iowa State's Ben King was medalist in the final match with a two over par 71.

The road trip was the last action for the Wildcats before the Big Eight meet this weekend at Norman.

Summaries of the Iowa State match:

Ben King (IS), 71, defeated Charles Hostetler, 81, 3-0.

Bob Appenzeller (IS), 77, defeated Jerry Hendricks, 80, 2½-½.

George Hooper (KS), 82, defeated Gary Ridgway, 83, 2-1.

Dennis Buck (KS), 82, de-

feated Dennis Blanchard, 87, 3-0.

Summaries:  
Mick McCulston (NU), 73, defeated Jerry Hendricks, 79, 2½-½.

Larry Romjer (NU), 76, defeated Charles Hostetler, 78, 2-1.

Dennis Buck (KS), 71, defeated Tom Fulkerson, 78, 2-1.

Moon Mullins (NU), 74, defeated George Hooper, 80, 3-0.

## Cat Netmen Top I.S., Lose to Cornhuskers

In its final dual match action of the year, K-State's tennis team broke even in a two-day road trip last weekend, beating Iowa State, 4-3, and losing to Nebraska, 6-1.

The match against the Cornhuskers was played indoors under pro rules because of rain. The set went to the first man to win 12 matches.

The Wildcats won three singles

matches and one doubles match to defeat the Cyclones.

The No. 2 doubles team of Lee Atkins and Ed Frankel won the Wildcats' only match against Nebraska.

K-State's final match record was 7-6. The Cats close out their season this weekend at the Big Eight meet at Norman.

Summaries of the Iowa State match:

Winston Tilzey (KS) defeated Mike Hoffman, 7-5, 8-6.

Jim Holwerda (KS) defeated Dick Sahr, 6-2, 6-1.

Ed Frankel (KS) defeated Roger Barney, 6-0, 6-1.

Glen Trapp (IS) defeated Lee Atkins, 6-4, 6-2.

Al Brown (IS) defeated Steve Poort, 10-8, 6-1.

Tilzey and Holwerda (KS) defeated Hoffman and Barney, 6-0, 6-4.

Sahr and Tripp (IS) defeated Frankel and Atkins, 4-6, 7-5, 6-4.

Summaries of the Nebraska match:

Bruce Russell (NU) defeated Winston Tilzey, 16-14.

Bill North (NU) defeated Jim Holwerda, 12-8.

Albert Arriginagua (NU) defeated Ed Frankel, 12-10.

Charles Kress (NU) defeated Lee Atkins, 12-7.

Bill Kendall (NU) defeated Steve Poort, 12-9.

Russell and North (NU) defeated Tilzey and Holwerda, 13-11.

Atkins and Frankel (KS) defeated Arriginagua and Dave Calhoun, 12-6.

### Intramural Track Meet To Be Finished Today

The intramural track meet will be completed this afternoon in Memorial stadium beginning at 4. Finals will be run off in the 100-yard dash, the 120-yard low hurdles, and the pole vault.

Other events will be the 440-yard dash, and 440- and 880-yard relays, the broad jump, and the high jump.

### K-State Rained Out In Baseball, Track

K-State's three-game baseball series with Oklahoma at Norman and the Cats' dual track meet with Iowa State at Ames last weekend were rained out.

The Wildcat thinclads will travel to Norman this weekend for the Big Eight conference track meet.

The Cat baseball team will host Kansas in a battle for the conference cellar this Friday and Saturday.

## White Sox Down Indians For Three-game Sweep

By UPI

The Chicago White Sox took some steam out of the front-running Cleveland Indians yesterday as they scored 5-4 and 5-0 victories to complete a sweep of a three-game series.

It was the first severe jolt the Indians have suffered this year, as the two wins boosted the White Sox to within 1½ games of the American league lead.

Billy Pierce and Early Wynn, each going all out this year to win back salary cuts, were the big heroes as the White Sox beat

the Indians for the sixth time in eight tries. Pierce went the distance in the 11-inning opener while Wynn fired a four-hitter to gain the 253rd victory of his major league career in the nightcap.

The New York Yankees moved to within two games of the .500 mark by beating the Washington Senators, 6-3 and 3-2. The Boston Red Sox downed the Baltimore Orioles, 3-2 and 5-1, and the Detroit Tigers downed the Kansas City Athletics, 7-6, in the other American league games.

In the National league, the Milwaukee Braves regained first place with 12-4 and 2-1 wins over the Cincinnati Reds. The Los Angeles Dodgers shaded the San Francisco Giants, 3-2, the St. Louis Cardinals came back from a 10-9 loss to defeat the Chicago Cubs, 8-7, and the Philadelphia Phillies beat the Pittsburgh Pirates, 6-3. The Pirates led, 6-4, when the nightcap was halted by curfew in the eighth inning.

Bubba Phillips sent the Chicago-Cleveland opener into extra innings with an eight-inning homer and then singled in the winning run in the 11th inning. Pierce yielded 13 hits but left 12 Indians stranded.

SCHULTZ IS

A MANY SPLENDORED THING

Beppo Schultz, boulevardier, raconteur, connoisseur, sportsman, bon vivant, hail fellow well met—in short, typical American college man—smokes today's new Marlboros.

"Why do you smoke today's new Marlboros, hey?" a friend recently asked Beppo Schultz.

"I smoke today's new Marlboros," replied Beppo, looking up from his 2.9 litre L-head Hotchkiss drive double overhead camshaft British sports car, "because they are new."

"New?" said the friend. "What do you mean—new?"

"I mean the flavor's great, the filter's improved, the cigarette is designed for today's easier, breezier living," said Beppo.

"Like this 2.9 litre L-head Hotchkiss drive double overhead camshaft British sports car?" asked the friend.

"Exactly," said Beppo.

"She's a beauty," said the friend, looking admiringly at the car. "How long have you had her?"

"It's a male," said Beppo.

"Sorry," said the friend. "How long have you had him?"

"About a year," said Beppo.

"Have you done a lot of work on him?" asked the friend.

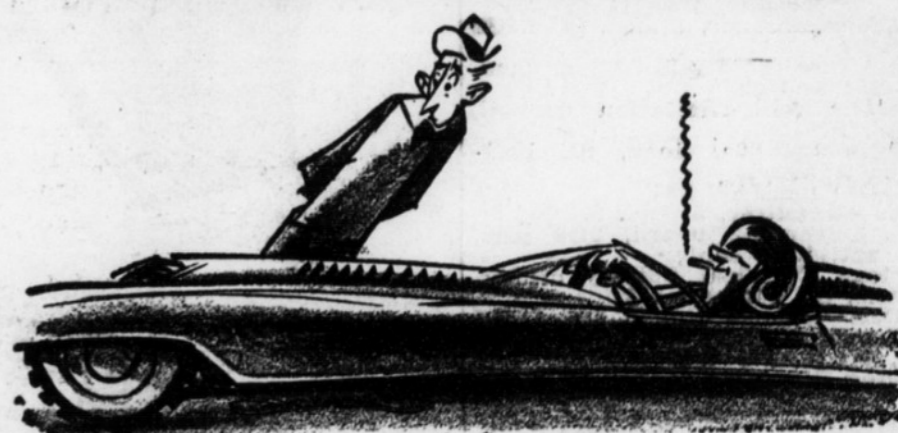

"Oh, have I not!" cried Beppo. "I have replaced the pushrods with a Roots type supercharger. I have replaced the torque with a synchronesh. I have replaced the tachometer with a double side draft carburetor."

"Gracious!" exclaimed the friend.

"I have replaced the hood with a bonnet," said Beppo.

"Land o' Goshen!" exclaimed the friend.

"And I have put gloves in the glove compartment," said Beppo.

"It's a male," said Beppo.

"My, you have been the busy one," said the friend. "You must be exhausted."

"Maybe a trifle," said Beppo, with a brave little smile. "Know what I do when I'm tired?" said the friend.

"Light a Marlboro?" ventured Beppo.

"Oh, pshaw, you guessed!" said the friend, pouting.

"But it was easy," said Beppo, chuckling kindly. "When the eyelids droop and the musculature sags and the psyche is depleted, what is more natural than to perk up with today's new Marlboro?"

"A great new smoke with better 'makin's' and a great new filter!" proclaimed the friend, his young eyes glistening.

"Changed to keep pace with today's changing world!" declared Beppo, whirling his arms in concentric circles. "A cigarette for a sunnier age, an age of greater leisure and more beckoning horizons!"

Now, tired but happy, Beppo and his friend lit Marlboros and smoked for a time in deep, silent contentment. At length the friend spoke. "He certainly is a beauty," he said.

"You mean my 2.9 litre L-head Hotchkiss drive double overhead camshaft British sports car?" asked Beppo.

"Yes," said the friend. "How fast will he go?"

"Well, I don't rightly know," said Beppo. "I can't find the starter."

© 1959 Max Shulman

If you're sticking with the good old non-filter cigarette, you can't do better than Philip Morris—a mild, rich, tasty smoke, made by the people who make Marlboros.

# University of Illinois Chemist To Speak at KSU

Dr. John C. Ballar Jr., head of the division of inorganic chemistry at the University of Illinois and president-elect of the American Chemical Society, will be on campus today to address the K-State section of the ACS at 4 p.m. in W 115 on the subject, "Isomerism—Organic and Inorganic."

A native of Colorado, Ballar was graduated from the University of Colorado in 1924 with a B.A. degree, and received his M.A. from the same institution in

1925. His Ph.D. is from the University of Michigan in 1928.

## Sigma Tau

Sigma Tau, engineering scholastic honorary, has initiated two faculty members and 11 students.

Joe E. Ward, associate professor of the Department of Electrical Engineering, and Ross I. Paull, assistant professor of the Department of Industrial Engineering and Industrial Arts, received honorary membership.

Others initiated were Merle Braden, CE Jr.; Dale Chambers, ME Jr.; John Counter, ME Jr.; Von Hefling, EE Jr.; LeRoy Kashka, ArE Sr.; Robert Martin, ME Jr.; Randolph Matson, EE Jr.; Robert Reid, IE Sr.; Carleton Van Deman, ArE Sr.; Ronald Wilson, ME Jr.; and Milton Martinson, ArE Jr.

Also honored were five sophomores who ranked highest in the freshman engineering class during the 1957-58 school year. They are Kenneth Carpenter, EE Soph; Robert Kile, ArE Soph; Gary Johnson, EE Soph; Leonard

Munger, EE Soph; and Richard Chelikowsky, EE Soph.

## Jr. AVMA

Officers for Jr. AVMA for the fall semester are Tracy Clark, VM Jr, president; Joe Kashner, VM Soph, vice-president; Dan Burbach, VM Soph, secretary; and Charles Eck, VM Jr, treasurer.

## Collegiate 4-H

Connie Clary, EEd Jr, president of Collegiate 4-H, has announced the following committees for next semester.

Membership — Gloria Ousdahl, HDA Jr; Sherry Henderson, EED Soph; Marlan Francis, PrV Soph; Charles Hamon, Ag Jr; Irene

Ross, HT Soph; Albert Woody, AgE Fr; Linda Fields, HEA Fr; and Larry Larson, AEd Soph.

Mixer—Harry Lehew, Sp Jr; Kay Gardner, BMT Soph; Richard Rees, FT Soph; Gary Swanner, AE Fr; and Mary Jo Mauler, HEJ Soph.

Jamboree—Judy Kettler, HT Soph; and Vern Schewe, AEd Fr.

Fall dinner dance — Fern Jahnke, SED Soph; Barbara Sawyer, HEJ Fr; David Wilson, TA Fr; Jarvis Brink, PrV Soph; and Jerry Minnis, ME Fr.

Radio—Larry Kepley, AEd Jr; Margaret Cooper, HE Fr; Larry Bengston, PrL Fr; and Jean Reehling, HE Fr.

Fall workday—Hal Judy, AgE Soph; Evelyn Goldsby, Gen Fr; Frank Felinger, AEd Soph; and Linda Ahlstedt, HT Fr.

Program—Bernie Owen, AE Soph; Cliff Gruver, FT Sr; Kay Slade, EEd Soph; and Julia Jahnke, EEd Fr.

Recreation—John Baird, AE Soph; Dave Woolfolk, AE Soph; and Janice Laidig, FN Soph.

## Phi Alpha Theta

Nine students have been initi-

ated in the Delta Sigma chapter of Phi Alpha Theta, national organization recognizing excellence in the study of history, this spring.

Students initiated: Geraldine Clapp, GS; David Day, SED Sr; Judy Fisher, SED Sr; George Hofmann, SED Sr; Homer Kruckenberg, Gvt Sr; John McElhatton, His Jr; Margaret Strobel, His Sr; Kenneth Trickle, SED Sr; and George Rioh.

## AWS

The last council meeting of the Associated Women Student's will be tonight at 7 p.m. in room 206 of the Union.

Discussion of the suggestions made at the officer's retreat, and treasurer's report will conclude the business for the year.

## Math Honorary

## Initiates Students

Pi Mu Epsilon, honorary mathematical fraternity, has initiated 30 new members.

Students initiated: Robert Bechtel, Mth Gr; Louis Burmeister, ME Gr; Shih-Chi Chang, Psy Gr; Instructor Robert S. Cochran; Carol Faulconer, Mth Jr; Rosa Garrett, EE Jr; Stephen R. Hilding, Mth Gr; Ching Lai Hwang, ME Gr; Vincent Y. Hwang, Sta Gr; William Tsu-Taw Kao, ME Gr; John E. Kipp, ApM Gr; Harold L. Knight, Mth Sr; George C. Leslie, Mth Gr; William L. LeSturgeon, Mth Gr;

Tate F. Landahl, Mth Sr; Dale R. Lumb, EE Gr; Er-Chieh Ma, ApM Gr; Frances R. Marvin, Phy Soph; Carol M. McDonald, Mth Sr; Roger Olson, Mth Gr; Stanley L. Rieb, ApM Gr; Garfield C. Schmidt, Mth Sr; Kenneth Tiehrt, Mth Gr; Hsun Tien, ME Gr; William H. Tobey, Phy Soph, Assoc. Prof. Willem van der Bijl; Instructor Arnold Wallender; Benton D. Weathers, EE Gr; Instructor Janet M. Weber; Yung-chia Yang, ChE Gr.

Officers of the honorary for next year are Stanley Wearden, assistant professor of mathematics, director; W. R. Kimel, head of the Nuclear Engineering department, vice director; Helen Moore, professor of mathematics, secretary; and S. T. Parker, professor of mathematics, treasurer.

NUMBER 142

## Retiring Prof. Regrets Lack Of Emphasis on Individuality

Looking back over his 39 years at K-State, Dr. Howard T. Hill feels "Emphasis on the individual is less than it used to be and less than it ought to be."

Dr. Hill, for 33 years head of the Department of Speech, was one of 10 faculty members to receive certificates of merit at a faculty meeting in the Chapel auditorium yesterday afternoon. Dr. Hill had the longest K-State service record of those receiving certificates.

"As compared to the processes and developments of group

situations, the individual has become less important than he should be," observed Dr. Hill.

Considerable increases in faculty, increases in student enrollment, greater emphasis on graduate work, and the initiation of the PhD program are other changes noted by Dr. Hill since he first came to K-State in the 1920s.

Dr. Hill also commented on the steady growth of K-State during both depression and prosperity, and the extensive building program marking the admini-

strations of Milton Eisenhower and James A. McCain.

"A friendly atmosphere has always characterized the K-State campus. I believe that is one reason faculty who could have gone elsewhere at higher salaries have stayed.

"As to the quality of the student, he's more broadly trained before he comes, but I wonder if more specifically trained."

The extinction of literary societies is another change Dr. Hill has noted. "When I first came here there were three societies each for men and women and two 'mixed.' In common with most institutions, these societies have passed out of the picture."

"One change I was hoping to see before I retired was the replacement of the old barn—the Auditorium. One of the most worthwhile public relations programs we could promote is the building of a tremendously comfortable and pleasing auditorium."

Changes Dr. Hill has noted in and around Manhattan are the growth of the city several times over and a change in Fort Riley from "the horse cavalry post of the U.S."

## Dr. Weber Reveals Plan For Project at Chicago

Arthur D. Weber, dean of agriculture, today announced a new formula feed project at K-State.

Speaking at a luncheon meeting of the annual Feed Manufacturers' Association convention in Chicago, Weber said Kansas State university has entered into a contract with the United States Department of Agriculture to conduct an educational program through its extension service.

"Kansas State, with its outstanding feed milling department and its courses in milling technology, is well equipped to

conduct such an educational program," said Dr. Weber.

The new project will include an inventory of available research to determine the problems of the feed industry, development of a pilot extension program to test teaching methods and procedures, and conducting training programs for other states.

The relatively new formula feed industry, Weber said, has become an important element in American agriculture. It is one of the top 10 industries in the U.S.

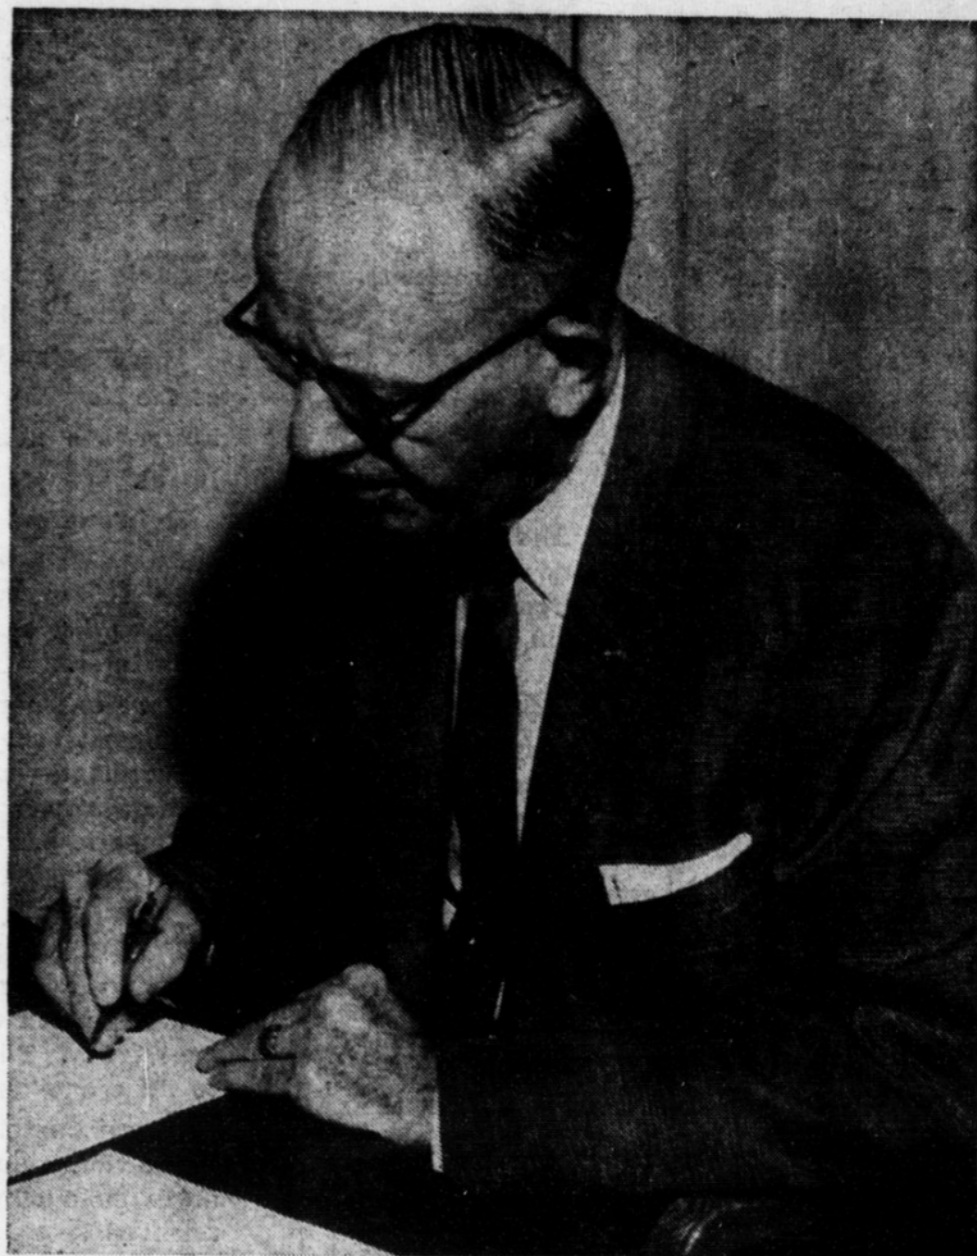

Photo by Elliott Parker

ONE OF 10 retiring K-State faculty members to receive certificates of merit at a special faculty meeting yesterday afternoon, Dr. Howard T. Hill believes "emphasis on the individual is less than it used to be and less than it ought to be." Dr. Hill was head of the Speech department here for 33 years.

## Delta Chi Denied Right To Colonize

Delta Chi fraternity's request for colonization rights on the K-State campus was denied by the Interfraternity council last night in its last regular meeting of the year. The vote was 12 to 6.

Without IFC's approval, Delta Chi cannot organize a chapter on the KSU campus. Jean Johnson, Delta Chi field secretary, was present at the meeting to hear the Council's decision.

In other business, IFC pro-

posed a constitutional amendment which would not condone any type of financial aid to athletes by fraternities. The proposed amendment will be put to a vote at a special meeting Monday. A favorable vote of three-fourths of all fraternities is required to pass the amendment.

Rush cards will be distributed to fraternities in the West Stadium parking lot at 8 a.m. Saturday, according to an announcement at the meeting.

Officers for the fall semester were also elected at the meeting. They are Jim Henderson, PrL Jr, president; Jim Lisher, Ec Jr, vice president; Lee Atkins, ME Soph, secretary; Jerry Kintigh, FT Jr, treasurer; and Don Morton, AgE Soph, and Dave Fiser, PrL Soph, members at large of the executive council.

## YM Not Recognized By Activities Board

Recognition of the YMCA as an official campus activity was withdrawn by the Student Activities board at its meeting yesterday.

According to Max Bishop, Ar 03, chairman of the board, YMCA may reorganize and appear for reinstatement before the SAB at any time next year.

Regarding the 1960 Y-Orpheum, the board decided to recommend to Student Council:

1) that it be produced under

the sponsorship of the K-State Union.

2) that a student-faculty committee decide on the disposal of the proceeds.

In other business, the board gave the Interdorm council permission to sell dormitory stationery to the residents.

It also granted Order of Artus, economics honorary, recognition as a campus activity. The honorary has been on a probationary basis for the past year.

## Wednesday Designated Night for Spring Fever

Wednesday has been approved as a "spring fever night" by the Associated Women Students council. Women students may stay out until 11:15 p.m. on that night.

## Civic Theater Gives Third Production Of Shaw's 'Arms and the Man' Tonight

Two K-State students and three faculty members appeared last night and Sunday night in the Manhattan Civic theater's production of "Arms and the Man." The final presentation of the play will be tonight in the Community house.

The comedy written by George Bernard Shaw pokes fun at society as a whole—its romantic love, war, and strife for social positions.

Asst. Prof. James Rosenberg played the part of Saranoff, a romantic lover with a flair for falsity.

Mrs. James Rosenberg played

Regina, the other half in the exaggerated courtship.

Asst. Prof. Carlton Smith played Captain Bluntschli, a soldier who was always getting into amusing situations and who "preferred chocolates to cartridges."

When it was first produced in England, the public was unresponsive to the play which "pooh-poohed heroics." A statement was circulated that "His Royal Highness (the Prince of Wales) regretted that the play should have shown so disrespectful an attitude as was betrayed by the character of the chocolate-cream soldier."

The play was also considered

a libel on heroism because of Captain Bluntschli's statement that it is a soldier's duty "to live as long as we can, and kill as many of the enemy as we can." This was regarded as the central theme of the play.

Alice Rhea, Sp Soph, played the part of the untidy maid Louka, a contrast to Regina and her exaggerated love scenes.

Lee Damski, Bac Gr, was Mayor Pefkoff who was striving to seek social position. Tom York, Eng Gr, played the role of Nicola and Asst. Prof. Jordan Miller portrayed a Russian officer.

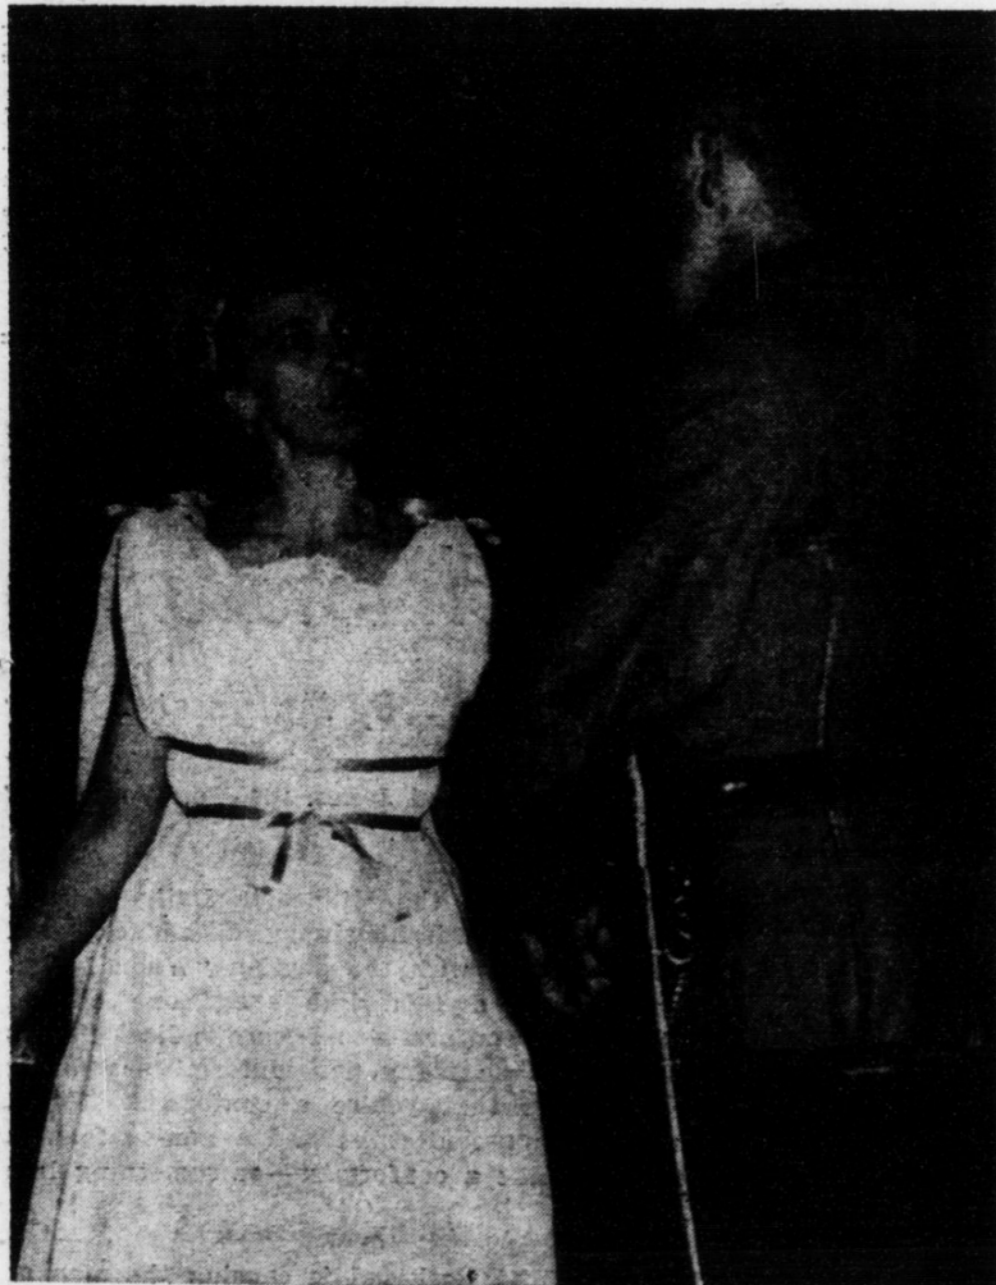

Photo by Elliott Parker

IN A SCENE from "Arms and the Man" by Shaw, which is being presented by the Manhattan Civic theater, Dorothy Rosenberg complains to Carlton Smith, assistant professor of air science, who has just made fun of her fiance. Tonight is the last night the play will be presented.

# West Rejects Soviet's Demands To Seat Two Russian Satellites

Compiled from United Press International  
By JOHN HOKANSON

Geneva—Russia attempted to railroad two Communist satellites, Czechoslovakia and Poland, into the Geneva Big Four Foreign Ministers conference as equals today. But the West swiftly rejected the move.

Soviet Foreign Minister Andrei Gromyko demanded seating of the satellites as the conference met for what was to have been its first working session on the Berlin crisis and German unity.

The session opened at Geneva's Palais Des Nations shortly after 8:30 a.m., CST.

But Gromyko did not wait until the formal get-together to plunge the conference into another day of chaos and wrangling.

Instead, spurring normal diplomatic niceties, he had his press spokesman announce it at a specially-summoned news conference four hours before the Big Four meeting began.

The Western foreign ministers, meeting shortly afterwards in a pre-conference strategy session, agreed at once to turn down the bid for the Soviet satellites to be seated as their equals at the parley table.

Secretary of State Christian A. Herter, who lunched with Gromyko at the Soviet delegation villa, took the opportunity to tell him that the West would not buy this latest Soviet maneuver.

The Western Big Three have let it be known they would allow Poland and Czechoslovakia to be called in if some problem arose directly affecting them—but they would be visitors and not full delegates.

Another Western compromise would be to let the two satellite nations join the conference but to bring in Italy—and possibly Holland and Belgium—so the West would maintain numerical superiority.

## Nominee Faces Stiff Senate Test

Washington—A 34-year-old former newspaper executive will tell the Senate Foreign Relations

committee today why he should be approved for a sensitive diplomatic post.

He is Ogden R. Reid, former president and editor of the New York Herald-Tribune. President Eisenhower has nominated him to be ambassador to Israel.

Reid's effort to win Senate confirmation took on added significance because of the recent furor over Senate approval of Clare Boothe Luce as ambassador to Brazil and her resignation three days later.

Reid was nominated before the Luce row boiled up, but several Democratic Senators said the State department—and Reid himself—would have to make a strong case for his nomination to his first diplomatic position.

## Convicts Riot at Tennessee Prison

Fort Pillow, Tenn.—Rioting prisoners refused to give up a screaming, window-smashing protest demonstration or to release their two guard hostages today. The state governor stood ready to fly to the scene "on a moment's notice."

Approximately 130 desperate men participated in the riot, which began late last night. Their grievances included the contention that Negro prisoners received better treatment than white men.

"White prisoners are treated like dogs," ring-leader Johnny Webb Roddy shouted from behind a barricade at the Fort Pillow prison farm 60 miles north of Memphis.

They threatened to kill the guards unless the convicts received "justice." But Keith Hampton, state corrections commissioner who flew here at midnight, said he is confident the situation can be settled "without bloodshed."

New violence broke out this morning, shortly after the ringleaders held a conference with officials. The prisoners refused to dismantle a barricade in their wrecked upper prison dormitory where they held their hostages.

## 'Death of a Worm' Topic of Research Study Being Conducted in KS Pathology Department

By MARY WELSH

"Sulpher 35 studies on the anthelmintic action of phenothiazine" is the title of a research project currently being conducted in the Pathology department. In other words, the effects of the chemical agent phenothiazine on worms is being studied.

Phenothiazine, a solution of diphenylamine, sulphur, and iodine, is the most widely used worm remedy for domestic animals, but very little is actually known about it. One known fact is that it is effective against some parasites and very ineffective against others.

This is the reason for the research project—to find out why

it is effective on certain parasites only.

According to Dean S. Folse, associate professor of pathology, "one possible explanation is that the effectiveness of the drug varies with the surface area of the worm."

Dean Folse named several experiments to back up this theory. In one experiment, susceptible and non-susceptible worms taken from the same animal were immersed in a solution of phenothiazine. The worms that were susceptible to the drug absorbed up almost seven times the amount of solution as did the non-susceptible worms. Yet the body weight of the non-susceptible

worms was almost 20 times heavier.

In another experiment, susceptible male and female worms were immersed in phenothiazine solution. When they were checked, the male worms contained more of the chemical than did the females. Again the "surface area theory" seemed correct, because female worms weigh almost twice as much as do the males.

"When these experiments are concluded, we hope to have the key to discovering new remedies and drugs that will kill more types of worm parasites," said Dean Folse.

## Soviet Tactics at Geneva Meeting Will Be Influenced by IRBM Fear

By UPI

Soviet tactics in the coming days at Geneva will be based at least partly on fear.

For while Soviet Premier Nikita Khrushchev boasts of Soviet intercontinental missiles and says Communism will bury the West, the Kremlin leaders also have their nightmares.

Weeks in advance of the current Geneva discussions, the Soviets began telegraphing their punches in messages to North Atlantic Treaty nations, the members of the Southeast Asia Treaty organization, Baghdad Pact members, and, in fact, to almost every U.S. ally.

These messages provided in advance an outline of the Soviet Geneva tactics. They also help to explain Soviet nightmares.

In recent weeks Soviet notes have been handed to Italy, to Germany, Norway, Iran, and Japan, to mention a few.

Russia knows that with or without an operational ICBM, the United States is in a position, through its bases around the world, to smash every important center in the Soviet Union.

Hence the Soviet notes to U.S. allies, warning in the bluntest terms: You accept U.S. missile bases, you become a primary target in case hostilities ever break out against the United States.

Some experts believe that IRBMs are a fact of life preserving peace in Europe today.

They say that no matter how many not-too-accurate ICBMs the Russians can fire over the North Pole, the Soviets also know they are surrounded by real or potential IRBM bases in Britain, Italy, and Turkey and from missile-firing vessels of the U.S. Sixth Fleet in the Mediterranean and other fleets in the Indian and Pacific oceans.

Hence, Soviet spokesmen, both at the present Geneva conference and at the Summit conference if one is to be held, may be expected to follow two main courses:

To demand that present and contemplated Allied bases be abandoned.

To refuse reunification of Germany.

Of all the world powers, Russia would fear a reunited, industrially strong Germany the most.

No matter with what good will the West may approach the Geneva meeting, Russia's own fears and suspicions are the greatest reason for expecting failure.

## Oregon U's Infirmary Bans Visitors Due to 'Overfriendly' Well-wishers

By Margaret Cooper

THE DOORS of the infirmary at University of Oregon have been closed to all visitors. The reason, according to the Oregon Daily Emerald, is that "visitors are getting too close to the patients and, in some cases, "smooching! . . ." The Student Health personnel is battling the flu and measles epidemic by ousting the over-friendly "well-wishers."

THE DAKOTA STUDENT from the University of North Dakota brings us the results of the recent Gallup poll on "quote-author recognition." Seventy-one per cent of the adults participating in the poll identified "Hi-Yo, Silver!" with the Lone Ranger, while "The world must be made safe for democracy" was recognized by only 14 per cent as coming from the lips of Woodrow Wilson. Bugs Bunny outshined John Paul Jones in the same manner—14 per cent knew John Paul Jones said "I have not yet begun to fight," and 40 per cent associated "What's up, Doc?" with Bugs Bunny. It looks as though the Lone Ranger and

Bugs Bunny are greater Americans than Woodrow Wilson and John Paul Jones. "Hi-Yo, Woodrow!" "What's up, John Paul?"

A CARTOON in the Minnesota Daily pictured the Beatnik dressed in his sloppy shirt, black beret, and dark glasses with the caption "When I first started here I dressed like every one else—I didn't want to conform—so I wore radical clothes—Now there's so many non-conformists wearing radical clothes that you're a conformist if you dress like a non-conformist and a non-conformist if you dress like a conformist—or something like that."

THE COMING week-end is causing the men at Oregon State college to panic. The Daily Barometer reports that 30 fraternities have dances scheduled and Ag Weekend will be in operation. After subtracting the girls who are pinned, married, or "otherwise reserved," there is going to be a scarcity of women. Sounds like a panic for the men, but a picnic for the women.

# West Stadium, SAEs Win IM Track Titles

West Stadium and Sigma Alpha Epsilon, in the independent and fraternity divisions, respectively, retained their titles in the intramural track meet completed yesterday afternoon in Memorial stadium.

West Stadium scored 90% points, followed by House of Williams with 66%, Scholarship house with 51%, OK house with 26%, and the Kasbah with 26%.

The Sig Alphas had 67 points, Beta Theta Pi had 59, Sigma Chi had 55, Pi Kappa Alpha had 45, and Alpha Gamma Rho had 43½.

West Stadium won 7 of the 10 events. Its winners were Jerry Spencer in the high jump, Paul Dobson in the low hurdles, Dick Scott in the 100-yard dash, Leo Williams in the 440-yard dash and the 880-yard run, and Don Darter in the shot put. The Stadium also won the 440- and 880-yard relays.

Winning for Sigma Alpha Epsilon were Larry Word in the 880-yard run, Chuck Zickefoose in the shot, and Vaughn Shamburg in the low hurdles. The Sig Alphas also won the 440-yard relay.

**Fraternity results:**  
**Pole Vault**—1. Ed Cannon, Sigma Nu, 11-10; 2. Jerry Johnson, Sigma Phi Epsilon, 11-4; 3. (tie) Larry Lindholm, Beta Sigma Psi; Tom Dunn, Phi Delta Theta; and Art Kurzdorfer, Phi Kappa Theta, 10-11.  
**Broad Jump**—1. Lane Brown, Sigma Chi, 20-13; 2. Frank Dunn, Phi Delta Theta, 20-4; 3. Don Leffingwell, Beta Theta Pi, 19-9; 4. Dick Corbin, Beta Theta Pi, 19-3½; 5. Sid Jones, Sigma Chi, 19-3¼.

**High Jump**—1. (tie) Hank Pierce, Beta Theta Pi; Ray Booth, Pi Kappa Alpha; and Steve Douglas, Sigma Chi; 5-11; 4. (tie) Dick Hayman, Sigma Alpha Epsilon; Vaughn Shamburg, Sigma Alpha Epsilon; Don Jaax, Sigma Nu; and Charles Couch, Alpha Tau Omega, 5-10.

**120-yard low hurdles**—1. Vaughn Shamburg, Sigma Alpha Epsilon; 2. John Clark, Acacia; 3. Ross Thornborough, Beta Theta Pi; 4. Don Joy, Alpha Tau Omega; 5. John Dawson, Beta Theta Pi. Time—13.9.

**100-yard dash**—1. Stan Peterson, Pi Kappa Alpha; 2. Marlan Francis, Alpha Gamma Rho; 3. Bill Gallagher, Phi Kappa Theta; 4. Hank Pierce, Beta Theta Pi; 5. John Cervovsky, Alpha Tau Omega. Time—10.2.

**440-yard dash**—1. Joe Seay, Sigma Phi Epsilon; 2. Jim Mertz, Beta Theta Pi; 3. (tie) Larry Word, Sigma Alpha Epsilon; and Terry Esfeld, Alpha Gamma Rho; 5. John Laurie, Kappa Sigma. Time—53.

**440-yard relay**—1. Sigma Alpha Epsilon (Don Moehring, Vaughn Shamburg, Bob Merton, John French); 2. Alpha Tau Omega; 3. Pi Kappa Alpha; 4. Alpha Gamma Rho; 5. Alpha Gamma Rho. Time—45.8.

**880-yard relay**—1. Alpha Gamma Rho (Gary Gilles, Jim Dicken, Ed Dillinger, Marlan Francis); 2. Sigma Chi; 3. Beta Theta Pi; 4. Sigma Alpha Epsilon; 5. Pi Kappa Alpha. Time—1:35.6.

**Independent results:**  
**Pole Vault**—1. George Bennett, House of Williams, 10-11; 2. (tie) Joe Craft, Kasbah; and Jim Booker, OK house, 10-6; 4. Frank Toman, Scholarship house, 10; 5. (tie) Charles Clinkenbeard, OK house; Bert English, West Stadium; and Jim Dent, West Stadium, 9-0.

**Broad Jump**—1. (tie) Ed Habiger, OK house; and Ed Taylor, West Stadium, 19-5½; 3. Joe Craft, Kasbah, 19-2; 4. Leo Williams, West Stadium, 19-1¼; 5. Glenn White, unattached, 18-10½.

**High Jump**—1. (tie) Jerry Spencer, House of Williams; Bill Zavesky, OK house; Ed Habiger, OK house, 5-6; 4. (tie) Bob Stauffer, House of Williams; Loren Manges, Kasbah; Frank Toman, Scholarship house; and Bob Sextro, West Stadium, 5-0.

**120-yard low hurdles**—1. Paul Dobson, West Stadium; 2. George

Bennett, House of Williams; 3. Lee Miller, House of Williams; 4. Duane Shaw, West Stadium; 5. Al Manneback, Scholarship house. Time—14.2.

**100-yard dash**—1. Dick Scott, West Stadium; 2. Glenn White, unattached; 3. Ed Taylor, West Stadium; 4. Frank Waaf, House of Williams. Time—10.7.

**440-yard dash**—1. Leo Williams, West Stadium; 2. Earl Hoffman, Scholarship house; 3. Glenn Chalmers, House of Williams; 4. Larry Seltz, Scholarship house; 5. Bob Meyer, House of Williams. Time—53.6.

**440-yard relay**—1. West Stadium (Oree Banks, John Marcoline, Duane Shaw, Dick Scott); 2. House of Williams; 3. Scholarship house; 4. Kasbah. Time—47.

**880-yard relay**—1. West Stadium (Paul Dobson, Banks, Scott, Jones); 2. House of Williams; 3. Scholarship house; 4. Kasbah. Time—1:37.3.

# Orioles Thump Senators To Gain Tie for Second

The Baltimore Orioles moved back into a virtual second-place tie with the Chicago White Sox last night as they downed the Washington Senators, 7-3, to move to within one and one-half games of the Cleveland Indians.

Baltimore's Greek fraternity—Milt Pappas, Gus Triandos, and Billy Loes—was again the difference as the Orioles took their 15th victory in 27 starts.

Pappas celebrated his 20th birthday by posting his fourth straight victory without a defeat. Triandos contributed his seventh home run of the season and Loes came to Pappas' aid in the seventh inning and succeeded in "saving" his fourth game for the Orioles in the space of eight days.

In the National league, Los Angeles outlasted Philadelphia, 11-10; San Francisco smothered Pittsburgh, 14-4, and first-place Milwaukee beat Chicago, 8-1.

## Beta Sigma Psi Earns Berth in IM Semi-Finals

Harold Dorrsom pitched a two-hitter yesterday as Beta Sigma Psi downed Phi Kappa Theta, 5-0, to advance to the semi-finals in the intramural softball playoffs in the fraternity division.

The playoffs will begin today, with YMCA meeting the Jokers at 4:15 p.m. on the northwest City park, and Sigma Alpha Epsilon playing Delta Upsilon at 5:15 p.m. on the southwest City park.

# KSU Engineer Chosen To Attend Institute

Larry E. Erickson, ChE Jr, is one of 20 outstanding college juniors who has been awarded a scholarship to the fifth summer conference at Rensselaer Polytechnic Institute, Troy, N.Y.

The special summer conference on "Science of Materials" will be July 20 to August 28. It will be possible for Erickson to earn six hours of undergraduate or graduate credit by participating.

The Rensselaer program is designed to give gifted students added stimulation and to encourage their interest in graduate study related to materials problems.

## Block and Bridle

James Lonker, Ag Jr, won the senior division of the Block and Bridle livestock judging contest

Saturday in the Animal Industries building. Hall Moxley, Ag Soph, won the junior division.

Winners of the individual classes of the junior division were James Lindahl, quarter horses; Sheldon DeLange, FT Fr, swine; Del Allen, AH Fr, sheep; and Hall Moxley, Ag Soph, cattle.

Winners of the senior division classes were Gary Cromwell, AEd Jr, quarter horses and sheep; and James Lonker, Ag Jr, swine and cattle.

## Ag Ed Club

A semi-annual election of officers for the Agricultural Education club will be tonight at 7.

Candidates nominated by the present officers: president, Dean Beck and Bill Fuller; vice president, Darrel Odle and Fred Clary;

secretary, Larry Larson and Larry E. Johnson; reporter, Ted Samuelson and Fred Delano; treasurer, Steve Miller and Rex Ladner; sentinel, Ralph Holliday and George Cranston; parliamentarian, Herb Wenger and Dean Knewton; Ag council, George Racette and Ron Hill; adviser, Prof. Howard Bradley; assistant, Prof. C. O. Jacobs.

## K-State Players

The annual Oscar awards banquet and Pi Epsilon Delta initiation will be May 16 at the Wareham hotel, it was announced at the K-State Players meeting recently.

Re-elected as president of the Players was Jim Johnson, Sp Jr. Other officers elected were Tausca McClintock, BAA Fr, vice presi-

dent; and Patsy Dunning, ML Fr, secretary-treasurer.

## Ag Magazine

Medals for two or more semesters of outstanding work on the Ag Student magazine have been presented to Ruth O'Hara, HEJ Sr; Kenneth Hylton, AgJ Sr; and Richard Vanderlip, TA Jr.

Chester Peterson Jr., AgJ Sr, and Fred Beeler, TJ Fr, received medals for their work on the magazine this semester.

## Russell Award

Two juniors with straight-A grade averages have split the annual Margaret Russell award and the honor of ranking highest scholastically in the School of Arts and Sciences.

Frances Schwartz, BMT Jr,

and Mary Sue Hiebert, BPM Jr, were each awarded \$17.50 from Phi Alpha Mu, arts and sciences honorary for women.

## SC Will Approve New Selections

The Student Council will approve committee appointments tonight at its final meeting of the year, according to Sid Jones, VM Soph, Council chairman.

The Council also will make final revisions in the budget request and elect three members to accompany Steve Douglas, Gvt Jr, student body president, to the National Students association convention at Illinois university this summer.

VOLUME 65

Kansas State University, Manhattan, Kansas, Wednesday, May 13, 1959

NUMBER 143

## Top Actors, Actresses To Get Oscar Awards

Top K-State Players actors and actresses will receive Oscars at the annual Oscar awards banquet Saturday at 5:30 p.m. in the terrace room of the Wareham hotel.

Nominations for the leading actor award have been given to John Stricklen, Sp Gr; Glen Rhea, Sp Jr; Doug Moore, Ar 04; and Hank Kamerman, PrV Soph.

Leading actress nominations have been given to Patsy Dunning, ML Fr; and Laurel Lee Johnson, TJ Soph.

Eleven students have been nominated for the supporting actor award. They are Jack Macy, Psp Soph; Jim Johnson, Sp Jr; Paul Longhofer, SED Jr;

Ken Nakari, Sp Jr; Jerry Holloway, Sp Fr; Darwin Klein, BAA Jr; Art Crider, Sp Fr; Ken Keefer, Sp Jr; and John Weiland, SED Sr.

Nominees for the best supporting actress award are Wendy Helstrom, Sp Jr; Helen Varney, HEW Soph; Alice Ott Rhea, Sp Soph; Lu Richards, Sp Soph; and Zona Bolton, Sp Fr.

Backstage girl award nominees are Jane Adams, Sp Fr; Martha Atkins, Sp Jr; Bev Brewer, His Soph; Miss Bolton; Miss Dunning; Betty Crawford, Sp Sr; Linda Roy, EED Soph; and Gwen Wess, Sp Soph.

Landon Friesen, Soc Sr; Richard Bohn, Ed Gr; Jim Johnson, Sp Jr; Elliott Parker, EE Soph; Larry Hall, EE Soph; and

Nelson Rudy are nominees for the backstage boy award.

In addition to the six Oscars, an All-Star award will be presented if a majority of the votes are cast for one person in a write-in ballot. In the case of an All-Star award, the person deserving of honor in all phases of the K-State theater would be selected.

The All-Star award has not been given for nine years, because of the lack of a majority vote for one person. Only the active members of the K-State players are eligible to vote.

Awards will also be given for the fall and spring one-act plays. These awards include the best director, best actor, best actress, best supporting actor, best supporting actress, and best bit part.

## H.E. Assembly Will Honor School's Top Scholarship

Recognition of outstanding scholarship in the School of Home Economics and presentation of home economics scholarship awards will be tomorrow at 4 p.m. in the Union little theater.

Doretta Hoffman, dean of the Home Ec school, will introduce the student with the top grades in each class. She will also present certificates to students who rank in the upper 3 per cent and the upper 10 per cent of their respective classes.

Recipients of the Martha S.

Pittman, the Margaret Justin Home Economics club, and the Danforth scholarships will also be announced at the annual assembly.

New home ec club presidents and Omicron Nu members will be introduced, the interest award will be given to the outstanding home economics club of the year, and new Home Ec Council officers will be installed at the assembly.

## ROTC Question Put in Committee

Faculty Senate decided to refer the question of optional ROTC to a committee at its meeting yesterday, according to William Amstein, Senate president.

The question of required physical education for both men and women students was tabled until the next Faculty Senate meeting, which will be June 9.

## Alumni Day Will Stress Knowing KS

A "Know Your University" program will be a special feature for the Kansas State University Alumni Day Saturday, May 30, according to Kenney L. Ford, alumni secretary.

Purpose of the program is to bring returning K-State alumni up to date concerning University programs and activities. Between 10:30 and 11:30, returning alumni will have the opportunity to choose whether to attend six talks and two open houses.

The talks will be by George Filinger, professor of horticulture, on the technical assistance program in India; Kenneth Heywood, director of endowment and development, on the development fund; Herbert Wunderlich, dean of students, on modern student personnel viewpoints; C. M. Correll, University historian, on "The Story Behind the Story;" and Paul Young, acting dean of the School of Arts and Sciences, on the broadening program in arts and sciences.

Members of the home economics staff will discuss advance in this field at a coffee hour. The open houses will be in veterinary medicine and agricultural engineering.

The "All Grads" luncheon will be at noon at the K-State Union. The event traditionally has been Saturday evening. President James A. McCain will review "The State of the University" for the alumni.

## Council Approves Orpheum Sponsor

The Student Council last night approved Student Activities board recommendations that the 1960 Y-Orpheum be produced under the sponsorship of the Union and that a student-faculty committee decide disposal of the proceeds.

Bill Taylor, ME Jr, and Larry Bingham, BA Fr, were appointed by the Council to discuss the situation with the Union Governing board later this week.

The YMCA, which received 25 per cent of the net proceeds this year and all the profit in past years, had its recognition as an official campus activity taken away Monday by SAB.

The Council also elected Jim Lisher, Ec Jr; Barbara Huff, Gvt Jr; and Marilyn Hanson, HEX Soph, to accompany Steve Douglas Jr, student body president, to the National Students association convention at Illinois university this summer.

An SGA budget request of \$4,335 was approved and will be submitted to the Apportionment board. This is \$600 less than the 1958-59 budget, but the 58-59 budget included \$1,200 for publishing the Student Directory.

The Directory now has been turned over to the Board of Student Publications. SGA expenditures for the year up to May 1 were \$5,521.95.

SGA budget items and money requested for each:

Cheerleaders, \$730; elections, \$200; freshman orientation, \$165; K-book, \$300; Homecoming, \$50; Parents Day, \$175; queen funds, \$250; Student Council, \$750; SGA recognition, \$125; SGA president's salary, \$360; senior honors, \$150;

Travel and conferences, \$600; public relations, \$150; secretarial staff, \$180; funds and drives, \$50; and pep co-ordination, \$100.

## Grad Announcements Available in Kedzie 101

Graduation announcements may now be picked up in Kedzie 101. Extra announcements are on sale on a first come, first served basis. They will be sold for cash only.

## \$9,600 Is Granted To Experimenters

Basic research on how intermittent blasts of air or liquid affect the transfer of heat from a plate will be conducted in the Kansas State university engineering experiment station with the assistance of a \$9,600 grant just received from the Office of Ordnance Research for the United States Army.

While some data is available on the cooling effects of steady blasts of cooling air or liquid, the effect of a non-steady blast is a basic heat transfer problem which has not been solved.

There is some indication from earlier work done by Ralph G. Nevins, senior investigator for the project, that there may be fundamental differences in the cooling phenomenon between steady and nonsteady cooling blasts.

Nevins, head of the mechanical

engineering department, did his first work in 1952. During the past year, he and another staff member, Louis C. Burmeister, resumed research in this area, and Burmeister currently is devoting full time to the investigations.

Wilson Tripp of the mechanical engineering staff is a consultant on the project, while the White Sands Missile range has technical cognizance of the project and is maintaining scientific liaison.

While this is basic research with no visible applications at the moment, Nevins said cooling problems involving nonsteady flow of air or fluids are found in many areas of technology, including metal cutting, dental drilling, jet blast erosion, unsteady combustion in rocket chambers, and certain production drying processes.

## Stories Add Up on New Dorm

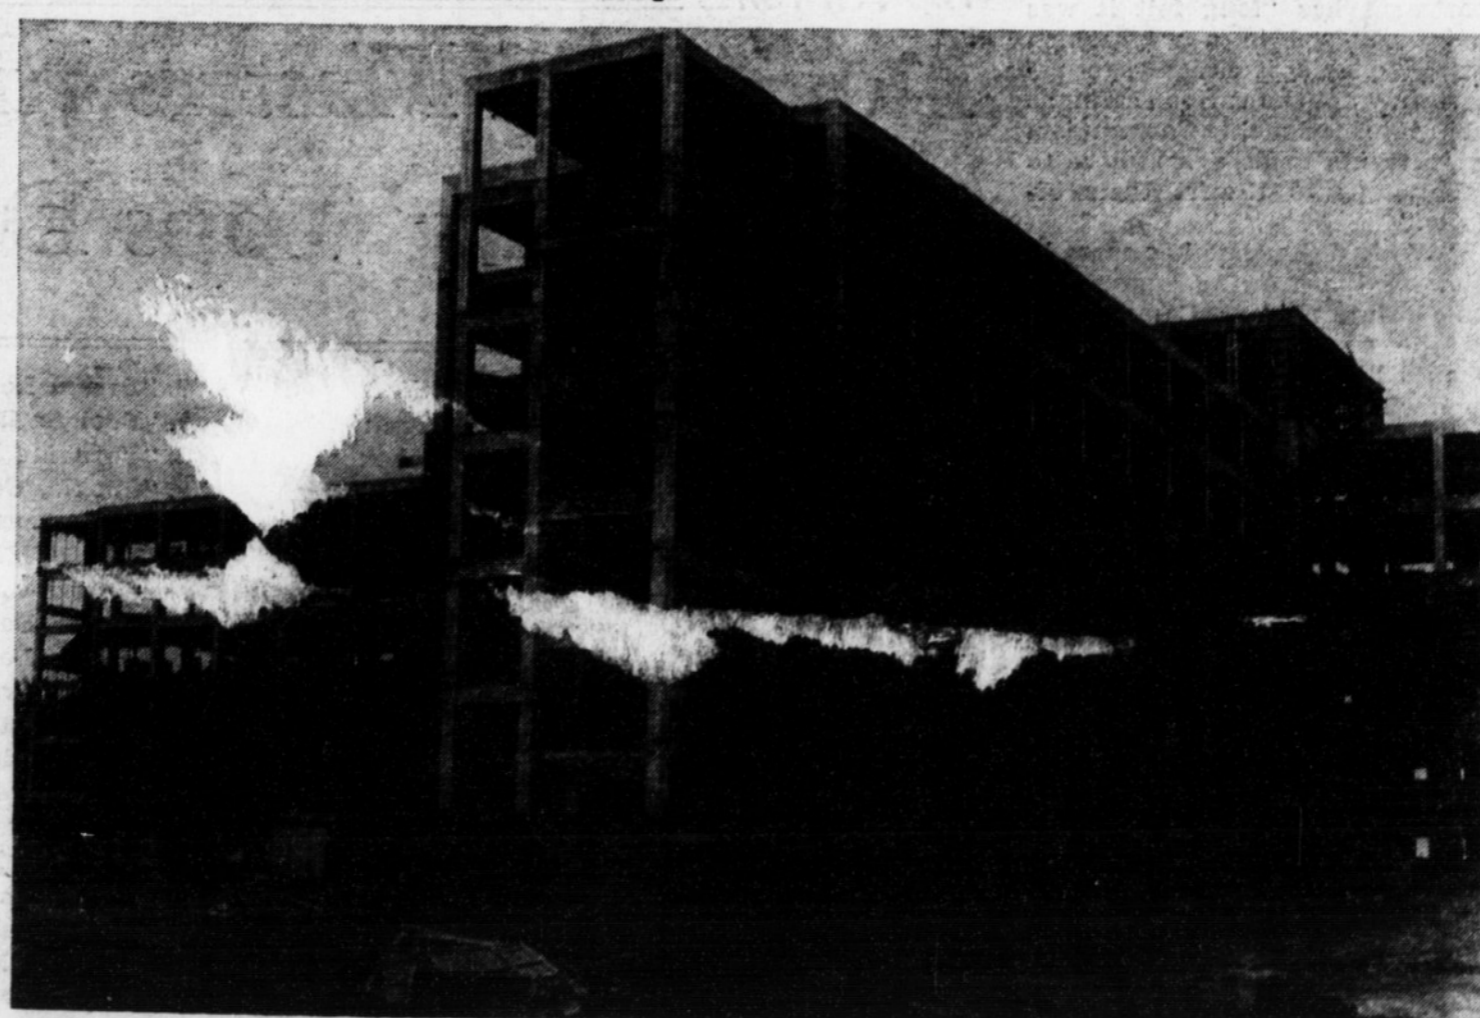

Photo by Jon Peterson

CONSTRUCTION on the new men's residence hall, the first dormitory of its kind at Kansas State university, continues at a rapid pace. The dorm, one of two to be built, will house 600 men. Cost of the building has been set at \$2.5 million. It is scheduled to be ready for occupancy next fall.

## K-State Endowment Picks Five Seniors As Representatives

Five senior students have been chosen to represent the class of '59 in the Kansas State Endowment association. The students were selected by a group of association members from recommendations by department heads and deans.

The students and the schools they will represent are Dwight Glenn, DM Sr, agriculture; Andy Stewart, VM Sr, veterinary medicine; Mack Boelling, BPM Sr, arts and sciences; Alberta Timm, TxC Sr, home economics; and Ralph Scott, ME Sr, engineering and architecture.

The students will serve as lifetime representatives of their class in the Endowment association. Their main duty will be to yearly inform each 1959 graduate of their school of the activities and needs of the association.

This marks the second year that a representative has been chosen from each of the five schools. Previously, only one member from each graduating class was chosen. The association now has approximately 80 members.

# Herter Will Utilize Maneuvering To Force Reds to Basic Talks

Compiled from UPI  
By JOHN HOKANSON

Geneva—Soviet Foreign Minister Andrei Gromyko today dashed hopes of an early East-West agreement on Germany when he told West German Foreign Minister Heinrich Von Brentano the Kremlin would not compromise on its German plans.

Gromyko, in an hour-long conference with Von Brentano before today's conference session, gave a flat "no" to Western plans for reuniting Germany and said only the Russian plans could be considered here.

The East-West Foreign Ministers conference already was stalled on Gromyko's demands to seat Communist Poland and Czechoslovakia, and the United States was preparing steam roller tactics to try to get the meeting started on the basic problems of West Berlin and Germany.

Secretary of State Christian A. Herter was today's chairman of the East-West meeting and American sources said he would plunge immediately into a discussion of the Berlin and German issues without waiting to hear what the Russians had to say.

As chairman, Herter could call on Britain, France, and himself to deliver opening speeches before he even recognized Gromyko. American sources said he hoped such maneuvering would lead Gromyko to drop his demand for satellite recognition.

High American officials said Herter was convinced that Gromyko, despite his harsh words, was prepared to give ground soon in order to permit the conference to proceed with its work.

The new American secretary, who so far has shown himself to be a tough negotiator, was reported to be operating on the assumption the Russians are too anxious for a Summit meeting

to jeopardize the chances of holding one.

## Wheat Quotas Delayed

Washington—Sen. Milton R. Young (R-N.D.) said today he is losing hope for passage of any wheat legislation in 1959.

Young, leader in Senate efforts to write a stopgap wheat bill, said that if there is no action this year, the size of the wheat surplus may force Congress to kill the wheat program.

Such a step would drop supports for wheat, just as Congress once wiped out supports for potatoes. Other congressmen fear if the wheat program collapses, it will be hard to keep strong support programs for other major crops.

The House yesterday passed and sent to the White House a measure to put off until June 1 official announcement of Federal wheat controls for the 1960 crop. Under present law marketing quotas for the 1960 crop must be proclaimed by May 15.

## Senate Questions Dillon

Washington—The Senate battle over President Eisenhower's appointees today moved behind closed committee doors.

The Senate Foreign Relations committee called C. Douglas Dillon into a closed session to face questioning about secrecy in the foreign aid program. Dillon has been nominated as undersecretary of state—the number two job in the State department.

Committee chairman J. William Fulbright (D-Ark.) said he hoped the committee could act today on the nomination. An unexpected flareup at a public hearing yesterday over administration of the foreign aid program forced postponement of a committee vote.

But Dillon appeared assured of approval.

The Senate Commerce committee scheduled a closed meeting to discuss how to end the

lengthy hearings on the nomination of Commerce Secretary Lewis Strauss.

Chairman Warren G. Magnuson (D-Wash.) said the Committee would weed out the list of prospective witnesses. Magnuson said he still hoped to end the hearings this week.

## JCS Head Progressing

Washington—Gen. Nathan F. Twining, 61-year-old chairman of the Joint Chiefs of Staff, was believed making satisfactory progress today following removal of the upper lobe of his left lung.

His post-operative condition late yesterday was described as "very satisfactory."

The Defense department at that time said Walter Reed hospital physicians anticipated no further statement for 48 hours, barring a change in Twining's condition.

The surgery was undertaken to determine the cause of suspicious findings that showed up in a recent chest X-ray examination. The Department said the X-rays were taken 10 days ago when Twining entered the hospital for his annual physical check-up.

Twining, an Air Force general, was nominated by President Eisenhower recently for a second two-year term as chairman of the Joint Chiefs.

## Air Crashes Claim 33

Baltimore, Md.—Investigators sifted the scattered wreckage of a Capital Airlines Viscount today seeking the cause of the explosive crash which killed 31 persons.

The CAB called a morning conference of investigative teams to analyze the findings of experts who were rushed to the scene 17 miles northeast of Baltimore shortly after the crash at 5:15 p.m., EST, yesterday.

The jet-prop plane, Capital's flight 75 from New York to Atlanta, disintegrated in the air. The mangled bodies of its 27 passengers and four crew members were scattered over a quarter-mile area.

It was the second disaster to strike the airline in less than an hour. A Capital-operated Constellation, also bound for Atlanta, skidded and crashed on landing at Charleston, W.Va., killing two of the 43 persons aboard. The plane fell off a 250-foot embankment and burned. Twenty-eight occupants were injured.

## Top Ten Tunes

# Dodie Still Masters Jukeboxes; 'Kansas City' Tops Disc Sales

By Don Johnson

Appearing on the top ten listings for the seventh consecutive week, Dodie Stevens' "Pink Shoe Laces" retained the No. 1 spot in jukebox plays it gained last week.

Brooks Benton's popular "Just a Matter of Time," No. 1 last week in Manhattan record sales, slipped off the survey this week, but stayed on as No. 2 in jukebox plays. It was replaced by Wilbert Harrison's "Kansas City," which is also No. 4 in jukebox plays. Rocky Olson's recording of the same record was No. 8 on the record survey last week.

Other recordings on the juke box poll for the first time are "Quiet Village" by Martin Denny, "Dream Lover" by Bobby Darin, "Turn Me Loose" by Fabian, and "Cookie, Cookie Lend Me Your Comb" by Barn and Stevens.

THE JUKE BOX poll for Manhattan this week:

1. "Pink Shoe Laces"—Dodie Stevens
2. "Just a Matter of Time"—Brooks Benton
3. "Teenager in Love"—Dion and the Belmonts
4. "Kansas City"—Wilbert Harrison
5. "Enchanted"—Platters
6. "Quiet Village"—Martin Denny

## Readers Say—

# Clement's Message Is Appropriate; Text Is Dynamic, Forceful, Fitting

Dear Editor,

In regard to the speech by Frank Clement at the assembly Friday and your editorial in the Monday Collegian, I would like to advance the following opinions.

First, I believe that Clement's speech was very appropriate for the occasion, and for the type of audience he was addressing. What more fitting theme might be used than that of national and world leadership with an elaboration upon the capabilities of an enlightened youthful citizenry to participate in such leadership and upon the need of a strong stand in world affairs by our nation?

Secondly, relevant to Clement's advocating a strong stand in world affairs by our nation, it was very meaningful to those of us who have so often wondered if the men who fell at our side in Korea didn't die in vain as a result of a weak and undecided policy on the part of the United States in relation to China during the Korean war. And it no doubt was just as meaningful to the student of this conflict as well as those who share the belief that the position of our country relative to the Hungarian situation was not morally justified.

Thirdly, I have listened to the speeches of major political figures since those of F.D.R. during WW II, to those of President Eisenhower, and although almost all of them who professed to be Christians referred publicly to God, they did so in a very vague sort of way. In direct contrast, Clement very forthrightly and unashamedly referred to the Deity of Christ and tied the subject in very well with his speech. Important? Considering that according to the University catalogue 95 per cent of the students enrolled at KSU state a religious preference and that the vast majority of these are Christians, and further considering that those who profess to be Christians cannot agree with the old adage that states that religion and politics make strange bedfellows, I believe that this was a significant point in Clement's speech.

In light of these viewpoints, I cannot agree with you that Clement merely "made many disconnected and vague statements . . . which added up to practically nothing," or that he had "so little to say to the leaders of tomorrow."

Opinions upon integration and politics at the national level can be heard on every side without even asking for them, but it is seldom that we are privileged to hear as dynamic, forceful, and fitting a speech put forth to a group of students and their staff as was presented by Clement.

Sincerely yours,  
Wilmer E. Sedivy, PrV Soph.

# Federal Agency Wants Anti-Red Brain Trust

By UPI

Washington—The State department wants to set up a "brain trust" whose sole duty would be to master-mind global political and economic warfare against the Communists.

The plan was disclosed today when a House Appropriations subcommittee made public testimony given last February by State department officials.

Undersecretary of State C. Douglas Dillon, Deputy Undersecretary Loy W. Henderson, and others warned that the Communist offensive had picked up to such an extent that the United States has to move fast to counteract it.

They urged that Congress provide enough money to create a special staff that would devote full-time to analyze the Red moves and how to combat them.

The plan drew a cool reaction from Subcommittee chairman John Rooney (D-N.Y.) who said he thought the State department had been doing just that for the past 15 years.

Henderson explained that the Soviet economic offensive has grown in strength from five to 10 times during the last two years. Never have the Commun-

ists acted on such a broad systematic scale, he said.

He said the Reds are "fanning out into every section of the world" with their offers of aid, loans, technical assistance, and trade. He called it "an all-out attack on the free world."

Henderson said the State department has "long felt it was not organized in a way which would enable it quickly to ascertain what the various columns of international Communism were trying to do everywhere to take steps to thwart their efforts."

"We feel the time has come in view of the growing aggressiveness of international Communism in the economic field that we should have a global approach," he declared.

"Dillon warned it has become 'perfectly clear' the Russians are now making major use of economic weapons" to bring the world under Communist domination.

He said the State department now keeps tabs on the Red economic offensive through its various regional bureaus. But he admitted they "frankly emphasize only what is happening in their own respective areas."

# Rex Stucker Possible Threat In Olympic Games Next Year

By JOHN PETTERSON

Rex Stucker, K-State's ace sophomore hurdler, could be a threat in the Olympic games next summer, in the opinion of Ward Haylett, Wildcat head track coach.

"If Stucker stays in condition to hold his speed, he could make the 1960 Olympics in the 440-meter hurdles," said Haylett.

"My goal is the same as many other track men—to run on an Olympic team," said Stucker, who holds the K-State varsity indoor record and shares the Ahearn field house record in the 60-yard lows.

He set the varsity mark when he clocked 6.8 in the preliminaries at the Big Eight indoor meet at Kansas City last February. His time of 6.9 in a triangular meet last January with Iowa State and Colorado tied the Field House record set by Corky Taylor.

The hurdles is not Stucker's only event. Haylett plans to use him not only in the highs and the lows, but also in the 100-yard dash and the 440-yard relay in the conference outdoor meet this weekend at Norman.

Stucker, however, prefers the 400-meter hurdles. "I like it best because it is more grueling and when I run it I feel I am accomplishing more," he said. "More emphasis is placed on strength and condition in this race, while in the high hurdles, speed and form are most important."

The event is in its first year of competition in the NCAA and the AAU, but is a regular event in the Olympics.

Haylett believes Stucker is as good as Gene O'Conner, former Cat hurdler, was in his sophomore year. "O'Conner was the taller and more powerful of the two," he said, "but Stucker is faster."

Stucker, who leads the Cat track team in scoring, was not only a top trackman in high school, but he also lettered in football as a halfback and in basketball as a guard. He attended high school at Atchison county high school in Effingham.

At the state prep track meet in Wichita his senior year, Stucker won both the highs and lows with times that were the best in the state for that year.

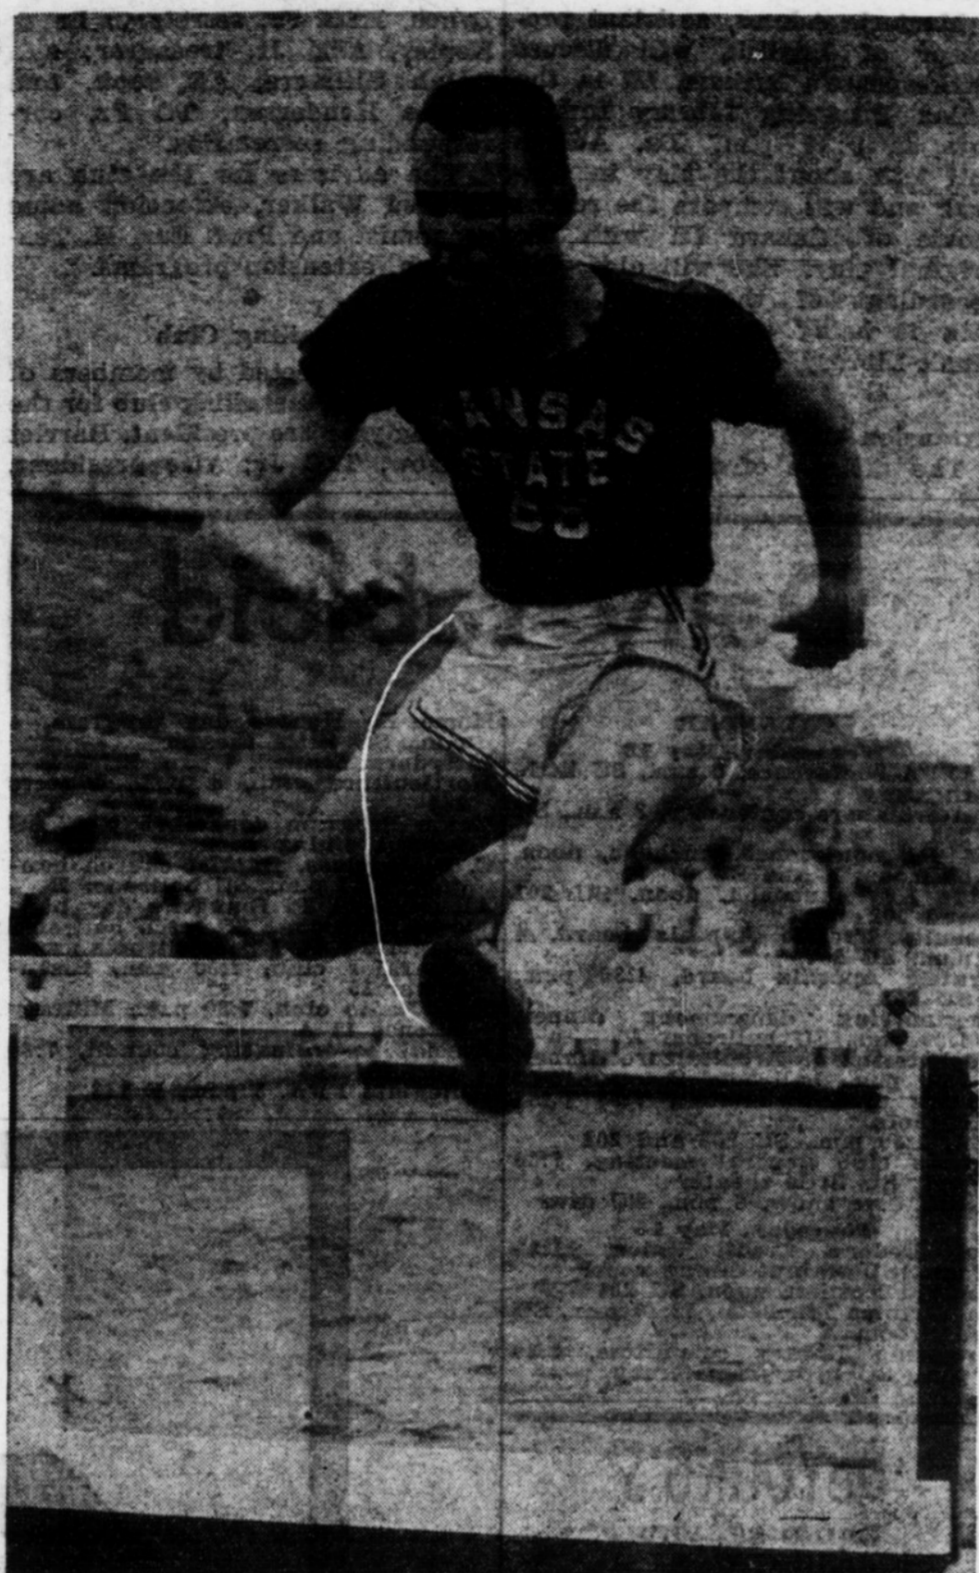

## Southeast, Van Zile Win IM Softball Playoff Tilts

Van Zile A defeated Gamma Phi Beta, 8-0, and Southeast hall B beat Alpha Delta Pi, 6-4, in women's intramural softball play-off games yesterday.

The win advanced Van Zile into the semifinals, where it will play Waltheim, with the winner playing Southeast for the championship.

# Colavito Leads Cleveland To 6-5 Win over Yanks

Rocky Colavito blasted his eighth home run, two doubles, and a single last night as the Cleveland Indians edged the New York Yankees, 7-6, for their third straight victory of the year over the slumping world champs.

Cal McLish gave up homers to Mickey Mantle, Elston Howard, and Yogi Berra, but still wound up with his fifth straight victory even though he needed relief help from Jim Perry.

The White Sox went 12 innings to beat the Red Sox, 4-3, and the Senators topped the Tigers, 7-4. Los Angeles climbed into a

tie for the National league lead with a 3-1 win over Philadelphia; Pittsburgh nipped San Francisco, 6-5, in 12 innings; St. Louis beat Cincinnati, 7-4, and Chicago licked Milwaukee, 7-3.

## Sig Alphas, YMCA Win Playoff Tilts

Sigma Alpha Epsilon routed Delta Upsilon, 13-0, and the YMCA edged the Jokers, 2-0, yesterday afternoon to advance to the finals in the intramural softball playoffs.

Roger Cramner pitched a no-hitter for the Sig Alphas and aided his own cause with a home run.

Darrell Rosenow threw a no-hitter and fanned 11 to win a tight pitching dual from the Jokers' Hector Puig. Puig allowed only two hits, both run-producing singles by Homer Kruckenberg.

Beta Theta Pi will meet Beta Sigma Psi today at 5:15 p.m. on the northwest City park field in the other fraternity semi-final tilt. The winner will meet the Sig Alphas for the title Friday.

YMCA will play West Stadium, which drew a bye into the finals, tomorrow for the independent championship.

## Tigers Forfeit League Games

By UPI

Defending Big Eight conference baseball champion Missouri yesterday forfeited the seven league games it won this season, including three against K-State, after it was discovered one of its players was ineligible.

Hi Simmons, who piloted Missouri to the NCAA tourney finals last year, wrote letters to all of the conference coaches expressing the wish that the Missouri victories be forfeited.

The ineligible player was Gene Orf, who was hitting .389 in the cleanup position. Conference executive secretary Reaves Peters discovered last week that Orf had passed only 22 hours of college work during the past two semesters instead of the required 24.

# KS Architecture Students Get Scholarships

Eight students in the Department of Architecture and Allied Arts have been awarded Paul Weigel scholarships in architecture for the coming year.

The awards honor Paul Weigel, former head of the department. Weigel currently is in Turkey serving as architectural adviser to the Turkish government in the

planning of a new land-grant college. The Weigel scholarships range in value from \$100 to \$240.

Scholarship recipients include Carl Dean Gaede, Ar 04; Jan Edward Jester, Ar 04; Bill Dean Wunsch, Ar 04; Milton Burnett Martinson Jr., ArE Jr; Clifford Jack Gross, ArE Jr; Max Delmar Bishop, Ar 03; Gary Gene

Karst, Ar 05; and Carleton Wayne Van Deman, ArE Sr.

## Music-Library

Marjorie Adams, assistant professor of English, will discuss Shakespeare's Richard III in the Union Browsing Library tomorrow at 3:30 p.m. Dr. Adams will talk about the play in general, and will compare the recent movie of Richard III with the original play. She will also play recordings of the drama. The talk is being sponsored by the Music-Library committee.

## Extension Club

The officers of the University

Extension club for the next year are Gloria Ousdahl, HDA Jr, president; David Woolfolk, AE Soph, vice-president; Carolyn Lynch, HEX Fr, secretary; Larry Kepley, AEd Jr, treasurer; and Ralph Gillmore, AE Soph, and Elaine Henderson, TC Fr, corresponding secretaries.

The advisers for the club are Mildred Walker, extension home economist and Prof. Earl H. Teagarden, extension programs.

## Clothing-Retailing Club

Officers elected by members of the Clothing-Retailing club for the coming year are president, Harriet Tedrow, TxC Jr; vice president,

Carole Gaede, TxC Jr; secretary-treasurer, Janice Forbes, HEA Soph; and notifications chairman, Karen Richel, TxC Fr.

## Interdorm Council

Betty Mai, HT Jr, has been elected president of Interdorm council for next year. The other new officers will be elected next fall.

A committee from the council is making revision in the "Women's Residence Halls" policy booklets.

## ASAE

The annual picnic of the American Society of Agricultural Engineers will be tomorrow, at Sunset Park. A softball game with the freshmen and sophomores playing the juniors and seniors will begin at 4:20 p.m., and the meal will start at 5:45 p.m.

Members may invite guests to the stag party. LeRoy Pickett, AgE Jr, urges all ASAE members to be present at the picnic.

**DEGREE CANDIDATES** picked up graduation announcements in Kedzie hall yesterday for the May 31 commencement. All extra announcements were sold by noon, and a re-order, expected in by noon today, was necessary to fill orders of graduating students who failed to order early.

# Council Okays Change In Commencement Setup

A new system of conferring baccalaureate degrees has been approved by the Administrative council and will be in effect for the May 31 graduation, according to A. L. Pugsley, dean of academic administration.

Graduates will, for the first time this spring, be presented to the President collectively by their respective deans; degrees will be officially conferred by the President; and diplomas will be given simultaneously at five tables representing the five undergraduate schools. The tables will be in front of the stage in the Field House.

Masters and Doctors degrees will be conferred in the original way, according to Pugsley.

"Previously, every student

walked across the stage to receive his degree," said Pugsley. "The new system will shorten the program by at least 1 1/4 hours," he said.

The new system of conferring degrees was recommended by the Commencement committee and the senior class officers.

Also approved by the committee was a plan, which will be ef-

fective after the summer session, to eliminate all commencement exercises except the spring commencement. Students who graduate after the summer or fall term will receive diplomas at that time but may participate in the spring commencement if they wish to. Spring graduates will be expected to participate unless excused.

## President McCain To Give Degrees

A total of 1,066 K-Staters are candidates for degrees to be conferred at commencement exercises May 31 at 2 p.m. in Ahearn field house by President James A. McCain. Harry Valentine, Clay Center, member of the Board of Regents, will greet the graduating class.

The highest number of degrees given at K-State was in the year of 1949-50 when 2,121 students graduated.

Last year the total number of degrees, including summer and fall graduates, was 1,600.

Degree candidates:

Doctor of Philosophy—Buddha Appalanaidu, Bot; Raimo Bakis, Pys; Jack Lynn Bishop, Ent; Robert Frederic Borgman, Bot; Theophilus Chellappa, Bot; Clinita Arnsey Ford, FN; LeRoy F. Grantham, Ch; Doyle J. Matthews, AH; Uma Kant Misra, Ch; Gene Franklin Morris, Ch; Milton Tamotsu Ouye, Ent; Maria Salome E. Del Rosario, Bot; Hassan Rouhandeh, Bac; Robert Gene Simpson, Ent;

Master of Science—Frederick

Gene Acuff, Soc; Russell Stanley Adams Jr, Agr; Marju Bakis, ML; Robert Daryl Bechtel, Mth; Melvin McLeod Bollinger, BA; Margaret Ann Williams Boren, Ent; William Bunyan, Zoo; Charles Alan Burton, ME; Yung Ping Chang, Hrt; Yu Yen Cheng, Mid Rodney Mahlon Cole, Sp;

(Continued on page 3.)

## Week Break Each Spring Is Approved

A week-long spring recess has been approved by the Administrative council.

The spring recess, which will replace the Easter holiday, will follow the ninth week of the spring semester. Pugsley said the recess will be more desirable from an academic point of view, since it will come at the same time each spring, and it will give students an opportunity to rest after mid-semester examinations.

Pugsley said adoption of the spring recess will actually shorten the school calendar by one-half day. This is possible since the University is eliminating the holiday time at Easter, and is dropping the days which have been set aside each fall and spring as athletic holidays. Another tradition which is being discarded is the half day holiday on Saturday mornings when the K-State football team plays at either the University of Nebraska or the University of Kansas.

## State Union Leader Will Speak Tonight

Willard Murphy, head of the state packing house workers, will speak on the "After Effects of the Right to Work Bill" at the Young Democrats meeting in Union 207 tonight, according to Walt Mayden, ChE Sr, president. Murphy, who is from Topeka, will lead a discussion following the talk.

The meeting is open to all students and faculty. Election of officers will conclude the meeting.

## Typical Chinese Style To Be Featured In Coming Production of K-State Players

Typical Chinese theater style will be demonstrated Friday and Saturday evenings when the K-State Players present "Land of the Dragon." This fourth major production of the Players will be in the University auditorium at 8 p.m.

The play, a Chinese Fantasy, uses no scenery. A stage manager announces and describes all of the scenes, and the audience must then visualize the scenery. Property men carry on and off the stage the few chairs and other properties that are needed. Cast members will wear bright costumes to add to the Chinese style.

The Manhattan Children's theater is working in conjunction with the Speech department to produce the play. Instructor of Speech Carolyn Hunt is directing the play, and Laurel Lee Johnson, TJ Soph, is her assistant. Asst. Prof. of Speech, Don Hermes, is in charge of the properties, and Prof. of Electrical

Engineering, O. D. Hunt, will control the lighting.

Sharon Adrain, BMT Soph, will play the part of Precious Harp, and Nelson Rudy, Ar 01, will be the Road Wanderer, a handsome young student.

Wicked Lady Precious Harp has told the beautiful Jade Pure she is ugly so no one will want to marry her, then Precious Harp would become the Empress. Precious Harp is fooled in her plot by a student, Road Wanderer, who has a pet dragon.

The Road Wanderer rescues Jade, but soon leaves her for her ingratitude. In a decree by Jade to the kingdom for a husband with a dragon, not one but three dragons are produced.

The children in the play are Jean Buzenbert, Princess Jade Pure; Sheila Sullivan, twenty-first cousin; Sarah Dallas, twenty-second cousin; Gena Good, twenty-third cousin; Kirk Smith, twenty-fourth cousin;

Jeff Carmaday, Covet Spring; Doc Courser, the small one (dragon); Jim Attebery, prop man No. 1; Danny Piper, prop man No. 2; and Mike Larson, stage manager.

## Moonwatch Lunch To Be Tomorrow

A Moonwatcher's luncheon and informal discussion will be tomorrow at noon in the President's dining room.

Mason Southworth, head of the American Radio Relay league which studied the behavior of radio waves in the atmosphere during the International Geophysical Year, will be present at the luncheon.

An inspection of the K-State Moonwatch station situated west of Zeandale on highway K-18 will precede Southworth's visit to the campus.

# Kansas State Collegian

VOLUME 65

Kansas State University, Manhattan, Kansas, Thursday, May 14, 1959

NUMBER 144

## Apportionment Board Begins Tentative Fund Allocations

The Apportionment board met yesterday afternoon to determine tentative allocation of \$218,860, the estimated total student activity fund for the 1959-60 school year.

The board faces the problem of trying to reconcile approximately \$243,000 in requests of campus organizations to the amount available for distribution.

The board makes only tentative distribution of the funds at its spring session, leaving final allocation to the fall meetings.

Nearly all expected requests had been received before yesterday's meeting. The request of the K-State Union is the only major request not yet received although an estimate of the Union's requirement is included in the \$243,000 total.

The estimated net receipts for the fall semester are \$106,276.

This figure plus the spring term estimate of \$100,962 and an undistributed balance carried forward of \$11,621 make up the total funds available of \$218,860.

The estimate of net receipts was computed on the basis of an expected 1959-60 enrollment of 6,780 students each paying \$16.50 into the student activity fund. The figure thus determined is adjusted to allow for withdrawals to reach the final estimate.

This year's total of requests is nearly \$43,000 greater than the funds actually distributed during the period from July, 1958, through March, 1959, while the estimated funds available is up only \$8,400 from the total actually distributed during the same period.

The board adopted the policy of basing its tentative appor-

tionments on the 1958-59 enrollment. If next year's enrollment deviates from this figure, adjustments will be made at the fall meetings of the board.

Representatives of six campus organizations appeared before the board yesterday to justify their requests for allocations. Additional hearings are scheduled for this afternoon.

The Board will continue to meet until the tentative apportionments are completed.

## Faculty Traffic Board Okays Four Appeals

Approval was given on four appeals for parking tickets by the Faculty Traffic Appeals board yesterday afternoon.

In one appeal, approval was given because the driver didn't know the regulations concerning leaving a car parked while going into a building.

A ticket given for parking in a loading zone was approved on the grounds that the driver was using the zone to unload materials for a Hospitality Day exhibit.

Two appeals were approved due to confusion that resulted

from the signs behind Anderson hall concerning late night parking.

A fifth member was automatically guilty because he failed to appeal before the board. Susan Abrahams, PrV Soph, was also automatically guilty because she failed to appeal before the Student Traffic Appeals board.

Roy E. Jeffery, CE Sr, appealed two tickets he received on the same day for illegal parking. The board ruled him guilty on the first ticket because he was illegally parked and approved the second appeal.

# Pomp, Ritual of Commencement Serves No Worthwhile Purpose

WE FAVOR the simplest, quickest way of completing commencement exercises—if it is necessary to have them at all.

So it seems to us the Commencement committee, senior class officers, and the Administrative council made a smart move in initiating the new system for conferring degrees to go into effect this spring.

We do not believe in all the pomp and circumstance—the caps and gowns and ritual of commencement. The new system of conferring degrees will save approximately 1 1/4 hours, according to A. L. Pugsley, dean of academic administration. We think it is a good idea.

Our reasons for favoring shortening and the simplification of commencement can be listed:

1. Caps and gowns are a foolish waste of money; it is difficult to escape the exercises and thus escape the expense;
2. The whole process is merely clinging to a useless ritual;
3. We see no worthwhile purpose in the commencement ritual. We do not believe it makes the degree any more or any less important. In fact, we don't believe it af-

fects it in any way and therefore is merely a waste of time and money.

ONE THING about the Administrative council's ruling on commencement bothers us. It is doing away with commencement completely for summer and fall semesters, but still having one in the spring in which summer and fall graduates may participate—if they wish. Spring graduates are "expected to attend unless excused." And it hasn't, in the past, been easy to get excused.

Why, we say, should one group be "expected to attend" while the other groups may participate "if they wish to"? The exercises, of course, should be optional for all graduates. It seems obvious to us that those who devised this plan do not believe the commencement is important to the graduate himself. If they did, they would "expect all graduates to participate" instead of just those graduating in the spring semester.

IF IT WERE important enough to require for one group, it would be important enough to require for all three groups.—st

## Allies Challenge Reds To Free Berlin Voting

By UPI

Geneva—The Big Three Western powers challenged the Soviet Union today to permit free elections in Communist East Berlin if the Russians really want to end the occupation of the divided city.

In return the West offered to join Russia in limiting troop strength in Central Europe and permitting ground inspection against surprise attack—an old proposal by Soviet Premier Nikita Khrushchev.

Secretary of State Christian A. Herter and the foreign ministers of Britain and France were presenting the proposal formally at today's session of the Foreign Ministers conference.

Some details of the plan had leaked out in advance and Soviet Foreign Minister Andrei Gromyko rejected it in advance as a "muddle . . . a tight knot which would be quite impossible to untie no matter how much it is desired."

The entire peace package so interlocked that the eventual merger of East and West Germany into one state depended on progress on such basic issues as immediate co-operation be-

tween the two governments and progress on such matters as disarmament.

The Allied plan was in three major steps.

The first called for the unification of Berlin through "all-Berlin" elections that would give the Germans in the Communist-ruled half of the city a free vote alongside their already free neighbors in West Berlin.

The first step also called for creation of a "commission" of representatives from East and West Germany, appointed by the rival governments. The West asked 20 agents from West Germany with its population of 48 million and ten from the East with a population of 17 million.

In the second phase, German elections would be halted for 2 1/2 years. After that period there would be active preparation for the all-German vote and reunification of East and West Germany.

During this period there would be a gradual establishment of arms inspection zones in Central Europe with ground troops to be limited as agreed later. The United States and Russia would limit their ground forces to 2.5 million each and nuclear, bacteriological, and chemical warfare would be renounced in Germany and East Europe.

In the third phase would come a peace treaty restoring a free, united Germany under a single government to the family of nations.

Only then would East and West face up to the bitter dispute over German lands taken over after World War II by the Communists east of the Oder and Neisse rivers—an area now given to Poland.

By then the disengagement in Central Europe would be completed, international tensions would have been eased there and Russia and the Allies would give up their occupation rights in Germany.

### World News

## West Presses for Secret Meetings As Test of Soviet Union's Sincerity

Compiled from UPI  
By JOHN HOKANSON

Geneva—The West moved today to determine once and for all Russia's sincerity by pressing for secret meetings that would cut off the Soviet propaganda flow from the four-power talks here.

Soviet Foreign Minister Andrei Gromyko has not yet committed himself on the Western proposal. But observers said acceptance of secrecy in the talks would indicate strongly Moscow wants genuine negotiations.

They said a rejection would be tantamount to admission that the Soviet government looks upon the meeting mainly as a propaganda forum.

The suggestion to negotiate behind closed doors came yesterday from U.S. Secretary of State Christian A. Herter. It was firmly endorsed by Britain and France.

The Western nations believe secret talks will allow serious negotiations and reduce any temptation to talk to the grandstands.

Closed-door negotiations would also free the conference from the possibility of unwarranted interference from East German "advisers" sitting in at Geneva.

The East German Communists, anxious to make their presence felt at the conference, may offer strong opposition to secret talks.

The West Germans would have no objections since they are being fully informed by the Western Allies on every major move.

### Missing Plane Sought

Baltimore—Army intelligence agents investigated today the possibility that military secrets were stolen from the briefcase of a defense specialist killed in a Capital airliner crash near here Tuesday.

The victim was Charles W. Drannbauer of Kansas City, an employee of the American Telephone and Telegraph company, who was an expert in SAGE, a huge electronic system which warns of enemy attack and helps direct defenses.

A spokesman for AT&T in Kansas City was quoted as saying Drannbauer may have been carrying classified documents relating to SAGE. He was the supervisor of a group in charge of defense communications for

the Eastern Defense command.

The Baltimore News-Post said Drannbauer's briefcase was found in the wreckage but no documents were in it. The Defense department refused to comment on the Army investigation.

### Comedian Is Committed

San Francisco—Moon-faced comedian Jonathan Winters was committed by his wife last night to a private mental hospital.

The 32-year-old humorist was taken to the institution near here on the advice of psychiatrists, who found him "quite disturbed" and in need of "long-term" mental care.

Winters, master of a multitude of voice characterizations and comic facial expressions, had been showing signs of strain and recently joined Alcoholics Anonymous.

Winters was taken into custody for strange antics on San Francisco's waterfront. Psychiatrists recommended yesterday that he be committed to a private institution for "rest and quiet."

### Blimp Crash Kills One

Lakehurst, N.J.—A U.S. Navy blimp plunged into a hangar roof while making an instrument landing during a dense fog early today at the Naval air station here.

One officer was killed and all 17 other crew members aboard were injured.

It took rescuers more than six hours to reach the body of the dead officer, trapped in the wreckage about 125 feet above ground. A second officer, also wedged in the wreckage, was pulled free several hours after the blimp crashed into the roof at 12:25 a.m. CST.

The Commander ZPG-2 blimp was returning from a 24-hour submarine patrol when it crashed into the hangar roof. Only moments before, the blimp had been advised to gain altitude and try a new landing approach.

The crash scene was only a short distance from where the German Zeppelin Hindenburg burst into flames May 6, 1937, and was destroyed with a loss of 36 lives.

## Scholarships for Study Abroad Available at Kansas State Now

"Students—no matter what year they are—interested in scholarships abroad should begin now to consider the possibility of applying when they become eligible," says Harold Howe, Dean of the Graduate school, Fulbright scholarship sponsor.

About 900 Fulbright scholarships for graduate study or pre-doctoral research in 27 different countries will be available for the 1960-61 academic year.

In addition to the Fulbright awards, scholarships, and 200 fellowships in 15 countries are being offered under the Inter-American Cultural convention, and 200 fellowships in 15 countries are being given by foreign countries and universities.

"Applications for the scholarships and fellowships are available now to students who are here this semester but who will not be here next year," said Howe. "Applications to all students who will be here next year and who meet the initial requirements will be given at the beginning of next semester."

"Students filling out application blanks must designate the country where they wish to study."

### The Kansas State Collegian

Although they may state their choice of a university, the committee selecting the grantees reserves the right to assign them to a school," said Dean Howe.

General eligibility requirements for the awards are United States citizenship, a bachelor's degree or its equivalent before departure, language ability sufficient to carry on the proposed study, and good health.

A good academic record and demonstrated capacity for independent study are also necessary, and preference is given to applicants under 35 who haven't had extensive foreign experience.

"While married persons are eligible for most of the awards, the grants are geared to the needs of single grantees," Howe said.

"Students who plan to take dependents may be asked to submit a statement of financial ability to provide for the dependent's round-trip transportation and living expenses."

A request made of all applicants is that they submit a plan of proposed study which can be carried out profitably within the year abroad.

Two and possibly three students from K-State have been awarded Fulbright scholarships this year. The two awards which have been confirmed: Arlyn Asch, GS, an award in physics to Germany; and Bruce Wilson, His Gr, an award in English to Germany.

Scholarship applicants are recommended by a nine-member college-faculty committee after they have been interviewed by the board.

"The purpose of the interview is not only to evaluate the student, but to give suggestions and help on rewriting parts of the application forms," said Howe.

Final selection of grantees is made by the Institute of International Education in New York, N.Y.

## Four M.E. Students Get Special Service Awards

Ralph Cozine, ME Sr, and Dale Galliant, ME Jr, received special awards Tuesday night for excellence in particular activities.

Cozine received the Industrial Press Machinery award for excellence in machine design given for

high scholarship and extracurricular activities.

Dale Galliant received the Industrial Press heating, ventilating, and air conditioning award for excellence in air conditioning and related subjects.

The two mechanical engineering students who placed in the regional technical student paper competition, Larry Ball, ME Sr, and Bill Mahieu, ME Jr, received awards from the Kansas City section of the American Society of Mechanical Engineers for their work in preparing and presenting the papers.

Cozine also received a copy of Machinery's Handbook, a letter of recognition, and had his first year's dues as an associate member in ASME paid by the K-State mechanical engineering faculty.

## NAPPA Elects Gingrich Head

R. F. Gingrich, superintendent of the physical plant, has been elected president of the National Association of Physical Plant Administrators of Universities and Colleges.

Gingrich, who has been active in the organization for many years and who has served as vice president this year, was elected at the annual business meeting of the physical plant administrators in the Union Wednesday morning.

Other officers include C. M. F. Peterson, Massachusetts Institute of Technology, first vice president; R. A. Adams, Oregon State College, Corvallis, second vice president; and John H. Sweltzer, Earlham College, Richmond, Ind., secretary-treasurer.

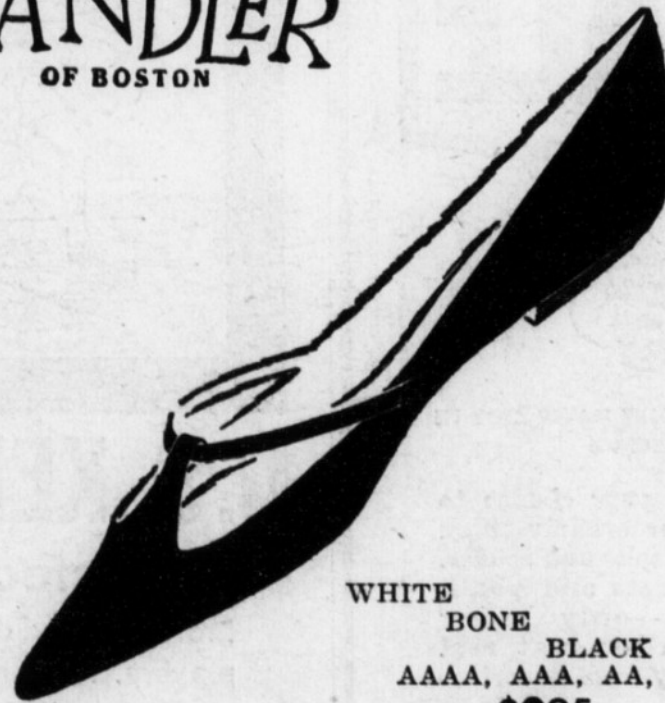

The 1960 meeting will be May 8-11 at the Massachusetts Institute of Technology, and the 1961 meeting will be at Oregon State College.

Ninety-six of the 217 member schools were represented at the physical plant administrators' 46th annual meeting at K-State May 10-13. In addition, 40 other institutions which do not offer four year curriculums had representatives who attended as guests.

### Applications Due Today For Union Art Position

Today is the deadline for applying for the position of Union Art committee chairman, according to Dave Farris, BPM Soph, chairman of Union Program council.

Applications may be filled out in the Union activities center. Interviewing will be done tonight at the UPC meeting.

# Seven Wildcat Track Standards in Danger

Seven all-time Kansas State varsity track records will be in danger this weekend when the Wildcat thinclads enter the Big Eight conference meet at Norman.

Four of the marks are held or shared by current team members who will be trying to get a tighter foothold in the Cat record book.

The newest and the oldest marks are perhaps the most likely to go. Al Hamilton will be throwing to better the javelin mark of 218 feet he set just two weeks ago in a dual meet with Wichita.

Hamilton broke the old record earlier in the year when he threw 214-2 in a triangular meet with Nebraska and Houston at Lincoln.

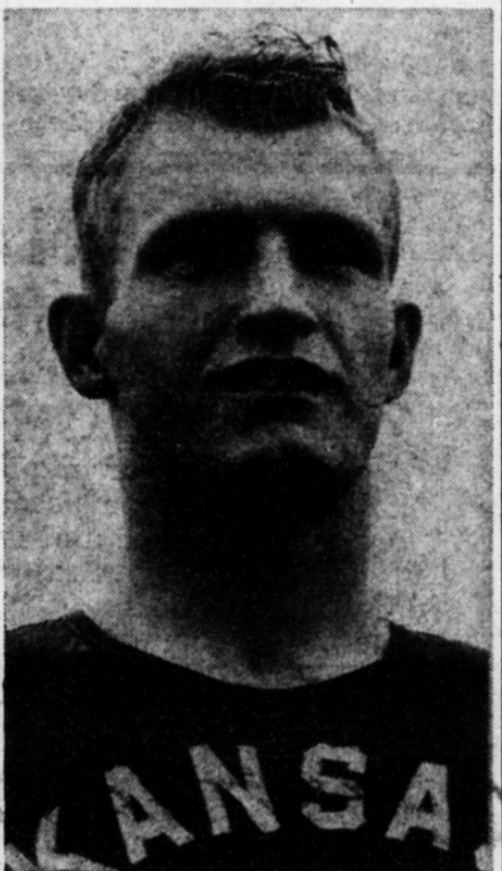

The oldest Wildcat varsity mark—55-11 in the shot put, set by Elmer Hackney in 1939—appears equally in danger. Jim Cain set the varsity indoor mark at 55-½ at the Colorado Invitational relays last March, and needs to better this mark by only 11 inches to break Hackney's standard.

Another probable K-State record breaker is sophomore Bob Groszek. Groszek has already

bettered the mark in the 880-yard run—1:53.6, by Dick Towers in 1952—but this time does not count as a record because it was not a winning performance. Groszek ran the half in 1:52.4 in the meet with Wichita, but finished second to the Shocker's Lew Merriman.

DeLoss Dodds will be gunning for the record he now shares with Thane Baker in the 440-yard dash. Baker ran the distance in 47.1 in 1953, and Dodds matched the performance last year.

Dodds' best time in the event this year is 48.8. He will have plenty of competition at

Al Hamilton

Norman from Chuck Carlson of Colorado, Ken Covert of Oklahoma State, and Bob Lida of Kansas, all of whom have bettered his time this season.

The Cat mile relay team will shoot for the mark of 3:10.4, set last year at the Kansas relays. Last year's quartet was composed of Dave Burton, Jim Vader, Gene O'Conner, and Dodds.

Dodds, and Vader return and will be joined by Groszek and Larry French. This foursome clocked 3:11.7 at the Drake relays, but finished third to Texas and Illinois.

Tom Rodda will be trying to better his record in the mile. His record time of 4:12.2 is the third best performance by a Big Eight miler this year.

Karl Lindenmuth set the school record in the pole vault at 13-7 ½ as a sophomore in 1956, but has been unable to match this vault since. With a peak of 13-6 this year, he will have another shot at the record at Norman.

All-time K-State varsity track records:

- 100-yard dash—Thane Baker, 9.4, 1953.
- 220-yard dash—Baker, 24.4, 1952.
- 440-yard dash—Baker, 47.1, 1953; DeLoss Dodds, 1958.
- 880-yard run—Dick Towers, 1:53.6, 1952.
- Mile—Tom Rodda, 4:12.2, 1959.
- Two mile—Duane Holman, 9:27, 1958.
- 120-yard high hurdles—Gene O'Conner, 14.1, 1957.
- 220-yard low hurdles—Ray Russell, 23.4, 1954.
- Mile relay—Dave Burton, Gene O'Conner, Jim Vader, and DeLoss Dodds, 3:10.4, 1958.
- Shot put—Elmer Hackney, 55-11, 1939.
- Javelin—Al Hamilton, 210, 1959.
- High jump—Virgil Stevens, 6-8 ¼, 1950.
- Broad jump—Herb Hoskins, 25-2 3/8, 1950.
- Pole vault—Karl Lindenmuth, 13-7 5/8, 1956.

## Betas Topple Beta Sigs

Beta Theta Pi edged Beta Sigma Psi, 4-3, yesterday afternoon in intramural softball to move into the finals in the fraternity division.

Dick Corbin's one-out single scored Gene Porter with the winning run in the bottom of the fifth inning.

Corbin homered in the second to give the Betas their first run. They made the lead 3-0 with two more runs in the third.

The Beta Sigs tied it by scoring

three runs in the top of the fourth. Darrell Mackender pitched for the Betas, and Harold Dorrson was on the mound for the Beta Sigs.

YMCA will meet West Stadium today at 5 p.m. on the northwest City park diamond for the independent division championship.

Beta Theta Pi will play Sigma Alpha Epsilon tomorrow at 5:15 p.m. on the same diamond for the title in the fraternity division.

DeLoss DODDS (left) will anchor K-State's mile relay team at the Big Eight conference track meet this weekend at Norman. Jim Vader will run the third leg. The Cat team will be trying to break the varsity record of 3:10.4 it set at the KU relays last year.

## Van Zile Advances To Softball Finals

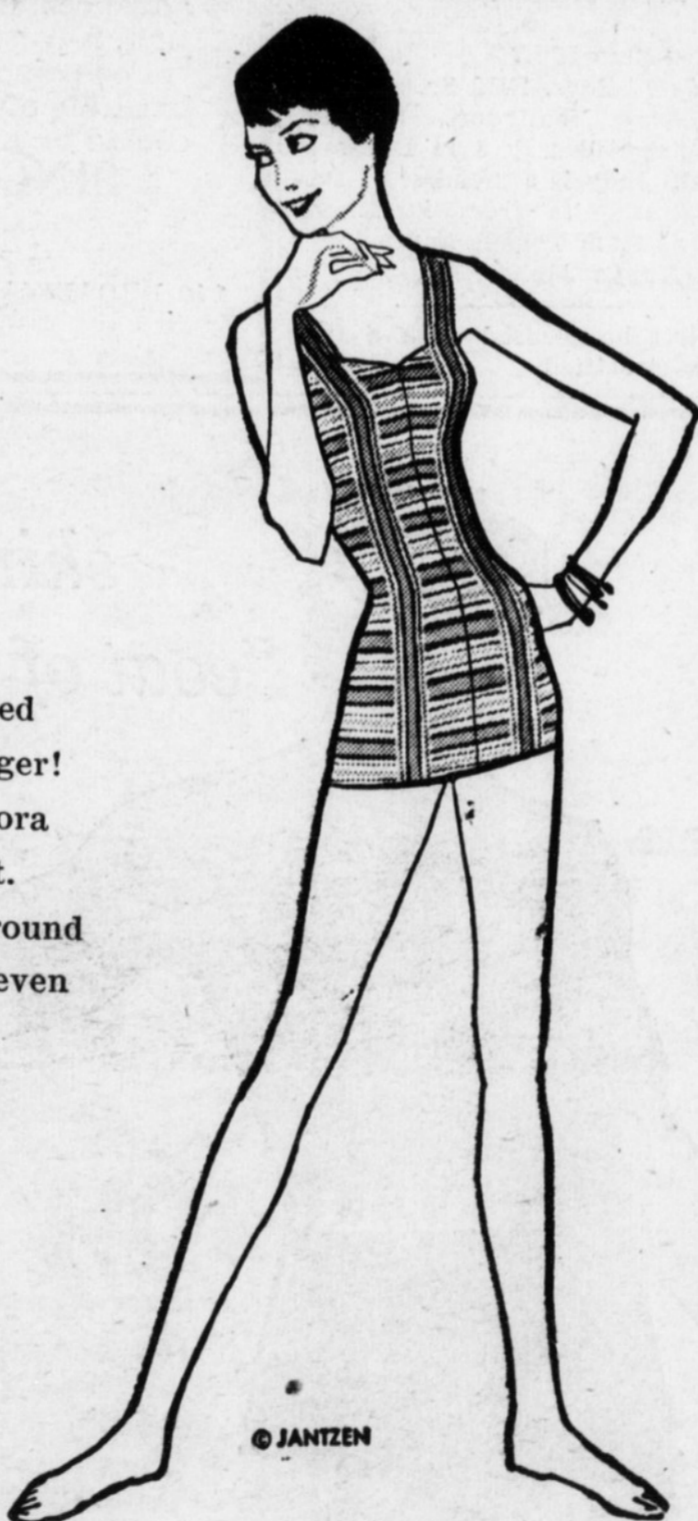

Van Zile hall advanced to the finals in the women's intramural softball playoffs yesterday afternoon by beating Waltham hall, 6-1.

Van Zile will play Southeast hall B today at 5 p.m. for the championship.

## Sue Tanner Crowned Beta Sig's Sweetheart

Sue Tanner, EEd Soph, was crowned Sweetheart of Beta Sigma Psi at its annual Gold Rose formal in the K-State Union Saturday night. She is a member of Chi Omega.

While the Beta Sigs sang their sweetheart song, Leroy Bieber, GA Sr, president of Beta Sigma Psi, crowned the queen and presented her with a trophy. The music for the dance was furnished by Carl Johnson.

Professor William Baehr, head librarian, faculty adviser of Beta Sig, and his wife, were the chaperones for the dance.

Members of Alpha Gamma Rho entertained their dates last Sunday afternoon with a steak fry and picnic.

Kappa Kappa Gamma held its annual spring formal Saturday in the Terrace room of the Wareham

hotel. Chaperones were Mr. and Mrs. Blake Wareham and Mr. and Mrs. Richard Rogers.

Sunday will be "Founders Day" at the Acacia fraternity. All alumni are invited to attend.

Last weekend was "Mothers Weekend" for the members of Delta Delta Delta.

Alpha Xi Delta's had a "mother's weekend" May 2 and 3. The mothers and daughters had a buffet dinner at the house Saturday evening. After church, the mothers were honored at a dinner Sunday afternoon.

Last weekend, the Alpha Xi Delta's sponsored a "legacy weekend" at the house. The out-of-town legacies had a picnic Saturday. They were joined Sunday by the Manhattan legacies for dinner.

Photo by Don Dailey

**A GIFT TO THE PLEDGE TRAINER**, Sharon Anthony, Eng Jr, is a Sigma Phi Epsilon heart representing the pin of Denny Tutge, Sp Fr. The pledges making the presentation are Joy Kean, BAA Fr; Marilyn Miller, HE Fr; Judy Mai, HE Soph; Kay Gardner, BMT Soph; and Susia Bissell, BA Soph. Sharon is from Smith Center and Denny is from Herington.

## Engagement, Wedding Rings Stop K-Staters' 'Circulation'

### Wells-Storrs

The engagement of Jeanette Wells, Ch Jr, and Charles Storrs, BS '58, was announced recently at Van Zile. Both are from Salina. Charles is now working in Lake Charles, La.

### Phillips-Wright

Deanne Phillips and Earl Wright, AEd Jr, announced their engagement recently. Deanne is a senior majoring in radio and television at Kansas university. She is from Abilene. Earl is a member of Sigma Phi Epsilon from Hutchinson. An August wedding is planned.

### Hall-Anderson

The engagement of Betty Lou Hall and Frank Anderson, AgE Soph, was announced recently. They are both from McPherson. An August wedding is planned.

### Smith-Riley

The engagement of Shirley

Smith, Eng Jr, and John Riley, BA Sr, was announced recently. Shirley is a member of Alpha Chi Omega from Norton. John is from Kansas City.

### Moxley-Robinson

The engagement of Lynn Moxley, HEJ Jr, and Fred Robinson, IE Soph, was announced recently. Lynn is from Council Grove and a member of Pi Beta Phi. Fred belongs to Beta Theta Pi.

### Ritts-Servos

Lorene Ritts, TxC Jr, and Gary Servos, GA Jr, announced their engagement Friday at the Gamma Phi Beta formal. Lorene is from Stafford. Gary is a Sigma

Chi from Kansas City. The wedding will be August 16.

### Pults-Francis

The engagement of Carolyn Pults, HEA Sr, to Ron Francis, BA Sr, has been announced. Carolyn, a member of Alpha Delta Pi, is from Horton and Ron, a member of Sigma Chi, is from Wilsey. The wedding will be June 27 in Horton.

### Peebles-Youngdoff

Judy Peebles, EEd Sr, and 2nd Lt. Larry Youngdoff, BS '58, were married May 8 in Danforth chapel. Judy is a member of Delta Delta Delta from Stockham. Larry is from Topeka and belongs to Pi Kappa Alpha.

You'll be pleased with a Collegian classified.

## SINGER

offers

### SUMMER EMPLOYMENT WITH CAREER OPPORTUNITY

A unique summer employment opportunity with challenging career possibilities, limited only by your ambition and ability, with a well established international organization, is available to all undergraduates.

Work this summer in one of 1500 branches of the SINGER Sewing Machine Company near your home. Gain valuable business experience while earning salary plus commission. Your potential abilities will be developed by our proven training program.

Successful men who wish to finance their education may continue on a part-time basis during school term. All successful men will be given a graduation career opportunity with a chance for advancement in Domestic Sales, Foreign Distribution, Advertising, Engineering, Finance, etc.

For personal interview, write, stating name and location of college, area of desired employment, course or major, and year of graduation, to:

# Properly Chosen Glasses Flatter Coeds' Appearance

Contact lenses are receiving so much attention these days that ordinary framed glasses are frequently neglected. If coeds feel they can't afford contacts or actually don't want them, the proper glasses frames can actually be a beauty aid.

Glasses are no longer simply round wire frames. They come in all colors, shapes, and moods ranging from plaids to fancy rhinestone-trimmed ones.

The next time you visit your eye doctor, try on several pairs to see how they look. Above all, look around before you buy any new frames.

If your budget can stand the extra load, it is best to have two pair of glasses. First of all, you may break one pair. Secondly, it is a good idea to have one pair for class and casual wear and one pair for dressy occasions.

For casual wear, tortoise shell, plaid, and gayly designed frames are ideal. However, if you wear a lot of plaids, your frames should probably be a solid color.

Casual glasses should be untrimmed.

Your best glasses can be as elaborate as you like. Remember, though, that with fancy glasses, you should be careful of the jewelry you wear. No coed likes to look like a Christmas tree.

Your frames should follow the line of your eyebrows without hiding them completely. If you have a small face, common sense should tell you to select small scaled glasses.

A low bridge can make a long nose look shorter, and a high bridge can add apparent length.

Glasses that flare slightly can flatter a round face.

Glasses should be washed every day in warm soapy water. You can't see very well if you're always looking through dirty lenses.

Don't force your glasses on when your hair is in curlers, or you will weaken and distort the frames. This leads to glasses that slide down your nose.

## Delta Upsilon Frat Starts New House

Members of Delta Upsilon fraternity recently broke ground for their new home to be built at the west end of Todd road.

Attending the ceremony were Lloyd Houston, alumni deputy; Mel Baughman, first president of the 1834 club; Charles Prustzman, chairman of the Delta Upsilon board of directors; Burt Antill, treasurer of the general DU fraternity; and President James A. McCain.

## Hair Styles Depend Upon Many Factors

"The type of hair-do a woman has depends on her hair line, shape of face, and hair texture," said Mrs. Edna Lee Siek, a teacher in a local beauty school at the final "Time For You" series.

"If a woman has a low hair line in back, she probably won't be able to wear a ducktail as well as a woman with a back hairline that grows upwards," she said.

For oily hair, Mrs. Siek suggested that the women use a

### McMahon-Wareham

The pinning of Becky McMahon, Te Fr, and Bud Wareham, BPM Sr, was announced Friday. Becky is a Gamma Phi Beta from Osawatimie. Bud is from Manhattan and a member of Sigma Alpha Epsilon.

### Lewis-Sears

The pinning of Sara Lewis, Sp Fr, and Bill Sears, AEd Jr, was announced recently. Sara is a member of Chi Omega and Bill

belongs to Sigma Phi Epsilon. They are both from Eureka.

### Magruder-Tedrow

Emmalea Magruder, EEd Sr, and Harvey Tedrow, BA Jr, recently announced their pinning. Emmalea is an Alpha Chi Omega from Mission. Harvey is a member of Sigma Phi Epsilon from Greensburg.

### Wray-House

The pinning of Roberta Wray, SED Sr, and Jack House, AA Sr, was announced April 22. Roberta is an Alpha Xi Delta from Norton. Jack is a member of Beta Theta Pi from Olathe.

### Callaway-McGowan

The pinning of Bonnie Callaway, SED Fr, and Art McGowan was announced April 24 at the Alpha Chi Omega formal. Art is a Phi Kappa Tau at Kansas university. They are both from Kansas City.

### Gill-Mills

The engagement of Judy Gill, BMT Soph, and Bill Mills, Ag Jr, was announced last night at the Alpha Chi Omega house. Judy is from Harper and Bill is from Lake City.

You'll be pleased with a Collegian classified.

OPEN THURSDAY  
NIGHTS TILL 8:30

# 'PHT' Degrees Given to 96 KSU Dames

Ninety-six "Putting Hubby Through" degrees were given to Dames club members who are wives of graduating seniors. A mock commencement ceremony was staged. The wives wore white and purple mortar boards and marched to the traditional "Pomp and Circumstance."

Dr. Forrest Whan, head of the Speech department, spoke on the role a campus wife plays, according to Bonnie Simms, publicity chairman.

## Buck Scholarships

Two juniors in home economics have been announced as winners of \$100 Hazel Buck memorial scholarships.

The two are Doris Geisler, HT

Jr. and Beverly Richardson, HT Jr.

The Hazel Buck scholarships go to students who plan to teach for at least a year following graduation. Scholarship recipients must have above average grades, and be active in home economics club work. The scholarships honor the memory of the late Miss Buck, who at the time of her death in 1955 was a teacher trainer with the Kansas state department of vocational education.

## School Industry and Engineering

Valentine Ridgway, assistant professor of business administration, has been chosen to participate in the 1959 School Industry and Engineering program this

summer at Hughes Aircraft company, El Segundo, Calif.

Ridgway will be at the company between June 22 and September 10. His assignment will include attending seminars and tours designed to make his experience more valuable for teaching purposes.

## Alpha Zeta

Edward Bicknell, VM Jr, has been elected chancellor of Alpha Zeta, agricultural honorary. Ronald McCune, FT Jr, is censor; Martyn Apley, FT Jr, scribe; Gary Cromwell, AEd Jr, treasurer; Janver Krehbiel, VM Fr, chronicler; and Jesse Unruh, VM Jr, sergeant-at-arms. Installation of officers will be Thursday.

## K-Fraternity

K-Fraternity, honorary fraternity for all varsity lettermen, has elected officers for 1959-60. They are Dale Evans, PEM Soph, president; Duane Holman, IT Jr, vice president; and Jim Caster, PrV Soph, secretary.

## Judging Teams

Presentation of special awards and medals to judging team members will take place tomorrow at the Agricultural seminar. Prof. Emeritus F. W. Bell will speak on the significance of the medals.

The medals will be furnished by the agricultural association and each coach will present medals to team members.

Departments will present the Borden, Virginia Adair, and other special awards.

## Jr AVMA

Officers for Jr. AVMA for the fall semester are Cap Dierks, VM Soph, president; Tracy Clark, VM Jr, president elect; Joe Kashner, VM Soph, vice president; Dan Burbach, VM Soph, secretary; and Charles Eck, VM Jr, treasurer.

## Judging Awards

Twenty-seven judging contest awards were given to 17 people at a Dairy club steak fry Saturday night.

Awards were given in the areas

of senior and junior divisions of cattle judging; milk, ice cream, cheese, and butter divisions in dairy products judging; and senior and junior divisions for overall judging winners.

Overall winners in the senior division: Gary Albright, DM Sr, first; Don Finical, DM Jr, second; and Dean Gigstad, DM Sr, third. Junior division overall awards: Emery Corbett, DH Sr, first; Leland Parker, Ag Fr, second; Joe Mink, DM Fr, third; and Bill New, AE Fr, fourth.

## Hilltop Courts

John Detter, IE Jr, was elected mayor of Hilltop courts at a Hilltop election meeting Monday night.

## Radio Club

New officers of the Amateur Radio club are Bill Dawes, PrL Soph, president; Karl Anderson, EE Soph, secretary; Larry Dane-witz, ChE Jr, treasurer; Gary Johnson, EE Soph, communications officer; and Mary Toburen, BMT Fr, activities manager.

## Psychology Club

Officers for next fall will be elected by the Psychology club tonight at 7:30 in Union 203, according to Pat McHugh, Psy Jr, publicity chairman.

The reorganized club has been accepted by the Activities board as an official club.

## Collegiate 4-H

Collegiate 4-H members will go on a hayrack ride tonight in connection with their meeting.

The members will meet at the Waters hall parking lot at 7:15, according to Kay Gardner, BMT Soph, reporter.

The group will make final plans for Rock Springs 4-H camp clean-up day Saturday.

## Phi Lambda Upsilon

Six students majoring in chemistry, chemical, or nuclear engineering have been honored by the K-State chapter of Phi Lambda Upsilon, honorary chemical society, for achievement.

Each of the six honored were outstanding students in the field of pure or applied chemistry. The awards were given to Jarold W. Boettcher, NE Fr; Sheila J. Nelson, ChE Soph; Larry E. Erickson, ChE Jr; William B. Walters, Chm Sr; Dinesh C. Sharma, Ch Gr; and Robert Z. Muggli, Ch Gr.

The award was the second for Erickson, who won a similar citation last year.

## Wilson Scholarship

Merlin D. Schuman, ME Fr, has been announced winner of the Murray Wilson \$400 scholarship in engineering at Kansas State university for the coming school year.

According to M. A. Durland, dean of engineering, the scholarship is awarded annually to an outstanding sophomore. The scholarship is provided through a fund set up by the K-State Endowment association by employees of Wilson and Company, Salina engineering and architectural firm, to honor Murray Wilson.

## Do You Think for Yourself? (THIS QUIZ IS THE TIP-OFF!\*)

1. Do you think that men who look you straight in the eye when they talk are (A) to be trusted? (B) nearsighted? (C) watching your reaction? A ☐ B ☐ C ☐

2. Of three men who have asked her for a date, should a girl pick (A) the one with a big car and money? (B) the one who makes lots of jokes, but is broke? (C) the one who helped her study for an exam? A ☐ B ☐ C ☐

3. Mountaineers say they climb a mountain "because it's there." Does this strike you as (A) logical? (B) indicative of an inferiority complex? (C) a symbol of man's drive to conquer nature? A ☐ B ☐ C ☐

4. If you were offered a million dollars to be the first man to fly to the moon, would you (A) leap at the chance? (B) take the money and hire someone else to go? (C) find out why the job paid so much? A ☐ B ☐ C ☐

5. Do you think the maxim "A penny saved is a penny earned" is (A) an excuse for miserliness? (B) a thrift precept more people should follow? (C) a disastrous economic policy? A ☐ B ☐ C ☐

6. Do you believe that the expression "Every cloud has a silver lining" is (A) sticky sentimentality? (B) optimism with a poetic license? (C) faulty meteorology? A ☐ B ☐ C ☐

7. Do you think that helping other people at all times will (A) give you a lot of fun? (B) win you a lot of friends? (C) get you into a lot of trouble? A ☐ B ☐ C ☐

8. Do you think the primary purpose of parking meters is to (A) stop all-day parking? (B) raise money? (C) make people leave their cars at home? A ☐ B ☐ C ☐

9. In choosing a filter cigarette, would you depend most (A) on the claims you read and hear? (B) on satisfying yourself that you're getting the right filtration and taste? (C) on the recommendations of your friends? A ☐ B ☐ C ☐

When you think for yourself... you depend on judgment, not chance, in your choice of cigarettes. That is why men and women who think for themselves usually smoke VICEROY. They know that only VICEROY has a thinking man's filter and a smoking man's taste.

\*If you have checked (C) on three out of the first four questions, and (B) on four out of the last five... you certainly think for yourself!

© 1959, Brown & Williamson Tobacco Corp.

Kansas State University, Manhattan, Kansas, Friday, May 15, 1959

NUMBER 145

## Concert To Feature Award Presentations

Service key awards will be presented to twelve band members Sunday as a highlight of the annual spring concert of the combined bands at 3 p.m. in the University auditorium.

To receive the service key

## New Seminar Is Scheduled In Philosophy

A seminar in the philosophy of language will be offered by the Philosophy department for two hours credit next fall.

The text for the seminar will be Alexander Bryan Johnson's "Treatise on Language." Although written in 1828, Johnson's work remained practically unknown until 1947.

"It strikingly anticipates many twentieth century developments in linguistic analysis, semantics, and language theory," said Cecil Miller, philosophy professor.

Also to be offered are three one-hour tutorials on mind, self, and society; creativity in art; and democracy in America.

## Union Reveals Fall Schedule

The schedule of Union fall events was announced at the Union program council last night.

The Freshman talent show will be Friday, September 18; a big name concert and dance will be Saturday, September 19; and the Activities carnival followed by an all-University dance will be Saturday, September 26.

Susan Schultz, BMT Fr, was appointed Union Art chairman.

Sharon Krueger, EEd Fr, Personnel and Research chairman, announced that a workshop for all of the new Union committee sub-chairmen would be next fall.

## Achievement Awards Given to Journalists

Awards for professional and scholastic achievement were presented to seven journalism students yesterday at the journalism lecture by Ralph R. Lashbrook, head of the Department of Technical Journalism.

Journalism Memorial awards were awarded Sandra Wilson Bell, TJ Sr, for her work on the Collegian editorial staff; to Sharon Totten, TJ Sr, for her work on the student publications business staff; and to Charlene Strah, TJ Sr, for her work on the Royal Purple editorial staff.

The Memorial awards, which include a cash grant of \$50 each, are given annually in memory of eight K-State journalism

award, a student must have been a member of the K-State band for at least six semesters.

This year's key award winners are Carol Faulconer, Mth Jr; Billy Jones, MEI Jr; Bobby Jones, VM Soph; Ellis Meeks, EE Soph; Anita Mechfessel, HT Jr; Jimmy Lawson, AA Jr; Betty Mai, HT Jr; Stanley Harris, VM Jr; Carolee Weiser, Eng Jr; William Mills, Ag Jr; John Hassler, Chm Sr; and William Warner, Chm Jr.

Seven other band members are previous winners: Dia Bolton, MEI Sr; Donna Turner, MEI Sr; Kay Reboul, MEI Sr; Dale Norris, MEI Sr; Benny Brent; AH Sr; Robert DeCou, MEI Sr; and Thomas Baucke, BA Sr.

The Varsity band, under the direction of Robert J. Quinn, assistant director of bands, will be featured in the first part of the concert. Following the intermission, at which the band ser-

vice key awards will be presented, the Varsity band members will combine with the Concert band members.

The Varsity band will perform John Philip Sousa's "Manhattan Beach March;" Giarolamo Frescobaldi's "Galliard and Courants;" Anthony Donato's "Cowboy Reverie;" Frank Erickson's "Legendary Air;" Johann Strauss' "Persian March;" and Henry Fillmore's "The Klaxon March."

Asst. Prof. of Music Jean Hedlund, band director, will lead the combined bands in "The Footlifter March" by Henry Fillmore, and William Scriven, Mus Gr, will direct the band in Victor Herebrt's "Gypsy Love Song."

The remaining numbers will be directed by Quinn. They are Morton Gould's "Hillbilly;" Sergei Rachmaninoff's "Italian Polka;" and "Procession of Nobles (Cortege) from Mlada."

## Prof. Bell Speaks To Ag Assembly

Prof. Floyd W. Bell, retired livestock judging coach, spoke on the significance of medals and awards at the Agriculture Honors seminar yesterday.

Bell emphasized that alternates on a judging team lose very little from not being on the first team.

Donald Stuteville, AEd Sr, received the \$300 Standard Milling company award for outstanding work in cereal crop improvement. Stuteville also received judging medals for the crops and poultry judging teams.

The Borden award for \$300 was presented to Loren Isaacson, AEd Sr, for having the highest over-all grade average among agriculture students with two or more hours in dairy subjects.

The \$50 Virginia Adair award for outstanding work in ice

cream making and judging went to Ted Colson, DM Sr.

Judging medals were presented to the judging teams.

## Fund Apportioning Nears Completion

The Apportionment board continued to work rapidly toward completion of tentative allocation of the estimated \$218,860 1959-60 student activity fund in its second meeting of the year yesterday.

The afternoon session concluded with only four campus groups remaining to be heard by the board. Board members were optimistic about the prospect of clearing up the remaining hearings and setting tentative apportionments at their meeting this afternoon.

Unless requested by a campus activity, the board has heard only those activities requesting increases over their 1958-59 allocations. This policy has expedited the work of the board.

Two groups whose requests usually make up a large part of the total allocation, have not been heard.

The K-State Union, which is

requesting an apportionment of \$5 a student each semester, is scheduled for a hearing today. No hearing has been set for the Athletic department, which is asking \$6 a student for the coming school year.

## Royal Purples Available At Kedzie Hall Monday

The 1959 Royal Purple will be ready for distribution at 8 a.m. Monday in Kedzie hall, according to editor Charlene Strah, TJ Sr.

Students who have been enrolled as full-time students both semesters are entitled to a year-book at no extra cost. Students need not bring their activity tickets but must sign for their own books through Wednesday.

Extra copies of the Royal Purple are available for \$6. Students who have been enrolled only one semester must pay \$3 for a book.

## Scholarship Awards Given To Top Home Ec Students

Presentation of scholarship certificates and scholarships for 1958-59 was made at the Home Economics Honors assembly in the Union little theater yesterday.

Also on the assembly program was introduction of Omicron Nu members and presentation of the Home Economics club interest award, and initiation of Home Ec Council officers for the coming year.

Scholarships awarded for the coming year are Martha S. Pittman award to Kathy Bryan, DIM Jr; Danforth Summer awards to Kathy Reeves, HEA Fr, and Doris Geisler, HT Jr; Home Eco-

nomics club scholarship to Vera Wierenga, DIM Jr; and Hazel Buck Memorial scholarship to Beverly Richardson, HT Jr.

Scholarship recognition was given to students ranking in the upper 10 per cent and certificates were given to the upper 3 per cent of each class.

Class include Sara Hybskmann, HT Fr; Kathryn Reeves, HEA Fr; Virginia Railsback, HE Soph; Mary Jo Harbour, HT Jr; and Marjorie Hayes, TxC Sr.

The Professional Foods club was presented the Home Economics club interest award for outstanding service to others, unity within the club, and quality of club programs.

## Senior Recognition Dinners Highlight Activity Calendar

The Delta Sigma Phi entertained Clovia at an indoor picnic last Thursday night.

Alpha Chi Omega had a surprise Mother's Day party for their housemother, Mrs. Mary Clingan, last Monday night.

The Alpha Chi Omegas and Delta Sigma Phi had an exchange picnic at Sunset Park Tuesday night.

Seniors of Gamma Phi Beta will be honored at a special breakfast Sunday.

Delta Sigma Phi entertained approximately 28 mothers at their Mother's Day dinner May

10. After dinner the mothers had a club meeting.

Seniors of Sigma Phi Epsilon were given special recognition at dinner Wednesday.

Sigma Nu seniors were recognized at a dinner given in their honor last night.

Gamma Phi Beta and Pi Kappa Phi had an exchange picnic last night.

Alpha Chi Omega seniors were honored at a special dinner Wednesday.

Lambda Chi Alpha will have its senior recognition dinner next Thursday.

A senior recognition dinner was

held at the Alpha Kappa Lambda house last Tuesday.

Alpha Kappa Lambda pledges presented their annual "Go to Hell with AKL" party last weekend.

Kappa Delta and Tau Kappa Epsilon had an exchange picnic last night.

Delta Sigma Phi, was crowned Tau Kappa Epsilon Sweetheart at the TKE formal Friday in the Union. Her attendants were Betty King, ME Soph; and Mrs. Robert Baruth, SEJ Jr. Matt Betton provided the music for the dance.

## Wedding Reception Focuses on Bride

By MARY WELSH

June weddings are just around the corner. For many coeds, this brings up the age-old question, "What should I do in the receiving line?"

The bride's mother is the first person in the receiving line, followed by the groom's mother and father. All the guests should shake hands with the parents and say a few words of greeting. If the guest knows the parents, it is appropriate to say something pleasant about the wedding, the bride, or the groom.

The bride is the next in line and then the groom. If you know the couple only slightly, merely shake hands and say a word or two, such as "Best wishes for your happiness." It is proper to say "congratulations" to the groom but never congratulate the bride.

In some localities it is a custom to kiss the bride, and a woman may also kiss the groom if

she would like to. An intimate friend who kisses the bride often tells her how lovely she looks and wishes her great happiness. When kissing the groom, also wish him happiness and compliment the bride.

The maid-of-honor and the bridesmaids follow the bridal couple in the receiving line. A simple handshake and greeting to them is all that is necessary.

A woman who is going through a receiving line should never take off her gloves to shake hands. A man, unless he is wearing dress indoor gloves, should always remove them before shaking hands.

If all other receiving-line rules are forgotten, there is one that should always be remembered—do not launch into long conversation or details about yourself, how you feel or look, or something that happened to you. The subject of your conversation must remain on the bridal couple.

## Price Should Guide Menu for Reception

Let your bank account be your guide when planning the food for a wedding reception. Pride is fine, but it would be a pity for a newly-wed couple to have its first argument over the cost of the reception.

Today a very simple menu is the most popular. Many brides just serve sandwiches, ice cream, or cake. For a country wedding, a salad and hot dish may be served frequently.

Always double check your guest list for an exact amount. Remember that some invitations were sent out to couples, and a single acceptance may mean two guests.

Plan your menu well ahead of time. If your budget will permit it, hire a professional caterer to do the cooking and serving. It saves a lot of work and worry the day of the wedding. Also, he has probably served a great many re-

ceptions and will have good ideas for serving and proper amounts to order.

While planning your reception, remember to take into consideration the time of day.

# Christian Students Plan Ranch Trip

By BRENDA FISHER

This summer, eight members of the Kansas State Christian fellowship will be headed for Colorado to spend four weeks at Bear Trap ranch. The ranch, located in the heart of the Rocky Mountains in Pike National forest near Colorado Springs, is the site of summer conferences for members of the fellowship group.

The conference the K-Staters will attend is from August 15 to September 10. Discussions, study, and meditation periods will be on the agenda as well as the regular outings, hiking, horseback riding, and swimming.

The K-State Christian Fellowship is a local chapter of a national organization known as the Inter-varsity Christian fellowship. Inter-varsity sponsors the conferences at Bear Trap ranch as well as other collegiate activities.

The KSCF is an inter-denominational youth group on campus. They have meetings every Friday evening in SU 207. These are discussions, special speakers, and missionary reports. Tonight's meeting, the last of the year, will be a musical program. Several lo-

cal groups and some from out-of-town will sing.

The group sponsors a fall and a spring picnic, and this year they organized a series of discussions on "Basic Christianity." A staff worker from Inter-varsity fellowship conducted these discussions at organized houses on campus.

Several different demoninations are represented in the group of thirty members. Included in these are Baptist, Methodist, branches of the Brethern group, Church of God, and Presbyterian. The group is completely impartial and avoids discussions on issues of doctrine.

New officers for 1959-60 for the group will be president, Bob Mornoe, BA Soph; vice president, Bill Cowell, Ag Fr; secretary, Lois Hadin, MGS Fr; treasurer, Jim Walker, VM Fr; publications secretary, Paul Burk, Ec Fr, and christian witness chairman, Dennis Duell, DH Jr.

Professor Herbert Moser of the chemistry department is faculty adviser for the group.

# Baptist Group Members Remodel Meeting Center

By CHESTER PETERSON, JR

Roger Williams Fellowship, American Baptist campus student group, has a brand new home this semester.

Although student members have had the use of the center, located at 1801 Anderson, since last October, it was the latter part of February before the building was completely remodeled to fit their needs. It will be formally dedicated next fall.

A major part of the "fixing up" work of the house was done by the fellowship members themselves. As their university pastor, the Rev. Dale Turner, says, "A chemistry graduate student laid the floor tile and a veterinary medicine senior put in the ceiling." But he adds, "It's only fair to mention though, that a professional Episcopalean was hired to do most of the plastering."

The Turner family lives on

the first floor, and shares the living room with students. The living room, or lounge as members call it, serves as a meeting room for Sunday services and as an informal gathering place for students during the week.

Betty Johnson, HT Sr, former president of the group, estimates about 50 Fellowship members gathered in the living room for last Sunday night's services. She says "We were a bit crowded, but we always seem to have room for more."

As past president of the organization, Betty remembers what the building looked like before they started work on it and the job they had to convert it to student use.

Betty and the Rev. Mr. Turner have several pictures showing the basement in its "before" condition. Remodeled at a cost of \$1800, today it doesn't even appear related to the original basement. It now features a small meeting room, a kitchen, an office, and a half bath, all decorated in light, bright colors.

Money for the remodeling job came from the Kansas Baptist Convention, the American Baptist Convention, and individual grants, according to the Rev. Mr. Turner.

The purpose of Roger Williams Fellowship, says the Rev. Mr. Turner, is "to develop full and meaningful Christian service living among students."

The success of the organization's aim is evident he says, "because from 1/2 to 1/3 of the congregation of the First Baptist church downtown is made up of college students."

In addition, he states, many students, especially married students, are elected to offices in the local church. Also, many student members sing in the choir and one is the church organist.

Although members attend church at the First Baptist church, they meet at the student center first on Sunday mornings for Sunday school. Classes are taught by Dr. Paul Young, summer school direc-

tor, and Prof. Floyd Sloat of the mathematics department. Coffee and donuts are served before Sunday school.

Members also take part in services every Sunday and Thursday night.

The fellowship groups keeps a full slate of activities. Every Christmas members form a caroling party and sing to jail inmates, hospital patients, and at home shut-ins.

One of their bigger annual events is a Thanksgiving banquet, which they informally call the "International banquet." International students with no place to eat Thanksgiving dinner are invited to the banquet. Betty says, "Last fall we had about 120 people attend approximately 40 from our group of 80 foreign students. Everybody got stuffed and had a real good time."

Members also "throw" a big Valentine party in late winter. During the last part of the school year the students work at cleanup projects and attend state and national conferences.

Lyle Clum, EE Jr, a fellow-ship member, was recently elected president of the Kansas Baptist Student association. Gordon Coppoc, PrV Soph, will take over Betty's job as the organization's president next semester.

# Seaton Hall Has Various Projects

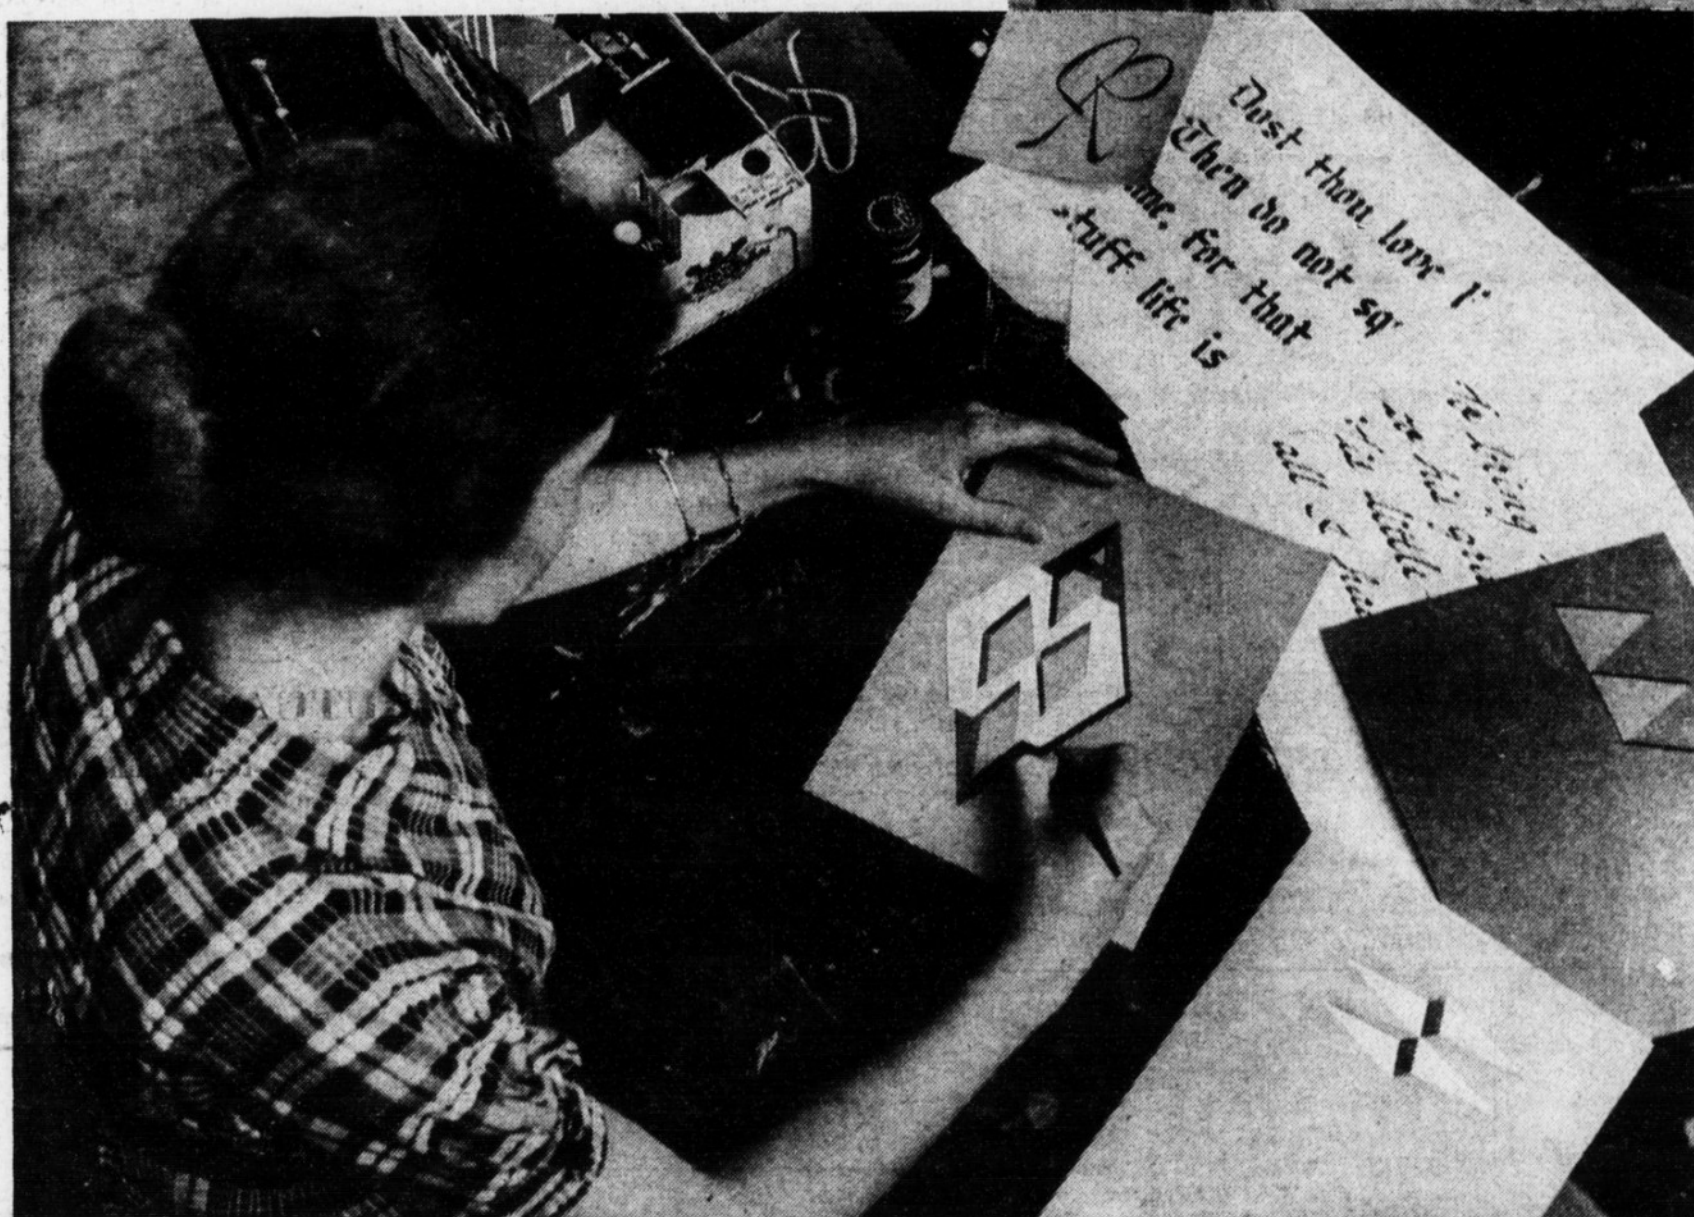

WHAT GOES on in a campus building? Seaton hall is not only the center of engineering and architecture activity, but also houses classes and projects in such varied activities as art, sculpture, and commercial illustrations.

A familiar term among students of many Seaton hall classes is the "hanging." When an instructor says, "We are going to have a hanging," students realize it is time to wind up projects in preparation for grading. Students "hang" their works, and a group of instructors grades it en masse.

The products of various class assignments and projects in courses of this nature are familiar sights in the halls and hanging on the walls of Seaton.

Determining forces on parts of a truss for a bridge are Royal Ryser, CE Sr, and DeWayne Ruwe, CE Sr. The two are comparing figures on the blackboard with their model of the bridge on the desk.

Students of commercial illustrations classes do lettering, designs, poster work, advertising and magazine layouts. Judy Wareham, Art Soph, draws a design for the class.

Bill Deckham, Ar 05, works on a model of his building design that has been made to order for a location in Memphis. The purpose of the many sides of the model is to permit equal lighting and good shadow effects.

A statue of the reclining male figure is the eventual object of a sculpture by Sally Wilcox, Hrt Jr, who is enrolled in a sculpturing class in Seaton hall. Other activities of the student sculptures include such projects as the large animal replicas made for Sunset zoo.

Don Dailey

# KS Thinclads To Enter Big Eight Meet

KANSAS STATE COLLEGIAN  
Friday, May 15, 1959-6

## YMCA Wins Softball Title

With a handful of individual stars, but lacking in depth, K-State's track team heads into the Big Eight track meet at Norman this weekend. Preliminaries start at 3 p.m. today, with the finals beginning at 1:30 tomorrow.

Most of the Wildcats' optimism centers round the 440-yard dash, mile relay, shot put, and 880-yard run. K-State has the defending champions in the mile relay and 440.

DeLoss Dodds won the 440 last year in 47.4, less than a half second off the league record of 47.1. Dodds matched the loop mark last season, but has clocked no better than 48.8 in two muddy-track tries this year.

The Wildcat mile relay team, which won and set a Big Eight mark of 3:11.6 at the confer-

ence meet last year, has three men returning. Newcomer Bob Groszek will join Dodds, Larry French, and Jim Vader. This foursome has been down to 3:11.7 this year.

Groszek also holds the Wildcats' hopes in the 880-yard run. He was barely edged by Wichita's Lew Merriman in the Cat-Shocker dual meet on May 2, and was allowed an estimated 1:52.2—possibly good enough for a placing at Norman.

Jim Cain is the Cats' threat in the shot. He has thrown 55-1/2, but has trailed two Oklahoma aces—Dan Erwin and Mike Lindsay—at most major meets. He ranks close enough to the Sooner pair, however, that he could overtake them.

"This is not to say that we

don't have chances in other events," said Ward Haylett, K-State track coach, "but those chances are pretty slim. We are hurting particularly in the sprints—both the 100- and 200-yard dashes. And at least five other events are out of reach."

Despite K-State's surprise third-place finish in the Big Eight indoor meet, Haylett sees no real chance of a first-division finish at Norman. He figures the extra sprint and discus events included in outdoor competition will push the Cats down, since they have little chance of scoring in either.

Kansas is heavily favored to win the meet for the eighth

straight time, with Oklahoma State and Oklahoma figuring to have the inside track on second.

The Jayhawks have three of the nation's top performers in javelin thrower Bill Alley, sprinter-hurdler Charlie Tidwell, and Ernie Shelby, who doubles in the broad jump and the hurdles.

Oklahoma State pins most of its hopes on pole valuters Aubrey Dooley and Jim Graham, sprinters Orlando Hazley and Ken Covert, and distance runners Miles Eisenman and Tom Burch.

Oklahoma is strong in the shot with Erwin and Lindsay, mile with Gail Hodgson, and sprints with Dee Givens.

Returning winners from last year are Kansas' John Book in the javelin, Ernie Shelby in the broad jump and 220-yard low hurdles, and Bob Cannon in the high jump;

K-State's Dodds in the 440, Colorado's Mike Peake in the 880 and Bernie Frakes in the two mile, and Oklahoma's Hodgson in the mile and Givens in the 100.

Darrell Rosenow pitched a perfect game yesterday as YMCA drubbed West Stadium, 12-0, to win its second straight intramural softball championship in the independent division.

Rosenow struck out 12 of the 15 men he faced and didn't allow a runner to get on base.

YMCA jumped on George Whitney, West Stadium pitcher, for four runs before anyone was out, and added two more before the first inning was over.

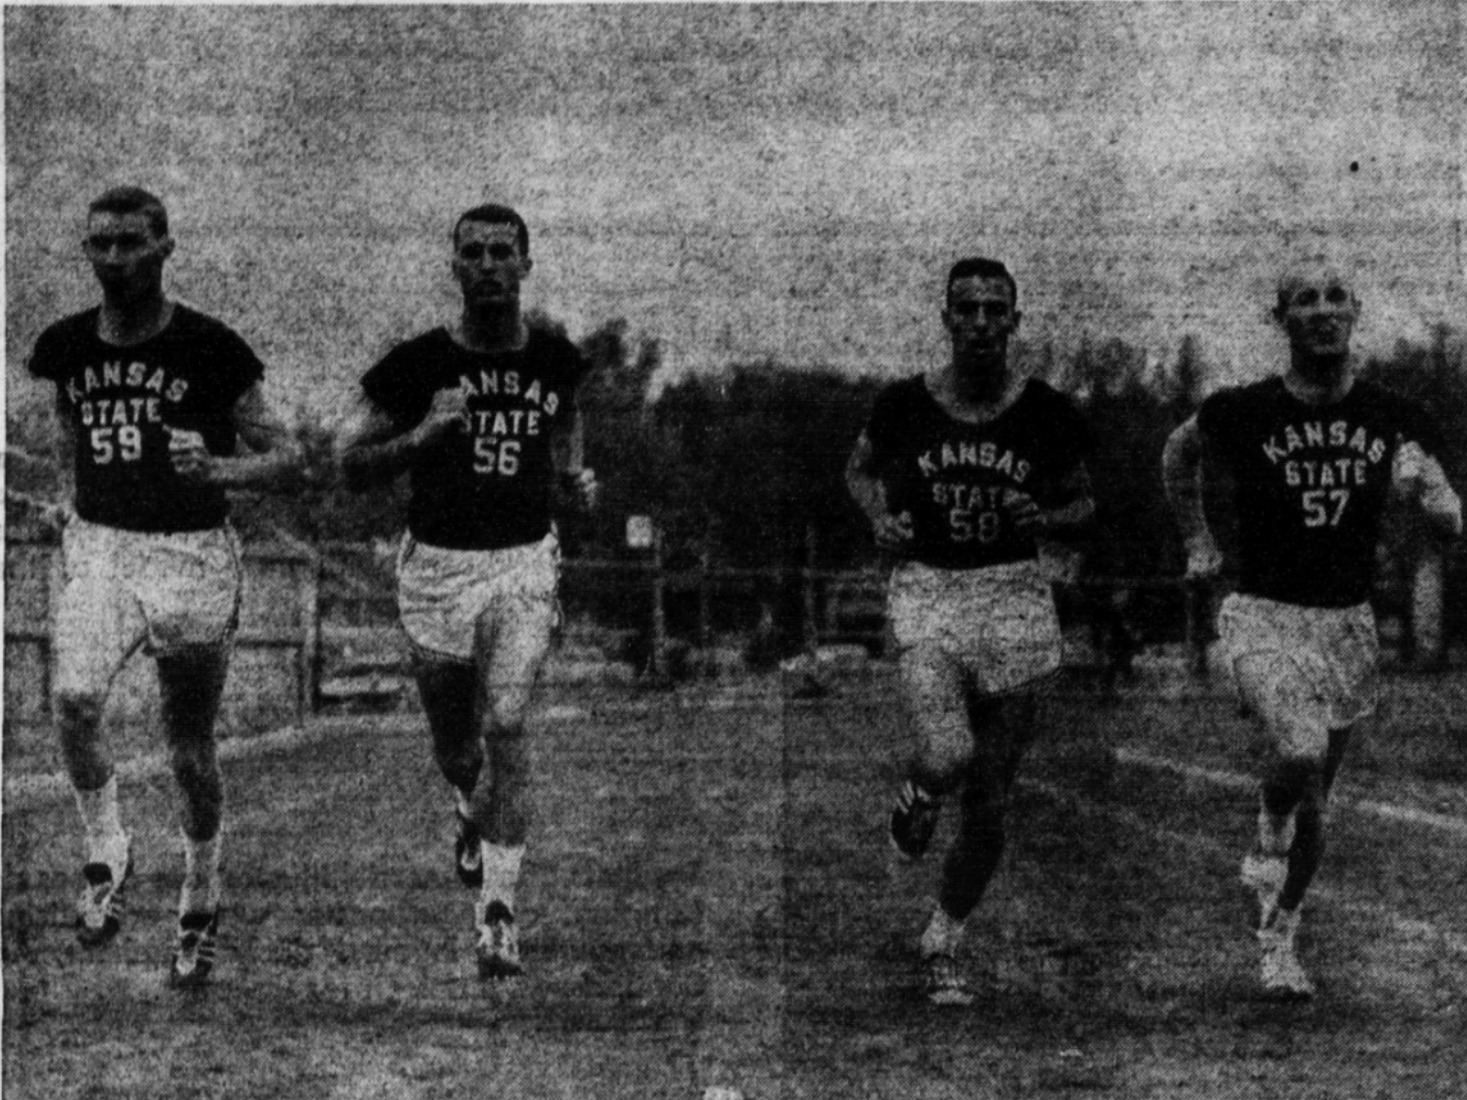

Gary Rosenow had the only home run of the game.

Beta Theta Pi will meet Sigma Alpha Epsilon today at 5:15 p.m. on the northwest City park diamond for the fraternity championship.

## Van Zile Tops Southeast To Take Softball Crown

Van Zile hall won its second straight women's intramural softball championship yesterday by defeating Southeast hall B, 15-7.

Van Zile won the title last year by beating Gamma Phi Beta, 12-0.

K-STATE'S MILE RELAY TEAM will attempt to defend its conference title at the Big Eight track meet this weekend at Norman. From left: DeLoss Dodds, Jim Vader, Bob Groszek, and Larry French. The Wildcat quartet has clocked 3:11.7 this season.

## Wildcat Golf Team Will Close Season

K-State's golf team, fighting a nine-match losing skid, will enter the Big Eight meet at Norman this weekend, pinning its main hopes on Dennis Buck, who has constantly bettered par over the Wildcats' home course.

Charles Hostetler will shoot in the No. 2 berth for K-State. The Cats' steadiest golfer over 14 matches this season, Hostetler is one of only two lettermen Wildcats.

Jerry Hendricks, the other, will play No. 3 at Norman.

The other two slots will go to George Hooper, who will play No. 4, and Dick Martin or Wayne Denton.

After winning their first two

matches from Washburn and Wichita, the Cats have gone winless through 12 matches, although they tied Kansas April 16.

The Wildcats could finish no higher than seventh in last year's meet, which was won by Oklahoma State.

The Cowboys are favored to make it two in a row, but may get a stiff challenge from the host Sooners.

## K-State Baseballers To Meet Kansas In Battle for Seventh Place in League

In a battle for seventh place in the Big Eight, K-State's baseball team will host Kansas this weekend, with a single nine-inning game on tap for today and a pair of seven-inning tilts scheduled for tomorrow.

The Jayhawks took their first conference win, 8-3, from Nebraska last Friday, before rain

washed out the rest of the scheduled three-game series.

K-State was rained out of all action at Oklahoma last week, the second complete series the Wildcats have seen washed away by rain. The third game of the Wildcats' series with Iowa State was also cancelled.

Kansas' win over Nebraska leaves the Jayhawks at 1-9 in the Big Eight standings, a notch above K-State's 0-8. Both teams have one series left after this weekend.

K-State coach Ray Wauthier plans to start Al Schierling against Kansas today, with Bob Graham and Brad Bochow slated to work tomorrow.

Terry Knowles will be the starting catcher, with Dan Whitmore at first, Ken Jones at second, Tom Dunn at third, Al Thae-mert at short, and Joe Vader and

Joe Haggard flanking Paul Bader in outfield.

The Wildcats will pick up three games on the Jayhawks if Missouri's forfeits go through as expected. The Cats played three games with the Tigers, and would stand to pick up three victories. Kansas had its games with Missouri rained out, and would not pick up any forfeits.

## Cat Tennis Team Will Shoot For Big Eight Championship

With a 7-6 won-lost record in dual matches, the K-State tennis team will make its strongest bid in recent years for the Big Eight tennis title this weekend at Norman.

Winston Tilzey reached the No. 1 finals a year ago, and Jim Holwerda was a finalist in the No. 4 singles. They will play No. 1 and No. 2, respectively, this weekend.

Ed Frankel will compete in the No. 3 bracket, Lee Atkins

will play No. 4, and Steve Poort will be No. 5.

Tilzey and Holwerda will pair for the No. 1 doubles team, with Frankel and Atkins playing No. 2.

Last year Holwerda and Frankel reached the finals in the No. 2 doubles.

The Wildcats finished third in the meet last season, netting 8 points to finish behind Oklahoma

State and Colorado, who tied with 12.

The Cowboys are favorites to win the title this year, with Colorado picked for second.

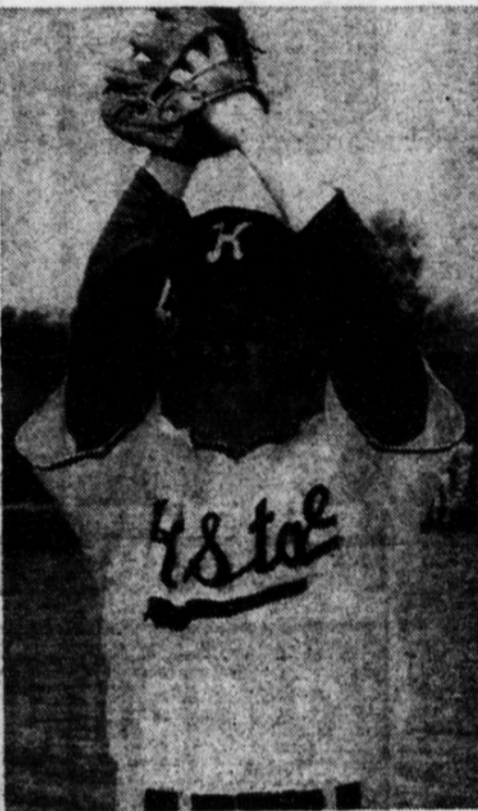

Unbeaten in 13 dual matches, Oklahoma State will field three unbeaten singles players. Sophomore John Agnos, with 13 straight wins, is the Cowboy's No. 1 man. Frank Scarth, playing No. 4, and Bob Shaver, No. 5, are 13-0 and 12-0, respectively.

Ron Anglemeyer is 11-2 at the No. 2 spot, and Harry Taylor is 7-2.

Colorado's Ron Latta will be shooting for a triple crown, after being a singles champ in each of his previous two conference appearances. He won at No. 4 as a sophomore and at No. 3 last spring. He will play No. 1 at Norman.

Bart Green is another defending champion for the Buffaloes. He won at No. 4 last year and will be either 3 or 4 this year.

The Cowboys won the top two singles and the lead doubles titles last year, while Colorado picked up most of its points in the lower ranks.

Al Schierling

Bob Graham

# Ag Engineering Day Scheduled for Tomorrow

The first Agricultural Engineering Day, scheduled for tomorrow, will give the public an opportunity to inspect the new Ag engineering facilities and to become acquainted with the instruction, extension, and research

work accomplished in this field. "The event is planned to be of special interest to farmers, high school students, implement dealers, soil and water conservation men, and others interested in agricultural production," said

George H. Larson, head of the department.

A tractor pulling contest to demonstrate an improved device for weight transfer will be conducted by Claude O. Geiger, AgE Jr., and Neil Shields, AgE Jr.

Displays and demonstrations will include soil and water conservation, farm structures, rural electrification and processing, power and machinery, and farm mechanics activities. A portrait of Professor Fred-

rick C. Fenton, head of the Agricultural Engineering department from 1928 to 1956, will be unveiled by Dean M. A. Durland, head of the School of Engineering and Architecture.

## COLLEGE PUZZLE CONTEST FOR STUDENTS AND FACULTY MEMBERS

### 2 GRAND PRIZES

*Rambler "American"!  
Big-car roominess...  
small-car economy...  
tops in performance!*

### WIN A RAMBLER STATION WAGON!

**LIGHT UP AND LIVE IT UP!** 3 great cigarettes offer you 627 chances to win! So pick your pack—save the six wrappers—and get going! It's crossword puzzle fun and real smoking pleasure all the way!

**ENTER OFTEN—HAVE FUN—AND WIN!** But think carefully! This puzzle is not as easy as it looks. At first the DOWN and ACROSS clues may appear simple. There may appear to be more than one "right" answer. For example, the clue might read: "Many a coed will be given her best date's P--N." Either "I" (PIN) or "E" (PEN) would seem to fit. But only one answer is apt and logical as decided by the judging staff, and therefore correct. Read the rules carefully. ENTER AS OFTEN AS YOU WISH. Good luck!

#### RULES—PLEASE READ CAREFULLY

1. The College Puzzle Contest is open to college students and college faculty members except employees and their immediate families of Liggett & Myers and their advertising agencies.

2. Fill in all missing letters . . . print clearly. Use of obsolete, archaic, variant or foreign words prohibited. After you have completed the puzzle, send it along with six empty package wrappers of the same brand from L&M, Chesterfield or Oasis cigarettes (or one reasonable hand-drawn facsimile of a complete package wrapper of any one of the three brands) to: Liggett & Myers, P. O. Box 271, New York 46, N. Y. Enter as often as you wish, but be sure to enclose six package wrappers (or a facsimile) with each entry. Illegible entries will not be considered.

3. Entries must be postmarked by midnight, Friday, May 29, 1959 and received by midnight, Friday, June 5, 1959.

4. Entries will be judged by the Bruce-Richards Corporation, an independent judging organization, on the basis of logic and aptness of thought of solutions. In the event of ties, contestants will be required to complete in 25 words or less the following statement: "My favorite cigarette is (Chesterfield) (L&M) or (Oasis) because . . .". Entries will be judged on originality, aptness of thought and interest by the Bruce-Richards Corporation. Duplicate prizes will be awarded in event of final ties. Illegible entries will not be considered. By entering all entrants agree that the decision of the judges shall be final and binding.

5. Solutions must be the original work of the contestants submitting them. All entries become the property of Liggett & Myers and none will be returned.

6. Winners will be notified by mail as soon as possible after completion of the contest.

7. This contest is subject to all Federal, State and local laws and regulations.

#### CLUES ACROSS:

- These may indicate that a nation is prepared to wage war in the air.
- Some college students.
- When at . . . . ., Light up an Oasis.
- Sinking ship deserter.
- Plural pronoun.
- One expects . . . . . discussions in a sociology class.
- A student's careless . . . . . might annoy a short-story instructor.
- Initials of Uruguay and Denmark.
- Germanium (Chem.)
- Nova Scotia (Abbr.)
- It probably would count when you pick a horse to bet on.
- Sometimes a girl on a date must . . . . . into her pocketbook to help pay the tab.
- The muscle-builder's . . . . . may fascinate a poorly developed man.
- Chemical Engineer (Abbr.)
- Campers will probably be . . . . . by a forest fire.
- When starting a trip, tourists usually look forward to the first . . . . .
- At home.
- Literate in Arts (Abbr.)
- Familiar for faculty member.
- Associate in Arts (Abbr.)
- One could appear quite harmless at times.
- Reverse the first part of "L&M".
- What will soon appear in a bombed-out city.

#### CLUES DOWN:

- The beginning and end of pleasure.
- A rural . . . . . can be inviting to a vacationist.
- Second and third letters of OASIS.
- When one is . . . . . packed, it could be exasperating to remember a few articles that should be included.
- It would pay to be careful when glass is . . . . .
- Grounds to relax on with a mild CHESTERFIELD.
- Author . . . . . Ambler.
- District Attorney (Abbr.)
- A . . . . . from Paris should please the average woman.
- An inveterate traveler will . . . . . about distant lands.
- . . . . . are hard to study.
- Stone, Bronze and Iron . . . . .
- How Mexicans say, "Yes".
- All L&M cigarettes are " . . . . . high" in smoking pleasure.
- May be a decisive factor in winning a horse race.
- Initials of Oglethorpe, Iona, Rutgers and Emerson.
- United Nations Organization (Abbr.)
- Golf mound.
- Colloquial for place where the finest tobaccos are tested for L&M.
- Poet Laureate (Abbr.)
- Filter ends.
- What Abner might be called.
- Bachelor of Education degree.

### 25 SECOND PRIZES:

COLUMBIA STEREOGRAPHIC  
HI-FI SETS

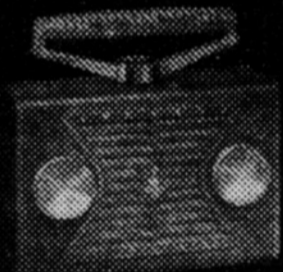

"Big Stereo" styled . . .  
engineered for the most  
exacting taste.

### 100 THIRD PRIZES:

EMERSON TRANSISTOR  
RADIOS

Packed with power . . .  
plays 1500 hrs. on 1 set  
of batteries

### 500 FOURTH PRIZES:

Cartons of America's finest cigarettes

#### PRINT CLEARLY! ENTER AS OFTEN AS YOU WISH

Mail to Liggett & Myers, P. O. Box 271, New York 46, New York. Be sure to attach six empty package wrappers of the same brand (or facsimile) from Chesterfield, L&M, or Oasis cigarettes.

## Rhea Wins High Honor For Acting

Glenn Rhea, Sp Jr, was presented the All-Star award at the annual Oscar awards banquet Saturday night in the terrace room of the Wareham hotel. This was the first time the award had been given in the past nine years. Approximately 85 attended the banquet.

To receive the award, a person must be deserving of honor in all phases of the K-State theater and receive a majority of the votes cast in a write-in ballot.

The leading actor award went to Rhea for his performance in "Inherit the Wind" and "No Time for Sergeants." Laurel Lee Johnson, TJ Soph, received the leading actress award for her role in "Mary Stuart."

Jim Johnson, Sp Jr, received the award for the best supporting actor for his appearance in "Inherit the Wind," "Mary Stuart," and "No Time for Sergeants." Best supporting actress award went to Alice Ott Rhea, Sp Soph, for her roles in "Inherit the Wind" and "No Time for Sergeants."

The backstage girl award went to Bev Brewer, His Soph, for her work with the props for "Inherit the Wind," "Mary Stuart," and "No Time for Sergeants." Elliott Parker, EE Soph, received the backstage boy award for his work with the lighting for "Inherit the Wind," "Mary Stuart," and "No Time for Sergeants."

Awards for the one-act plays went to William Yandell, BA Sr, leading actor; Laurel Lee Johnson, TJ Soph, leading actress; Jim Johnson, Sp Jr, supporting actor; Lu Richards, Sp Soph, supporting actress; Art Crider, Sp Fr, outstanding freshman; and Janice Corbin, Sp Sr, and Karen Hampton, Sp Sr, best direction.

## McCain Says Education Aid To Preserve Peace

"Education is our principal means for preserving the peace of the world," Pres. James A. McCain told a meeting of the Cosmopolitan club Friday night.

President McCain, addressing the international interest club, listed six points which he believes are necessary to achieving these results for education:

1. Devote more time in schools and colleges to teaching about foreign people and their cultures;
2. Give greater emphasis to the teaching of foreign languages;
3. Multiply the numbers of students and teachers involved in international exchange programs;

### Refunds Are Available

Money will be refunded to students who have ordered graduation announcements for the May 31 commencement but will not graduate at that time. The extra announcements will be put on sale in Kedzie 101.

Photo by Elliott Parker

**THANKING THEIR FRIENDS** for their new Plymouth Fury are Mr. and Mrs. B. A. Rogers of the Wesley Foundation. They were presented with the car last night at a reception by present and former members of Wesley Foundation. See related story on page 4.

## KS Band Members Get Keys At Annual Spring Concert

Two marches, "Manhattan Beach March" by John Philip Sousa, and "The Footlifter March" by Henry Fillmore, highlighted the annual spring concert of the combined Varsity and Concert bands Sunday afternoon in the University auditorium.

Service key awards were presented during intermission to twelve students who have been

band members for at least six semesters.

Recipients were Carol Faulconer, Mth Jr; Billy Jones, MEI Jr; Bobby Jones, VM Soph; Ellis Meeks, EE Soph; Anita Meckfessel, HT Jr; Jimmy Lawson, AA Jr; Betty Mai, HT Jr; Stanley Harris, VM Jr; Carolee Weiser, Eng Jr; William Mills, Ag Jr; William Warner, Chm Jr; and John Hassler, Chm Sr.

Robert J. Quinn, assistant director of bands, directed the Varsity band during part of the program in playing "Persian March" by Fillmore, "Galliard and Courante" by Girolamo Frescobaldi, "Cowboy Reverie" by Anthony Donato, and "Legendary Air" by Frank Erickson.

Following the intermission, Asst. Prof. of Music Jean Hedlund directed the combined Varsity and Concert bands in "The Footlifter March."

William Scriven, Mus Gr, then conducted the bands in Morton Guild's "Hillbilly" and Victor Herbert's "Gypsy Love Song."

To conclude the concert,

## K-State Players Give Chinese Fantasy Show

Talents of K-State students and Manhattan children were combined as the K-State Players presented their fourth major production, "The Land of the Dragon," Friday and Saturday nights.

The play was given in typical Chinese style with no scenery. Two men dressed in black costumes so as to remain "invisible" to the audience, carried the properties on and off stage.

Mike Larson, stage manager, seated on a high stool in one

corner of the stage, announced and described each scene.

All the members of the cast were dressed in bright Chinese costumes. Oriental music played in the background added much to the fantasy of the play.

Instructor of speech Carolyn Hunt directed the play, assisted by Laurel Johnson, TJ Soph. Asst. Prof. of Speech Don Hermes was in charge of properties and Prof. of Electrical Engineering O. D. Hunt, was in charge of the lighting.

## Funds Allocated To KS Groups

The Apportionment board, in its final spring meeting Friday, allocated a total of \$201,895 to various campus organizations. With a few exceptions the figures apportioned to the groups were the same as the actual funds received during the 1958-59 school year.

In past years the board has apportioned on the basis of the estimated enrollment for the subsequent year and has experienced difficulty in the fall when the expected enrollment did not materialize.

This spring the board decided to make the tentative allocations on the basis of the final apportionments made for the current year. If an increase in enrollment actually occurs, adjustment will be made when the Apportionment board meets, probably early in October, to make final apportionment of the student activity fund for 1959-60.

The method used in allocating the activity fund this spring accounts for the disparity between the \$218,860 which is the estimate of funds available for distribution and the \$201,895 actually apportioned by the board. The expected receipt figure

was computed using the Registrar's estimated enrollment of 6,780. The apportionments were based on last year's allocation which were arrived at on the basis of an enrollment of 6,701.

A complete tabular breakdown of the Apportionment board's tentative distribution of funds appears on page 2 of today's Collegian.

## Barger Speaks at Ag Engineering Day

Only 300 people attended the first Agricultural Engineering day Saturday. Exhibits, demonstrations, a tractor pulling contest, and a speech by E. I. Barger, BS '29, highlighted the day.

"For our first event, I think the day was successful," said George H. Larson, head of the Agricultural Engineering department. "The displays and demonstrations were especially effective."

Barger, general manager of product education and planning department of Massey-Ferguson Inc., spoke about farm equipment and modern agriculture. He pointed out several problems that need to be studied in the colleges and universities by agricultural engineers.

A portrait of Professor Frederick C. Fenton, head of the Agricultural Engineering department from 1928 to 1956, was unveiled by Dean M. A. Durlan, head of the School of Engineering and Architecture. The portrait was a project of several former students of Fenton.

## Golden Anniversary Issue Of Royal Purple Available

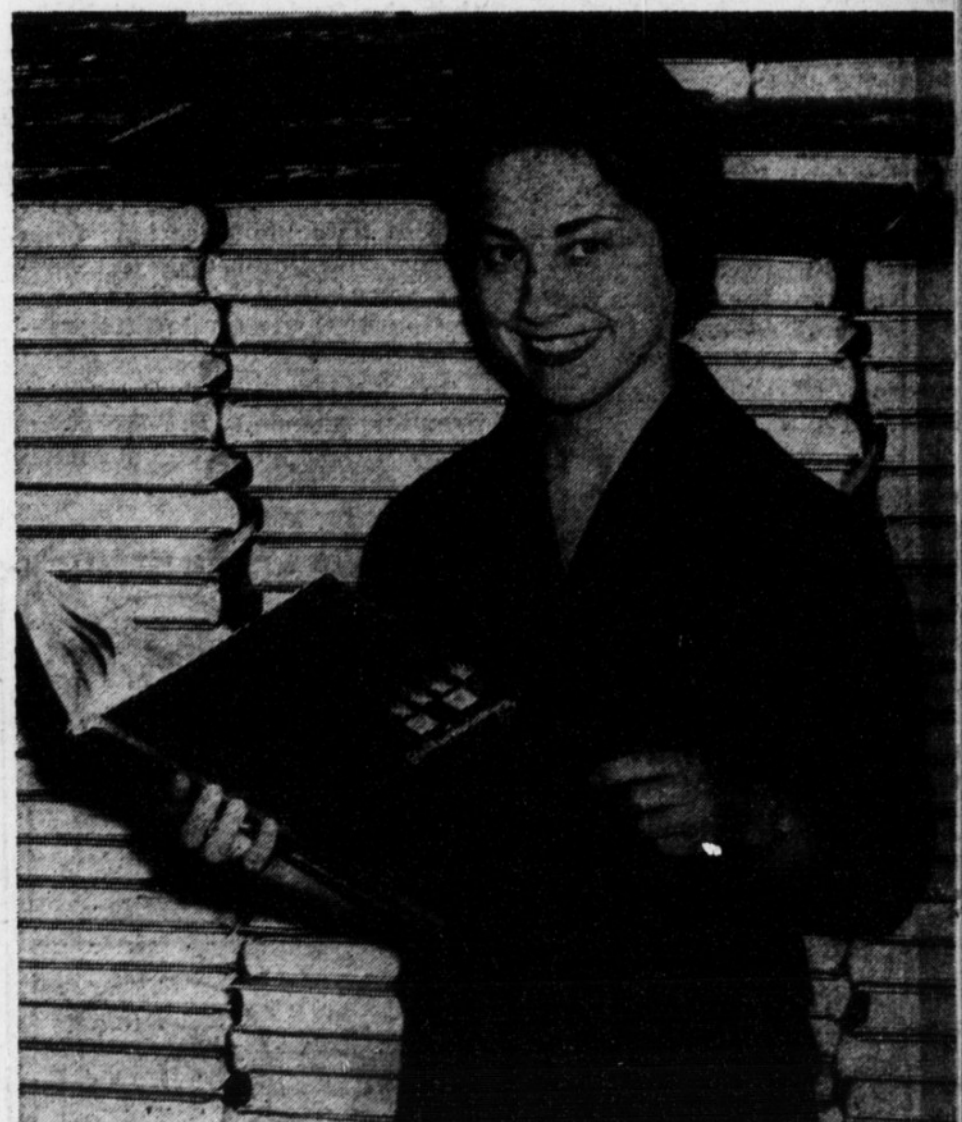

Photo by Elliott Parker

**STANDING BEFORE** 6,000 copies of the Royal Purple is Charlene Strah, TJ Sr, this year's editor. The Royal Purple are being distributed in Kedzie hall.

# West Refuses to Split 'Package,' No Separate Berlin Negotiations

Compiled from UPI  
By JOHN HOKANSON

Geneva—The West today rejected any backdoor deal on Berlin and in an official statement served notice on Russia at the Western foreign ministers' "package plan" for Germany and European security is unbreakable.

U.S. Assistant Secretary of State Andrew H. Berding issued a statement reiterating that Berlin cannot be settled in isolation, "apparently in reply to widespread reports that the Western ministers had split over an American plan to reach an interim arrangement" on Berlin.

Berding's statement was issued in the name of the United States, Britain, France, and West Germany.

A West German spokesman denied reports of a policy rift among the Western delegations. "It is quite clear from the statement issued in the name of the four Western delegations—including West Germany—that there is no split," the spokesman said.

He also characterized as ridiculous the talk of an alleged French and West German alignment against Britain and the United States since Western policy was formed, unified, and agreed on weeks ago. There has been no change since, he said. Berding's statement said "reports that the Western delegations have decided to break up the Western peace plan and concentrate on a settlement of Berlin are incorrect."

But the statement still left open the possibility that if the package plan has to be sent on to the Summit for negotiation, East and West might reach a "mark-time" accord which would guarantee peace in Berlin until final decisions are reached. The Western powers had not decided when would be the propitious time to discuss such an interim arrangement.

France had been reported especially dismayed at the premature disclosure of the interim possibility. Britain was believed more or less ready to follow the American viewpoint.

## Steel Talks in Recess

New York—Negotiations for a steel industry labor contract are in recess today, and United Steelworkers President David J. McDonald took his union's problems to the AFL-CIO executive board.

McDonald was expected to report in Washington to the spring meeting of the top labor group on the steel industry's "no wage increase" ultimatum and also on "social visit" here last week to President Eisenhower.

The four-man industry and union negotiating teams have until June 30 to reach an agreement to prevent the nation's sixth post-war steel strike.

President Eisenhower's top economic adviser, Raymond Moley, said yesterday he

didn't believe a steel strike is inevitable but that if it does come and is prolonged it could knock "into a cocked hat" the Administration's hopes for balancing the budget this year.

## Reds Shell Matsu Island

Taipei, Formosa—Rear Adm. Liu Hoh-Tu, spokesman for the Chinese Nationalist Defense ministry, said today the Communists had shelled Matsu island to show the world Peiping still intends to try to drive the United States out of the Western Pacific.

Communist shore guns broke a seven-month lull in the Formosa Strait yesterday by firing 444 shells at the offshore Matsu complex, killing three Chinese military men and wounding eight other persons. None of the Americans in the military advisory detachment was hurt.

Admiral Liu said that one hour before the Red guns opened fire more than 10 Communist junks were spotted approaching the Matsus, 150 miles north of Quemoy. Nationalist patrol vessels gave chase and were fired upon by Communist shore batteries. The Communist vessels disappeared.

Liu also reported the Reds fired 54 shells at the Quemoy islands yesterday although guns were silent today at both island groups.

Observers said the guns were fired to strengthen the Soviet hand at the Geneva Foreign Ministers' conference—proof of Communist world-wide solidarity.

## Dulles Condition Static

Washington—No major change has been reported in the condition of John Foster Dulles in his fight against cancer.

The last word on the former secretary of state came from friends who said yesterday that he was growing weaker with each passing day.

## Weekend News Briefs

# Soviet Union Presents Its Plan For Peace Pact with Germany

The Soviet Union presented its plan for a peace treaty with Germany Friday. The plan which would pull the Western powers out of West Germany, take West Germany out of the NATO alliance, and leave East Germany under the control of the Communists indefinitely was put forward by Soviet Foreign Minister Andrei Gromyko at the Fifth session of the Geneva Foreign Ministers conference.

The proposal was construed as an almost complete rejection of the West's plan presented by U. S. Secretary of State Christian Herter, Thursday.

The Western plan calls for negotiating a peace treaty with a re-united Germany. The reunification would begin with Berlin an gradually cover all of the defeated World War II enemies.

In addition the plan called for gradual troop cutbacks with eventual disarmament as a major goal.

Nikita Khrushchev indicated that the Soviet Union might be willing to negotiate on the proposal of President Eisenhower for a ban on nuclear explosions.

Presidential press secretary James C. Hagerty told newsmen Saturday the President had received a communication from Khrushchev indicating the Soviets were willing to discuss detection methods for locating nuclear blasts.

In a Moscow speech the Soviet Premier rejected the Western plan for German peace but added that the proposals contained

some matters worthy of examination.

President Eisenhower spent the weekend in Colorado. His 24 hour stay included a visit with his mother-in-law, Mrs. Elvira Dowd, in Denver and a visit to the Air Force academy in Colorado Springs.

The cadets at the Academy made the President an honorary member of the graduating class and awarded him a bachelor of science degree.

# KS Delta Chi Colony Not Dead; Has Made Big Plans for Future

Dear Editor:

We have appreciated the publicity which your paper has given the Delta Chi colony during this semester. We find your most recent article of May 12 very misleading and disturbing.

From this article it could be interpreted that Delta Chi had been denied permission to colonize by the Interfraternity Council. In actuality, this is far from being accurate. The Delta Chi national fraternity has been interested in colonizing at Kansas State for several years. In 1955 Delta Chi was given permission to colonize by the Interfraternity Council, the Faculty Council, and the Administration.

Last fall several fraternity-minded men, after recognizing that the present fraternities on

this campus do not offer what they desired in the way of fraternal living, decided, when the opportunity arose, to form a colony of Delta Chi national fraternity.

In its investigation, Delta Chi found that the previous permission to colonize was still in effect, and that the Administration welcomed Delta Chi to the Kansas State campus. Recognizing the goals of our local group, and wanting to found a true fraternity, Delta Chi accepted us as a colony.

In accordance with University rules a colony must be a member of the Interfraternity Council before it may be chartered by a national group. In essence the vote on May 12 denied the colony membership in the Interfraternity Council. The vote did not deny us permission to colonize, nor did the vote state that we must disband. Presently the powers of the Interfraternity Council do not include dictating to a student the choice of his associates.

We sincerely believe that there are advantages to fraternal living. We also believe that competition will benefit the fraternity system as a whole here at Kansas State university. Although the recent vote by the Interfraternity Council may have an effect on the date at which we may be chartered by the national fraternity, we will continue colonization.

With these thoughts in mind, our colony, with the help of local alumni and the national fratern-

nity, has made big plans for the forthcoming years. Our operation may be hindered by not being a member of the Interfraternity Council, but then again it may not.

Sincerely,  
Executive board,  
Delta Chi Colony.

Dear Editor,

In Thursday's editorial you stated, "We see no worthwhile purpose in the commencement ritual . . . merely a waste of time and money."

Bravo! I agree with you wholeheartedly and am glad that you are propounding this philosophy. I, for one, would like to see this philosophy extended to cover other rituals.

For example, how about another editorial entitled, "Pomp, Ritual of Wedding Serves No Worthwhile Purpose?" After all, the population of the world continued to expand long before such a ritual was even thought of.

Or, "Pomp, Ritual of Funeral Serves No Worthwhile Purpose?" This is obvious because the guy is dead, no?

And finally, as a fitting conclusion to the series of editorials, "Pomp, Ritual of Christmas Vacation Serves No Worthwhile Purpose?" By abolishing this, students would not keep putting off homework until this vacation period and students would not be spending money traveling large distances under sometimes hazardous travel conditions just to spend a few days at home.

Writers name withheld by request.

# Jayhawks Win Track Title As K-State Places Fourth

Kansas won its eighth straight Big Eight track title and K-State finished fourth last weekend at Norman in the greatest assault on the conference record book in history.

Eight new records were set in the track events and another was tied. Two other new marks fell in the field events.

The Jayhawks scored 125 points as they easily outdistanced their rivals. Oklahoma State was second with 90, Oklahoma had 64, Kansas State 66, Missouri 55, Colorado 46, Nebraska 20, and Iowa State 18.

The Wildcats failed to win a first place, but scored five seconds and three thirds, while getting shut out in five events.

A new record was set in the mile vault as Oklahoma State's Tom Graham cleared 15-3 1/4 to tie his teammate, Aubrey Dooley, who vaulted 15-1/4. Dooley held the old mark at 14-9. Wes Santee's six-year-old record in the mile fell by the way as he cleared 14-9 at Oklahoma's Gail Hodgson covered the distance in 4.06.2.

In the outstanding performance of the meet, Kansas' Charles Tidwell ran the 220-yard low hurdles in 22.7 to equal the American collegiate record he set at the NCAA meet last year. This was 1.6 seconds off the former record of 23.3 by Dick Ault of Missouri.

The summaries:  
440-yard relay—1. Kansas (Paul Rearick, Paul Williams, Bob Lida, Charles Tidwell); 2. Oklahoma State; 3. Missouri; 4. Oklahoma; 5. Kansas State; 6. Nebraska. Time—20.9 (breaks old record of 41.4 by Nebraska in 1958).  
Shot put—1. Mike Lindsay, Oklahoma, 57-7 1/4; 2. Dan Erwin, Ok-

lahoma, 56-10 1/4; 3. Jim Cain, Kansas State, 53-5 1/4; 4. Bill Dryer, Kansas, 51-5 1/4; 5. Dick Cochran, Missouri, 50-8 1/4; 6. Al Wellman, Nebraska, 50-3/4.

440-yard dash—1. Chuck Carlson, Colorado; 2. Deloss Dodds, Kansas State; 3. Hi Gernert, Oklahoma; 4. Ken Covert, Oklahoma State; 5. Jim Vader, Kansas State; 6. Jim Gernert, Oklahoma. Time—46.5 (Breaks old record of 47.1 by Pete Orr, Missouri, 1957.)

Mile run—1. Gail Hodgson, Oklahoma; 2. Tom Rodda, Kansas State; 3. Ron Sanson, Iowa State; 4. Tom Skutka, Kansas; 5. Harold Millikin, Iowa State; 6. James Sanders, Missouri. Time—4:06.2 (Breaks old record of 4:06.3 by Wes Santee, Kansas, 1953.)

100-yard dash—1. Charles Tidwell, Kansas; 2. Orlando Hazley, Oklahoma State; 3. Dee Givens, Oklahoma; 4. Paul Williams, Kansas; 5. Henry Wiebe, Missouri; 6. Vernon Haddox, Oklahoma State. Time—9.4 (Ties old record of 9.4 by Hubert Meier, Iowa State, 1930.)

Javelin—1. Bill Alley, Kansas, 256-10; 2. Lowell Renz, K-State, 214-4; 3. Jim Londerholm, Kansas, 216-5; 4. John Book, Kansas, 214-4; 5. Al Hamilton, Kansas State, 209-3 1/4; 6. Ron Francke, Colorado, 194-1 1/4.

Broad jump—1. Ernie Shelby, Kansas, 24-4; 2. Chuck Runge, Iowa State, 23-1; 3. Bill Toomey, Colorado, 22-11 1/4; 4. Bob Wenski, Missouri, 22-10; 5. Darwin Ashbaugh, Kansas, 22-7 1/4; 6. Paul Williams, Kansas, 22-6 1/4.

120-yard high hurdles—1. Calvin Groff, Missouri; 2. Bill Tillman, Kansas; 3. Rex Stucker, Kansas State; 4. Bob Okerstrom, Kansas; 5. Eddie Dove, Colorado; 6. Ken Sweeney, Iowa State. Time—14.1.

Discus—1. Dick Cochran, Missouri, 175-6; 2. Mike Lindsay, Oklahoma, 169-10 1/4; 3. Jerry Foos, Kansas, 159-7 1/4; 4. Al Wellman, Nebraska, 159-3 1/4; 5. Clyde Northrup, Oklahoma State, 156-10; 6. Jim Cain, Kansas State, 153-7 1/4.

220-yard dash—1. Orlando Hazley, Oklahoma State; 2. Dee Givens, Oklahoma; 3. Henry Wiebe,

Missouri; 4. Paul Williams, Kansas; 5. Donald Carafiol, Missouri; 6. Paul Rearick, Kansas. Time—20.9 (Breaks old record for one turn 21.3 by George Koettel, Oklahoma, 1940.)

High jump—1. Tie between Bob Cannon, Kansas, and Sammy Pegues, Oklahoma State, 6-5; 3. Tie between Cedric Price, Kansas State, and Bill Lewis, Colorado, 6-4; 5. Tie among Larry Neeley, Oklahoma; Steve French, Kansas State; Jim Green, Missouri; and Bob Lammel, Nebraska, 6-2.

880-yard run—1. Joe Mullins, Nebraska; 2. Mike Peake, Colorado; 3. Tom Burch, Oklahoma State; 4. Bob Greenfield, Colorado; 5. Tom Rodda, Kansas State; 6. Bob Ringo, Oklahoma. Time—1:49. (Breaks old record of 1:50 by Mike Peake, Colorado, 1958.)

Two-mile run—1. Miles Eisenman, Oklahoma State; 2. Billy Mills, Kansas; 3. Bernie Frakes, Colorado; 4. Bob Hanneken, Missouri; 5. Dan Ralston, Kansas; 6. Brian Travis, Kansas. Time—9:04.8. (Breaks old record of 9:09.1 by Jerry McNeal, Kansas, 1957.)

220-yard low hurdles—1. Charley Tidwell, Kansas; 2. Rex Stucker, Kansas State; 3. Calvin Groff, Missouri; 4. Vernon Haddox, Oklahoma State; 5. Eddie Dove, Colorado; 6. Bill Tillman, Kansas. Time—22.7. (Tied American college record of 22.7 by Tidwell, Kansas, 1958, around one turn, and broke Big Eight record of 23.3 by Dick Ault, Missouri, 1948, around one turn.)

Mile relay—1. Oklahoma State (Tom Harlan, Tom Burch, Ken Covert, Orlando Hazley); 2. Kansas State; 3. Kansas; 4. Oklahoma; 5. Colorado; 6. Iowa State. Time—3:10.5. (Broke old record of 3:11.6 by Kansas State, 1958.)

Pole vault—1. Jim Graham, Oklahoma State, 15-3 1/4; 2. Aubrey Dooley, Oklahoma State, 15-1 1/4; 3. J. D. Martin, Oklahoma, 14-10 1/4; 4. Ken Pollard, Nebraska, 14-6; 5. Tie between Larry Neeley, Oklahoma, and Joe Webb, Missouri, 14-0. (New record, old record 14-9 by Aubrey Dooley of Oklahoma State in 1958.)

## Cat Nine Wins One Tilt, Loses Pair to Jayhawks

K-State's baseball team broke its 21-game losing streak last Saturday by beating Kansas, 15-11, but not before the Jayhawks handed the Cats 12-0 and 8-7 defeats in the first two games of the series.

The win enabled the Cats to climb into the No. 6 spot in the conference standings. They have now won four and lost seven, with three of the wins coming on forfeits by Missouri.

Kansas dropped into the cellar at 3-10, and Missouri won three from Colorado to make its record 3-9, despite the forfeitures.

The Wildcats combined 11 hits, 11 walks, and five Kansas errors to break into the win column.

Paul Bader got three hits—a homer and two singles—to drive across six runs for the Cats. His circuit clout was the big blow in a six-run second inning that put K-State out in front for good.

Bob Graham became the first Wildcat pitcher to record a win, but needed help from Dick Skelton in the seventh when Kansas erupted for four runs.

Skelton, who had a fine five-

inning relief stint in the first game Saturday, walked one but retired two nitters to preserve the win.

Tom Holler pitched a four-hitter for the Jayhawks as they shut out the Wildcats, 12-0, in the series opener.

Kansas jumped off to a 8-1 lead in the first three innings of the first game of the twinbill, and held off a late Wildcat rally.

You'll be pleased with a Collegian classified.

# KS Golfers Finish Seventh in League

The K-State golfers finished seventh in the Big Eight meet at Norman last weekend as Oklahoma State easily took its second title in only its second year in the conference.

The Cowboys' team total of 899 was 33 strokes lower than the 932 posted by the runnerup Missouri in the 54-hole tournament.

Oklahoma finished third with 939, followed by Kansas at 944, Colorado 947, Nebraska 963, K-State 998, and Iowa State 1,008.

Oklahoma State's Jim Wright

took individual honors as he shot consecutive rounds of 73 for a 219 total over the par 36-36 Oklahoma university course.

Wright beat out his teammate, Jack Ellis, by a single stroke. Ellis led after 36 holes with a 144, but slipped to a 76 Saturday to finish at 220. Tom Garrity of Missouri also shot a 220.

Bill Toalson of Kansas was fourth with a 223, followed by Colorado's Dale Douglas with a 225.

### TILL WE MEET AGAIN

This is the last column of my fifth year of writing for Philip Morris and Marlboro. I have made it a custom in the last column of each year not to be funny. I know I have also realized this aim in many other columns during the year, but that was not for lack of trying. Today I am not trying. I am not trying for two reasons: First, because you are getting ready for final exams and in your present state of shock, nothing in the world could possibly make you laugh. And second, this final column of the year is for many of us a leave-taking, and good-byes always make me too misty to be funny.

For me the year ends neither with a bang nor a whimper, but with a glow—a warm, pleasant, mellow glow—the kind of glow you will find, for example, at the end of a Philip Morris or Marlboro.

It has been in every way a gratifying experience, my five years with the makers of Philip Morris and Marlboro, and I would like to take this opportunity to extend my heartfelt appreciation to these good tobaccoists, to assure them that the memory of their kindness will remain ever green in my heart, and to remind them that they still owe me for the last three columns.

And in these waning days of the school year, let me address myself seriously to you, my readers. Have I trod on any toes this year? Ruffled any feelings? Jostled any sensibilities? If so, I am sorry.

Have I occasioned any laughs? Chuckles? Sniggers? Mona Lisa smiles? If so, I'm glad.

Have I persuaded any of you to try Philip Morris and Marlboro? To taste that fine flavor? To smoke that excellent tobacco? If so, you are glad.

And now the long, lazy summer lies ahead. But for me summer is never lazy. It is, in fact, the busiest time of year. Two summers ago, for instance, I was out ringing doorbells every single day, morning, noon, and night. There was a contest, you see, and the kid in my neighborhood who sold the most bluing won a pony. I am proud to report that I was the lucky winner.

Last summer I was also out ringing doorbells every single day, morning, noon, and night. I was trying to sell the pony.

This summer I am not going to be out ringing doorbells. I am going to saddle the pony and ride to Hollywood, California. What am I going to do in Hollywood, California? I am going to write a series of half-hour television comedies called THE MANY LOVES OF DOBIE GILLIS, and starting in October, 1959, your friends and mine, the makers of Philip Morris and Marlboro, are going to bring you this program over the Columbia Broadcasting System every Tuesday night at 8:30. Why don't you speak to your housemother and ask her if she'll let you stay up to see it?

And now good-bye. For me it's been kicks all the way, and I hope for you it hasn't been altogether unbearable. Have a good summer. Stay well. Stay cool. Stay loose.

© 1959, Max Shulman

For us, the makers of Philip Morris and Marlboro, it's been kicks too, and we would like to echo kindly old Max's parting words: Stay well. Stay cool. Stay loose.

## KS Net Team Last in Conference Meet

Failing to win a match, K-State's tennis team finished last in the Big Eight meet at Norman last weekend as Oklahoma State scored 17 points to win the title. Oklahoma placed second with 14, Colorado had 8, Nebraska 5, Kansas 4, Missouri and Iowa State 2, and K-State 0.

The Cowboys won four of the five singles crowns and one doubles title.

Oklahoma State's only singles champion came in the No. 1 bracket, where Colorado's Ron Latta won by beating Oklahoma's Joe Harris, 6, 10-8, 6-4.

## Sig Alphas Win Softball Crown

Sigma Alpha Epsilon blew a 3-0 lead and had to come from behind to defeat Beta Theta Pi Saturday, 11-8, to win its second night intramural softball championship in the fraternity division. The Sig Alphas led 5-0 after one and a half innings, but the Betas scored three in the second and four in the third to take the lead at 7-5.

A three-run homer by Bob Skelton in the fourth inning put the Alphas back on top, 8-7, and they scored three more in the fifth while the Betas were getting ready for one.

Roger Cranmer pitched the entire game and Jerry Emerson had four hits and drove in four runs to be the winners.

## Dramatics Fraternity Initiates, Elects Heads

Twelve new members were initiated into Pi Epsilon Delta preceding the Annual Oscar awards banquet Saturday in the gold room of the Wareham hotel.

Pi Epsilon Delta of National Collegiate Players is an honorary dramatics fraternity.

New members are Martha Atkins, Sp Jr; Landen Friesen, Soc Sr; Jeanne Hill, Sp Jr; Laurel Lee Johnson, TJ Soph; Randi Johnson, Sp Soph; Ken Keefer, Sp Jr; Paul Longhofer, SED Jr; Doug Moore, Ar 04; Pat Myers, Sp Soph; Elliott Parker, EE Soph; John Sticklen, Sp Gr; and Gwen Wess, Sp Soph.

### Home Ec Nursing

New officers were elected at a Home Ec Nursing club picnic and meeting in Sunset park. They are

president, Carolee Moore, HEN Fr; vice president, Barbara Stout, HEN Fr; secretary treasurer, Karen Stanley, HEN Fr; and publicity chairman, Karen Teagarden, HEN Fr.

### Chancery Club

Charles A. Chartier, PrL Jr, was elected chief justice of the Chancery club at the meeting Friday night. Other officers are Bill Haas, Gvt Jr, associate justice; Donald Rhoads, bailiff; and Diane Endicott, BMT Jr, clerk of the court.

Jack Lorenz, a graduate of Washburn university law school, was the featured speaker. Lorenz was one of the founders of the Chancery club in 1950. He spoke on "Job Opportunities for Young Lawyers."

## New Car Is Surprise Present To Retiring Wesley Leaders

A surprise which originated last year, terminated yesterday when the retiring Rev. and Mrs. R. A. Rogers of Wesley Foundation, were presented with a new car.

The 1959 Plymouth was given to the Rogers during a special reception for them at the Wesley Foundation Sunday night.

The plans for the surprise began last year when news of their coming retirement was received. A steering committee sent letters explaining the plans to people who attended Wesley Foundation while going to school in Manhattan.

As a result, more than enough money was collected to purchase the car and donations are still being received. After expenses, the remainder of the donations

will be given to the Rogers in a cash amount.

The Rev. Rogers first came to Manhattan in 1922 as associate minister of the Methodist church downtown and as director of the youth program at K-State. The program has grown under his guidance until all his responsibilities are centered at the Foundation.

It is widely accepted by other Methodist ministers and leaders that the Rogers have built the best Methodist youth group in the country.

A motto the Rogers have accepted and lived by as directors of Wesley Foundation is to make

the foundation a "home away from home."

Although it is hard to explain the personalized atmosphere which the Rogers maintain, students remember the Foundation as the place they went when they felt like going home.

They remember the Monopoly and card games, the free use of the kitchen and supplies, and the many other comforts of home in an atmosphere created by two interested people.

In reviewing their 37 years at Wesley Foundation, the Rogers estimate they can call about 5,000 students by name. The Rev. Rogers has married about 1,000 couples and has baptized an uncalculable number of people.

Kansas State University, Manhattan, Kansas, Tuesday, May 19, 1959

NUMBER 147

## Activities in Dead Week Are Choice of Individual

Although Dead Week is declared an all-University event by the Student Activities board in an effort to limit prefinal week activities, it depends for its success on the individual student.

In its third semester on campus, Dead Week isn't exclusive to K-State, but is a common expression on many campuses, says Margaret Lahey, associate dean of students.

"The purpose of Dead Week is to kill some of the activities before the end of the semester. There are no planned social events, such as exchange dinners or hour dances during the week, but sorority pledges living in the dorms are invited for din-

ner at their respective houses Wednesday night."

By university rule, semester specials are not granted during Dead Week, but each organized house makes its own rulings about permitting girls to go out during the week before finals.

Activities are also discouraged during Dead Week by the Union's refusing to schedule meetings, by letters urging organizations to reschedule meetings that will fall during Dead Week, and by phone calls reminding organized houses not to schedule activities during the week.

Closer cooperation between the Student Activities board and the Union next year is a possibility to help enforce Dead Week

by eliminating more activities and by discouraging students from going out.

The idea for Dead Week began a year ago last fall when a special AWS committee, headed by the AWS Standards committee chairman, studied and evaluated the different activities at K-State to find which ones were the most time consuming.

As a result, the committee recommended to AWS Council that a Dead Week before final week be enforced. AWS Council approved the proposal, and, in turn, recommended it to the Activities board for final approval.

The first Dead Week last spring semester, was relatively weak because of its newness, but the program is gaining more support every semester.

Because the Student Activities board has no jurisdiction over the faculty, no rulings have been made concerning tests during Dead Week. Action on this issue would have to come from the Administration, said Dean Lahey.

## Special Workshop Slated For Graduates in Ag Ed

Graduating seniors in vocational agricultural education who will teach in Kansas schools next fall will attend a special workshop on campus the week of May 25.

The prospective teachers will review various forms of teaching they will perform in their work, receive instruction in techniques to be used in making farm visits, and start work on a tentative course outline of subjects to be taught in high school during the week's workshop.

Another workshop is to be during the last week in July after the prospective teachers have been on the job for about a month. This workshop will give the students an opportunity to finish their course outlines which they started at the May workshop.

The students will also visit the office of the state board of vocational education at Topeka during the August workshop.

During the coming year, each beginning teacher will be visited by a K-State teacher-trainer, and special classes will be offered throughout the state which will

give the beginning teacher additional assistance.

Three K-State staff members and two members of the state advisory staff from Topeka will assist in the workshop beginning May 25. The K-State staff members are R. J. Agan, H. R. Bradley, and L. F. Hall. All three are associate professors in agricultural education. Representing the state advisory staff are C. C. Eustace and F. R. Carpenetr.

### Seniors May Pick Up Caps, Gowns Thursday

Seniors may pick up their caps and gowns beginning Thursday at the Campus Book store.

The store will be closed on Memorial Day, May 30, and the manager urges that seniors get their gowns before that date.

## English Proficiency Failure Total High

More students failed the English proficiency exam this spring than last fall, says Nellie Aberle, English professor in charge of administering the test.

"Although a greater percentage of students usually fails the spring exam, the comparative rate of failure has run slightly higher the last two years," said Miss Aberle.

Of the 544 students taking the April exam, 415 passed. Percent failure this semester was 23.71, compared to 19.84 who failed last fall, and 23.51 percent who failed last spring.

Seven of the 30 graduating seniors taking the exam failed, said Miss Aberle.

"I don't know why students put themselves in a position so they will have to take it the last semester before graduating.

"We do everything to prevent that kind of thing from happening to students.

"First semester juniors are the ones who are supposed to take the exam."

The graduating seniors who failed will be required to take training for the exam and will

take it in absentia, said Miss Aberle.

The exam is graded by one grader from the student's school and one from another school. In case of a disagreement, the exam is graded by a third person.

Fewer students who have been at K-State since their freshman year fail than transfer students who take the exam. The percentage of K-State student failure is less than that of KU.

"I don't know what causes more students to fail. It must be the kind of training they had before coming to K-State," said Miss Aberle.

A writing laboratory is offered for students who wish to see their failing papers and juniors and seniors who wish to prepare for the English proficiency exam.

Since 1949, the English proficiency examinations has been an all-University requirement for graduation.

"Students who missed the exam without a good excuse automatically fail," she added.

## Meeting Considers Education Council

Top level representatives of Kansas education, business, labor, agriculture, and government are meeting at K-State today to consider organization of a Kansas Council on Economic Education.

The purpose of the proposed organization would be to encourage and improve economic education, with major emphasis on the secondary school level. Summer workshops in economic education for selected high school teachers, and active assistance to high school teachers in developing resource units which could be used in the classroom are now planned.

The meeting began with a luncheon at the Union. Principle speaker was M. L. Frankel of

New York City, director of the Joint Council on Economic Education, the organization with which the Kansas Council would expect to affiliate.

A committee composed of representatives of seven of the major educational institutions in the state, headed by Wallace B. Nelson, associate professor of economics and sociology, has been at work for about two years to organize a Kansas Council.

Other institutions supporting the effort are Kansas university, Washburn university, Wichita university, Kansas State College of Pittsburg, Fort Hays Kansas State college, and Kansas State Teachers college of Emporia.

## Ivy Is Beautiful, But Has Disadvantages

Although K-State isn't an Ivy-League school, you don't have to go to Harvard or Yale to find ivy. On almost every building on campus the green vine can be seen winding its way up a stone wall.

Some of the ivy is almost as old as K-State. University historian Charles Correll said that as long as he had been connected with K-State—about 65 years—there had been ivy on the buildings.

Even though the ivy adds to the beauty of the building, it also has its disadvantages. According to R. F. Gingrich, superintendent of the physical plant, the ivy is a nuisance.

It requires constant trimming from the windows and screens. In some of the ivy, insects such as bees and wasps live. "It is also tough on woodwork," Gingrich said. Although it has its bad points Gingrich said he believes that its beauty offsets its disadvantages.

The ivy, which is called Virginia creeper or five-leafed ivy, attaches itself to the walls by means of something like suction cups. This method of attaching itself differs from other types of ivy in that they usually cling to the building by twining their stems around the stones. This aspect makes the ivy acceptable for buildings because it doesn't tend to pry the stones apart.

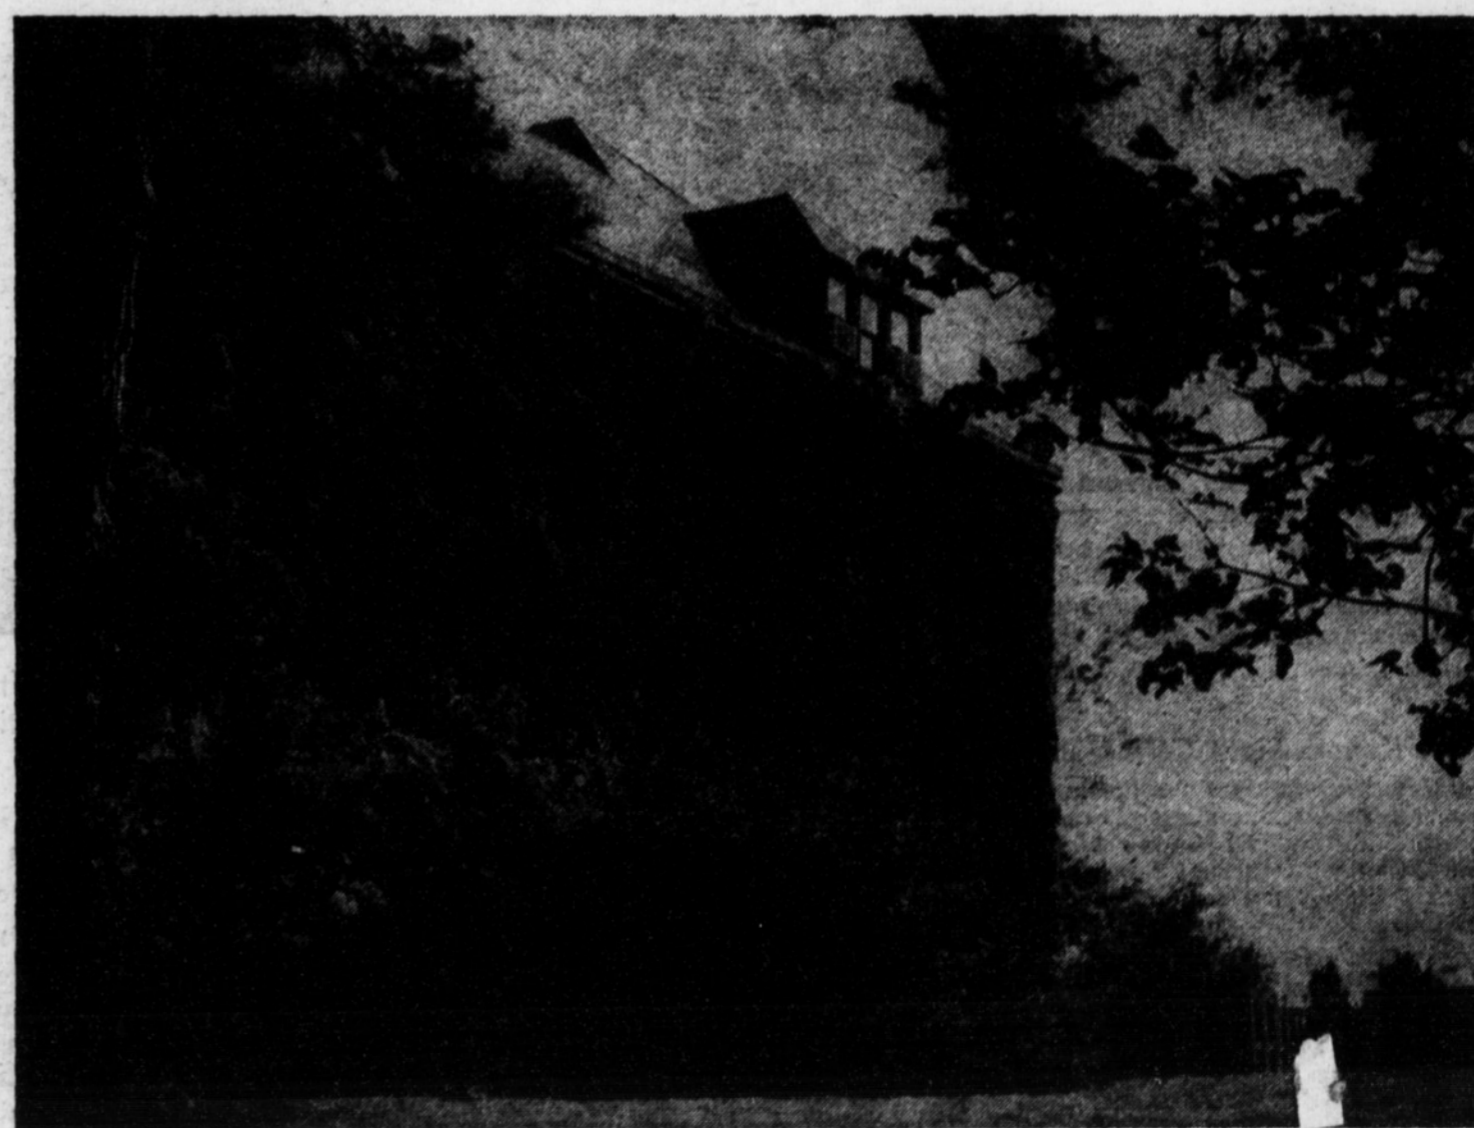

Photo by Don Dailey

**IVY COVERING** the walls of K-State buildings is often nearly as old as the building itself. Virginia creeper's leaves are so arranged that each gets an equal amount of sunlight, aiding the plant in its growth.

### Distribution of RP's Is at Halfway Mark

About half of the 6,000 Royal Purples were issued to students yesterday in Kedzie hall, said Charlene Strah, TJ Sr, editor of the 1959 yearbook.

The 50th anniversary issue is dedicated to the past RP editors. Pictures of past Royal Purple covers are on the front pages of the book.

The Royal Purple, which has won 23 consecutive all-American ratings, has been published annually since 1909. There were several yearbooks before the RP, but they had different names and were not published annually.

Miss Strah is the editor; Charlotte Chastain, TJ Sr, is business manager; and C. J. Medlin, graduate manager of student publications, is the faculty sponsor.

# McElroy Cancels Plans To Quit; Will Stay in Cabinet Indefinitely

Compiled from UPI  
By JOHN HOKANSON

Washington—Secretary of Defense Neil H. McElroy announced at the White House today that he had cancelled plans to resign and would remain in the cabinet indefinitely.

McElroy made his decision known after he conferred with President Eisenhower and Thomas S. Gates, Jr., who was selected by the chief executive yesterday to be the new deputy secretary of defense.

The Secretary, who leaves Washington for the Foreign Ministers meeting in Geneva late today, said he decided to change his plans to resign when Deputy Secretary Donald A. Quarles died recently.

McElroy said that before leaving for Geneva he wanted to clean up accumulated plans with Gates and Admiral Arthur W. Radford, retired. Radford was called back to duty yesterday while Gen. Nathan F. Twining, chairman of the Joint Chief of Staff is recuperating from a lung cancer operation.

McElroy said that his decision to remain in office was not altered by the appointment of Gates, but dictated by the death of Quarles. McElroy, former president of Procter and Gamble, had planned to return to private life this fall.

He said he still had some per-

sonal problems to resolve. But, he added that because of the international situation and "the problems of this summer"—obviously a reference to East-West tensions and a possible Summit meeting—"there was really no choice for me" after Quarles died.

## Atlas Missile Explodes

Cape Canaveral, Fla.—A twin explosion like the crack of an artillery salvo marked the death of the second combat-type Atlas missile high in the sky last night. It was the fourth straight Atlas that failed to carry out its test assignment.

The Atlas, scheduled for limited deployment to troops by July, had been in flight for only one minute when it suddenly was engulfed in flames.

The Air Force said "the cause of the malfunction is not known." A spokesman said the missile was not intentionally destroyed, as was the first operational-type Atlas after a brief and wobbly flight April 14.

## FBI Tactics Criticized

Popularville, Miss.—The FBI was under fire today by local authorities for alleged tough tactics in its investigation of the

lynching of Negro Mack Charles Parker.

"Because of the FBI tactics people will refuse to co-operate," county prosecuting attorney William Stewart said.

Rep. William Colmer (D-Miss.) asked the Federal Civil Rights commission in Washington to investigate charges of FBI harassment.

The FBI declined to comment. The protests followed the hospitalization of two white farmers who had been questioned by G-men.

## Over the Ivy Line

# Ohio State University Grad Students Ask Booze, Women, Gun Privileges

By Margaret Cooper

GRADUATE STUDENTS at Ohio State university asked Student Senate to recommend the following rules changes and allow graduate students over 21 years of age to:

- 1) Keep alcoholic beverages in their apartments.
- 2) Possess firearms.
- 3) Choose the place they want to live without University supervision.
- 4) Permit women visitors without chaperones.
- 5) Have social functions in their living quarters without chaperones.
- 6) Be permitted to judge and regulate their own affairs in a manner becoming the University.

THE THETA XI fraternity at Oregon State college unwillingly and unknowingly increased the financial status of a certain early morning worker. More than \$130 was stolen from 18 men while they were sleeping, and stolen with no commotion. The thief even took time to take the money out and let the men keep the billfolds.

ANOTHER INCIDENT at Oregon State college reported by the Daily Barometer which caused some excitement was in the form of a water fight. The police were called to the scene at one of the women's dormitories to quell the spring-inspired antic which resulted in two broken windows. The

officer's comment was, "It's spring time and the saps are rising."

THE INDIANA DAILY Student announced that the use of "yellow slips" is being considered by the faculty members. These "yellow slips are small slips of paper which state in bold black letters, 'The English in This Paper Is Not Acceptable.'" The three choices on the slip which the instructor may check are a warning about carelessness, lowering of grade because of poor English, and requiring the student to go to the Writing Clinic for assistance. This might make the instructors' job easier, but how effective would it be—just getting a yellow slip?

A CONTRIBUTOR to the Varsity News at the University of Detroit was poetically struck and wrote—

"Change, ye blasted devilish hue,  
Change ere I set my curse on you;  
You know that I must sit and wait  
While thy vile motors decide my fate  
My date, she waiteth far from here  
With impatient foot and anger's tear,  
Yet here I sit—I who might  
Brave greatest dangers to be in her sight:  
Face fiery dragons or nature's might—  
Waiting for a traffic light."

# Another Ultimatum Threatened By Soviets on Berlin Situation

By UPI

Geneva—Soviet Foreign Minister Andrei Gromyko has raised the threat of a new Berlin ultimatum if the Geneva Foreign Ministers conference does not go the way the Kremlin wants, American sources disclosed today.

Secretary of State Christian A. Herter immediately replied with a near ultimatum of his own—that President Eisenhower will not attend any Summit conference under duress and no Summit conference unless Russia agrees to present Allied rights in West Berlin.

The top-level exchange was disclosed after both East and West had rejected each other's opening positions at the Big Four conference.

Herter personally informed Gromyko that the West's minimum price for a Summit conference would be a stand-still agreement recognizing the present Allied rights in Berlin until the foreign ministers or the heads of state can reach a final settlement.

The Herter-Gromyko exchange was one of the most significant of the Big Four conference. It took place in a private conversation last Thursday at a dinner given by British Foreign Secretary Selwyn Lloyd, the sources said.

Gromyko's implied threat of possible new Soviet moves in Berlin was disclosed at this time. Authoritative sources said Soviet Premier Nikita Khrushchev apparently has fixed a deadline in his own mind for winding up the Foreign Ministers talks.

This report said Khrushchev has summoned the Communist party Central committee for June 24, apparently to assess the results of this conference and to prepare his mandate for the Summit conference he hopes will follow.

# Some Like To Take It Easy Before Finals

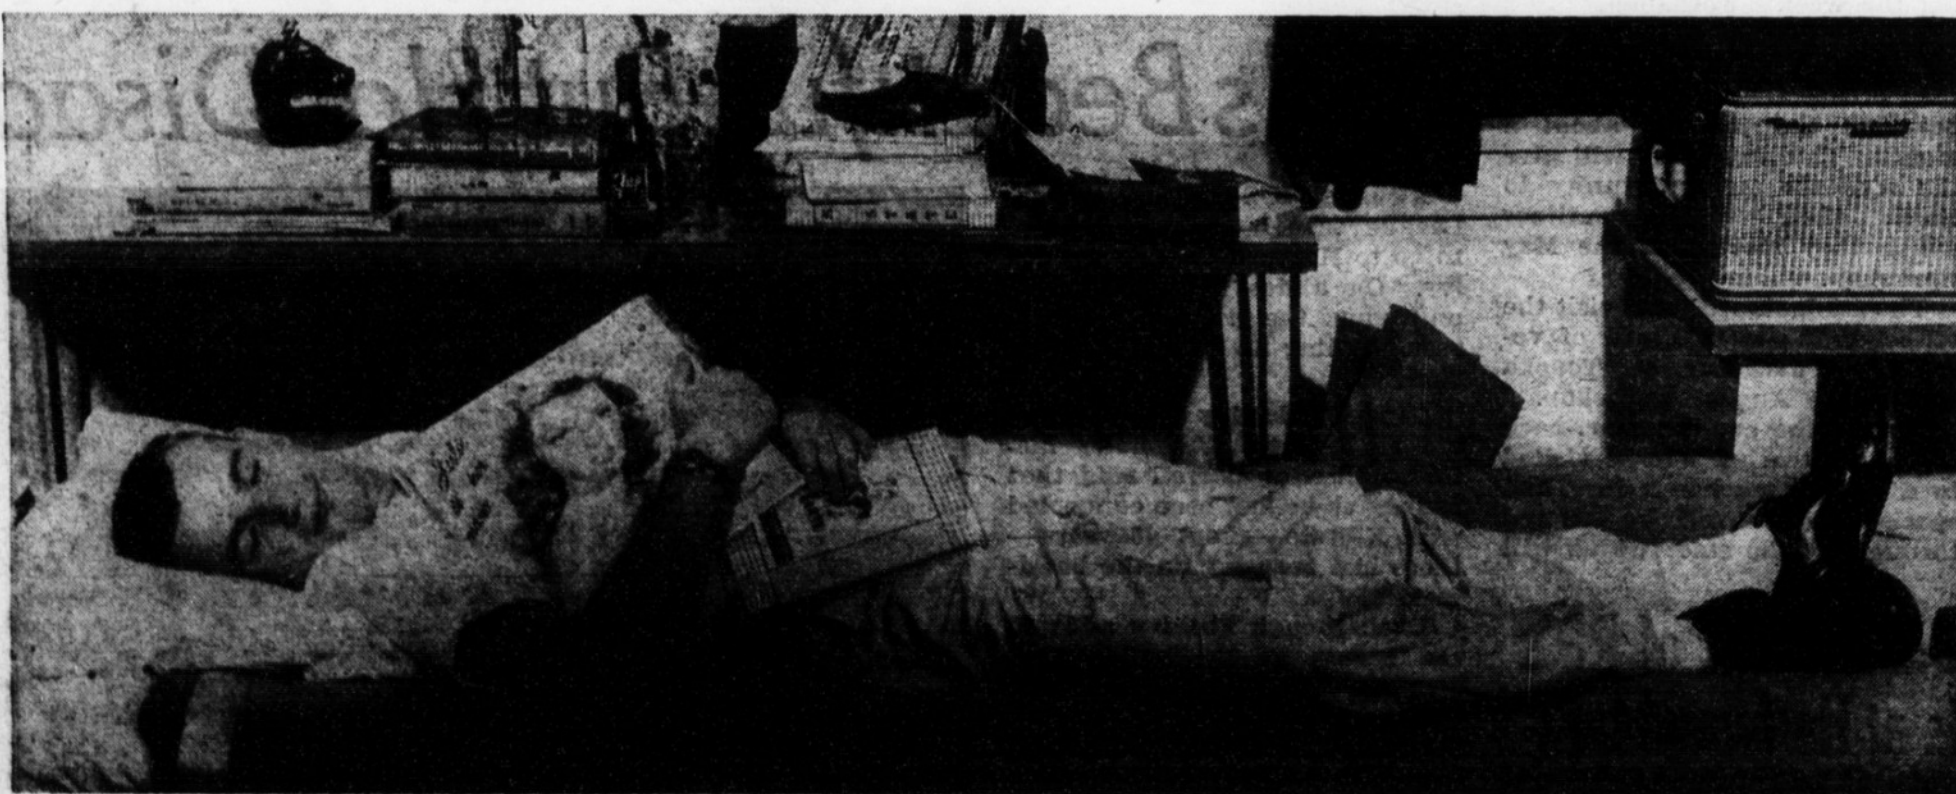

Photo by Don Dailey

AND SO TO SLEEP—George Sullivan, Ch Fr, finds some soft hi-fi music a great way to avoid studying for the approaching finals. This is only one of many methods for the conscientious objector to semester quizzes to keep from the rigors of cramming.

MUCH HAS been written about the process of studying for final examinations. In fact, too much has been written. With all the free advice floating around, it has become increasingly difficult for the student who does NOT wish to study for finals to find a measure of peace. Here then are some pointers for the nonconformist—the scholastic beatnik—the student who for some reason or other wishes to ignore cramming.

First, keep the atmosphere from becoming conducive to studying. Hire a small jazz band and place it in the corner of your room. Hold a convention in your house.

Sponsor an exchange riot. Stage war games. Do anything that is noisy and distracting.

Or try the opposite technique. It is nearly impossible to study in complete silence. Therefore, all you need to do is to construct an acoustical vacuum. Smash your clock. Disconnect all electrical appliances. Tie up your room mate, stuff an old sock in his mouth, and stuff him into the closet. Install wall to wall carpeting. Then sit and listen to the quietness. Sleep.

A way of compromising with the problem—perhaps to soothe your conscience—is to buy a case of ale. Read a page or two

of your book, then drink a bottle or two. Repeat the process. Read. Drink. A feeling of happiness soon pervades the erstwhile studier and drives out all alien thoughts.

The best way, however, to avoid studying is to sell your books. This move has a triple advantage. It enables you to resist any temptation that might spring up—it allows you to get more money for your books, since the selling rush is not yet on—and this in turn gives you the extra money to do something else.

What to do with the money? It is immaterial. Just spend it. Have a ball. Let the others study. Live!—dy

# Betas, West Stadium Win Intramural Titles

Final intramural totals for the year indicate that Beta Theta Pi and West Stadium are the 1959 champions in their respective divisions.

In winning, the Betas broke the six-year grip on the fraternity division title held by Sigma Alpha Epsilon.

It was the second straight championship for West Stadium.

The Betas scored 938, Sigma Alpha Epsilon had 719½, Sigma Chi had 717, Pi Kappa Alpha had 681, and Delta Tau Delta rounded out the top five with 627½.

West Stadium totaled 680½, followed by House of Williams with 610½, Scholarship house with 593½, Jr. AVMA with 473½, and the OK house with 416.

Fraternity division:

1. Beta Theta Pi .....	938
2. Sigma Alpha Epsilon ..	719½
3. Sigma Chi .....	717
4. Pi Kappa Alpha .....	681
5. Delta Tau Delta .....	627½
6. Phi Delta Theta .....	573

7. Sigma Nu .....	468½
8. Sigma Phi Epsilon .....	438
9. Beta Sigma Psi .....	433
10. Alpha Kappa Lambda .....	423½
11. Acacia .....	416½
12. Delta Sigma Phi .....	414
13. Alpha Tau Omega .....	400½
14. Tau Kappa Epsilon .....	387
15. Kappa Sigma .....	381½
16. Alpha Gamma Rho .....	366½
17. Phi Kappa .....	311½
18. Lambda Chi Alpha .....	246
19. Theta Xi .....	208½
20. Delta Upsilon .....	207
21. Farm House .....	197½
22. Phi Kappa Tau .....	53½

Independent division:

1. West Stadium .....	680½
2. House of Williams .....	610½
3. Scholarship house .....	593½
4. Jr. AVMA .....	473½
5. OK house .....	416
6. Vets .....	337
7. Kasbah .....	314½
8. YMCA .....	275
9. Westminster foundation .....	249½
10. Jokers .....	241½
11. DSF .....	230
12. AIA .....	200

13. Sigma Phi Nothing .....	174½
14. Hilltoppers .....	161
15. House of Brec .....	154
16. Rebels .....	132½
17. Hi Fis .....	117
18. Acropolis .....	105
19. Power Plant .....	99
20. Delta Chi Colony .....	89
21. Lutheran Students association .....	36
22. Newman club .....	22½

## Spring Athletics Banquet Will Take Place Tonight

Athletes from seven Kansas State sports will be honored at the fourth annual Wildcat Spring Sports banquet at 6:30 tonight in the Union ballroom.

Varsity letter winners and freshman squad members from wrestling, swimming, and gymnastics will be introduced, along with golf and tennis lettermen.

Probable lettermen and freshman squad members will be introduced in baseball and track. These sports are still in progress and will not name let-

termen for certain until their seasons are completed.

In addition, captains for the varsity and freshman wrestling squads for this year will be introduced, and the high-point man and the outstanding wrestler will be honored.

Captains in swimming and track will be named, as well as the high-point man in gymnastics and the most improved gymnast.

All former "K" men at K-State have been invited to the banquet, and around 20 are expected to attend. They will be introduced by Frank Mosier, K-State athletics ticket manager.

Included in the group, which is annually invited to take part in the spring sports banquet, are five honorary "K" men on the K-State staff.

They are Dr. A. A. Holtz, professor emeritus of economics and sociology; Dr. R. I. Throckmorton, dean emeritus of agriculture; Ward Haylett, track coach; Fritz Knorr, wrestling coach; and Frank Myers, director of intramurals.

Toastmaster for the banquet will be Myron Rooks, Manhattan businessman.

## Cristler Wins Title

Connie Cristler, Southeast hall, won the women's intramural tennis championship yesterday afternoon by beating Melissa Hale, Northwest hall, 6-0, 6-0.

## Spahn, Wynn Aim At 300-Win Circle

By UPI

It's no idle chatter when Early Wynn and Warren Spahn say they may wind up their careers in the charmed circle of 300-game winners.

Only six modern pitchers have reached that majestic total, but the seemingly indestructible Wynn and Spahn just keep rolling along toward the goal.

Wynn, 33, is pitching his best ball in three years this season and Spahn, 38, is rolling again after a slightly faltering start.

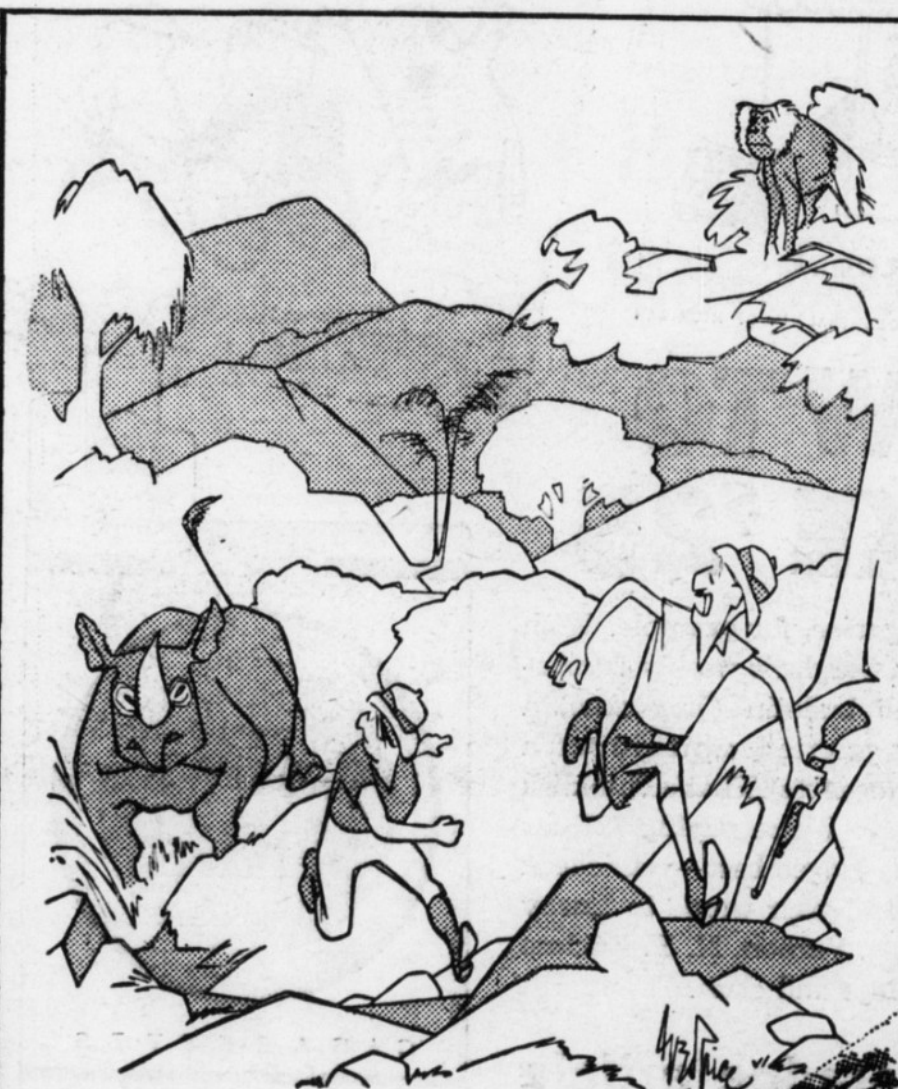

Wynn pitched the Chicago White Sox into first place in the American league for the first time since June 27, 1957 last night when he beat the Washington Senators, 9-2, and Spahn topped the San Francisco Giants, 4-2, to help the Milwaukee Braves stretch their

National league lead to 3½ games.

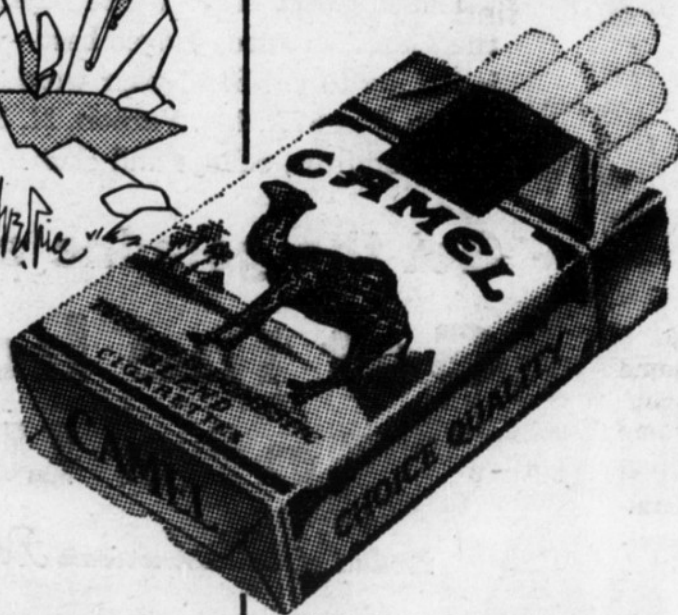

It was the 255th victory of Wynn's 20-year career while Spahn registered the 251st triumph of a 15-year career. Cy Young, Walter Johnson, Christy Mathewson, Grover Cleveland Alexander, Edde Plank, and Lefty Grove are the only modern pitchers who have reached the 300-mark for their careers.

The White Sox victory, coupled with the Baltimore Orioles' 3-0 decision over the Cleveland Indians, gave the Chicagoans a three-percentage-point hold on first place.

The Detroit Tigers crushed the Boston Red Sox, 14-2, in an American league day game and the Cincinnati Reds beat the Los Angeles Dodgers, 9-7, in the NL game.

"If he should get by you, Emma, double back for the Camels!"

More people keep going back for Camels than any other cigarette today. The Camel blend of costly tobaccos has never been equalled for rich flavor and easygoing mildness. Today as always, the best tobacco makes the best smoke.

By-pass the fads and fancy stuff...

Have a real cigarette—have a CAMEL

## Dr. Livingstone?

What a happy man he would have been if his man Stanley could have brought along a carton of Coke! That cold crisp taste, that lively lift would certainly hit the spot with any tired explorer. In fact, after your next safari to class—wouldn't Coca-Cola taste good to you?

BE REALLY REFRESHED...HAVE A COKE!

Bottled under authority of The Coca-Cola Company by COCA-COLA BOTTLING COMPANY OF MANHATTAN

# KS Physics Head Selected to AMU Board

Prof. A. B. Cardwell, head of the K-State department of physics, and director of K-State's bureau of general research, has been elected to a four year term to the board of directors of the Associated Midwest Universities.

Associated Midwest Universities is an inter-university corporation formed in May, 1958. Its membership consists of 31 of the leading midwest educational and research institutions, including all Big Ten universities and the University of Chicago.

Its purpose, as recorded in the Articles of Incorporation, is "to promote, encourage, and conduct research and education in all branches of science, including, but not limited to, nuclear science in relation to all other fields of science."

Cardwell has been active in the corporation since its inception, having served as a member of the three-man committee which prepared the Articles of Incorporation and By-laws.

## SAM

Officers elected by members of the Society of the Advancement of Management for the coming year: Warren Blacklock, IE Jr, president; Kyle Tilson, IT Soph, vice president; Gary Goetsch, IE Jr, secretary; Terry Waugh, IE Jr, treasurer; C. J. Austermiller, IE Soph, publicity chairman; and Gerald Faust, IT Jr.

## 4-H Club Chorus

A state 4-H club chorus of 70 voices will be a new feature of the statewide Kansas 4-H Roundup June 2-6 at K-State.

Members of the chorus were selected primarily on the basis of experience. Several of the members received 1 ratings in district and state music competitions this spring.

## Phi Lambda Upsilon

Phi Lambda Upsilon, national chemical honorary society, elected officers for next year at a meeting recently.

The officers elected were Ivan C. Smith, Cr Gr, president; Hugh

R. Hays, Ch Gr, vice president; Joseph S. Cantrell, Ch Gr, secretary; and Tom Shellenberger, Ch Gr, treasurer. Dr. Robert W. Kiser, assistant professor of chemistry, will serve the final year of his two-year term as counselor for the society.

## ME Fellowships

The National Defense Education act graduate fellowships in mechanical engineering at K-State have been awarded to Rolland D. Turner, ME Sr, from K-State and to Lyle G. Rhea, ME Sr, from the University of Missouri.

The fellowships cover three years of study by students beginning a program of study leading to a PhD degree. Selection is based on scholastic achievement in mechanical engineering and an interest in teaching at institutions of higher learning.

The two graduate fellowships at K-State were among the 160 announced for the 1959-1960 academic year by the United States Department of Health, Education, and Welfare, and are the only two approved so far in mechanical engineering.

## Delta Phi Delta

The Kansas State university chapter of Delta Phi Delta, national art honorary, initiated four

new members and pledged eight other students at its annual initiation, installation and pledging last week.

The new initiates are Barbara Maggard, Art Soph; Mina Jones, ArG Jr; Carolyn Dyer, Art Jr; and Jeneane Hubert, Zoo Soph.

New pledges are Karen Braman, Art Soph; Sharyn Burt, Art Soph; Malcolm Jones; Dean Burgess, ApM Gr; Dwight Bennett, Ar 04; Gil Veconi, Ar 04; Bob Graham, Ar 03; and John Cowan, Ar 02.

New officers installed were Miss Hubert, president; Miss Jones, vice president; La Donna Keller, Art Jr, secretary-treasurer; and Miss Dyer, historian.

## Student Paper Contest

Daniel L. Jilka, EE Sr, recently won first place and a \$75 cash award in the annual student paper contest sponsored by the Kansas City section of the American Institute of Electrical Engineers.

Electrical engineering students from K-State and the University of Kansas participate in the annual competition.

## General Motors Conference

Milton Raville, head of the department of applied mechanics at Kansas State university, has been invited to participate in the Gen-

eral Motors conference for college and university educators from the fields of engineering and the physical sciences, July 5 to 17.

The K-State administrator will take part in a series of discussions in Detroit and then will have an opportunity to observe, for several days, one of the GM operating units to see how current engineering and manufacturing problems are handled.

## Mechanical Engineering

Prof. and Mrs. Linn Helander were honored at a Mechanical Engineering department banquet at the Union last night.

Helander, head of the ME department from 1935 to 1957, has been active in several professional societies, including the American Society of Mechanical Engineers, American Society of Education Engineers, American Society of Heating and Air Conditioning Engineers, the American Association for Advancement of Science, Phi Kappa Phi, Pi Tau Sigma, and others.

## Horticulture Club

Harland Forslund, BS '59, was named the outstanding senior horticulture student at the Horticulture club's annual picnic Thursday night. Forslund re-

ceived a certificate and his name will be placed on a plaque to be hung in the Horticulture reading room in Waters hall.

## IFC Forbids Financial Aid To Athletes

The Interfraternity Council last night at a special meeting voted to "forbid any financial aid to athletes by members of the Interfraternity Council at K-State."

"We believe that it is not the role of fraternities to subsidize athletes. Subsidy of an athlete by a fraternity is in most cases a violation of Big Eight conference rules which could lead to the ineligibility of a KSU athlete," Jim Henderson, PrL Jr, president of the IFC, stated.

In other action, the Council ratified the Big Eight Interfraternity Council constitution which was drafted at the second meeting of the Council April 17 and 18 at Boulder, Colo. "The Council was organized to better deal with Greek problems of our area," said Henderson.

# THINKLISH

**Thinklish translation:** The only courses this bird absorbed were the ones served in dining hall. The only examinations he passed were the ones his dentist gave him twice a year. After five years of work (at a two-year college), he finally got his diploma. ## Parking Tickets Numerous; 4,000 Given Within a Year

K-State students and faculty received over 4,000 parking tickets during the 1958-59 school year. This netted approximately \$2,350 which will be used for campus street and parking lot improvements.

Approximately 7,200 registra-

### A&S Council Chooses Officers for Next Year

Officers for the 1959-60 Arts and Sciences Council have been elected. They are Judy Tyler, EEd Soph, president; Ruth Glendening, BS Fr, vice president; Peggy Ogan, EEd Fr, secretary; and Bob Byers, BAA Soph, treasurer.

## Activities To Be Varied During Summer School

"The K-State summer recreation program is comparable to that of other schools having the same conditions found here," says Paul M. Young, director of the summer session.

"Maybe when Tuttle Creek dam gets water in it, we'll have some competition for the recreation programs of schools in a more favorable location," he added.

On the tentative recreation program for this summer are Union activities, out-of-town artist entertainment, Quelle lectures, a K-State Players production, and a Music department opera.

Under the direction of Young, the summer recreation program chiefly includes the cooperation of the Union, the Music department, the speech department, and the Student Religious Activities director.

Tentative plans for Union summer activities include 24 movies, five of which are in a Cinema series, jazz concerts, book and music reviews, bowling leagues, family nights, and the annual summer prom at the end of the summer session.

For the first time, students will be working on a Union Summer Programs committee to help plan and coordinate Union summer activities.

Four out-of-town productions are scheduled on the summer recreation program. Musical Portraits, featuring two singers and a pianist-arranger, will be June 15; "The Four Poster," a Broadway hit, will be presented by The Village Players June 24; Dance Drama Duo, a production by two skilled dancer-choreographers, will be July 1; and the Boston Concert Ensemble, featuring four young artists—a violinist, a pianist, a bass-baritone, and a harpist—will be July 17.

A series of six Quelle lectures will be given in the air-conditioned Chapel auditorium on Wednesday nights at 7 p.m.

In its third year, the Quelle

tion stickers were issued during the year. This number does not represent the actual number of cars being used on campus because many stickers are lost and the number of cars driven by students varies throughout the year.

Parking permits are sold to upperclassmen not living on the campus and to staff members. The permits, which are sold for \$2 each, are valid for the entire year and enable the owner to park in campus parking lots.

A force of eight officers patrols the campus 24 hours a day. Most of the patrolmen's time is spent checking parking lots for violators. Very few arrests are made for offenses such as failing to stop for stop signs, reckless driving or speeding. Nine arrests were made from September of last year to April of this year.

These cases are tried before the justice of the peace court in Manhattan.

The campus patrol is also in charge of towing away cars that are parked in illegal parking places for an excessive period. A Manhattan wrecking service does the actual towing. As of the month of April nine cars were towed away.

## Leaders Meet To Organize Economic Education Council

About 60 Kansas leading educators, agriculturists, businessmen, labor officials, and government persons met on the campus yesterday to organize the Kansas Council on Economic Education.

Pres. James McCain presided at the meeting.

The purpose of the organization is to promote economics education in public schools, with an emphasis on high school.

The Council plans to hold three-week summer workshops in economic education for selected high school teachers. The teachers could then return to their schools and develop resource units of economics in courses such as history, constitution, or mathematics, when there is no economics course offered.

The first summer workshop is being planned on the K-State campus in the summer of 1960.

The Board of Trustees, which gives final approval to all plans of the executive council, is made up of college and university

presidents, leading public school superintendents, and leaders in business, agriculture, labor, and government.

Fifty-one per cent of the 28-member board is made up of educators.

The executive council which was elected yesterday is headed by Wendell Godwin, superintendent of the Topeka schools.

Other officers include J. Hardin Smith, vice president and general manager for Southwestern Bell Telephone company, vice president; Dr. Calvin Harbin, head of the Department of Education and Psychology at Fort Hays State Teachers college, secretary; and Ed J. Rolfs, vice president of the Central National bank in Junction City, treasurer.

Members-at-large on the executive council are Martin Byrne, president of the Kansas Farmers Union; H. J. Yount, vice president of the Kansas State Federa-

Summer School Enrollment High

dents—entering freshmen, teachers, and regular students. Regular students compose approximately two-thirds of the total enrollment.

According to Young, "People gain just as much during summer sessions as in regular sessions. The work is more concentrated, consequently the students take fewer hours. Also, there are fewer activities, giving the students more time to study."

The nine-week summer school session is broken up into three three-week sessions. The first is from June 8 to June 26, the second from June 29 to July 17, and the final is from July 20 to August 7.

Most of the classes are for the full nine weeks, but some are three-week classes, for which full credit will be given. A student cannot enroll both in nine-week and three-week courses, said Young.

About 125 are expected to graduate at the end of the summer session.

## Summer Camp Grants Given To K-Staters

Miniwanca club scholarships will be awarded to Sara Webster, EEd Fr, and David Wilson, TA Fr, club secretary Beverly Richardson, HT Jr, has announced.

The \$55 scholarship each receives will pay fees and tuition for two weeks of leadership training at Camp Miniwanca, Shelby, Mich., sponsored by the American Youth Foundation.

Campers participate in a training period of classes and recreation emphasizing a fourfold program of development: mental, social, physical, and religious.

Wilson and Miss Webster were selected on the basis of scholarship, college activities, religious organization participation, and personality.

Young men and women from every state in the U.S. and several foreign countries will attend the camp.

## Alumni Association Picks New Officers

Joseph D. Smerchek, Manhattan, is the new president of the K-State Alumni association.

Smerchek, a 1932 K-State graduate, was elected in a mail ballot of alumni just completed. He and five directors elected for three year terms will take office on Alumni day, May 30.

Smerchek is succeeding Pat Beezley, Topeka, who was the second woman ever to head the K-State Alumni association.

## Observers 'Aid' Construction

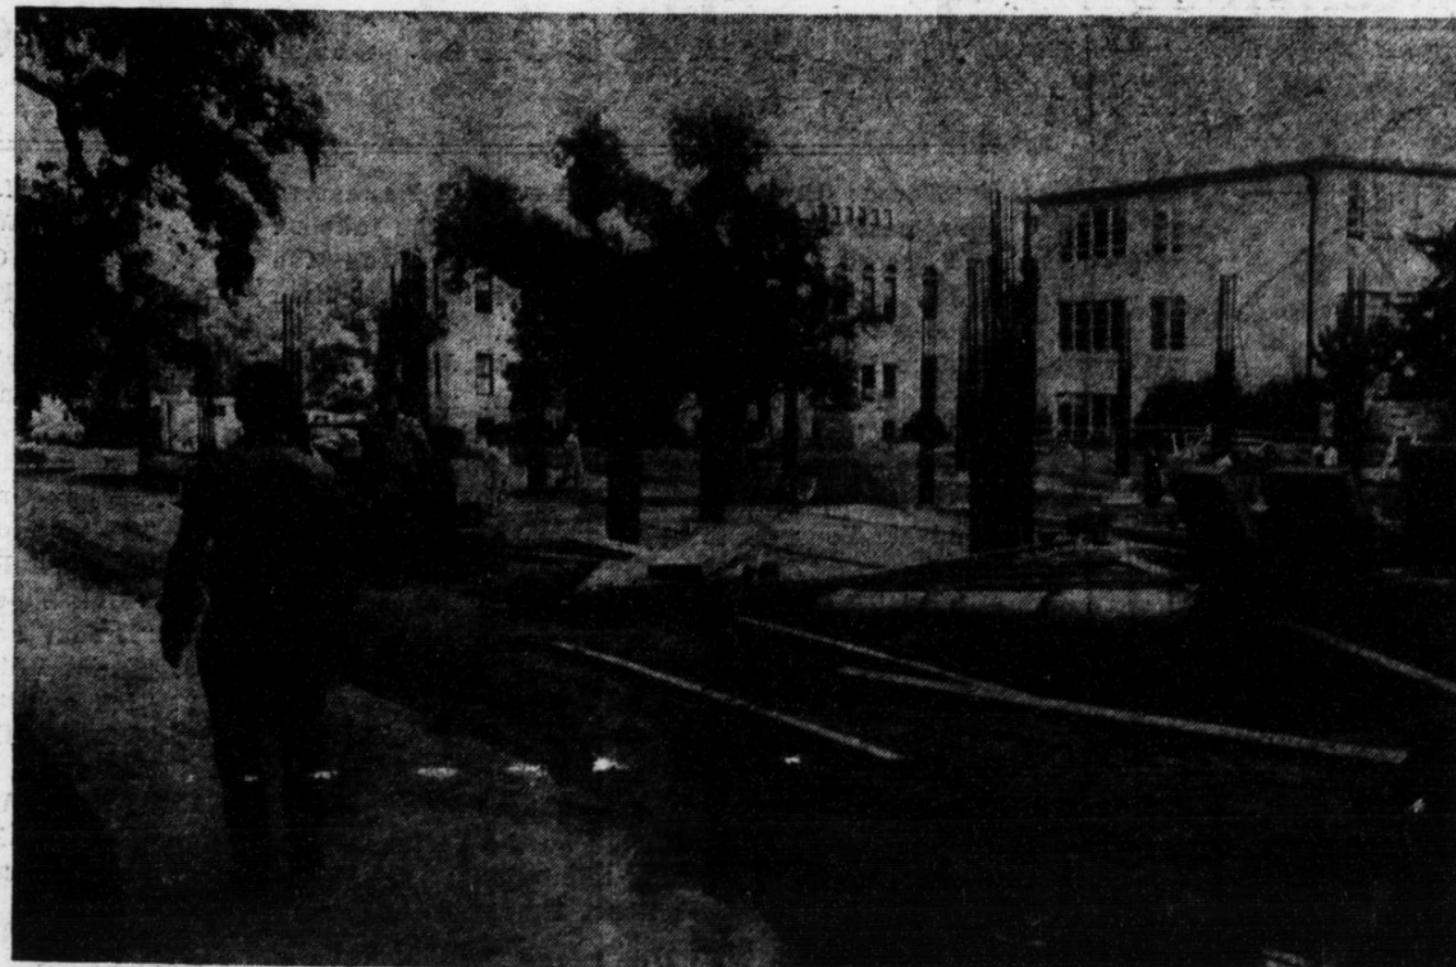

Photo by Jon Peterson

AN UNIDENTIFIED PASSERBY pauses to do a little supervision on the addition to Eisenhower hall now going up. Students and faculty alike often find it interesting to join the crowds of sidewalk experts, and calculate at which time the structure will crumble.

# English Proficiency Examination Serves No Worthwhile Purpose

ONE HUNDRED twenty-nine students, including seven graduating seniors, have failed the spring semester English proficiency examination. This is a 23.71 per cent failure, and it looks as if someone is slipping up somewhere.

We believe the exam and its results have served no worthwhile purpose except to show something which educators should already be aware of—that many students are not learning the basic skills of English proficiency.

The English proficiency exam has not

taught anyone anything. It is purportedly to "remind" students of basic skills in English proficiency. Apparently it has not "reminded" the 129 students who have passed courses in written communications and yet failed the exam.

WE SAY if students are to be reminded of these skills, why not remind them consistently in all courses? If proficiency in English is important enough to make it a requirement for graduation, then why not "remind" students of it every day in all (or nearly all) courses.

And we say why require a test in English proficiency in the first place? Tests in mathematics proficiency, philosophy proficiency, and other areas would be just as appropriate. We imagine as good an argument for speech proficiency could be given as for English proficiency.

IS IT then more important to require that students know how to write when they graduate than to require that they know what to write and how to think for themselves?—st

# Cargo Plane Crashes into Squadron Barracks At AF Base in Japan, Killing 3, Injuring 12

Compiled from UPI

By JOHN HOKANSON

Futoka, Japan—A giant American air freighter crashed today into the barracks of a U.S. maintenance squadron at Ashiya airbase outside this south Japanese city, killing at least three servicemen and injuring 12.

The barracks, three buildings in a single unit, were destroyed.

One of the plane's crew of eight and at least two soldiers in the barracks were killed, an Air Force spokesman said. It was believed possible that additional bodies might be buried in the wreckage, because it was not certain just how many men were in the barracks when the plane hit.

The spokesman said, however, that most of the men quartered in the barracks were in a nearby messhall at the time of the crash.

The plane, returning from a flight to Iwo Jima, was trying to land when it ploughed into the barracks.

The airbase commander design-

nated a board of officers to investigate the crash, and ordered an immediate roll call to determine whether any airmen were missing and perhaps entombed in the wreckage.

## Support Limit Planned

Washington—House Republicans hope to demonstrate today that they still have plenty of power despite being outnumbered by Democrats 282 to 152.

Republicans claimed to be picking up last-minute Democratic support for their plan to bar the government from writing any price support checks for farmers in excess of \$50,000.

During the last two years the government has provided at least two price support payments in excess of one million dollars. Some Democrats said they would support the GOP plan because they did not want to be tagged as "the friend of the big farmer."

## Hoffa Threat Distresses

Washington—Teamster president James R. Hoffa has touched

off new demands for tough labor legislation by threatening to combat a union anti-trust proposal with a nationwide strike.

Chairman John L. McClellan (D-Ark.) of the Senate Rackets committee said the threat has confirmed the danger which he had tried to warn the nation about when the Senate was considering its labor reform bill earlier this year.

Members of the AFL-CIO Executive council also said privately that Hoffa's outburst dimmed chances of success for their campaign to get House changes in the Senate-approved reform bill.

AFL-CIO president George Meany was reported to be distressed by Hoffa's statement. Other AFL-CIO leaders called the threatened walkout a stupid gesture that would serve to rally

anti-union forces in the House.

Meany yesterday disassociated the Federation from any protest strike and implied that Hoffa was advocating "revolution."

## Red Will Visit Albania

Moscow—Premier Nikita Khrushchev will visit Albania from May 25 to June 6, the official Tass news agency announced today.

This means Khrushchev will be out of the country on May 27, the date he originally set for the Allies to move out of West Berlin.

Khrushchev himself has said several times the May 27 date for Berlin did not constitute an ultimatum and that it would pass without change if negotiations were going well on the Berlin situation.

# Gromyko Again Tries To Split U.S. and Britain at Conference

By United Press International

Geneva—Soviet Foreign Minister Andrei Gromyko today took advantage of a deadlock in the East-West conference to press a quiet but deft probing attack to split the United States and Britain at the Big Four conference table.

Observers said his aim was to get Britain behind a quick "interim sell-out" which would prejudice Western rights in Berlin and postpone hope of a German package deal. There was no indication Britain would fall for the maneuver.

The conference apparently was so hopelessly deadlocked that both sides admitted privately the only hope appeared to be some interim agreement on Berlin leading to a Summit conference later. But both sides were wide apart on the approach to the Berlin question.

Gromyko's new effort to split the Anglo-American alliance seemed to indicate that down-to-earth negotiating was about to start here despite the surface stalemate.

U.S. Defense Secretary Neil H. McElroy warned yesterday that the Geneva conference would collapse if the Russians stir up new trouble in Berlin, but he added it was unlikely they would do so. McElroy made the statement in Washington before taking off for Geneva and talks with Herter.

McElroy also said he no longer considered Russia's May 27 deadline on Berlin a significant date although Soviet Foreign Minister Andrei Gromyko has raised the threat of a new ultimatum on Berlin unless Russia has its way at Geneva.

## Top Ten Tunes

# Wilbert Harrison's 'Kansas City' Tops Record and Jukebox Polls

By Don Johnson

"Kansas City" is the No. 1 record in Manhattan this week, making the top spot in both the jukebox and record shop surveys. Wilbert Harrison, the artist, appeared on the survey for the first time three weeks ago.

"The Battle Of New Orleans" by John Horton has sold out of many Manhattan music stores and promises to be a contender for the No. 1 spot on surveys across the nation for coming weeks.

Another promising record is "Cookie, Cookie Lend Me Your Comb" by Edward Barns and Connie Stevens.

"Quiet Village" by Martin Denny takes No. 3 position in the jukebox survey and No. 8 in record shop sales in Manhattan.

Four records which have been on the survey for four weeks or more are: "Pink Shoe Laces" by Dodie Stevens, "Happy Organ" by Dave Cortez, "It's Just A Matter Of Time" by Brook Benton, and "Guitar Boogie Shuffle" by the Virtues.

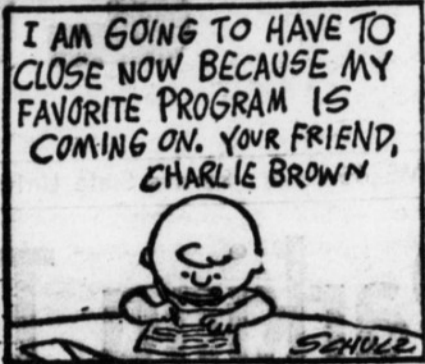

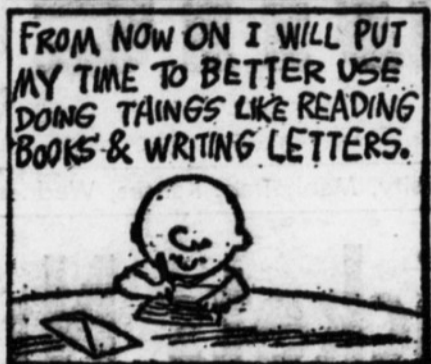

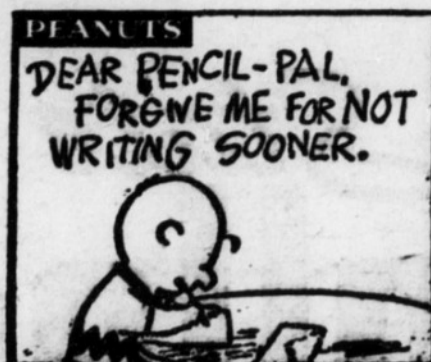

## THIS WEEK'S jukebox tabulations:

1. "Kansas City"—Wilbert Harrison
2. "Teenager in Love"—Dion and the Bel-monts
3. "Quiet Village"—Martin Denny
4. "Enchanted"—Platters
5. "Pink Shoe Laces"—Dodie Stevens

6. "Just a Matter of Time"—Brook Benton
  7. "Dream Lover"—Bobbie Darin
  8. "Cookie, Cookie Lend Me Your Comb"—Barns and Stevens
  9. "Battle of New Orleans"—Johnny Horton
  10. "Endlessly"—Brook Benton
- THE TOP ten buys in Manhattan record shops:
1. "Kansas City"—Wilbert Harrison
  2. "Battle of New Orleans"—Johnny Horton
  3. "Happy Organ"—Dave Cortez
  4. "Guitar Boogie Shuffle"—Virtues
  5. "Sorry, I Ran All the Way Home"—Impalas
  6. "Pink Shoe Laces"—Dodie Stevens
  7. "Dream Lover"—Bobbie Darin
  8. "Quiet Village"—Martin Denny
  9. "Personality"—Lloyd Price
  10. "Cookie, Cookie Lend Me Your Comb"—Barns and Stevens

FRANK SINATRA hits the album parade with "Come Dance with Me." It features the orchestra of Billy May accompanying Sinatra to "Something's Got To Give," "Too Close for Comfort," "Dancing in the Dark" and many other hits.

Billy May has released an album "Billy May's Big Fat Brass" which has been a top seller in this area. "Brassman's Holiday," "Ping Pong," and "Moonlight Becomes You," are some of May's favorites on the album.

## Cat Varsity, Frosh Athletes Honored at Sports Banquet

Varsity and freshmen squad members from seven K-State sports were honored last night at the fourth annual Spring Sports banquet in the Union ballroom.

Several awards were made. Duane Holman was named captain of the track team for 1959-1960. This year's captain was DeLoss Dodds.

Don Darter received a trophy as high-point man on the wrestling team. Darter, who scored 40 points, finished fourth in the NCAA meet in the heavyweight division.

Darrell Huggins was awarded a trophy as the squad's most outstanding wrestler, and Jerry Allen was honored as team captain.

This year's gymnastics captain, Ivan Loomis, was named the team's high-point man with 97 points.

Bob Rector received a trophy as the team's most improved gymnast.

This year's gymnastics team had a record of 3-3 in dual matches and was 13-4 overall.

Freshman numeral winners in gymnastics are Bert English, Steve Stumbo, and Eldon Pickenpaugh.

Named as tennis lettermen were Winston Tilzey, Jim Holwerda, Steve Poort, Lee Atkins, and Ed Frankel.

Freshman numeral winners in tennis are Larry Cook, Bill Dittie, and Morris Smith.

Wildcat golfers receiving letters are Jerry Hendricks, George Hooper, Dick Martin, Charles Hostetler, and Dennis Buck.

Ten K-State varsity swimmers were named as lettermen. They are James Mariner, Craig McNeal, Dallas Chestnut, Dave Leavengood;

Chuck Englund, Al Rader, Jerry Fitzgerald, Tom Coblenz, Gordon Harper, and Dave Hind-

ertlter. The Wildcat swimming team set 12 new varsity records this year.

Awarded freshman swimming numerals were Larry Rader, Mike Caldwell, Ray Bentz, Jim Callen, and Mike Pritchard.

Recommended for letters in track were Bill Rich, Dale Evans, Murray Corbin, Cedric Price, Bob Groszek, Rex Stucker, Jerry Hess, Al Hamilton, Steve French;

Lowell Renz, Max Falk, George Whitney, Chuck Burkat, Ben Grosse, Karl Lindemuth, Larry French, Jim

Vader, Jim Cain, Tom Rodda, and DeLoss Dodds.

Track lettermen will not be announced until the season is over.

Sixteen "K" alums were guests at the banquet. Included in this group were four honorary "K" men on the K-State staff. They are A. A. Holtz, professor emeritus of economics and sociology; Ward Haylett, track coach; Fritz Knorr, wrestling coach; and Frank Myers, director of intramurals.

## Eddie Machen Picked Over Rueben Vargas

Eddie Machen rules as a 9-5 favorite when he meets Rueben Vargas tonight at San Francisco's Cow Palace in a battle of heavyweight contenders.

Amid charges that "we expect officials to favor Machen," the camp of Vargas predicts a knock-out for their man.

But Machen, handled by the wiley Sid Flaherty, is a much better boxer—and packs a kayo punch, too.

The bout is set for 7 p.m. (PDT), with a TV black-out for 150 miles around San Francisco. Matchmaker Bennie Ford predicts a \$50,000 house.

One of Vargas' co-managers recently claimed that he had been

warned that the "San Francisco officials will favor a Flaherty boxer," and asked boxing inspector Willie Ritchie to look into the situation.

## CONFIDENCE

Although changes in the rate of our nation's growth and in general business conditions are always to be expected, there is ample evidence that our American economy is mighty vigorous.

Our bank's loan policy is built around that fact. We have taken the long view. We have prepared to meet the sound credit needs of loan customers, whatever economic conditions may obtain — at the same time making every necessary provision for the protection of our depositors, whose money we lend.

In having recognized the certainty of economic change and having geared ourselves for it, we have established a sound basis for facing the future with confidence — confidence which those who do business with us can share, in all kinds of economic weather.

## Orioles' Manager Optimistic About Team's Flag Chances

By UPI

"Nothing's impossible!"

That's Paul Richards' answer to those who are beginning to wonder whether the amazing Baltimore Orioles—now only 1½ games from the top—can win the American league pennant.

"I originally thought we might have a chance by 1961," said the elated Oriole manager after his

team beat the White Sox, 2-1, last night. "Maybe I was being too conservative."

"The way we're playing now, we sure could fool a whole lot of people."

Winners of five of their last six games, the Orioles knocked the Indians out of first place Monday night and did the same thing to the White Sox last night. Cleveland moved back into the lead with a 5-2 victory over Washington.

The last-place Tigers handed the staggering Yankees their fifth loss in six games, 6-3, while the game between the Athletics and Red Sox was postponed because of rain.

In the National league, the Braves won their sixth straight by beating the Giants, 8-1; the Dodgers snapped a five-game losing streak with a 6-4 decision over the Redlegs; the Cardinals topped the Pirates, 8-2, and the Cubs outlasted the Phillies, 8-7.

Joey Jay of the Braves held the Giants to seven hits and struck out the same number in gaining his second victory. Wes Covington banged a three-run homer in the first inning off loser Jack Sanford and Del Crandall hit one with the bases empty in the same frame.

The Braves collected 12 hits, but Hank Aaron, who had hit safely in 22 straight games, went hitless in four trips. By winning, Milwaukee increased its NL lead to 4½ games.

Johnny Temple's error paved the way for four unearned Dodger runs in the sixth inning and that was enough to sink Willard Schmidt and the Reds. Charley Neal's two-run double highlighted the frame that decided the game. Reliever Johnny Klippstein posted his fourth straight victory without a loss.

Jim "Mudcat" Grant beat Washington for the seventh

straight time although he needed help from Dick Brodowski in the final two innings. Rocky Colavito, Jim Piersall, and Woody Held hit homers for the Indians.

Rocky Bridges drove in three runs with two singles as the Tigers downed the Yankees. The defeat was hung on southpaw Whitey Ford, who was chased in a four-run first inning.

A two-run homer by Gino Cimoli and three runs batted in by Bill White backed up the steady pitching of Larry Jackson as the Cardinals downed the Pirates to stretch their winning streak to three games. Oddly enough, all three victories were by 8-2 margins and the Cards batted out 12 hits in each game.

# Two Graduates To Receive Commissions

Two seniors will receive commissions in the regular United States Air Force upon their graduation May 31. They are Ken B. McNeill, BA Sr, and Thomas H. Coblentz, Zoo Sr.

The two were chosen for the regular Air Force commissions on the basis of scholastic achievement, leadership, and performance at the air force ROTC summer camps last summer.

McNeill, who has had three years in the United States Navy, plans to take navigation and to make a career of the Air Force. Coblentz plans to take pilot's training.

The commission received by McNeill and Coblentz is the same one as is received for Air Force Academy graduates, and entitles

them to the same privileges as Academy graduates.

## Young Democrats

At the last meeting of the year the Young Democrats elected officers for the fall semester. They are Jim Carrico, His Soph, president; Walt Mayden, ChE Jr; first vice president; Frank Stiegle, His Fr, second vice president; Sara Umberger, TxC Soph, recording secretary; and Pete Palermo, BA Soph, treasurer.

## Graduate Elected

A 1927 Kansas State university engineering graduate, C. C. Tate, has been elected a vice president of Phillips Petroleum company.

Tate joined Phillips refining department in 1932 as an engineer and served for the following

10 years in various supervisory capacities at the Phillips, Texas, and Okmulgee, Okla., refineries. He became assistant manager of the refining department in 1944 and has been manager of the department since 1949.

## Psychology Club

The Psychology club recently elected officers for the fall semester. They are Pat McHugh, Psy Jr, president; Don Downing, Psy Jr, vice president; and Judy Howard, Psy Jr, Secretary-Treasurer.

## Loan Fund

A \$100 gift from the Cosmopolitan club has been added to the Cosmopolitan club unit of the K-State Alumni association loan

fund, Kenny L. Ford, alumni secretary, announced yesterday.

The loan fund is set up particularly for foreign students who belong to the Cosmopolitan club. Foreign students may borrow from the fund without security.

## Grasslands Meeting

Members of a Kansas committee for the grasslands national park will hold their organizational meeting Saturday, at the Student Union.

H. T. Gier, chairman of the Manhattan area park development association, says around 30 persons have been invited to attend. There will be a meeting from 10 a.m. to 12 noon at the Union, with a luncheon following.

## Research Grant

Liang-tseng Fan, chemical engineering instructor, has been awarded a \$1,500 summer research grant from the E. I. du Pont de Nemours & Co. of Wilmington, Del.

The research grants are made each summer by the du Pont company to promote research work

in the field of semi-fluidization the contact between liquids and solids.

Fan, who received his Ph.D. in 1957 from West Virginia university, has been on the K-State staff since February, 1958.

Since 1957, he has authored some 13 articles on various topics related to chemical engineering.

## Summer Institute

Joseph F. Stokes, instructor in mathematics, will attend the National Science Foundation summer institute for teachers of college mathematics at Oklahoma State University, Stillwater, June 8 to July 31.

Stokes will be able to earn eight semester hours of credit during the summer institute. He will study statistics.

## Even Polygamy Factor In English Pro Failures

By WANDA EGGERS

One student taking the English proficiency examination this spring wrote "The Women I Marry," instead of "The Woman I Marry," as the title to his theme. The grading instructor facetiously wrote, "this suggests polygamy," on the student's paper.

Mistakes such as this, whether a result of carelessness or ignorance, contribute to the failure of students taking the proficiency exam, says Miss Nellie Aberle, English professor in charge of administering the test.

Chief causes of exam failure are misspelled words; illogical shifts in number, tense, or person; faulty agreement of noun and verb tense; and confusing reference.

"Students almost never fail because of poor handwriting. We have tried to eliminate this as a possible factor by assigning them to rooms where they can write

without having to use a lap board," said Miss Aberle.

Other students fail because they don't take the exam after they have signed for it. "They know the exam is scheduled and they just stay away," said Miss Aberle.

Unless a student has a good excuse for missing the exam, he is given an automatic failure. If he has a legitimate excuse, the student is automatically dropped from the exam schedule and is required to sign for the next semester.

Misspelled words that contribute to a failing paper are the ones students wouldn't normally look up in a dictionary. "Of course students can't use a dictionary during the exam," said Miss Aberle.

The exam started in part because industrial firms in the East were somewhat disturbed by the English used by em-

ployees hired from K-State and other Mid-Western colleges and universities.

"They thought a check-up before the student graduated might save the student considerable embarrassment on the job. The exam is to protect the integrity of the school. If the student who fails the exam were to graduate without taking it, he would be a detriment to the school and a handicap to the other students who go to that school.

"The exam is given in the hope that when students graduate, they will be able to write simple English clearly enough so that nobody will mistake the meaning," said Miss Aberle.

Passing an English proficiency exam is a requirement which is in force, or soon will be in force for all five state schools in Kansas, Miss Aberle said.

## Department Head Appointed at KSU

Philip Morrison Rice, professor of history and director of the summer session for North Carolina State college, has been named professor and head of the K-State Department of History, Government, and Philosophy.

His appointment is effective September 1, according to Pres. James A. McCain.

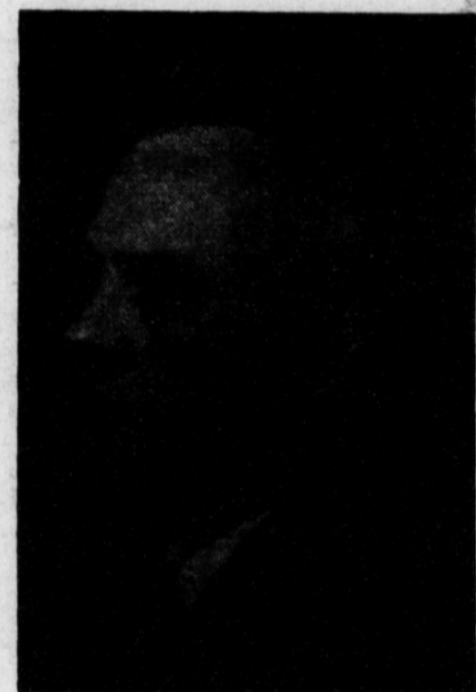

Rice takes over the position formerly held by Fred L. Parrish, who has, under a Board of Regents' ruling, relinquished administrative duties at age 65. Rice is 42.

A native of Los Angeles, Rice holds a bachelor of arts degree from Pomona college in 1938, a Master of Arts degree from the University of North Carolina in 1947, and his Doctor of Philosophy degree is from the Uni-

versity of North Carolina in 1949.

After a year on the staff of the University of North Carolina, Rice joined the North Carolina State college faculty in 1948. He was promoted to his present post as professor of history and director of North Carolina State's summer sessions in 1957.

Rice's principal professional interests have been in the field of economic history and he cur-

Philip Morrison Rice

rently is engaged in work on a comprehensive history of transportation in the United States. Rice has received a number of research grants, including two from the Ford Foundation for the presentation of information on the Soviet Union through television.

### Phi Deltas Soak Guests, Beseige ADPi House

The Alpha Delta Pi sorority house was besieged by a band of boisterous Phi Deltas yesterday evening for about an hour. Senior ADPis were invited to dessert at the Phi Delt house earlier in the evening, but departed prematurely when they were doused with water by their hosts.

Phi Deltas turned water on the ADPis house with hoses and buckets and housemother Zilla Dunagan was unable to route the invaders.

## Name Change Highlights Semester

The name change highlighted this semester's activities along with school work, basketball games, Y-Orpheum, Greek Week, and romances to keep K-Staters busy.

The semester started off with a bang with the Wildcat basketball team beating the Nebraska Huskers, 50-43, at Lincoln. This

was the Cats 12th straight win.

"The School of Scandal," was a major production of the Civic theater during February. The play was directed by Earl Hoover, professor in the Department of Speech.

The ski trip to Winter Park, Colo., was made by 24 students and six faculty members during the semester vacation. The Union

Games committee who sponsored the trip, plans to make the trip an annual affair.

Four K-Staters were chosen IFYE's. The students and their countries are Gelane Moritz, EEd Jr, the Philippine Islands; Arnita Otte, EEd Jr, England and Wales; Kenneth Peirce, Gen Jr, Belgium; and Paul Faidley, AEd Sr, Dominican Republic.

Panhellenic banned summer

rush and later added an extra day to fall rush.

Jardine terrace opened 24 new apartments for married students and their families.

The book exchange sales totaled \$3,100, which was \$400 more than last semester.

Co-educational bowling was offered for the first time to enable students to socialize as well as to improve their skills (bowling skills that is!).

The largest single grant ever made to K-State was made to the School of Engineering and Architecture. The check was from the Atomic Energy commission for the sum of \$150,000 to be used in the purchasing of a 10-kilowatt nuclear teaching reactor.

Eighty-two nations were represented by students in costumes in the Little United Nations assembly. Senator Gale McGee, democratic senator from Wyoming, was the key-note speaker. Chuck Wingert, Gvt Sr, was president of the General assembly; Gary Rumsey, AE Sr, vice-president; and Jodie Goetsch, SED Jr, recording secretary.

Bob Reynolds, K-State defensive backfield coach, resigned, and Cecil "Corky" Taylor, former all-conference halfback for K-State in 1954, was named his replacement.

Delta Chi, national social fraternity, established a colony on the campus.

The nuclear engineering department added a \$25,500 subcritical reactor for student training and for future research work.

Student Council voted to give 25 per cent of the Y-Orpheum proceeds to YMCA, and the other 75 per cent would go to worthy funds and/or to worthy organizations at K-State.

A three foot traveling trophy and an UROC key was presented

to Jim Conners, EE Fr, Phi Kappa, when he was named Ugly Man on Campus at the UROC clashing clothes dance. Gary Spencer, Mth Jr, was the first place winner in the beard shaving contest with a 2 1/2 minute shave-off.

Illustrations hall, fourth-oldest building on campus, was torn down to make room for the classroom addition to Eisenhower hall.

"Have Talent, Will Travel," the Big Eight talent show, made appearances on the campuses of K-State, Nebraska university, Iowa State college, and KU.

K-State's representatives were the CoEds, a vocal quartet composed of Marsha Legg, Art Soph, Mary Jo Cochran, SED Soph, Paula Lehmann, EEd Soph, and Delores Kranz, EEd Soph; a vocal duet by Arnita Otte, EEd Jr, and Ken Peirce, Gen Jr; and a pianist, Carol Stewart, MAI Fr.

(Continued on page 3)

### Medical Center Admits KS Seniors

Seven K-State students have been accepted for admission to the Kansas University Medical school next fall. An eighth student has accepted a scholarship to the medical school at Washington university, St. Louis.

Gary Mack Boelling, BPM Sr, won the scholarship to Washington university.

Those admitted to the KU Medical Center are William R. Sullivan, Zoo Sr; Leland C. Reitz, BPM Sr; Bruce Damman, BPM Sr; Arthur H. Fromm, PhS Sr; Elson F. Seitz, TA Sr; Jimmie L. Beauchamp, BPM Sr; and James Lloyd Mariner, BPM Sr.

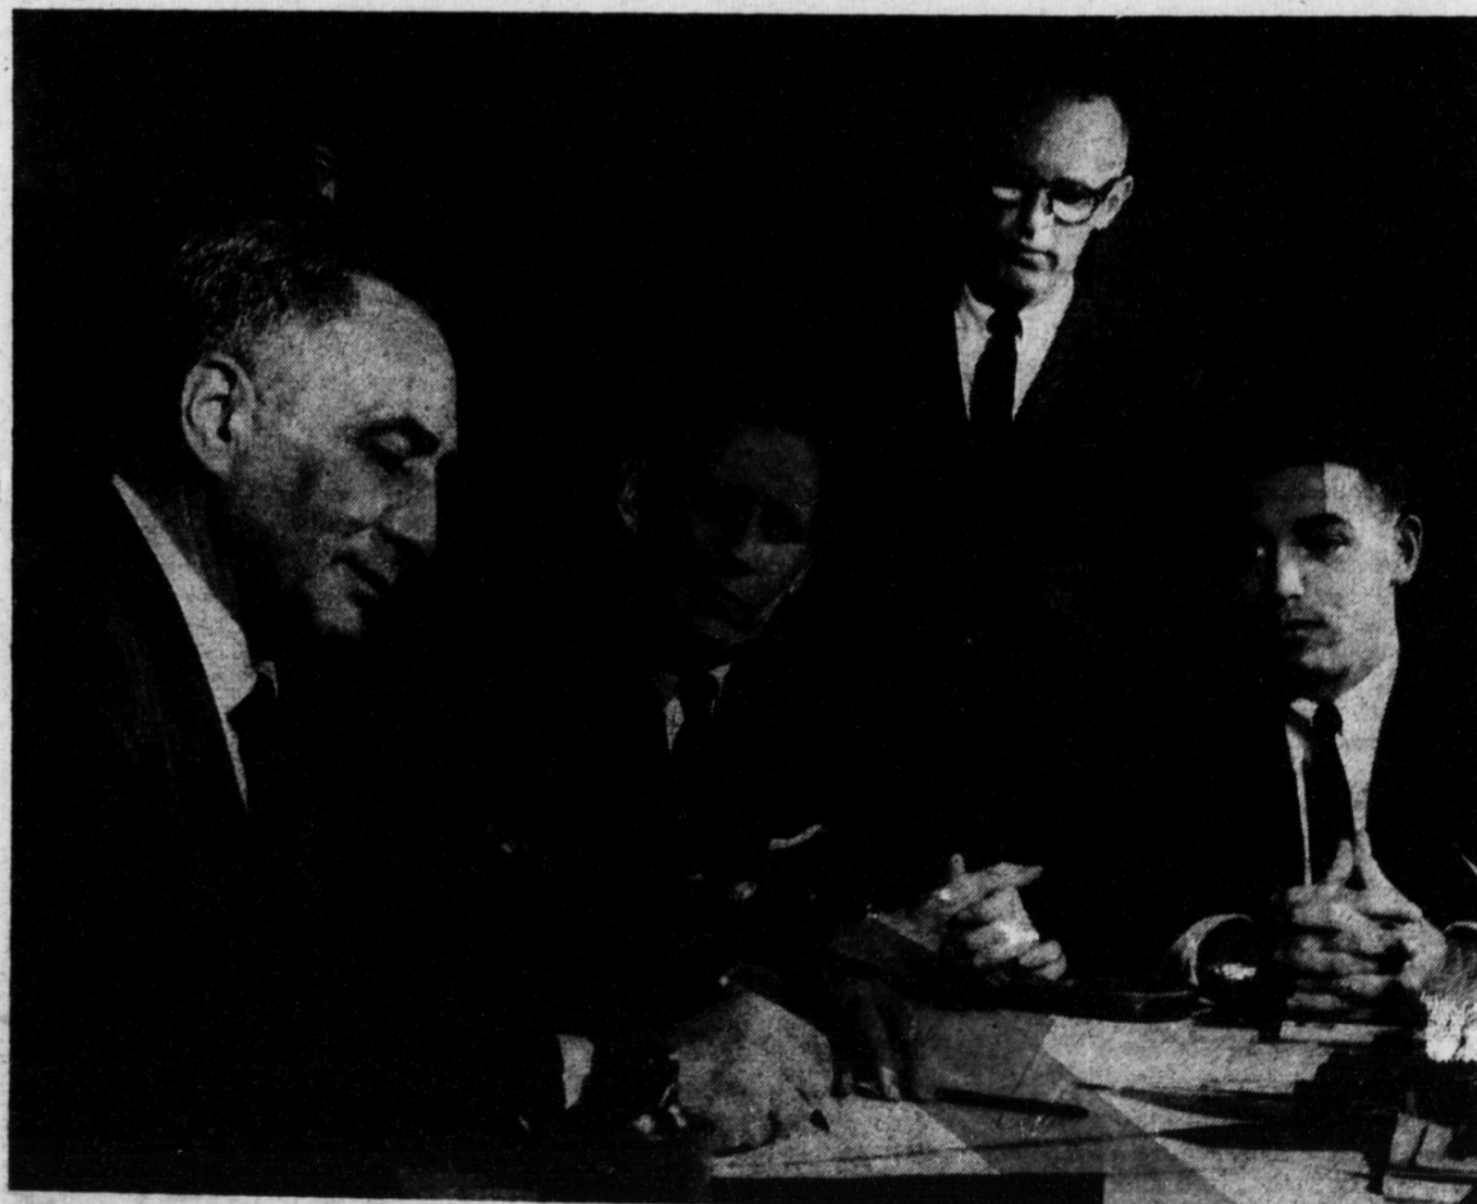

Photo by Darryl Heikes

KANSAS GOV. GEORGE DOCKING signed the bill officially changing the name of Kansas State college to Kansas State university in March. Witnessing the signing from left: Pres. James A. McCain; Larry French, BA Sr, Student Council chairman; and Chuck Wingert, His Sr, student body president.

# Powder Your Kneecaps, Girls—Bermudas Acceptable for Finals

Women may wear burmuda shorts or slacks to tests during final week, Judy Young, Psy Soph, Associated Women Students president has announced.

Margaret Lahey, associate dean of students, approved the issue when the AWS Council referred it to her with a favorable recommendation.

Approval of bermudas and slacks for final week wear this year marks the first official statement that has been made concerning the dress code during finals.

"The general policy always has been and always will be that women be appropriately dressed. With the advent of hot, humid weather, bermuda shorts have apparently been accepted as being appropriate," said Dean Lahey.

"We aren't saying all women should wear bermudas to finals. It is up to the individual and is certainly within her rights to decide whether or not to wear them.

"I also think it is really up to AWS to review the issue every year and make recommendations for or against wearing bermudas or slacks during final week," she added.

All the sororities except one will follow the AWS decision which will allow women to wear

bermudas to finals. Chi Omega has an established policy against wearing bermudas on the campus.

Opinions expressed by some K-State women:

Sara Sylten, HE Soph, "Personally I'm against it, I just don't think it looks good."

Julie Wills, SED Jr, "I think it is a good idea. If the men wear them on campus now, we should be able to wear them during finals."

Emily Mohri, EED Jr, "I'm

for it. It all depends on the class and the weather whether or not I wear them, though."

Linnea Brown, Ar 05, "I really don't care if other people wear them, but I wouldn't be in favor of doing it myself."

Jackie Johnson, PEW Soph, "I think it's fabulous, especially considering the weather. Although we have a ruling in the house against wearing bermudas on campus, the house will probably follow the AWS decision."

Photo by Don Dailey

ALTHOUGH a house ruling prevents them from wearing bermudas or slacks during final week to class, these Chi Omegas seem to enjoy wearing shorts during the hot weather. They are from left, Carolyn James, EEd Sr; Marty Smith, Soc Jr; Merry Gay Bankey, EEd Jr.

## Break Expected Tonight In East-West Confab

By UPI

Geneva—Western delegates predicted today the first real break in the deadlocked East-West conference would come tonight when Secretary of State Christian A. Herter entertains the other Big Four foreign ministers at a private dinner.

The ninth session of the Foreign Ministers' conference was set for 8:30 a.m. CST as usual but most observers expected only more of the filibustering that thus far has marked every session.

With the conference at a standstill on the long-range issues of German reunification and European security, each side was awaiting some move from the other for a compromise—possibly on Berlin—to speed the meeting here and prepare for a summer Summit conference.

Diplomatic sources said West Germany may offer to sign non-aggression pacts with Communist Poland and Czechoslovakia if secret talks showed a peace gesture would get the Big Four conference moving.

This would be the Western answer to Soviet charges that Bonn's "aggressive intentions" bar a quick European Cold War settlement. But such a concession would be made only in return for solid Soviet moves to end the Berlin crisis.

Western officials said it was up to Russia to make the initial move to break the deadlock since it was the Kremlin which touched off the crisis by delivering an ultimatum to the Western Allies to get out of West Berlin by May 27.

A Russian spokesman said the Soviet's Andrei Gromyko was waiting for the West to come forward with an offer. However Soviet press spokesman Mikhail Kharmalov added that the conference now is "approaching a very significant stage."

## Quotes from The News

Washington — Senate Democratic leader Lyndon B. Johnson (D-Texas), saying he will neither support nor oppose Senate confirmation of Lewis L. Strauss' nomination as secretary of commerce:

"The confirmation of any man should be based on each senator's judgment of that man's qualifications. I seek to speak for no one but myself."

Swannanoa, N.C. — Patricia Dennis, 21, a coed at Warren Wilson college, after critically battering former roommate Rosa Watterson, 20, with a hatchet:

"I know what I've done, and I'm going to pay for it, whatever the court says."

## Federal Agents Begin Roundup of Racketeers Accused of False Testimony on 1957 Meeting

World News

Compiled by UPI  
By JOHN HOKANSON

Washington—Federal agents and state police began a coast-to-coast roundup today of 27 big name racketeers who attended the 1957 gangland convention in Apalachin, N.Y.

Attorney General William P. Rogers disclosed that all of them were indicted by a Federal grand jury in New York on charges of conspiring to obstruct justice by refusing to disclose what went on at the November, 1957, underworld meeting.

Thirty-six others, including Joseph Barbara Sr, who was host at the conclave in his hilltop Apalachin home, were named as

co-conspirators but not defendants.

At mid-morning, the Justice department said that 15 of the defendants had been arrested and the others were being sought.

At least two of the men were reported to be members of the Mafia or ill-famed "black hand" society of Italy.

The New York grand jury that returned the indictments had been conducting an investigation of racketeering and crime syndicates, particularly in the ladies' garment industry, and of the East Coast traffic in narcotics.

Rogers said all 27 named as defendants were accused of conspiring to obstruct justice by giving false and evasive testi-

mony about the rendezvous of racketeers at Apalachin. Three faced additional charges of perjury on grounds they lied to police, investigating committees, and grand juries.

### Dulles Condition Grave

Washington — John Foster Dulles remained in grave condition today at Walter Reid Army hospital.

The former secretary of state, battling cancer and pneumonia, has been weakening in recent weeks.

The State department has made no announcement since it said Tuesday that Dulles was losing ground.

Republican and Democratic leaders yesterday paid a moving tribute to Dulles in House floor speeches. They praised him as a "great American" who showed continued courage in shaping U.S. foreign policy decisions and negotiations.

### Storms Strike Midwest

Tornadoes, gale-force winds, and torrential rains lashed the Midwest late yesterday in a dizzy display of violent spring weather.

One man was drowned and the twisters and 80 mile-per-hour winds injured six more as floods, power failures, and heavy damage added to the misery wrought by the storms.

Funnel clouds were sighted during the day through Iowa, Missouri, Kansas, Nebraska, and Wisconsin, but most disappeared

without touching ground.

A tornado struck near Promise City, Iowa, last night, injuring five and destroying a farm home and buildings.

Ten families fled their homes along Soldier Creek near Kankakee, Ill., following a four-inch rain storm in the Chicago area.

## LITTLE MAN ON CAMPUS

"SHE'D MAKE YA SWELL' BLIND DATE! ASK WORTH—I FIXED HIM UP WITH HER EARLIER THIS EVENING."

# Spring Term Sees First Little UN

(Continued from page 1)

Students and faculty were involved in five collisions when the campus and Manhattan were covered with a solid sheet of ice, February 10.

K-State's faculty started the tradition of having informal luncheons in the Union cafeteria every Friday noon with a different department acting as host each week.

The basketball team dumped KU, 82-72, in a televised game at Manhattan. The victory was the first home-court basketball win over the Jayhawks in six years.

About 500 college and high school students staged a bonfire celebration in Aggieville after the K-State-KU game. The two bonfires were fed with wood and trash from alleys, beer cans and bottles, picket fences, wooden signs, two utility poles, and a tree.

Three K-Staters were taken into custody by the Manhattan police for tearing down a sign in the Campus theater parking lot during the celebration, and later released. Later in the semester five students identified as participating in the destructive action were placed on disciplinary probation and were required to reach a satisfactory settlement of damages with the injured parties.

The Union went on a campaign to clean up the Union and keep the prices down. "Stash trash, save cash" and "Don't put us in a pickle, pick up your cup and keep coffee a nickel" were two of the slogans used to remind the students.

In observance of Brotherhood Week, February 15 through 21,

speeches on Hindu, Buddha and Moslem religions were given by K-State foreign students in conjunction with the Religious Coordinating council.

Karen Bloomberg, Art Fr, Kappa Delta, and Greg Schmittlein, EE Soph, Phi Kappa, were crowned IPC king and queen at the annual Interfraternity Pledge council dance. Mardi Gras was the theme of the dance. It was the fourth year in a row that Phi Kappa has won the kingship, and the second year that a Kappa Delta has been queen.

The Wildcats clinched a berth in the NCAA tournament with a 62-50 victory over Oklahoma university. The win, which was televised, also assured the Cats of at least a tie in the Big Eight title.

About 50 coeds serenaded and campaigned in front of several fraternity houses trying to persuade IFC members to change their votes about Sigma Alpha Epsilon which was on probation. Later the Interfraternity judicial council granted the Sig Alphas pinning, serenading, and rush date privileges.

The Kappa Sigma house was bought by the Endowment association to be a second scholarship house for men students. The house will be known as the Oscar Straube Memorial scholarship house.

"Archy and Mehitable," a love story between a cockroach and an alleycat, was the feature of the K-State Singers' benefit program. The money earned was put into a scholarship fund for music students.

Phi Kappa changed its name

to Phi Kappa Theta as a result of the consolidation of two national Catholic fraternities, Phi Kappa and Theta Kappa Phi.

Pres. James McCain and R. R. Lashbrook, head of the Department of Journalism, spoke to the crowd at the groundbreaking ceremonies for the new Kedzie hall addition. The addition is scheduled to be complete by the fall semester of 1960.

March:

Jan Stewart, Soc Soph, Pi Beta Phi, was crowned queen of the Royal Purple with Judy Mai, HE Soph, Northwest hall, first attendant; Cherie LaFromboise, TxC Sr, Van Zile hall, second attendant; Mateele Blessing, Art Fr, Northwest hall, third attendant; and Mary Hall, BMT Jr, Alpha Delta Pi, fourth attendant. The queen and her attendants were selected by Madison Geddes, president of the National Photographers association and the official Miss America photographer for this area.

Bob Boozer, K-State scoring star, was named to the Sporting News all-star basketball team. Later, he was named to the United Press International and Associated Press all-American teams.

AWS day for women, "It's a Woman's World," included a men's panel discussion on women, a program of planning a wedding, and a speech by Miss Patricia Beezley, president of the Kansas State Alumni association on "It's a Woman's Choice."

Twenty-one outstanding Kansas high school seniors were designated Henry J. Putnam

Memorial scholars at Kansas State college for the coming year.

"Mary Stuart" was presented two nights by the K-State Players. The cast was headed by Laurel Lee Johnson, TJ Soph, as Mary Stuart; Pasty Dunning, ML Fr, as Elizabeth; and Douglas Moore, Ar 04, as the Earl of Leicester.

Don Matuszak was named to the Associated Press honorable mention all-American basketball team.

Kappa Kappa Gamma with a

2.878 was first in sorority scholarship ratings. Pi Beta Phi with a 2.851 average, and Alpha Chi Omega with a 2.820 were second and third respectively.

The Robert Shaw chorale and orchestra presented a concert to about 2,000 persons in the College auditorium as a part of the Manhattan Artist series.

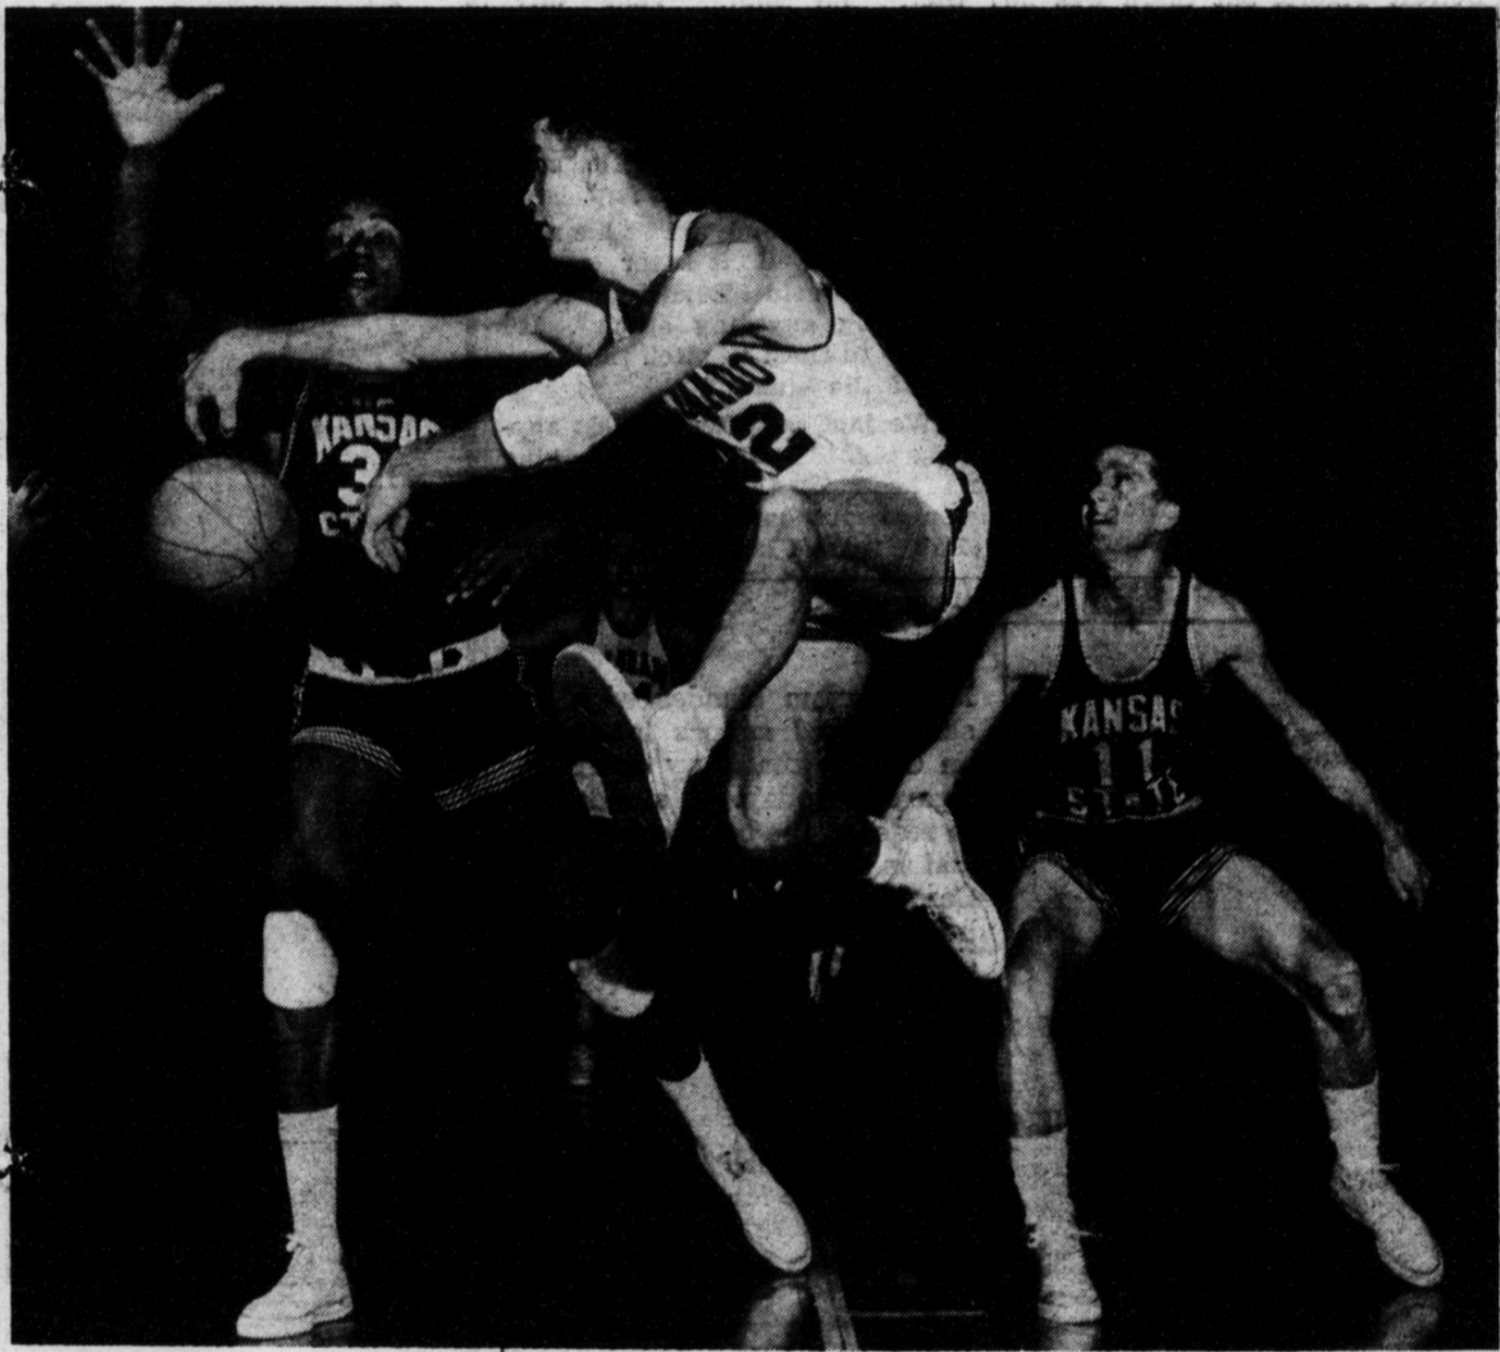

Phem Bones, a take-off on "Them Bones," was the theme of the 1959 Play Day. Play Day is

(Continued on page 8)

## Sports At a Glance By Gary Vacin

Coach Ward Haylett will lose eight men from his track squad which finished fourth in the Big Eight meet last weekend, but prospects for next season may not be as dark as they first appear.

The reason for this is the Wildcats' freshman squad which Haylett calls "the second best frosh team I've ever had."

Most of Haylett's optimism centers around the frosh mile relay team—Virgil Coleman, Bob Baker, Don Lundquest, and Dick Adams—which could prove to be even better than the foursome which has been burning up the track for K-State the past two years.

The young Cat quartet clocked 3.16.1 in practice Monday, with the time compiled by adding the times of the runners from standing starts. Baker and Coleman were timed in 48.4, Adams in 49.6, and Lundquest in 49.7.

Figuring to shave off four-tenths of a second by running starts on each of three baton handoffs, the time would be reduced to 3.14.9. This is only 4.4 seconds more than the 3.10.5, recorded by the varsity foursome in losing to Oklahoma State at the conference meet.

As a team, the freshmen finished fifth in the conference indoor postal meet—compiled by sending the best performance of each athlete to conference headquarters. Since then, however, they have won three straight postal dual meets—from Iowa State, Colorado, and Kansas. Performances for the outdoor meet will be sent in this weekend.

Top frosh performances in each event to date: 100-yard dash—Virgil Coleman, 10.0; 220-yard dash—Bob Baker, 21.6; 440-yard dash—Coleman and Baker, 48.4; 880-yard run—Don Lundquest, 1.59.9; mile—Gene Mater, 4.39.2; two mile—Mater, 10.24.1; 440-yard relay (Baker, Coleman, Gerald Perkins, Dick Adams), 43.3; mile relay (Baker, Coleman, Adams, Lundquest), 3:16.1; 120-yard high hurdles—Jerry Hooker, 14.9; 220-yard low hurdles—Paul Bowles, 24.4; pole vault—Willis Crenshaw, 12-0; javelin—Gene Haltgren, 170-5; shot put—Jim Neff, 46-1/4; discus—Neff, 133-10 1/2; broad jump—Ken Meseke, 22-10; high jump—LaDel Brown, 6-0.

Although the Wildcat varsity failed to win a first place at the conference meet at Norman last weekend, it did set four new all-time school records.

DeLoss Dodds broke his own mark in the 440-yard dash as he clocked 46.9 in losing to Colorado's Chuck Carlson. Tom Rodda ran the mile in 4.10.6 to better his own record, but lost to Oklahoma's Gail Hodgson. Rex Stucker finished second to Kansas' Charlie Tidwell at 23.1 in the 220-yard low hurdles, breaking the former record held by Ray Russell.

## Thrall Conducts Experiments To Find Effect of Swim Kick

Almost any afternoon, Bill Thrall, K-State swimming coach, can be found at the swimming pool in Nichols gymnasium pulling swimmers through the water with a weird apparatus.

Thrall is conducting a group of experiments on the kick used in swimming short sprint distances. His object is to find out how the kick affects swimming at speeds faster than the individual can kick himself.

The work is being done in connection with Thrall's doctor's degree. He has been conducting these experiments since the end of swimming season

early in March, and plans to finish this week.

Three of the fastest swimmers on the Wildcat team, Dave Hindeliter, Tom Coblenz, and Chuck Englund, are aiding Thrall in his work.

Thrall's apparatus consists of a one horsepower motor geared to a steel cable that pulls the swimmers through the sixty yard pool at speeds from three feet a second to eight feet a second.

The cable is connected to a recording device that records the resistance of the swimmer on a roll of graph paper. Thrall also has an automobile horn wired so it honks intermittently to give the

swimmers a beat for their strokes.

Each of the three swimmers will make 27 trial runs at each of six speeds. The study applies only to competition swimming in the dash events. Thrall is trying to find out if cutting down the kick will add to the swimmer's speed. According to Thrall, a swimmer can pull himself through the water with his arms at about five feet a second and push himself with his legs at about three feet a second.

Besides studying the kick, Thrall is also experimenting with the size of the foot in connection with swimming speeds. He uses various sizes of rubber fins which the swimmers wear.

Thrall is trying to prove or disprove the theory that the larger the swimmer's foot the faster he can swim. He experiments with both short wide fins and long narrow fins as well as the unaided foot of the swimmer.

## Yanks Slump to Cellar, First Time in 19 Years

By UPI

Casey Stengel looked up at his seven American league rivals today and reminded them: "He who laughs last, laughs the most."

A last-place manager for the first time in 19 years, Stengel also warned his battered New York Yankee pitchers, "some of you guys better start doin' better or you won't be around here very long."

The Yankees had just tumbled into last place by a fearful 13 to 6 shellacking at the hands of the Detroit Tigers, but there was no sign of panic by Stengel or his world champions. In fact, Stengel was as calm and collected as if he had just signed another two-year contract for \$100,000.

"I've been there, before," he quipped when reminded that the Yankees' seventh defeat in 10 games and 16th in 22 had dropped them into the cellar. "I've been fifth and I've been sixth, too."

This marked the first time since May 25, 1940 that a Yankee team had been in last place. It was also the first time since August 3, 1940 that any team

managed by Stengel had been last. Casey's Boston Braves were in last place on the latter date.

"I guess this makes pretty good readin' around the country," conceded Casey with a grin. "A lot of people are having a lotta fun but they better remember the fella who laughs last laughs the mostest."

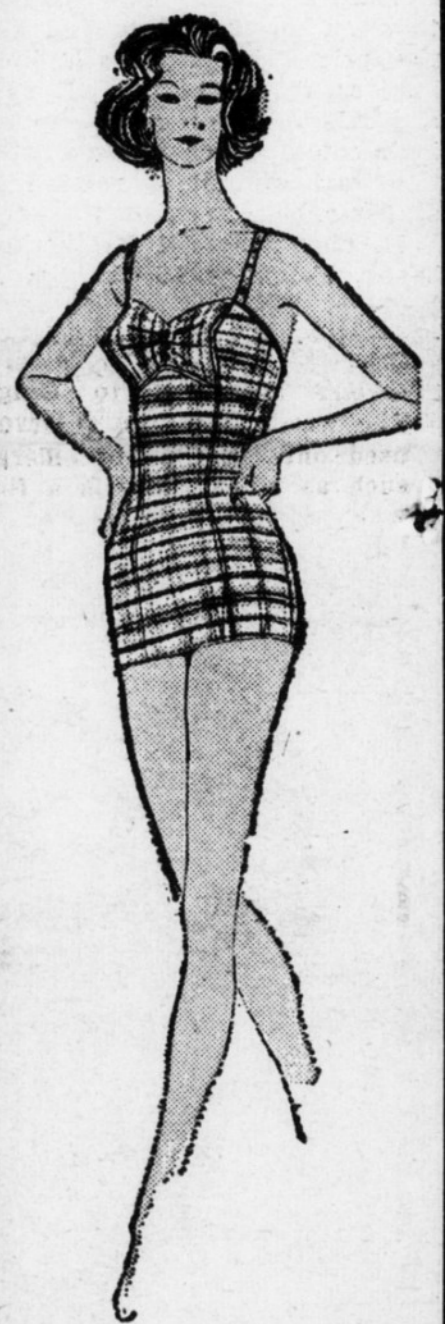

The grin faded when he talked about the pitchers who were walloped for 19 hits totaling 32 bases in yesterday's rout.

"You can't do anything when your pitching gets hit like that," he said. "They just gotta start gettin' guys out or we'll get pitchers who can."

Jim Turner, coach in charge of Yankee pitchers, brushed off the recent inaptitude of the staff as an unaccountable slump.

"They're good pitchers—they've proved it over several seasons," said Turner. "We're not doing anything special. It's just up to them to pitch their way out of the slump."

"We just can't seem to do anything right," said Berra, shaking his head in the clubhouse. "I even hear our publicity man (Bob Fischel) has got laryngitis."

**THE SMALL BUILDING** at the southeast corner of the campus houses a booster pump for campus water supply and covers a 40-000-gallon water storage reservoir.

## Corner Pump House Boosts Water Supply

By MARY JO MAULER

On the way to and from Aggieville, students, faculty members, and Manhattan residents have wondered what the small building situated just inside the campus on the corner of Anderson avenue and Manhattan avenue is used for.

The building is a pump house. It was originally built for a pump house and is still used for that today, according to R. F. Gingrich, superintendent of the Physical Plant.

The building houses the booster pumps which force water up to the water tank. Since the water datum of the city is not high enough, the pumps are necessary to fill the tank, said Gingrich.

Under the small square building is a 40,000-gallon water reservoir, according to Gingrich. The water from the reservoir is used only in time of emergency such as when there is a fire or when a break occurs in the water line.

"In the very near future, the

small building will be obsolete," said Gingrich. A new pumping station is practically completed in the power plant, which will take over the work done in the present pump house.

Gingrich said the transfer was made because the city put in a new 16-inch water main through the campus about two years ago. After the new station is completed, the University will draw its water supply from the new city main.

The pump house also has an air compressor which was used to force the water to the water tank by means of air. These compressors were used when the institution had its own water system, commented Gingrich.

Gingrich noted that another system, a chlorination system, is also found in the small building. This system is used only when necessary to further chlorinate the water after it has been taken from the city main.

# Alumni Association To Have Biggest Alum Day in Years

Kansas State university is planning for one of its biggest Alumni Days in years, Saturday, May 30, according to Kenney L. Ford, secretary to the Alumni association.

Returning alumni will register in the Union, beginning at 9 a.m., and there will be eight separate open houses and talks between 10:30 and 11:30.

Pres. James A. McCain will report on "The State of the University" at an "All Grads" luncheon at noon, and this will be followed by the taking of class pictures and guided campus tours. Individual class dinners, teas, and receptions are scheduled in the evening.

K-State's spring commencement exercises have been moved up to a 2 p.m. starting time because of the large number of degrees to be conferred. Graduates of the classes of 1884, 1894, 1899, 1904, 1909, 1914, and 1919 will be seated in the "honored alumni" section of Ahearn field house and will be recognized during the graduation exercises. Members of these classes will meet at 1 p.m. in the main lounge of the Union to form ranks and march to the Field House.

Among special class events already announced for graduation weekend:

Class of 1899—Plan a 6:15 dinner Saturday evening at 808 North 12th street. Mrs. Kate (Manly) Williams, Manhattan, is chairman.

Class of 1904—Plan an informal tea at 4 p.m. Saturday afternoon at the home of Mr. and Mrs. Carl Elling, 2330 Anderson, followed by an informal evening dinner at the Union. Roy A. Seaton, Manhattan, is in charge of arrangements.

Class of 1909—Plan an informal get together Friday evening at 7:30 in the home of Mr. and Mrs. L. M. Jorgenson, 730 Laramie, with a 6 p.m. class dinner Saturday evening in the

Union. Mrs. Jorgenson and Mrs. C. W. McCampbell, both of Manhattan, are co-chairmen for the events.

Class of 1914—Plan a reception Saturday evening at 7:30 in Pioneer hall of the Congregational church, with an outdoor picnic breakfast at 8:30 Sunday morning at the home of Mr. and Mrs. L. E. Hobbs, 500 Wickham road. A. P. Davidson, Manhattan, is chairman.

Class of 1919—Plan an open house Friday evening at the home of Mr. and Mrs. Walter Rogers, 1001 College avenue, with a 6:30 class dinner Saturday evening at the Union. Mrs. Walter Rogers is chairman.

Class of 1924—Plan a dinner Saturday evening at 6 in the Union. Randall Hill is chairman.

Class of 1929—Plan coffee and visiting in the Union on

Saturday morning and afternoon, with an informal breakfast Sunday morning from 8 to 11 in the Union. Ted Varney and Verne Boyd, both of Manhattan, are cochairmen.

Class of 1934—Plan barbecue Saturday evening at 5:30 with T. B. Avery, Manhattan, in charge. Place of the barbecue will be announced later.

Class of 1939—Will have informal dinner and visiting in the Union Saturday evening, May 30, Hilding Anderson, Manhattan, is chairman.

Class of 1944—Plan an informal dinner Saturday evening at 6 in Union cafeteria. Mr. and Mrs. Robert Anderson, Manhattan, are in charge.

Class of 1949—Informal dinner in Union at 6 Saturday evening. Mr. and Mrs. Frank Eaton, Manhattan, are cochairmen.

To the Students at  
**K. S. U.**

We thank you for the business you have extended us the past year.

To you graduating students, we wish you a successful career.

To you who are returning next year, we will be here to extend to you the same courteous service.

Again, we thank you.

**RETIRING AGR HOUSEMOTHER**, Mrs. Olive Kipfer, watches Benny Brent, AH Sr, adjust the television set the chapter presented to her as a "going-away" gift. Mother Kipfer has been with the Alpha Gamma Rhos for 27 years which is a service record for the fraternity.

## AGR's Mother Kipfer Plans Retirement after 27 Years

By DORIS MILLER

After being the "mother" of almost 600 boys over a period of 27 years, Mrs. Olive L. Kipfer, housemother of the K-State chapter of Alpha Gamma Rho fraternity, is resigning.

Mrs. Kipfer began her job in 1932. In 1956, her 25th year as housemother, she was given the honor of being the first housemother ever invited to the national Alpha Gamma Rho convention. There, she was guest of honor at a special ceremony given for her and was presented a plaque for her outstanding length of service.

"Mother Kipfer has been the guiding post working between our actives and the alumni. There is always someone here that an alum knows when he comes back for a visit," said Dick Reese, ME Jr. "She has the longest record of a housemother at K-State and the AGR fraternity. We haven't found anyone yet with longer service at any school."

Mother Kipfer plans to stay in Manhattan after she visits with her two sons, one who is in Wichita and the other in Kansas City.

"My experience has been won-

derful. There have been many ups and downs but mostly ups. The boys have done remarkably well in building up their fraternity. I hate to give it up," she says.

The whole active chapter took Mrs. Kipfer to Church Sunday morning. A special reception was then given for her

### Coeds Obtain Pins From Special Guys As Love Bug Bites

Kassick-John

The pinning of Connie Kassick and Edward John, VM Sr, was announced Sunday at the Phi Delta Theta house. Connie is a sophomore in elementary education at the College of St. Teresa. They are both from Kansas City.

Chastain-Griffin

The pinning of Charlotte Chastain, TJ Sr, and Clayton Griffin, EE Sr, was announced last Thursday. Charlotte is a member of Pi Beta Phi from Kansas City, Mo. Clayton is from Liberal and belongs to Alpha Tau Omega.

## Fraternities Elect New Fall Officers

**Phi Delta Theta** officers for the fall semester are Nick Hudelson, AE Jr, president; Ken Schafer, BA Jr, reporter; Keith Maxwell, ChE, secretary; Larry Cook, ME Fr, scholarship; Clancy Norris, PEM Fr, warden;

Dennis Miller, BAA Fr, chaplain; Harris Laing, MTC Soph, historian; Kent Worley, LDs Soph, alumni secretary; Larry Pearson, BAA Jr, and Bruce Friesen, Ar 02, social chairmen; Larry Shlotfelt, ArE Fr, librarian; Gary Randolph, NE Jr, house manager;

Ron Holeman, BA Jr, and Bill Yung, ME Fr, I.F.C. representatives; Larry Walklin, Sp Fr, choister; Dave Nielson, BA Soph, song leader; Dale Cowen, NE Fr, Steve Poort, Geo Soph, and Bill Taylor, ME Jr, executive council; and Ron Holeman, BA Jr, treasurer.

The newly elected officers of **Sigma Chi** are Dick Miller, ArE Sr, president; Bob Young, Ar 03, vice president; Lee Atkins, ME Soph, pledge trainer and senior IFC representative; Len Munger, EE Soph, recording secretary;

Loren Zook, SED Soph, corresponding secretary; Dick Thden, Gvt Jr, editor; Mike Smith, NE Soph, sergeant-at-arms; Larry McLenon, BAA Fr,

junior IFC representative; Sam Forrer, AE Fr, historian.

Recently elected officers of **Alpha Kappa Lambda** for the fall semester are Dennis Zitterkopf, EE Soph, president; Bob Rector, PEM Jr, vice president; Jim Meeks, CE Soph, treasurer; L. R. Reinhardt, Agr Fr, corresponding secretary;

Elmer Walton, EE Soph, recording secretary; Allen Wiechert, CE Soph, pledge trainer; Barry Dukes, NE Soph, marshal; Ken Heidebrecht, Ar 04, senior IFC representative; Jack Birkinsha, Ar 01, junior IFC representative; David North, EE Soph, parliamentarian;

John Clifford, PrV Fr, chaplain; Gary Williams, BAA Soph, historian; Ron Garlow, EE Sr, social chairman; Loren Ellis, ME Soph, scholarship chairman; and Ron Converse, NE Fr, athletic chairman.

**Kappa Sigma** officers for the fall semester are James Lewelling, EE Sr, president; William Brown, CE Soph, vice president; Kenneth Ingram, EE Soph, grand master of ceremonies; Ronald Moore, BA Jr, treasurer; Larry Holman, PrM Jr, scribe; Richard Chelikowsky, EE Soph, and Milton Ham, BA Jr, guards.

## Houses Keep Busy Before Dead Week

**Phi Delta Thetas** initiated their dates into the chapter of "She Delta Theta" at their biannual party May 2.

The **Phi Delta Theta** spring formal was May 15 at the Manhattan country club.

Ralph Willard, Chm Sr, was honored as the most outstanding

senior at the Delta Upsilon's annual senior dinner Sunday. The other seniors honored were Fran Jurenka, ME; George Beck, BAA; Charles Wilken, IE; Bob Kidd, ME; Mack Boelling, BPM; Glen Lewallen, BA; Jim Runberg, ME.

Ann Chapman, EEd Soph, was elected Delta Upsilon Dream Girl at the spring formal, May 9.

## Frat Men Release Pins To Favorites

### Stengel-Dirschel

The pinning of Jenny Stengel and Rudy Dirschel, CE Jr., was announced at the Phi Kappa Theta (formerly Phi Kappa) Fish Formal May 1. Jenny is a freshman at Mt. Saint Scholastica in Atchison. She is from St. Louis, and Rudy is from Bunker Hill.

### Ioerger-Francis

The pinning of Karen Ioerger, EEd Soph, and Marlan Francis, Ag Soph, was recently announced. Marlan is a member of Alpha Gamma Rho. They are both from Harper.

### Sheldon-Goudy

The pinning of Sarah Sheldon, SED Fr, and Rich Goudy, ME Jr, was announced recently. Sarah is from Caney and Rich is from Sharon Springs. He is a Delta Epsilon.

### Christie-Richardson

Judy Christie and Darrel Richardson, BA Jr, have announced their pinning. Judy is from Nevada, Mo., and attends Cotty College. Darrell is a member of Delta Upsilon from Belleville.

### Redding-Burling

The pinning of Jovieta Redding, His Jr, and Walter Burling, Agr Sr, was announced last Sunday.

Walter is from Partridge, and Jovieta is from Altamont. He is a member of Sigma Theta Epsilon, Methodist men's fraternity.

## Home Weddings Informal, Simple, Easy To Prepare

Brides wishing an informal wedding free from many of the traditions governing church ceremonies may wish to be married at home.

The ceremony usually takes place in the living room in some special place such as before the fireplace. A florist can decorate this beautifully.

The processional can be abandoned in a home wedding. The bridal party may simply walk to the altar after greeting the guests.

The reception afterwards can either be in the house or in the garden, depending on the time of year.

A special selling point of the home wedding is that it can be arranged easily and at short notice.

# Summer Wedding Bells Ring For Many K-State Couples

### Beech-Lyons

The engagement of Suzanne Beech, AH Fr, and Lowell Lyons, Bot Sr, has been announced. Suzanne is from Wichita and Lowell is from Overbrook. A summer wedding is planned.

### Rector-Spiegel

The engagement of Joyce Rector, TJ Sr, and Ralph Spiegel, AE Sr, was announced last night at the Delta Delta Delta house. Joyce is from Topeka and Ralph is from Formoso.

### Stoops-Suddeth

Deann Stoops, TC Fr, and Bob Suddeth have set June 5 as their wedding date. They are both from Hugoton.

### Yiin-Tien

The engagement of Susanna Yiin, Hum Fr, and Robert H. Tien, ME Gr, was announced recently. Susanna is from Hong Kong, China, and Robert is from Toipei, Formosa. The wedding will be May 29 in Manhattan.

### Bolton-Kraushaar

Dia Harvette Bolton, MEI Sr, and Herman Kraushaar, BA '57, have set June 14 as their wedding date. Dia is from Frankfort, and Herman is from Wamego.

### Baity-Mahieu

Judith Baity, HE Jr, and Wil-

liam Mahieu, ME Sr, will be married June 19 in Parsons. They are both from Parsons.

### Gagnon-McKenna

Mary Gagnon, EEd Jr, and Edward McKenna, VM Sr, recently announced their engagement. Mary is a Kappa Kappa Gamma from Manhattan. Edward is from Kingman and a member of Alpha Gamma Rho.

### Edwards-Johns

Mardy Edwards, HET Sr, and Charles Johns, AE Sr, will be married June 14 in Westmoreland. Mardy is a Kappa Kappa Gamma from Westmoreland. Charles is a member of Beta Theta Pi from St. George.

### Dashen-Becker

Kaydene Dashen, EEd Sr, and Daryl A. Becker, AA Sr, have set June 14 as their wedding date. The ceremony will take place in Pratt. Kaydene is a member of Chi Omega from Pratt. Daryl is

a Sigma Phi Epsilon from Meriden.

### Simpson-Carter

Janet Simpson, EEd Soph, and Wallace Abercrombie Carter III, ME Jr, were married May 15 in Newkirk, Okla. Janet is from Topeka and Wallace is from Santa Monica, Calif.

### Essmiller-Elliott

The engagement of Carol Essmiller, EEd Fr, and Pat Elliott, Jr, was announced recently. They are both from Great Bend.

### Berschauer-Staats

Chocolates and cigars announced the engagement of Luetta Berschauer, HT Jr, to Norman Staats, AEd Jr, at Van Zile hall and the Alpha Tau Omega house Wednesday night. Luetta is from Penokee, and Norman is from Sylvia.

You'll be pleased with a Collegian classified.

## Jaunita Wille Picked As Phi Kap Queen

Jaunita Wille, EEd Soph, was crowned queen of the annual Phi Kappa fish formal at the Country Club May 1. Jaunita is a member of Delta Delta Delta. Her attendants were Carolyn Allen, Soc Fr, and Nancy Wantland, SED Soph. Carolyn is a Pi Beta Phi and Nancy a Kappa Delta.

national Chi Omega magazine.

Lambda Chi Alphas and their dates attended the annual Lambda Chi steak fry Saturday. The steak fry was preceded by an active-pledge softball game in the afternoon.

### Kappa Delta Pledge

Ann McElfresh, HEA Soph, recently pledged Kappa Delta. She is from Satanta.

Dr. Joseph Hajda, assistant professor of political science, was a guest of the Chi Omegas for dinner May 7. Dr. Hajda has recently written an article entitled "Democracy's Main Defense" for the

# Podium Given to K-State

K-State has a new walnut podium for use at special events, thanks to a 1918 graduate from Glendale, Calif.

John Davidson, a retired auto dealer, was distressed by a shabby podium used for the Alumni-Senior banquet a year ago. So he went home and made one he felt would be suitable for important occasions.

Kenny L. Ford, alumni secretary, said the podium has been presented to the Union, where it

will be used only for important meetings and banquets.

## Agronomy Society

The North Central branch of the American Society of Agronomy will have its annual meeting at K-State June 14-17. R. V. Olson, head of the K-State Agronomy department, is chairman of the regional group.

From 200 to 400 soils and crops scientists normally attend the annual meeting of the North Central branch of the society. Housing for the scientists is to be provided in Southeast and Van Zile halls, in addition to local hotels and motels.

Results of recent research by colleges and universities of the North Central area will be presented in 24 scientific papers for principal parts of the program but late afternoons and evenings will be used to acquaint the visitors with agricultural resources in this section of the state, Olson said.

## K-Stater Honored

Don Irwin, a former Kansas State university student who went on to become one of Alaska's pioneer agricultural leaders, was honored Monday by the University of Alaska by the conferring of an honorary degree of doctor of humanities.

The citation took place in connection with the annual University of Alaska commencement exercises, and was awarded in recognition of his contributions to the development of agriculture in Alaska.

A native of Kansas, Irwin at-

tended K-State from 1910 to 1915. After leaving school he was a Wyoming rancher and served two terms in the Wyoming state legislature. In 1934 he became Matanuska agricultural experiment station superintendent, and later was named director of the Alaska agricultural experiment station.

## 4-H Club

The program numbers from recent regional 4-H club days which have been invited to take part in the statewide 4-H Roundup at Kansas State June 2-6 have been announced by Roger Regnier, state club leader.

Invited to appear are the model meeting from Reno county, one act plays from Rice and Leavenworth counties, county folk games from Sedgwick and Osage counties, instrumental ensembles from Finney and Saline counties, the Republic county band, and vocal ensembles from Pawnee, Johnson, and Edwards counties.

Club members from Wallace, Labette, and Woodson counties have been invited to give project and activity talks, and there will be demonstrations from Cowley, Kingman, and Rawlins counties.

## Orchesis

The senior members of Orchesis were honored at a picnic May 12. Elected as next year's Orchesis officers: president, Linda Ate, Sp Fr; vice president, Janice Forbes, HEA Soph; secretary, Janet Smith, Gen Fr; historian, Dianne Depenbrink, TJ Fr; and treasurer, Randi Johnson, Soph.

# Fire Damages Fraternity During Spring Semester

(Continued from Page 3)

sponsored annually by the physical education department to interest high school girls in physical education at K-State.

With a straight 4.0 grade average for seven semesters, Peggy Daniels, Eng Sr, was awarded the Chimes, junior women's honorary award of \$25 for the senior woman with the highest cumulative grade average for 105 or more credit hours.

Five hundred and forty-four students were named to the Scholastic Honors list. To be eligible for the honor, students must have a grade average of 3.25 or better.

DeAnn Seaman, EEd Soph, and James Burke, ME Sr, were elected St. Patricia and St. Pat by engineering and architecture students. Their attendants were Paula Lehmann, EEd Soph; Jan Stewart, Soc Soph; Larry Foulke, NE Sr; and Ferris Heaston, CE Jr. The royalty reigned over the Engineers' Open House which in-

cluded exhibits, a prom, and a marathon race.

Judy McAlister, Sp Soph, Delta Delta Delta, was crowned queen of the annual all-College Air Force formal. Her attendants were Jan Stewart, Soc Soph, and Brenda Morgan, HE Soph, both of Pi Beta Phi.

K-State beat Nebraska, 76-54, to become the first conference team in 13 years to go undefeated in league basketball play.

Boozar and Matuszak were named to the United Press International all-Big Eight basketball team.

K-State signed a \$35,523 contract with the Air Force Cambridge Research center to cover research in satellite tracking. This contract was the largest one-year contract ever signed by the Engineering Experiment station.

Gene Olander, SEd Jr, was named outstanding Student Council member at the Student Governing association banquet.

## Seniors in Vet Med Win Cash, Awards

Samuel E. Strahm Sr, VM Sr, has received the annual American Veterinary Medicine association \$50 auxiliary award for special contributions to the University other than in scholarship.

William F. Kelsey, received the Kansas Veterinary Medical association award of \$15 and a certificate for general proficiency in four years of professional study. Second award of \$10 went to Bradley Neer.

David F. Erwin Jr, received a AVMA award of \$15 and a certificate as the student most proficient in large animal clinics.

Richard D. Royse, received a KVMA award of \$15 and certificate as the student most proficient in small animal clinics.

The Merck Veterinary Manual award for two seniors outstanding in ways other than scholarship went to Roy Nielson Jr, and David L. Carnahan.

# K-State Receives New Atomic Grant

Kansas State university has been granted \$44,453 by the United States Atomic Energy commission to permit the insti-

tution to expand its instructional program in radioactive material where the instructional work may lead to eventual applications.

The \$44,453 is the fourth major grant received from the AEC in the past year and a half and makes a total of \$316,224 in AEC money which has been made available to the University, according to T. D. O'Brien, K-State director of academic research.

The grant is similar to a \$30,-278 gift received about a month ago to expand instructional work in use of radioactive materials in the life sciences

The latest AEC contribution will go to purchase equipment and materials for teaching purposes which will be used by all campus departments, though the primary applications will be in courses leading to industrial isotopes applications.

## Fall Collegian Staff Named

Joyce Rector, TJ Jr, and Jerry Ratts, TJ Jr, will be assistant editors for next semester's Collegian, announced Don Veraska, TJ Jr, fall Collegian editor.

Miss Rector will be assignments editor, and Ratts will be editorial page editor. Both are presently daily editors on the Collegian staff.

Daily editors for the fall semester will be Wanda Eggers, HEJ Soph; Janice Bates, HEJ Sr; Loren Henry, AgJ Sr; and Gary Vacin, TJ Jr.

Terry Knowles, TJ Jr, will be sports editor, and society editor will be Marilyn Tindall, TJ Jr.

## Defense Act Fellowships Granted to Kansas State

Kansas State university has been granted nine of the 1,000 National Defense Education act fellowships being awarded this year, according to Harold Howe, dean of the Graduate school.

Early in February K-State received notification that the

school had been granted two NDEA graduate fellowships in mechanical engineering. These were included in the first group of 160 fellowships announced.

With Congress having provided the money now for the full 1,000 fellowships, K-State has been awarded seven more. Of these, three are in veterinary medicine, two are in theoretical physics, and two are in zoology.

The government's graduate fellowship program is designed to augment the nation's supply of college teachers and scholars, and the assistance is given only for "new" or "expanded" graduate programs.

The NDEA fellows receive \$2,000 for their first year of study, \$2,200 for the second year, and \$2,400 for the third year. In addition each fellow receives \$400 a year for each dependent. Dean Howe said the federal government will reimburse K-State for additional expenses in connection with the program, up to \$2,500 for each fellow.

## Electric Food Cart For Student Health Is Senior Class Gift

The 1959 senior class will give as its class gift an electric food cart to be used in Student Health, according to Rhea Serpan, EE Sr, senior class president.

The cart will be used to keep food warm while it is being served to patients in Student Health.

The approximate cost of the cart is \$400, said Serpan. The gift will use all the money that has been collected through an assessment placed on the rental of caps and gowns.

## K-State Faculty Promotions Awarded by State Regents

Promotions in rank for 37 Kansas State university faculty members have been approved by the state Board of Regents.

The promotions, which be-

## Bill Sigafos To Lead Band

New drum major for the K-State marching band is William Sigafos, Ent Gr, Robert Quinn, assistant director of bands announced yesterday.

Sigafos is the first male drum major to lead the band in seven years. He replaces Lynn Mechseney, Gvt Sr.

The marching band will play for all the home football games and rallies as well as the KU football game in Lawrence next year.

Sigafos was drum major with the college band at Hot Springs, S.D., before coming to K-State.

come effective July 1, are 7 promoted to full professor, 16 to associate professor, and 14 to assistant professor.

Those named full professors are Leo Hoover, agricultural economics; Milton Manuel, agricultural economics; Abraham Eisenstark, bacteriology; John A. DeWand, education; Karl Stacey, geology and geography; Leonard Fuller, mathematics; and F. Virginia Howe, speech.

Advancing from assistant to associate professor are William C. Tremmel, history, government, and philosophy; Francis L. Barnett, agronomy; Merle E. Gugler, business administration; Leo Cohen, economics and sociology; Ralph E. Dakin, economics and sociology; Werner H. Barth, history, government, and philosophy; Homer E. Socolofsky, history, government, and philosophy; Warren Walker, music; Stanley Wearden, mathematics; Elmer J. Tomasch,

architecture and allied arts; Embert Coles, pathology; George Eberhart, surgery and medicine; Marliam Dexter, extension information; Margaret Koenig, extension home economics; Ethel Self, physiology; and John Hannah, art.

Those promoted from instructor to assistant professor are Francis E. Jones, extension radio and TV; Jack M. Burke, extension radio and TV; Floyd N. Reece, agricultural engineering; Kenneth W. Huffman, anatomy; Robert W. Clack, nuclear engineering; Richard C. Bailie, chemical engineering; Peter Anderson, mechanical engineering; Raymond N. Shaw, civil engineering; Liang T. Fan, chemical engineering; Robert L. Snyder, speech; Don A. Trumbo, psychology; Clyde Jussila, music; Melvin Askew, English; and Lester J. DePew, entomology.

# Kansas State Collegian

VOLUME 65

Kansas State University, Manhattan, Kansas, Friday, May 22, 1959

NUMBER 150

## Governing Board Tells Estimated Union Expense

The estimated cost of operating the K-State Union for the 1959-60 school year is \$306,044, according to the budget released by Union Governing board.

This total is approximately \$29,000 greater than the amount budgeted the Union in 1958-59. Most of this increase in expense is caused by a \$26,000 rise in salaries and wages. Increases in repairs, laundry, supplies, taxes, and student committee expenses were largely offset by decreases in rentals and air conditioning expenses.

An estimate of total income, operating and other sources, is \$335,770. This figure less the total of \$306,044 in operating expense and \$28,000 in depreciation results in a net profit of \$1,726.

Since the estimated income figure includes a request to the Apportionment board based on estimated enrollment, the Union management is prepared to adjust the budget to fit an apportionment based on the actual enrollment figures next semester.

The estimated operating revenue, \$248,570, of the Union is provided by three departments.

The food service department is expected to show a gross profit of \$194,320, the games department \$46,196, and the information desk should earn \$8,054. The other departments—administration, general maintenance, and program—are service and thus earn no income.

Several changes appear in this year's budget. The Program council has dropped two committees, the Harmonizers and Publicity. However the estimated expense of the council is expected to rise because of continued losses on

big name attractions. A new staff member, relief food service supervisor, has been added and provision has been made for a graduate assistantship.

The income from sales and services is expected to show a leveling trend during the coming year as the Union approaches capacity operation. Higher costs are expected for repair of equipment and building. Increased labor costs will result from the reduction in the work week of maintenance and food service employees.

## Diplomas To Be Conferred At May 31 Commencement

Pres. James A. McCain will confer degrees to K-State graduates Sunday, May 31, at 2 p.m. in Ahearn field house.

The graduates will be welcomed by Harry Valentine, Clay Center, member of the Board of Regents.

The Rev. Earl Minteurn, minister of the Manhattan Episcopal church, will give the invocation and benediction.

The graduating candidates will meet at Anderson hall and will

proceed to the Field House in two columns. They will be in alphabetical order within their respective schools.

Diplomas will be given simultaneously at five tables representing the five undergraduate schools after the graduates have been presented to the President collectively by their respective deans.

Master and Doctor degrees will be conferred in the original way.

### Today's Collegian Last Until Summer Session

The beginning of finals marks the end of the spring semester Collegian.

Today's issue is the last until the summer school Collegian begins weekly publication with Loren Henry, AgJ Sr, as editor.

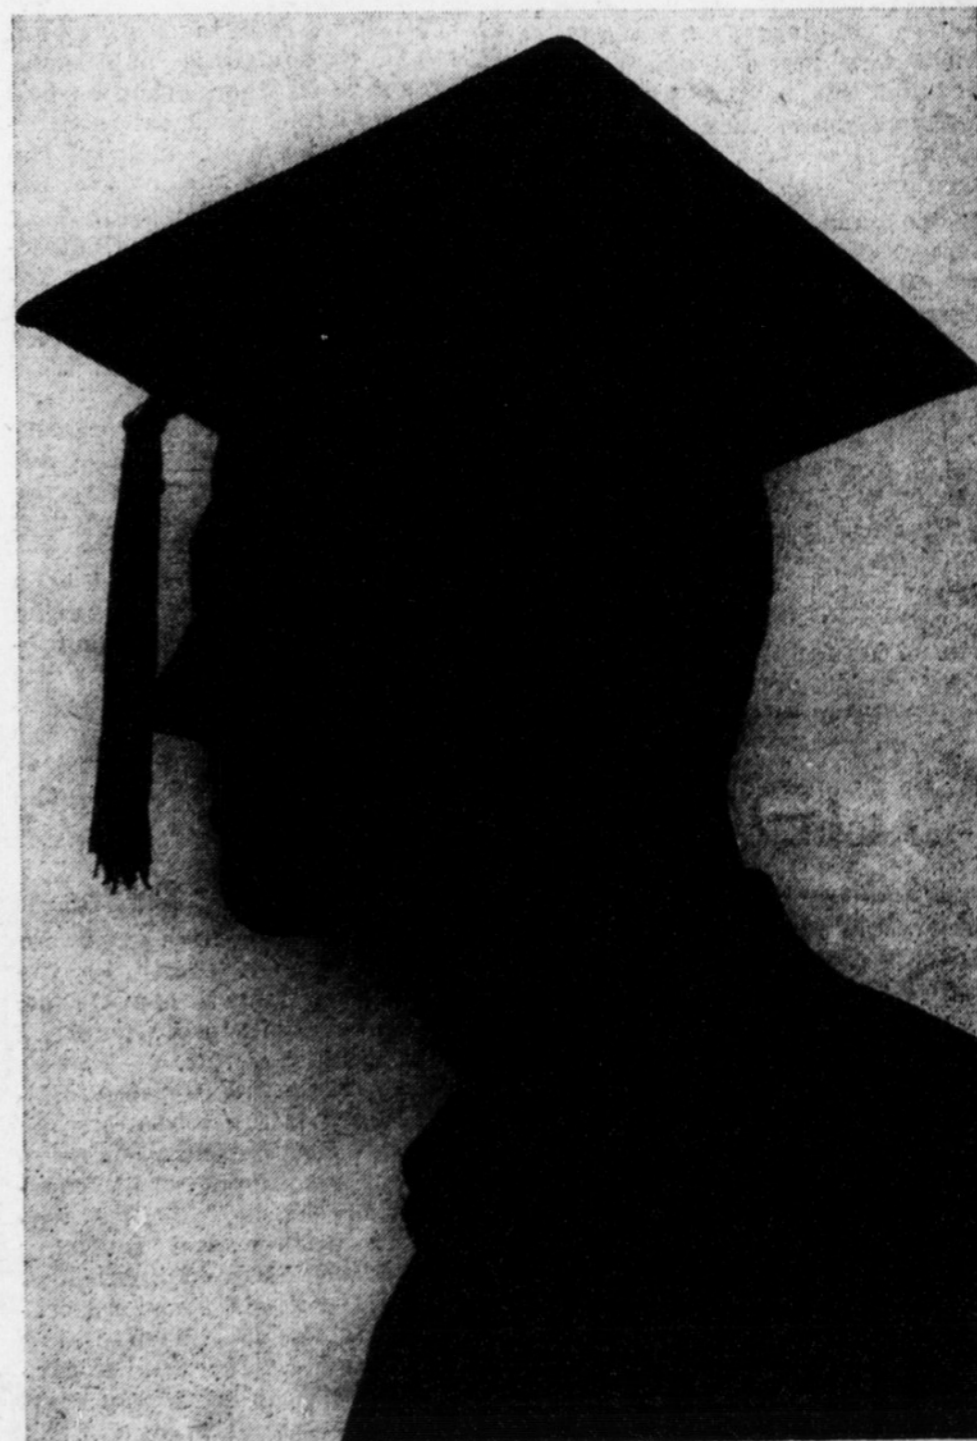

Photo by Darryl Heikes

**CAPS AND GOWNS** will be in evidence May 31 when approximately 1,000 graduates receive degrees at commencement exercises in Ahearn field house. Pres. James A. McCain will confer the degrees at the exercises which begin at 2 p.m.

# Criticizing, Learning, Thinking, Should Be Goals at Kansas State

"ALL TOO MANY people are too ready to criticize," is a comment voiced recently by a friend concerning a proposed editorial subject.

He may be right. Criticism can be a bad thing—if carried out unthinkingly or for any one of a number of petty or malicious reasons.

However, we are inclined to go along with another friend who answered: "On the contrary, I believe too many people are too willing to just go along with anything—to accept what someone else says without thinking for themselves."

AND THIS, we believe, is one of the basic failures here at K-State. Too many students are too lazy or too indifferent to think. It is so much easier to accept the thinking of someone else.

We are sorry to see so many students so willing to accept the ideas put forth by a text book, a national figure, or a faculty member. We don't believe students are afraid to criticize them, but we do believe they just don't want to take the time and trouble.

Criticism can be a good thing, because it

takes a good deal of thinking to criticize intelligently. By the time a person has considered a question carefully enough to enable him to criticize intelligently, he has had to do some original thinking.

DURING the time we have spent at K-State, we have come to see that it is possible to graduate without ever really thinking. It is possible to go through school by simply memorizing, copying, and parroting the thinking of someone else.

This is rather ironic in light of the fact that many people consider that a person who is graduating from a college or university is at the height of learning. We do not go along with this, because we believe a person should never stop learning. But we do believe if a person has not started to think by the time he graduates from a college or university, he may never start, and this is a sad state of affairs.

SO IN THIS, our final Collegian of the semester, we will say what we have said before during the term. While we enjoy fun as well as anyone, we believe the University is the place for criticizing, learning, and above all—thinking.—st

## World News

# Starkweather Wins Execution Stay After Middle-of-the-Night Appeal

By UPI

Lincoln, Neb.—A dramatic middle-of-the-night appeal by his sleepless father early today won a two-week stay of execution for mass slayer Charles Starkweather.

The delay was announced just 90 minutes before Starkweather was to have died in the Nebraska State prison electric chair for one of 11 murders he committed 16 months ago during the Midwest's bloodiest slaying spree.

Starkweather, told by the prison chaplain that he had at least two more weeks to live, reacted by saying "I'm more nervous now than I was all night."

U.S. District Judge Richard E. Robinson of Omaha granted the stay at the request of Guy Starkweather, the 20-year-old condemned murderer's father.

The judge said it appeared Starkweather "is and has been without the services of an attorney" so there was a possibility he was being held in violation of his constitutional rights.

Starkweather and his family had dismissed their court-appointed lawyers after the youth was convicted and sentenced to die. The family contended the lawyers did not represent their son properly in trying to win his freedom on the grounds he was insane at the time of the slayings.

Robinson's stay, effective until June 4, was granted to allow Starkweather time for an appeal to the Federal Circuit Court of Appeals against the denial, earlier this week, of an application for a writ of habeas corpus.

The chaplain, the Rev. Robert Klein, said that when Starkweather got word of the stay "he broke out in a big smile and shook my hand."

"Starkweather was all set to go," the Reverend Klein told newsmen. "We had discussed everything and he was showing no emotion whatsoever. He clung to a slim thread of hope until the very last and reaffirmed in our conversations the thought that as long as there is life there is hope."

## Rabbits 'Segregated'

New York—A children's picture book about the marriage of a white rabbit and a black

rabbit has been removed from the open shelves of Alabama public libraries because of segregationist criticism.

Garth Williams, author and illustrator of "The Rabbits' Wedding," intended for children under five years old, said he was "completely unaware that animals with white fur (such as white mice, white horses, polar bears, white rabbits, white dogs, and others) were considered blood relations of white human beings."

Williams said in a statement issued through his publishers, Harper & Brothers, that he had intended "no political significance" in the book. He gave the rabbits contrasting colors for pictorial reasons, he said.

Emily Wheelock Reed, director of the Alabama Public Library Service division, said in Montgomery that the book had not been entirely removed from circulation.

"That would not be morally right," she said. "We have put it on the reserve shelf where the public can get it by request only."

Miss Reed said she had been surprised by the interpretation placed on the colors of the rabbits, and "personally, I like the book." Her directive to librarians said that "in view of the troubled times in which we live we decided to withdraw the book from circulation."

## No Change for Dulles

Washington—There was no reported change today in the condition of John Foster Dulles, who is gravely ill in Walter Reed Army Medical center.

State Department press officer Lincoln White told newsmen yesterday that he had nothing to add to his announcement Tuesday when he said Dulles was growing weaker and receiving heavy doses of pain-killing drugs.

The 71-year-old former secretary of state has been losing ground in his fight against cancer since his condition was complicated by pneumonia a week ago Saturday.

## Eisenhower Meets Dag

Washington—President Eisenhower had a breakfast table conference today with United Nations Secretary General Dag

Hammaraskjold who has suggested New York as a site for a Summit conference.

After the meeting, Hammaraskjold said the talks was "private" and resulted from an invitation by the President.

Asked if, aside from the meeting, "any thought is being given to injecting the United Nations into the Berlin situation," the U.N. official apologized and said he could not go beyond his careful press conference remarks yesterday.

In his New York statement he said it might be helpful to have U.N. headquarters as the site for a Big Four summit meeting to provide a link for countries which would not be represented.

# Continuation of Red Propaganda Is Jeopardizing Summit Chances

By UPI

Geneva—Responsible diplomats said today failure of Soviet Foreign Minister Andrei Gromyko to end his propaganda outbursts and get down to serious bargaining on the Berlin crisis was seriously jeopardizing chances of a Summit conference.

A dinner was given for Gromyko and the other Big Four foreign ministers last night by Secretary of State Christian A. Herter apparently was a flop.

The ministers dined in style, and they admired Mont Blanc by moonlight, and they chatted from facing loveseats but they failed to get anywhere on a solution to the Berlin crisis. The closest they came to reality came when a cloud scudded across the

towering peak and Gromyko was quoted as saying:

"A magnificent view but the summit is still clouded."

The Western ministers—Herter, Britain's Selwyn Lloyd, France's Maurice Couve de Murville, and West German's Heinrich Von Brentano—met again today seeking a way out.

"Unless somebody makes a move," one observer said, "it's hard to see how there can be a Summit." The United States has demanded "progress" as the price of an Eisenhower-Khrushchev meeting and none was in sight as the second week of the East-West meeting closed.

There were these other developments today:

—Moscow radio in a one of a series of anti-Western broad-

casts said the West German government was more or less dictating to the Western foreign ministers.

—Anti-Communist rioting among farmers was reported in Communist East Germany. The Communist ADN news agency called this a "fabrication" aimed at disrupting the Geneva conference.

## Quotes from The News

Lincoln, Neb. — Condemned mass slayer Charles Starkweather, rejecting former girlfriend Caril Ann Fugate's written plea to clear her of any blame in the death of 11 persons:

"Why should I admit to something I didn't do to clear her of her guilt?"

Louisville, Ky. — The Rev. Ramsey Pollard, new president of the Southern Baptist convention and an ardent prohibitionist:

"I favor a return to legal prohibition on a nationwide basis."

## Over the Ivy Line

# End Your Financial Problems; Relate Old Crow to Celebrities

By Margaret Cooper

FOR A QUICK easy way to end your financial problems, the Minnesota Daily suggests procuring some historical facts "relating Old Crow whiskey to famous 19th century Americans." Two hundred and fifty dollars will be presented to anyone submitting true information to the product's distiller. The makers of Old Crow depend on college people for information because "they are the people most likely to be interested in doing volunteer historical research."—Especially on such an entertaining subject!

IN EDDY HALL at the University of Minnesota there is a large map with hundreds of pins sticking on it. The map shows where the students live and in what "various kinds of dwellings." A visitor noticing the map was amused to find a pin planted squarely on the Calhoun Beach bath house. The Minnesota Daily says it was the result of a practical joker, but maybe one of Minnesota's students does live there!

HOUSE CLEANING or rather file cleaning was a recent project at Southern Methodist university by the fraternities. The file cleaning was in the form of a bonfire, and theme papers were what made up the fire. The reason for the blazing action was that two students copied the same theme from a file—and got caught. However, the bonfire wasn't as big as it could have been, as "A" papers, most "B" papers, and old tests were not destroyed. Perhaps they will eventually have to have two fires?

TO BRING to a close this semester's Over the Ivy Line, an article from the Arizona Wildcat seems to be appropriate. The article has to do with cramming (and not the phone booth and sports car kind). There are two types of crammers—the organized who starts two to four days before the test, and the unorganized who is a member of the "No-Doz Club" and studies the night before a 78 speed instead of the normal 33 1/3. There are also two groups of non-crammers—those who never study and those who can be found "searching for last month's notes, deciphering last week's notes, and stirring their coffee with last semester's notes." The student body in general is on an austerity program during finals. The crammers concentrate on food, sleep, and study; the others cut out food and sleep, and add dates and bridge games.

Semester Wrapup

# Y-Orph, SGA Elections Featured This Semester

Students were active, and events were numerous during the second half of this semester. Many well-known people visited the campus for addresses, and K-State students did their best to keep action alive during these last few months.

Beta Theta Pi topped the scholarship list of K-State fraternities with a 2.693 average. Farm house was second with a 2.662 average, and Sigma Chi was third with 2.501.

A disheartened group returned to Manhattan, after the Wildcats lost to Cincinnati in the finals of the NCAA Mid-western regional basketball tournament in Lawrence. The Wildcats beat the DePaul Blue Demons, 102-70, to qualify for the finals.

The Kappa Sigma house was the victim of a three-alarm fire, March 17. The fire that started at about 1:05 a.m. in the furnace room, was brought under control at 2:30 a.m. The house had about \$30,000 fire damages but was insured at maximum value.

Steve Douglas, Gvt Jr, defeated Gene Olander, SED Jr, 1,210-737 in the SGA elections for student body president. Integrity party dominated the voting by a strong majority in other offices.

Gov. George Docking signed the bill that was passed by the State legislature changing the name of Kansas State college to Kansas State university of Agriculture and Applied Science.

The Kingston trio was warmly received by an audience of about 1,850 persons at their Tom Dooley concert in Ahearn field house.

April:  
After a week's Easter vacation, K-Staters returned to their tests, homework, studies, and activities.

A 66-man squad, including 30 sophomores and 14 returning lettermen, was on hand when the K-State football team opened spring practice.

Pi Beta Phi and Phi Delta Theta's entry in Y-Orpheum won top honors. Sigma Nu was awarded the prize in the single entry category.

The K-State Pershing Rifle company captured first place in the regimental assembly conducted on campus. The company competed in military skills with contestants from 17 colleges.

John Mason Brown, noted Broadway critic spoke on "Seeing

Things" at an all-University assembly.

Ninety-nine K-State upperclassmen, graduate students, and faculty members were elected to Phi Kappa Phi.

Senior guard Don Matuszak was named honorary team captain and "Most Inspirational Player" at the 11th annual K-State basketball awards banquet. Jim Holwerda was awarded the trophy for the best free throw accuracy—86 per cent.

About 1,500 persons viewed the Ag Science Day exhibits which carried out the theme, "Agriculture in Modern Living."

A record crowd of about 1,550 high school girls, teachers and townspeople attended the 1959 Hospitality Day open house entitled "Home Economics for You, My Fair Lady."

Two sophomores, Larry Larson, AEd, and Jim Houck, AH Soph, won grand championships in their class at the 31st annual Little American Royal.

The president of New York university, Carroll V. Newson, spoke on "The Meaning of a University," at the University Day assembly.

Eldon Miller, TJ Jr, was chosen editor of the 1959-60 Royal Purple; and Don Veraska, TJ Jr, editor of the fall Collegian. Irene Mangelsdorf, EEd Jr, was chosen RP business manager, and Barbara Barge, TJ Fr, will be the fall Collegian business manager. Loren Henry, AgJ Sr, will be editor of the summer school Collegian.

Gayla Shoemaker, Soc Fr, was selected Miss K-State Football from 14 candidates.

Jan White, HT Sr, was crowned Miss K-State-Manhattan and will represent these two places in the Miss Kansas contest in Pratt.

Alpha Xi Delta, for the second year in a row, and Beta Theta Pi topped the sorority and fraternity division in the 1959 Interfraternity Sing.

Mary Margaret McBride was the main speaker at the Home Economics award assembly.

Dr. U. B. Dubach, national scholarship adviser for Sigma Phi Epsilon, was the keynote speaker at the Greek week banquet. Other Greek week activities included a picnic, clean-up day, and chariot races with Beta Theta Pi winning the race.

Larry Bingham, BA Fr, was the first place winner in the

Larry Woods Memorial speech contest.

Clara Aiken Speer, Missouri legislator and poet, spoke on "People, Politics, and Poetry," at the annual Matrix banquet sponsored by Theta Sigma Phi, women's journalism honorary.

About 100 persons attended the Ed McCoy Memorial Foundation banquet to help provide a scholarship for students in political science. The first scholarship was awarded to Barbara Huff, Gvt Jr.

May:  
Dale Wilson, AE Jr, was named all-around cowboy at the all-University rodeo.

Eight women cheerleaders were selected for next year. They are Barbie Howard, EEd Soph, head; Gayla Shoemaker, Ec Fr; Mary Lou Beisecker, HEA Soph; Pat Roberts, HEN Fr; Dee Baker, EEd Jr; Jan Stewart, Soc Soph; Judy Hoy, Sp Soph; and Brenda Morgan, HE Soph.

K-Keys were presented to 31 outstanding journalists at the annual Board of Publications dinner.

Forty-six seniors were given Senior Leader awards at the all-University assembly. Frank Clement, former governor of Tennessee, was the speaker.

A week-long spring recess was approved by the Administrative council. The spring recess, which will replace the Easter holiday, will follow the ninth week of the spring semester.

Graduates for the first time this spring will be presented to the President collectively by the deans; degrees will be officially conferred by the President; and diplomas will be given simultaneously at five tables representing the five undergraduate schools. This was approved by the Administrative council.

Glenn Rhea, Sp Jr, was presented the All Star award at the annual Oscar awards banquet. The leading actor award also went to Rhea, and the leading actress award was presented to Laurel Lee Johnson, TJ Soph.

## Prof Values Park For Scientific Aid

Lyold Hulbert, assistant professor in botany and plant pathology at K-State terms the proposed 34,000 acre grasslands national park in Pottawatomie county very valuable for scientific studies.

"Such areas as these can serve

as a control to measure the effects of livestock grazing or burning, especially by the exclusion of man insofar as possible," Hulbert said.

Hulbert added that such an area can prevent the extermination of rare species of plants and animals, and provide a place to study problems which require long periods of time for completion.

Vegetation of different range sites where they are ungrazed and unburned, nitrogen fixation in the soil, amount of erosion and runoff, and the relationships between various animals and between animals and the vegetation are among the studies K-State scientists are thinking as possible uses for the area.

## AWS Names Committees

Eight standing committees of Associated Women Students have been named for next year, according to Judy Young, Psy Soph, president of AWS.

Chairman of the Conference committee is Claudia Beatty, SED Soph. Other members are Janet Schrock, Hum Soph; Marcia Watt, FN Soph; Pat Weber, HEA Soph; Doris Binger, HT Soph; Ada Church, HT Soph; and Martha Broyles, HEN Fr.

Queens committee chairman is Ruth Hansen, Ec Jr. Committee members are Rose Mary Cloe, SED Soph; Judy Jones, Mth Soph; Rosetta Snyder, HT Jr; Patti Prentup, EEd Fr; and Susie Ramsey, SED Fr.

Chairman of the Service committee is Allene Cox, TJ Soph. Other members are Carole Kerr, Soc Jr; Marilyn Miller, HE Fr; Mary Ann Pearce, Sp Fr; Cheryl Barnett, EEd Fr; and Barbara Stout, HEN Fr.

Publicity committee chairman is Mary Welsh, TJ Soph. Committee members are Caroline Preddy, SED Fr; Sharon Adrian, Eng Soph; Marsha McDonald, HEA Fr; Linda Gemmell, HE Fr; and Kathy Reeves, HEA Fr.

Sharolyn Sanborn, HE Fr, is the new chairman of the Ways and Means committee. Other members are JoAnn Minnick, HEN Fr; Diane Leece, HE Fr; Kay Gardner, BMT Soph; and Carolee Moore, HEN Fr.

Standards committee chairman is Donna Dunlap, Psy Fr. Committee members are Margaret Westerhouse, HEN Jr; Joleen Irvine, MGS Fr; Connie Dick, HT Fr; and Ann Heaton, Psy Fr.

Chairman of the Publications committee is Eugenia Mangelsdorf, EEd Fr. Members are Fran Boyd, TC Fr; Joye Struss, HT Soph; Paula Wildgen, Gvt Soph; and Darlene Couch, HE Fr.

## Union Lists Movie Slate For Summer

Thirteen movies will be shown in the Union little theater this summer.

Features that will be shown on Monday and Tuesday nights include "On the Waterfront," "Heaven Knows, Mr. Allison," "Arsenic and Old Lace," "The Great Caruso," "Diabolique," "Desk Set," "Will Success Spoil Rock Hunter," "Lust for Life," and "Call Me Madam."

Summer Cinema, a series of international film classics, will be shown on Thursday nights. The movies are "The Little World of Don Camillo," French; Cyrano de Bergerac," American; "The Green Man," British; "La Strada," Italian; and "The Last Bridge," Yugoslavian.

# Latter-Day Saint Fellowship Works, Plans New Building

By BART EVERETT

A small but active group, the Latter-Day Saint fellowship has many and varied activities.

The members of the fellowship have been working on a building fund for the past several years, and they now are looking for a suitable lot for their future building.

The campus activities of the organization include Sunday school, Sunday evening meetings, and auxiliary group meetings during the week. About 50 people attend Sunday meetings.

"The ultimate aim of the Latter-Day Saint church is to care for its people," explained Dr. R. J. Hanks, assistant professor of agronomy, faculty adviser. Last year the members spent \$6 million for relief.

In order to do this work, Dr. Hanks said that the church owns farms, mines, and companies which provide jobs for unemployed members. Produce from western welfare farms is used for aid to the needy.

Although the official name of the church is Church of Jesus

Christ of Latter-Day Saints, it is better known as the Mormon church.

"The reason we are called Mormons is due to our use of the 'Book of Mormon' along with the Bible," said Dr. Hanks. The 'Book of Mormon' relates to activities of people of North and South America from about 600 BC. "We believe this book was found and translated by Joseph Smith, founder of our church."

"God is continuing to reveal to us things we should know," said Dr. Hanks when asked about Mormon doctrine. "This learning continues even after a person has passed on. In heaven, we will continue to learn while living with our families much as we do now."

God's present day revelations come to us through the president of the church, stated Dr. Hanks. "For example, if we avail ourselves of the opportunity, wherever we are, we can better ourselves by our situation."

"In several ways we are different from the average protestant church," he pointed out. The Latter-Day Saints believe much the same as many protestant churches, but the Mormon faith is not actually protesting anything.

"We are not an offshoot of any other religion," said Dr. Hanks. "Joseph Smith, the founder, was never a member of any other church."

Another difference is that there are no paid preachers. "Everyone gets an opportunity to speak in church," explained Dr. Hanks.

MEMBERS OF THE LATTER-DAY SAINTS group meet in Danforth chapel each Sunday. Better-known as Mormons, they use the "Book of Mormon" as well as the Bible in their study. R. J. Hanks of the agronomy department is the sponsor.

# EUB Members Plan New \$50,000 Church

Plans are being completed for the construction of the new Evangelical United Brethren church, according to the Rev. Cecil Findley, pastor. Land for the church has been purchased on College avenue just north of the Kansas Artificial Breeding Service unit barns.

A \$50,000 building, complete with chapel and educational unit, was authorized by the Kansas EUB conference which met in Salina earlier this month. The EUB men's group assumed an additional \$3,000 responsibility for the Manhattan project.

The EUB conference first became interested in the Manhattan project due to the initiative of a group of K-State students. In the fall of 1955, the students organized an EUB college fellowship group which met weekly.

In February, 1957, Sunday morning worship services were held in the Danforth chapel on an experimental basis. Guest ministers were invited to help with the services while school was in session. Since interest was good, last June the Rev. Findley was assigned to the Manhattan and St. George area.

The Kansas Council of Churches studied the situation in Manhattan by survey and found another church of this type was needed. The EUB denomination accepted the opportunity to organize in Manhattan to fulfill the need of over 100 EUB preference students at K-State and residents of Manhattan who have been members of the church in other communities.

The Rev. Findley, his wife, and

two boys are living at 421 Kearney where church services and student fellowship meetings are now being held.

Although a big week is beginning for underclassmen, school is over for nearly 1,000 students who will receive degrees next Sunday. Some will be glad to escape from the classroom, but others will miss the daily routine.

"For hope shall brighten days to come, and memory gild the past."—Thomas Moore

Classroom buildings, the Union, the Stadium, Anderson hall—all these and much more will be included in the memories of nearly 1,000 men and women who receive degrees from Kansas State university next Sunday.

It is not only the big things—the sights and sounds—but the little things which can never be written down or photographed, that stick in the minds of K-Staters. For the University is filled with challenge, achievement, hope, and disappointment.

It's been a busy semester for some and not so busy for others. Some of the challenges have been met, some of the hopes fulfilled. But whatever else, it has been an experience. And if everything is as it should be at K-State it has been a maturing and fulfilling experience not soon to be forgotten.

Sounds not soon to be forgotten as a part of Kansas State include the ringing of the steeple bells which indicate that classes are about to begin. Anderson hall, the administration building, houses offices in which many of the major policies of the University are decided.

## Vacations More Enjoyable Without Clothing Problems

Summer time means vacation time for many K-State coeds. One of the biggest problems of taking a trip is packing the right clothes. Most of us will inevitably take the wrong clothes, take too many extra clothes, or forget a few things.

Dragging excess luggage around can spoil your travel, so take only what you will need. Before packing a thing, figure the number of days you will be gone and the places you will be going. List everything you think you will need and then cut the list about in half.

Hold down the number of colors in your wardrobe. This will simplify the matter of accessories and enable you to wear the same

shoes, purses, and hats with several outfits.

Shirtwaist dresses are wonderful since they can be worn for casual or dress occasion. If possible, choose your clothes and lingerie of wash-and-wear fabrics. They are not only easy to keep clean, but they usually pack without many wrinkles.

Your coat should be a light one that will double as a rain coat. If it is simple in cut and color, it can be worn with nearly everything.

An essential part of any traveling wardrobe are comfortable shoes. If you must take new shoes, be sure they are well broken in before you leave. Remember

that your feet will probably swell if you do much walking, so choose your shoes large enough.

High heels look nice and they're fine for dinners and shows, but pack a comfortable pair for walking. Don't let sore feet ruin your vacation.

## School Year Ends, But Love Continues

### Serichfield-Mayer

Jo Ann Serichfield, EEd Soph, and Leo Mayer, AE Sr, will be married Saturday in Manhattan. Jo Ann is from St. George and Leo is from Clyde.

### Smith-Moggie

The pinning of Helen Smith, EEd Soph, and Chuck Moggie, BAA Sr, was announced recently. Helen is a member of Alpha Del-

ta Pi from Kansas City, Mo. Chuck is from Manhattan and belongs to Phi Delta Theta.

### Cooley-Baucke

Jo Ellen Cooley, MGS Jr, and Tom Baucke, BA Sr, recently announced their engagement. Jo Ellen is a Chi Omega from Kansas City, Mo. Tom is a member of Tau Kappa Epsilon from Kansas City also.

You'll be pleased with a Collegian classified.

## Larry North Heads TKE's Fall Officers

Tau Kappa Epsilon officers for the fall semester are Larry North, ME Sr, president; Jerry Harper, Phy Soph, vice president; Carl Long, Ar 02, secretary; Sam Myers, BAA Soph, treasurer; Dave Moore, BA Soph, historian; Darrell Welch, EE Soph, chaplain;

Joe Doyle, Chm Jr, sergeant-at-arms; Art Johnston, ME Soph, pledge trainer; John Cowan, Ar 02, rush chairman; Bob Swenson, ME Fr, business manager; Dale Shippis, SED Jr, informal social chairman; Mert Stoneking, BAA Soph, formal social chairman; Jack Capron, FT Soph, house manager; and Mert Stoneking, BAA Soph, IFC representative.

KANSAS STATE COLLEGIAN

7—Friday, May 22, 1959

# Cat Nine Will Close Season With Three Games at NU

K-State's baseball team, in fifth place in the Big Eight, will shoot for a first-division finish this weekend when it closes out its season against Nebraska at Lincoln.

The Wildcats stand 4-7 in conference play, while fourth-place

Oklahoma is 6-9. That leaves the Cats only 37 percentage points behind the Sooners. Any combination of three K-State wins or Oklahoma losses will put the Wildcats ahead of the Sooners.

K-State, however, is still dangerously close to the cellar, where Missouri is mired at 3-9. A Nebraska sweep could knock the Cats to the bottom.

The Big Eight title will also be decided this weekend. Oklahoma State is in first place at 15-3, and Iowa State is in third at 10-5. Either the Cornhuskers or Cyclones could win the crown if they win three and the Cowboys lose three.

Coach Ray Wauthier's offensive punch was strengthened by the addition of John Solmos, who missed the first five series because of spring football practice. Solmos looked impressive against Kansas last weekend, and is expected to start in left field against the Cornhuskers.

Al Schierling is the probable

starter for today's game, with Bob Graham and Brad Bochow scheduled to hurl in tomorrow's doubleheader. Graham was credited with last Saturday's victory over Kansas.

Dick Skelton, who relieved in both of Saturday's games, could be a surprise starter. Skelton shut out the Jayhawks in four innings of the opener, and then preserved Graham's win by getting the final two batters in the nightcap.

In other conference games this weekend, Kansas plays Oklahoma, Missouri meets Oklahoma State, and Iowa State tangles with Colorado.

## K-State Track Team To Enter AAU Meet

K-State's track team will enter the first of four "big time" meets tomorrow night when it travels to Kansas City for the Missouri Valley AAU meet.

The Cats plan to be busy this summer, sending representatives to the Meet of Champions at Houston, Texas, June 6; the NCAA meet at Lincoln, June 12 and 13; and the National AAU meet at Boulder, June 19 and 20.

Although the whole squad will not go to Kansas City this weekend, the Cats will be represented by Tom Rodda, DeLoss Dodds, Larry French, Jim Vader, Jim Cain, Rex Stucker, and Dave Chelensnik.

Big Eight champion Kansas will send a 21-man team, and Missouri will also enter.

In addition, Archie San Romani, Jr., youthful mile sensation from Wichita East high school, will compete in the open 880 and mile events.

As an added incentive, first and second place finishers will be eligible to compete in the tryouts for the Pan American games this summer. The tryouts will be in conjunction with the AAU meet at Boulder.

Among the Jayhawk stars entering the meet Saturday are Charlie Tidwell, the outstanding performer at the Big Eight meet last weekend; distance man Bob

Tague, dashman Paul Williams, and possibly broad jumper Ernie Shelby.

Shelby will compete if he is fully recovered from a pulled muscle suffered at the conference meet.

Bill Dotson, promising Kansas freshman, will enter the distance events.

Another prep star entering is

Dale Alexander, Hays, triple winner in last week's Kansas class A high meet.

Other standouts entered are Kent Floerke, former Kansas hop, step, and jump champion; Bob Sedlow, CIC hurdles champion; Paul Whitney, defending mile champion from Emporia State; and last year's 400-meter hurdles king, Bob Knight of Ottawa.

## Oklahoma State Wins League Baseball Title

By UPI

Rain today handed the Oklahoma State Cowboys a berth in the NCAA college "World Series" at Omaha, June 12-18.

Oklahoma State needed one victory in a scheduled three-game series with Missouri at Stillwater, Okla., starting today. Today's rainout left only Nebraska with a chance to tie OSU, percentage-wise.

However, Oklahoma State won the early May series with Nebraska, meaning it will represent the conference in the NCAA.

OSU has a 15-3 record with

two scheduled games to go. Nebraska is 9-4 with three games scheduled.

Ironically, Missouri won a spot in the NCAA playoffs the same way last year when Oklahoma State was rained out of its last chance.

# KS Singers Give Numerous Shows

A total of 43 performances have been made by the K-State Singers this year.

At least 50 per cent of the appearances have been made out of town, with the group going as far west as Smith Center and as far east as Kansas City. Programs have varied from presentations at conventions and banquets to benefit concerts and TV shows.

March was the busiest month when the Singers made 17 appearances. Assoc. Prof. William Fischer feels the high point of the year came when the group appeared at half time during the Missouri-K-State basketball game. In addition to the basketball crowd, the group appeared before seven million people throughout the Midwest by means of TV.

The Singers presented a benefit concert March 1, which netted \$450 for the music scholarship fund. "Archy and Mehitabel," the love story of a poetic cockroach who falls in love with an alley cat, was the

feature of the program.

The Singers made 14 appearances in connection with the A Cappella choir tour March 9-12.

Other appearances by months: five in October; four in November, December, and May; three in February; two in April; and one in January.

The group has presented programs at about 16 different high schools including Council Grove, Smith Center, Chapman, Junction City, McPherson, and Riley.

All of the money that the Singers have received for appearances has gone into the music scholarship fund. The Singers are giving four full music scholarships this fall.

## Applications Available For Summer Bowlers

Anyone interested in competing on a summer bowling team should fill out a blank at the games desk in the Student Union. The leagues will begin the first week of summer school. It now appears there will be a men's student league, and a mixed couples league.

## Danforth Awards For Two Aggies

Martyn Apley, FT Jr, and Wayne Grover, Ag Fr, have been chosen winners of the William H. Danforth scholarships for this summer. C. M. Mullen, assistant dean of agriculture recently announced.

Apley has won the four-week Danforth summer fellowship, and will be one of 52 students in the country to spend two weeks at St. Louis in August, followed by two weeks at the American Youth Foundation camp near Lake Michigan.

The freshman leadership training scholarship for two weeks was awarded to Grover. He will attend the two weeks camp near Lake Michigan.

## Moss Essay Contest

### Won by David Erwin

David Erwin, VM Sr, has been announced winner of the Moss essay contest by E. E. Leasure, dean of the school of veterinary medicine.

The national essay contest is sponsored by the American Animal Hospital association. Erwin received \$25 for his first place award.

## First Quelle Lecture Led By Johnson

The Reverend Julian Johnson lectured last night on "New Thinking in Personal Religion," to start this summer's series of Quelle lectures on contemporary religion.

The five lectures remaining in the series will be delivered on consecutive Wednesdays, except July 1, at 7 p.m. in Danforth chapel.

The lectures, which are intended to spread scholarly information on the origin and meaning of living religions, are sponsored by the Director of Student Religious Activities, William C. Tremmel.

This series of lectures deals with current religious thinking.

The word "Quelle" means sources and is used some modern scholars to refer to certain sources of the gospels of Matthew and Luke.

Next week's lecture, "Rosenzweig and the New Thought," will be presented by Chaplain Judea B. Miller, assistant post chaplain at Fort Riley.

Other talks are "Post-Protestant Theology," Dr. Emerson Abendroth, June 24; "J. W. Langmead Casserley, Representative Anglican Thinker," the Reverend Roy Turner, July 8; "Recent Catholic Scholarship and the Inspiration of Scripture," Father Richard F. Smith, July 15; and "Liberal Protestantism," Dr. William C. Tremmel, July 22.

## KS Coeds Come Close In Miss Kansas Race

Close, but not quite close enough. This could well be the sentiment of three K-State coeds who represented three different towns in the recent Miss Kansas contest in Pratt.

Jan White, HT Sr; Barbara David, HT Jr, and Mel Eaton,

## Two 4-Hers Win Washington Trip

Two K-Staters left Manhattan early Tuesday morning to attend the National 4-H Conference in Washington, D.C., June 13-19. They are Ruth Zwegardt, HE Soph, and Clyde Roberts, TA Soph.

Trips to the conference are awarded annually to four Kansas 4-Hers on the basis of outstanding project work, activities, and leadership.

Accompanying the group are State Club Leader Roger E. Regnier and Asst. State Club Leader Roberta Anderson.

## Directory for Summer To Be Printed Thursday

Next week's Collegian will print the summer school directory. All the students names, telephone numbers, and addresses will be included.

Photo by Don Dailey

MR. 11034 (alias James Grier, CE Sr) stops for one of the many steps needed to complete the job of enrolling. The pictures taken during enrollment are kept on file for future reference if ever needed by the school. The reason that Mr. 11034 is not smiling for the college camera is he knows that the most painful part of enrollment is to follow—the writing of a check to the University.

## Varied Summer Activities On Tap for School Term

Summer activities scheduled for this school session will include a discussion series, 13 movies, family nights, jazz programs, dances, and are exhibits; all in the Student Union; and several Artist series programs, a play by the K-State Players

and the Quelle religious lectures.

The discussion series will take place in the Art lounge of the Union every Tuesday, except August 4, during the summer session. Next Tuesday's 3 p.m. discussion will be led by Don A. Trumbo, psychology instructor. The topic is "Psychological Testing in Industry."

Other topics and their dates: "Nuclear Engineering," Robert Clack, nuclear engineering instructor, June 23; "A Cold War Battleground: The Vienna Youth Festival," Dr. Joseph Hajda, assistant professor of history, government, and philosophy, June 30; "Investments and the Stock Market," Conrad Erikson, associate professor of business administration, July 7; a talk on the James Hunt exhibition of paintings, John Helm, professor of architecture and allied arts, July 14;

"Boris Pasternak and Dr. Zhivago," Earle Davis, head of the English department, July 21; and "The Customs and Costumes of Germany," Gertrude Lienkamper, associate professor of clothing and textiles, July 28. Refreshments will be served at the discussions.

Family nights are scheduled every Friday in the Union except for July 3. Tomorrow's family night will include square

## Total Enrollees May Hit 2,000

Summer school enrollment is expected to reach 1,950, and possibly 2,000, according to E. M. Gerritz, director of admissions and registrar.

"Enrollment is running about the same as last year," Gerritz said, "and will probably exceed the estimated figure of slightly over 1,900."

As of yesterday morning, 1,879 students had enrolled, including 1,762 who registered at the regular time Monday and 117 late enrollees.

Included in the 150 to 200 who normally enroll late will be the 63 high school teachers participating in two special programs later this summer. Fi-

nanced by the National Science Foundation, one program will make it possible for 13 teachers of high school chemistry and physics to work with K-State scientists on research projects while doing graduate work. The other is an institute for 50 high school mathematics teachers.

Elementary education had drawn 187 students as of Monday, the largest number in any one curriculum. Electrical engineering, with 111, had the next highest enrollment.

The ratio of men was about 2.34 to 1 Monday, with 1,235 men and 527 women enrolling. This is a little bit higher than last year's ratio of 2.28 to 1.

According to Monday's registration figures, the School of Arts and Sciences had by far the largest number enrolled. The total of 630 students is more than the other three undergraduate school combined.

The School of Engineering and Architecture followed with 366, and the Schools of Home Economics and Agriculture each had 90. Graduate school enrollment totaled 586.

Totals by classes were 378 juniors, 278 seniors, 255 sophomores, 129 freshmen, 87 special students, 7 fifth year students, and 586 graduates. This differs from last year when the sophomores outnumbered the seniors.

Last year 1,834 students enrolled at the scheduled time and 139 enrolled late, bringing the total to 1,973. This was the largest enrollment since the record of 2,240 in the summer of 1949.

## State Music Camp Draws 200 Students

Over 200 Kansas high school musicians are participating in the all state music camp here. The camp began last Sunday and will end next Sunday.

Guest conductors include Frank Peirsol, director of bands at Iowa State college; Marvin Rabin, conductor of the Boston university orchestra; Harold Decker, director of choral activities at the University of Illinois; Kenneth Thompson, director of instrumental music at Wichita high school East; and Matt Betton, Manhattan, director of stage bands.

The guest conductors are assisting in a series of music workshops for directors and elementary school music teachers. Frances M. Andrews of Pennsylvania State university is a special consultant for the music school group.

The young musicians will parade down Poyntz avenue at 1:15 Saturday afternoon.

Sunday afternoon at 3, the camp orchestra and chorus will present a public performance in the Danforth chapel, and camp bands will play at 7 p.m. Sunday at the University auditorium.

## Advisory for Ag Students To Change Next Semester

"Some 170 freshmen entering the School of Agriculture next fall will be assigned special Freshman Advisors," said C. Peairs Wilson, director of the School of Agriculture. Seventeen faculty members of the Ag School will be assigned about 10 freshmen each as part of their regular work load.

The students will be assigned an advisor when they enroll. Shortly after the school term begins next fall, Freshman Assembly will be dismissed so that the students may meet as a group with their advisor. The advisor will then schedule a time for

each student to meet with him privately. If a freshman student has a single low grade at the end of seven weeks he will be required to meet with his advisor at once, according to Director Wilson.

"Many freshmen are reluctant to go see a member of the faculty when they need his help," Wilson said. Some students entering a university for the first time have a natural fear of a college program. "If, through contact, a student can overcome this fear," says Wilson, "he will go to his advisor of his own free will."

dancing; a childrens' movie, "Smoky," and bridge games.

The Union movie schedule is made up of five "Summer Cinema" films—a group of international classics, and eight other movies. These movies are shown in the little theater of the Union at 7:30 p.m.

The movie tonight is "The Little World of Don Camillo," a French film. The other films and their dates: "Heaven Knows Mr. Allison," June 16; "Cyrano de Bergerac," June 18; "Arsenic and Old Lace," June 22 and 23; "The Great Caruso," June 29 and 30; "The Green Man," July 2; "Diabolique," June 6 and 7; "La Strada," July 9; "Desk Set," July 13 and 14; "Will Success Spoil Rock Hunter," July 20 and 21; "Lust For Life," July 27 and 28; "The Last Bridge," July 30; and "Call Me Madam," August 3 and 4.

The Quelle lectures on contemporary religion are planned for Wednesdays during the summer session starting next week and running through July 22, except for July 1. The lectures are at 7 p.m. in Danforth chapel.

Two Jazz sessions are planned for June 18, and July 23 in the Union dive.

The summer Artist series programs are scheduled for next Monday; June 25; July 1; and July 16.

The Kansas State university summer prom will be July 29.

Art exhibitions in the Union are lounge include work by Mrs. Elfrieda Johnson Peterson, June 8 to 22; an exhibition from the Kraushaar galleries of New York, June 22 to July 6; work by James Hunt, July 6 to July 20; and a staff exhibit, July 20 to August 8.

## Summer Play Tryouts To Begin Next Monday

Students who wish to try out for the all student summer school play may report to Holton 206 Monday at 7 p.m., according to Earl G. Hoover, professor of speech. The play will be performed July 23.

# Welcome to K-State Says Collegian Boss

We hope you are all settled in summer school and have found all of your class meeting places. Now that you have found them (that is if the instructors have not changed your classes) we would like to say welcome from the Collegian.

Some of you have had a short week's vacation while others have not been on campus for a spell. Students who have not been here for a while find that the campus has changed quite a lot. With the six new buildings being built at the present time, the campus will be changed before the fall semester starts.

We publish a paper every Thursday morning, and hope you pick up yours. If you have any gripes about things going on around, write a letter—minimum of 250 words and you must sign it—to the editor. If you don't want to write, call us at 283 or better yet come in and see us at 103b Kedzie (we're air-conditioned).

For you "brains" who don't have to study there are a number of activities for you. The Union is always open during the day with plenty of activities to attend—intellectual and otherwise. Of course, there is the Manhattan swimming pool.

Here's hoping you have a successful summer and pull straight four points.—lh

Photo by Don Dailey

**PLANNING** for this summer session was started more than a year ago by the director of summer school Dr. Paul M. Young. Dr. Young is also acting dean of Arts and Sciences.

## Preparation for Summer Term Started More Than a Year Ago

When did you decide to enroll in summer school? Last fall? This spring? Or, did you finally make up your mind to "sweat it out" at K-State only a week or so ago?

No matter when you decided to go to summer school, the important thing is that you're here. And the man who's most responsible for arranging the summer program and class schedules that enticed you into enrolling is Dr. Paul M. Young, Director of Summer school.

Dr. Young, who is also Acting Dean of the School of Arts and Sciences, says, "plans are made for summer school at least 15 months ahead of time." In other words, almost everything was set and ready to operate for this summer by March of 1958.

Co-ordinating and helping plan the work of the various departments is Dr. Young's main job. This includes setting up classes, deciding on the faculty to teach these courses, and being responsible for activities. Faculty commitments, he says, are usually made sometime in October or November.

You might think Dean Young would just lean back in the swivel chair in his air-conditioned office and from this cool vantage point peacefully watch the 1959 Summer school glide by. According to him it just doesn't work that way.

In the first place, he must act as a general all-around trouble-shooter if any problems arise.

Secondly, he must be on hand to keep co-ordinating the work of the different schools. And of course, plans must be made for the summer term two years from now.

Although no major changes are planned for future Summer schools, Dean Young says, "We want to provide greater service by more teacher-training in the sciences." He points to the Institute for Teachers of High School Mathematics under the direction of Prof. L. E. Fuller as a good example of this type of program being offered this summer.

Dr. Young, who incidentally attended a summer school as a student, believes publicity about K-State's Summer school has helped attendance somewhat, especially that of school teachers. He says, "We send out material, including the Summer school catalog, to every elementary and secondary school in the state. In addition, some mention is made of the session in radio broadcasts, too."

Due to this publicity, says Dean Young, enrollment in education courses is high. For this reason most of the visiting faculty members brought in from other schools teach in the education department.

Dr. Young mentions that two-thirds of the students taking courses in Summer school were also enrolled last spring. This is due in part, he thinks, to a higher percentage of married students. Also graduate work is offered in all departments.

You may be wondering just why certain courses are offered in Summer school and others aren't being taught. Dr. Young answers this by saying, "Classes are offered on the basis of student demand. We keep records of several summers and then select the ones wanted by most students."

He continues by stating, "It's sometimes surprising, but courses that are very popular during the regular semesters may not attract many students during the summer." As an example he mentions a general studies course, Humanities II, says, "Although enrollment is good the rest of the year, in Summer school it just doesn't go over. Yet Humanities I draws a good-sized class when offered in summer."

## McCain Welcomes Students to K-State Summer School

I am pleased to extend an enthusiastic welcome to all our summer students. I hope the time you spend with us will be most rewarding in every way. Despite the warm weather, the summer session affords special opportunities for academic achievement. Since classes are small, there is more time for stimulating personal contacts between teachers and students. There are fewer activities than in the regular session to divert energy and interest from the main job at hand.

To date we have been blessed with better than average weather. When it really warms up, I trust the air conditioning now installed in the Student Union, the library reading room, and some other spaces will make life more bearable. Before too many more years pass we hope to be able to accommodate all our summer school classes in air-conditioned rooms.

I shall be looking forward to an opportunity to meet many of you personally.

Sincerely yours,  
James A. McCain,  
President

## Quotes from The News

San Quentin, Calif.—Prisoner Oscar Lugo, 33, got a private cell after guards found him hiding beneath the gymnasium bleachers at San Quentin prison. Lugo explained he owed his fellow inmates so many cigarettes he couldn't pay them back.

Stockton, Calif.—When authorities responded to a burglar alarm at a suburban fishing resort, they found that the alarm's \$125 power unit had been stolen.

Buffalo, N.Y. — George P. Doyle, 24, was only slightly injured when his small car left the road, veered onto a used car lot, hit a log marker, was sent flying through the air and came to rest atop a 1948 sedan.

Oakland, Calif.—Police said Howard C. Green Jr., 25, a University of California business administration student, admitted stealing an adding machine and a computer to help with his homework.

Montpelier, Vt.—The Vermont House of Representatives approved a ban on water-skiing after dark "except on bright moonlight nights."

Syracuse, N.Y.—Robert E. Rabe of North Syracuse was acquitted of charges that he passed a stop sign after he testified that the sign was buried in snow.

Carthage, N.Y.—While doing a term paper on the life of John Masefield, England's poet laureate, high school senior Judy LeRoux came across three different years for the date of his birth.

She she wrote Masefield a letter and received a hand written note from the poet stating he was born June 1, 1878.

"WITH WINN DRAFTED LETS GIVE BRO. HARRY HERE A BREAK AN' FIND HIM A PLEDGE ROOMIE WITH THESE QUALIFICATIONS—SHIRT SIZE 16-33; PANTS 30-34; SHOES 9-C; COAT -40—"

## Over the Ivy Line

# Patrolman Wrong in Issuing Ticket; Utah State Students Steal Cops Car

SOME STUDENTS at Utah State university stole the campus patrolmen's car for being "unjustified in giving a student a ticket who had parked on the road between the dorms for a few minutes, just to run in to get something." The patrolman may have been unjustified for giving a ticket for illegal parking, but the ticket wasn't for this. It was for speeding through campus at about 70 miles per hour. It seems that this campus prank back fired.

WE AREN'T the only university that is having trouble with messy tables and lack of cleanliness (for maybe just good old horse sense) in the student union and cafeteria. Duquesne university cafeteria's ketchup bowl seems to contain more than just ketchup. It seems that the bowl catches knives, forks, and spoons resulting in trouble of getting ketchup out. Perhaps the State Room needs to be congratulated for putting in the automatic ketchup dispensers.

A PROFESSOR at Minnesota university was lecturing and pointing at a map during a class recently when he heard a knocking on the wall under the map. He lifted the map, and out of a hole in the wall crept two workmen. Apparently the workers had made a wrong turn in a crawly and pipe tunnel.

AT OREGON STATE fraternity men at the Sigma

Phi Epsilon house had their fear of women drivers reinforced the other day. A graduating coed, eager to leave the school with some sort of record, turned off a street in the middle of the block, and piloted her car over the Sig Eps lawn. Members of the house, who witnessed the action from the safety of their front porch, watched in shocked silence. For her troubles, the coed has received a supply of garden seed.

A GROUP of Stanford university students interested in birds held a demonstration on the quad. It seems swallows are as prevalent on the Stanford campus in the spring as squirrels are at K-State. The Stanford demonstrators called for immediate action either to get rid of the birds or to make their winter so enjoyable that they would rather stay there than come home. It is reported that no swallows showed up for the demonstration.

TEMPLE UNIVERSITY is located in the heart of Philadelphia where the "hard-to-reach" youth have their their gangs. Recently one more softball game was played at the University. A University team challenged a team sponsored by a neighborhood gang with the "gang" winning 13-8. Could this mean that university students are soft, or poorly coached?

# Five Wildcats Are Entered In NCAA Meet at Lincoln

Warming up at the Meet of Champions at Houston last weekend, five K-State thinclads will compete in the NCAA track and field meet at Nebraska university tomorrow and Saturday.

Captain DeLoss Dodds will run the 440, Tom Rodda will enter the mile run, Rex Stucker will run both the high and low hurdles, Jim Cain will throw the shotput, and Lowell Renz will be entered in the javelin throw.

At Houston these five, plus Larry French, Bob Groszek, and Jim Vader made "one of the most outstanding performances by a K-State track team," said Ward Haylett, track coach. K-State took two firsts, two seconds, a third and a fourth.

The winning mile relay team lowered the meet and the Wildcat varsity record to 3:10 flat. The old K-State record was 3:10.4 and the meet record was 3:12.7. "This time is the second fastest in the world and better than any Big Eight team has run," reported Haylett.

Running on the relay team were French, Groszek, Vader, and Dodds. Since the NCAA does not have a mile relay among its events, this was the final effort for this quartet.

Stucker captured the other Wildcat first, taking the 220-yard low hurdles. In winning he set a new varsity record of 22.8. This bettered his record

of 23.1 which he set in the Big Eight conference meet. In the 120-yard high hurdles Stucker tied the meet record of 14.1, which was set by former Wildcat Gene O'Connor; but was second behind the record-shattering 13.8 effort by Lee Calhoun of North Carolina college.

Rodda trailed Gail Hodgson,

Oklahoma university, by 35 yards in placing second in the mile run. Rodda's time, 4:07.9, is a new varsity standard and was the fastest mile run in Kansas.

Renz was third in the javelin with a heave of 217 feet, 9 inches, while Cain was fourth in the shotput with a heave of 52 feet, 7 inches.

## K-State Is Fourth In All-Sports Race

K-State finished fourth behind Oklahoma university, Kansas university, and Colorado university in the 1958-1959 Big Eight All-Sports derby. Nebraska university, Iowa State college, and Missouri university finished in that order behind K-State.

The Wildcats' lone championship was in basketball.

Oklahoma State, who cannot be eligible for this race since it will not play a league football schedule until 1960, won four championships. The Cowboys, full-fledged competitors in every sport save football and swimming, won wrestling, tennis, golf, and baseball titles.

The Jayhawkers, second in the

derby behind Oklahoma, scored their eighth consecutive triple in cross country, indoor track, and outdoor track to trail only Oklahoma State in total titles. Oklahoma won football and swimming championships to account for the remaining two of the ten team flags.

Missouri would have finished out of the cellar had it not forfeited seven conference baseball victories because of use of an ineligible outfielder.

With Oklahoma State's standing delated for for each sport, the point standings are shown below.

Sport	CU	IS	KS	KU	MU	NU	OU
Football	3	7	5	4	2	6	1
Cross-country	3	2	6	1	7	5	4
Basketball	3 1/2	6	1	3 1/2	7	5	2
Wrestling	3	1	5	6 1/2*	6 1/2*	5	2
Swimming	6	2	4	3	7*	5	1
Indoor track	4	7	3	1	5	6	2
Outdoor track	5	7	3	1	4	6	2
Tennis	2	5 1/2	7	4	5 1/2	3	1
Golf	4	7	6	3	1	5	2

## Cat Varsity Athletes Earn Spring Letters

Thirty-seven K-State track and baseball men were recently named to receive letters for the 1959 season. There were also 18 freshmen numerals awarded in the two sports.

Of the 20 track letter winners, 12 will return next year. They are Max Falk, Al Hamilton, Jerry Hess, Lowell Renz, George Whitney, Murray Corbin, Dale Evans, Bob Groszek, Cedric Price, Billy Rich, and Rex Stucker.

The senior lettermen are Chuck Burgat, Jim Cain, DeLoss Dodds, Larry French, Ben Grosse, Karl Lindenmuth, Tom Rodda, and Jim Vader.

The nine freshmen named for K-State track numerals are Richard Adams, Robert Baker, Judson Brown, Virgil Coleman, Jerry Hooker, Victor Hurtig, Robert Jadow, Don Lundquest, Eugene Mater, Kenneth Meseke, James Neff, Glenn Nelson, and Gerald Perkins.

Next years' varsity baseball club will welcome back 14 lettermen, plus nine freshmen who

were named for baseball numerals. There were only three senior lettermen this past season. They were Paul Bader, Joe Haggard, and Clarence Norris.

The other varsity lettermen are Marvin Daniel, Terry Knowles, Mel Kopf, Allen Schierling, Dick Skelton, Gaylen Sullivan, Allan Thaumert, Joe Vader, Brad Bochow, Tom Dunn, David Fiser, Bob Graham, Ken Jones, and Dan Whitmore.

# Union To Host Family Nights on Fridays

Family nights at the Union will start tomorrow night when the current series gets underway with minimum cost cafeteria service at 5 p.m. Each Friday night from then until the end of July, excepting July 3 will be family night.

Some of the activities for families of students, staff members, and faculty will include: bowling, table tennis, square dancing, childrens' movies, shuffleboard,

bridge, a play and book reviews. Other activities will be planned as the need arises.

The childrens' movie starts at 7 p.m. and the parents may participate in the other activities while the children are attending

the movie. The Union will close at 10 p.m. on these nights.

## Staff Addition

Robert J. Sigg joined the Kansas State university staff as an assistant to the director of admissions and registrar June 1.

A former K-State student, Sigg received his B.S. with honors in 1953 and was elected to membership in Phi Kappa Phi. He received his M.S. from K-State in 1958.

Sigg comes to Manhattan from Garnett where he has been a guidance counselor for the past two years. He has also taught in and Nemaha counties.

## UN Scholarship

Virginia Baxter, Gov Jr, has won a \$100 scholarship to attend and study the United Nations. She is the only Kansan to receive the scholarship and will be in New York June 13-20.

She will attend daily group sessions at Sarah Lawrence college and confer with UN officials at the UN building. The scholarship was in recognition of the work done by Miss Baxter as chairman of the Little United Nations Assembly at K-State February 19-21. The Scholarship was awarded by the Collegiate Council for the UN.

## Christian Council

The United States Christian Council is sponsoring Sunday evening fellowships at the Luther House, 915 Denison. The meet-

ings start at 5:30 p.m. with recreation, according to Sharon Bathauer, chairman of the group.

Discussion topics for the summer will be chosen at the Sunday evening meeting. "Possibilities for topics are differences in denominations and study of the mission of our church," Miss Bathauer said.

Meals will be served for 35

cents with devotions and group singing to follow. Six different churches are participating in the fellowships and all students are invited to attend, Miss Bathauer said.

## Guest Artists To Entertain During Term

Four special entertainment number will be presented as a feature for summer school, according to Paul M. Young, director of the summer school.

All four programs will be evening affairs, and will be open to the public.

The first program at the series will be "Musical Portraits," Monday at 8 p.m. in the Union. The artists to appear are Dolores Baldyga, soprano; Angelo Picardi, tenor; and Dana Lordly, pianist.

The Village Players will present "The Four Poster" on Thursday, June 25, at 8 p.m. in the Union.

A dance-drama duo consisting of Emily Frankel and Mark Ryder, will give a program Wednesday, July 1, at 8 p.m., in the University auditorium.

Final number on the summer artist series will be the Boston concert ensemble, which appears at 8 p.m. Thursday, July 16, in the chapel auditorium. The ensemble consists of Nancy Cirillo, violinist; John Horner, bass-baritone; Colette Rushford, harpist; and William Stevens, pianist.

# Kansas State Collegian

VOLUME 65

Kansas State University, Manhattan, Kansas, Thursday, June 18, 1959

NUMBER 152

## Ries Named As New Head Of Industrial Engineering

A new head of the department of industrial engineering will assume duties July 1, according to M. A. Durland, dean of the Engineering school. He is Irvin Leigh Reis, 32, who is on the staff of the Nebraska university college of engineering.

He will succeed G. A. Sellers, who is retiring July 1 from administrative duties under the present Board of Regents policy.

A native Nebraskan, Reis was graduated "with distinction" from Nebraska university in 1949 and received his master of science degree from the same institution the following year. His Ph.D. was granted by the University of Illinois in 1957.

From 1950 to 1953 he was

director of institutes for the University of Nebraska extension division. He organized a program of assistance to business and industry, including short courses, institutes, and training programs.

Reis was a lecturer in industrial engineering at the University of Illinois from 1953 to 1957 while working on his doctorate. Since that time he has been associate professor of mechanical engineering at Nebraska.

He has done research on production rate changes, sampling by variables, compensating

times and production balancing procedures.

The new industrial engineering head has industrial experience as a consultant on the employee safety for the city of Lincoln, mathematical probabilities consultant to a state political organization, advisor on training programs for the Illinois Veteran Administration hospital, and in summer employment.

Dr. Reis is the author of numerous papers in technical publications and is a member of numerous professional and honorary societies.

Irvin Reis

### Sign for English Pro From June 29 to July 3

The summer school English Proficiency examination for undergraduate students will be given Tuesday, July 7, from 7 to 10 p.m. in the Williams auditorium, Umberger hall. Any student enrolled in English Proficiency this summer should report to the office of his dean between June 29 and July 3 to sign his record card and receive information concerning the examination, according to Mary Frances White, assistant professor of English.

## 'Where Does She Live?' 'Look in the Directory'

The summer school directory of students begins on page 4 of today's Collegian. Containing over 1,980 names, it is the longest "story" and probably will be the best read in the summer session of publication.

As a "story" the directory does not hit you in the eye. It contains no earth-shaking facts nor revelations of nefarious activities on campus. There is not a word about the cold war, inflation, politics, or any other subject which may have you worried.

But the directory does serve several useful purposes. It makes this issue probably the only one printed throughout the whole year which will not be used immediately to wrap old fish in. And, for any would-be novelist at K-State who is tired of thinking up unusual names for his characters, the directory presents a real chance to find some names not commonly used in fiction.

If you are a beginning typist, striving to improve speed and accuracy, just copy the whole list of names. You will get to use every letter in the alphabet.

Some people may want to take advantage of one of the list's minor uses—finding out a person's full name, phone number, or address. Or you may want to see if that pretty girl you met the other day is living in Jardine terrace.

Married students with preschool age children may find the kids can practice saying the alphabet by using the big capital letters—all but the X. Unfortunately, Socrates' wife, Xanthippe, could not pass the physical, and did not enroll this summer.

School teachers attending summer school at K-State saw textbooks, reference books, and materials, which were exhibited by some 22 publishers in the Union Monday and Tuesday.

On exhibit were text books recommended by Kansas educators for kindergarten through senior high school. The exhibit also contained supplementary material, approved by the state, for all different levels of education.

The exhibit, which contained thousands of books, will be on display to educators at various colleges and universities during their summer school sessions.

The Kansas Bookman's club, which staged the exhibit under the sponsorship of the education department, is composed of representatives of reputable school book publishing companies in Kansas.

## Guest Scholar Is Biochemist

Appearing on campus as the chemistry guest scholar June 22-23-24 for a series of lectures will be Dr. T. D. Luckey, professor and chairman of the Department of Biochemistry, University of Missouri.

Dr. Luckey formerly did research with "germ free" animals at the University of Notre Dame before going to the University of Missouri in 1954. "Germ free" animals are raised in a completely sterile atmosphere and in that way are valuable in research work.

Dr. Luckey will present four lectures in Willard Hall 115. These lectures will deal with: "Comparative Nutrition;" "Germ Free Research;" "Suckling Rat Nutrition;" "Biochemistry of Germ Free Animals." Along with being a member of American Chemical Society, American Institute of Nutrition and others, Dr. Luckey is the author of 50 papers in the Biochemistry field.

Dr. Luckey is currently working on a project in comparative nutrition of insects. He is trying to isolate an unknown nutritional factor that is essential for the growth of insects. The project has commercial applications.

## Chaplain Explains Jew's Philosophy

"Existentialism and personalism characterize Franz Rosenzweig, leader in new Jewish thought," said Chaplain Judea B. Miller at the second in the series of Quelle lectures last night.

"One cannot pick up a modern Jewish text without finding some reference to Rosenzweig at least in a footnote."

Rosenzweig, who was one of the leaders in higher German education before Hitler, is best known for his book on Jewish philosophy, "Star of Redemption."

The book, which was written during World War I, deals with the matter of thought in existentialism. In the book, Rosenzweig points out that men should not fear death and that to refuse to recognize the individual is to deny life itself, said the chaplain.

He further pointed out that the author believed that three essences make up the world. These are Man, Life, and the World itself. In addition, said the author, all truth is based on trust—in God and man. But in order to understand it, man must have the attitude of love. To have this understanding, man must communicate with each other and with God.

Rosenzweig points out that redemption must come from revelation and this revelation is only between God and Man, according to Chaplain Miller. A large proportion of mankind has never felt this redemption. Therefore, after the war, Rosenzweig started his own school of higher learning because he was dissatisfied with the German schools.

Early in the 1920s Rosenzweig

fell ill with progressive paralysis. He eventually lost all power of communication. In doing so, he invented ingenious methods of communication with those around him. For the remainder of his life he carried on his work by dictating messages to his wife who in turn relayed them to the proper channels.

"Rosenzweig is considered by Jewish leader," said Chaplain Miller, "to be a great example of a man who became a living testimony of his great faith. He ascended to heights of abstraction only to return with a better understanding of life as he saw it."

## Second Art Exhibit Features Collection

The second in the series of summer art exhibits will go on display June 22 in the Union art lounge. According to Sue Cooley, Union program adviser, it will be an outstanding collection of paintings, drawings, and water colors from the Kraushaar Galleries of New York.

"It features some of the better painters in the country today," says Prof. John F. Helm of the Architecture and Allied Arts department.

Professor Helm will give a gallery talk the evening of June 26 at 7 in the art lounge.

There are a total of 26 works, both representational and abstract, by various contemporary artists on display. The exhibit will be open weekdays only until July 6.

Some of the artists are Louis Bouche, Russell Cowles, John Yonkers, William Kienbusch, James Lechay, John Laurent, James Penney, Karl Schrag, Henry Schnakenberg, and Andree Ruellan.

The display now in the art lounge is by Mrs. Alfreda Johnson Peterson, a Manhattan resident. An honor graduate of Kansas university, Mrs. Peterson studied at the Art Students' League in New York. Most of her works are commissioned portraits.

## Job Testing Is Discussed

Industrial psychological testing can be used to predict how good a worker will be on the job, said Don A. Trumbo, psychology instructor, at Tuesday afternoon's discussion series in the Union art lounge.

"There are many possibilities for evaluation," he said. "Job applicant test scores can be compared to the correlation between previous test-takers and their success in a job." To illustrate he used average height and weight measurements instead of test scores to demonstrate how the procedure worked.

These tests are not ability or aptitude tests in the true sense, he said, because they are intended to measure potential.

Referring to recent magazine articles on the subject, he said, "Industry wants an 'organization' man, and so the tests are to weed out non-conformists."

Nuclear engineering is the subject of next Tuesday's 3 p.m. discussion session. Robert Clack, nuclear engineering instructor, is the speaker.

## Pre-Enrollment Set For New Freshmen

The pre-enrollment period for new freshmen will begin July 6 and end August 7 according to Assistant Dean of Students Ron E. A. Jackson. During this time individual freshmen will be on campus two days to take physical and aptitude tests.

Besides taking tests, the prospective freshmen will meet faculty members and students, see the campus, check into housing, and generally get acquainted with college life. Dean Jackson says, "This way they get more of a feel for the campus and are better prepared for college work."

## Exhibit Features 1,000 Books

Photo by Don Dailey

POINTING OUT one of the finer points of his book, A. W. Glad explains one of the books to June Krebs, HEc Gr, at the Kansas Bookman's club exhibit.

# Dive Food Machines May Not Raise Use

The display case on the north wall of the Union dive has been removed to make room for seven coin vending machines.

These machines will contain coffee, soft drinks, bakery goods, and all types of short snacks. They are to be installed to encourage students to use the dive and to shorten the line into the state room, according to Loren Kottner, director of the Union.

THE UNION administration should be congratulated for trying to find a solution to this problem. But, why do students shun away from the dive in the first place? There is some reason, but seven vending machines are not the answer.

There is something about the atmosphere of the dive that causes students to walk on past it. Is it the lighting and the color scheme of the place? Is it that there is too much noise from the bowling alleys and pool room?

The color scheme is about like Poe's "Masque of the Red Death." The lighting, not bright enough during the day, combines with the red walls to make a person feel like he is walking into dungeon.

WHEN THERE are a number of people bowling, the noise from it is enough to cause any person to want to leave. The pool tables are quite a ways from the dive but that noise is enough to add to the turmoil.

Perhaps a solution would be to take out the dive and include some more bowling alleys. This probably would not work because students want some place to dance at a time there are not any University dances.

THIS MAY NOT BE the answers to these questions, but these are some solutions we think might help.

The vending machines could cause students to stay away from the dive, rather than encourage them to go there. They could resent the machines and not patronize them.

The problem surrounding the dive is more complex than merely installing food machines. Until this problem is solved the dive is a wasted place in the otherwise overcrowded Union.—Loren Henry

## LITTLE MAN ON CAMPUS

"THE VERY SAME STUDENTS FLUNKING MY CLASS ARE OUT THERE FOOLING AWAY THEIR TIME ON THE ARCHERY FIELD."

KANSAS STATE COLLEGIAN  
Thursday, June 18, 1959-2

## News Shavings

Buffalo, N.Y. — Thieves who smashed through two doors of an elementary school in the town Tonawanda, broke into a safe and a cafeteria cash register managed to escape with just one dime.

Rutland, Vt. — When Swift & Co. opened a new meat plant here, Mayor Dan J. Healy sliced two yards of bologna instead of cutting the traditional ribbon.

Hardwick, Vt. — To encourage slenderizing, members of the Home Demonstration group here agreed to fine themselves one cent per inch of waist.

Burlington, Vt. — Two Burlington high school students admitted they didn't have a chance when they were caught trying to steal a case of soft drinks destined for the cooler of the city police department.

## Over the Ivy Line

# IU Students of Language Affirm Lack of 'Un-Russian' Activities

By Judy Krug

Students at Northern Illinois university, wishing to enroll in a new Russian language course, must sign loyalty oaths stating, "I have not or never have been a member of the American Legion."

An obliging male has words of wisdom for the outnumbered female students at the University of Oregon. His advice to them is to "fight more underhandedly." He suggests that they ignore closing hour regulations, let their knees peek out of their raincoats more, or take their coats completely off.

Williston Hall girls at Northern Illinois university are dismayed with their parking problem. It seems that only three parking spaces are allotted to the 240 girls, in other words, one space per 80 girls. However, a remedy for the dilemma is being sought—there are plans for the construction of a bicycle rack that can hold 237 bikes!

A certain Northern Illinois university student, in objecting to an editorial on the college drinking problem, has this to say: "Earlier thish evenink I completed a toor o fall da bars in dearea ina interesht of shientiffik reeshurch an wish you wood

shtop printg theseh shtories abut shudents whoo rink be caush it isn't truu. . . ."

Students and faculty alike found time a problem when the University of Minnesota went on daylight saving—no one was showing up for classes on time. Within a week the Board of Regents received notes which stated that a meeting would be held at "9 a.m. our time, which is 10 a.m. your time."

A whole new world of opportunity was opened to a sharp observer in Greenwich Village when he noticed that a bottle of after-shave lotion claimed it had "that clear tang of freshness women like a man to have." But did he hurry forth to buy that particular wonder lotion? No, he's going to try some other brands. Think of the effect they might have.

PUBLICITY CHAIRMEN for campus events are usually battling their heads against a brick wall to get students to attend their events. A Minnesota university student solved part of his problem by placing a large stump on the steps of Coffey hall with a sign explaining, "only 263 days until the Stumpjpumer's Ball."

# Violin-like Markings on Toxic Brown Spiders Will Not Mean Sweet Music if One Bites You

By CHESTER PETERSON

"Ill effects from a Brown Spider's bite last about a week. And, usually an inch-wide ulcer forms that must be lanced."

Fred A. Lawson, assistant professor of entomology, uttered this bit of unpleasant knowledge as he unscrewed the lid of a glass jar containing a large male Brown Spider. Then, he calmly stuck his index finger into the jar to remove a piece of cardboard under which the spider had been hiding.

"Notice the coloring," he said. "Most common brown household spiders are dark on the outer body parts, with a light streak down the center of the back. But this poisonous Brown Spider is lighter on the outside, with a dark spot shaped like a violin on the front part of the body."

"We've had a number of Brown Spider bite cases in Manhattan. Three bites in recent weeks are definitely known to be Brown Spider bites." He described bite symptoms as a "stinging, burning, hurting, sensation."

The bite of a Brown Spider is

local in nature, just opposite in effect to a Black Widow bite, the only other poisonous Kansas spider. Also unlike the Black Widow, both sexes inflict serious bites.

Although Brown Spider venom has killed rabbits and guinea pigs in lab experiments, humans might die only if bitten in a vital spot. Dr. Lawson emphasized, "A bite can cause plenty of discomfort."

His lab assistant had been bitten by a Brown Spider four months ago while putting on a blouse that had hung in a basement closet. Her arm still displayed a red mark from the bite.

Most spider bites occur when clothing hung in closets is put on without first being thoroughly shaken.

If you're bitten, the best advice is to see your doctor immediately. Then go home, put ice bags on the bite, and go to bed.

"And," says Professor Lawson, "no anti-venom has been developed yet. But a Wichita hospital is working on the problem."

Brown Spiders have been

found in the shower room at the swimming pool and in many Manhattan homes. Lately, several have been brought in from Elliot Courts.

To rid your home of spiders regardless of species, landlord permitting, use a recommended household spray such as Chlor-dane. The important thing to remember is not how much spray you use, but how thoroughly you apply it. Spray from the basement up, and saturate any place spiders can crawl under, Professor Lawson said.

Sitting in an office surrounded by insect collections, both living and dead, Professor Lawson lamented, "It's really too bad, but all spiders must be regarded with suspicion just in case one is a Brown Spider."

Ironically, about a dozen Brown Spiders have been found on the top floor of Fairchild, next to the stored grain room. They were first discovered when one was found walking on the shirt collar of a grad student.

But, as entomologists are often heard to remark, "We just don't get alarmed about 'bugs'."

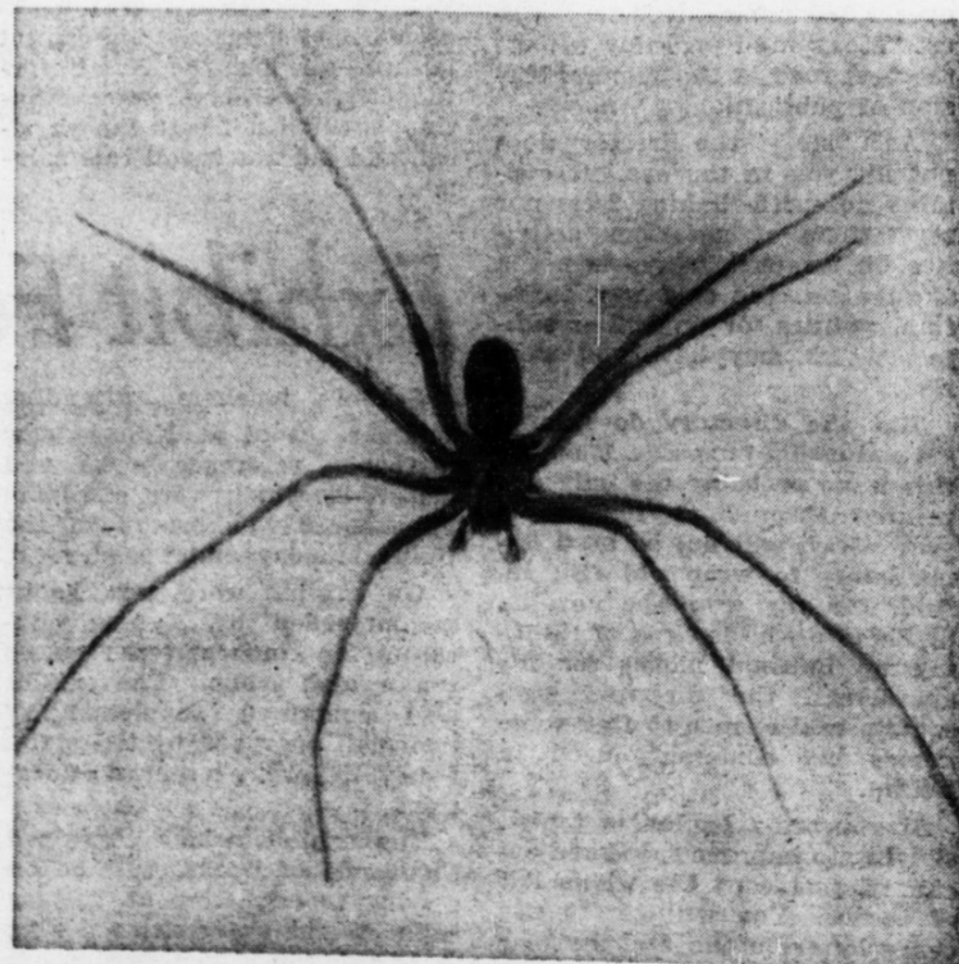

Photo by Don Dailey

POISONOUS BROWN SPIDERS have been found in various parts of Manhattan, including Fairchild hall, where about 12 have been discovered. The first one was found walking on the shirt collar of a graduate student. This spider magnified is about two and one-half times the actual size.

Activities

## All Mens' Party Is Tonight

Phi Delta Kappa, men's educational honorary fraternity, is sponsoring its annual all men's summer "get-together" this afternoon in the Student Union.

A dinner in the Union cafeteria at 5:15 p.m. will start the event, according to Rex Boatman, Ed Gr, activities chairman. Recreation in the games area will follow the meal.

### Home Ec Association

Two home economics coeds, three faculty members, and five extension specialists will attend the annual meeting of the American Home Economics association in Milwaukee, Wis., June 23-26. Sharon Keif, FCD Sr, and Judith Mai, HE Jr, will represent the Margaret Justin Home Economics club at the student section. Judy is secretary of the Home Economics club council and Sharon is president of the Family and Child Development club.

Prof. Margaret Raffington will accompany them. She is a member of the national advisory council for student clubs.

Prof. Ruth Hoefflin, head of the Family and Child Development department, will speak Thursday morning on "Child Development and Family Relations for College Teachers."

Prof. Janet Wilson is secretary of the Family Economics and Home Management section of the association.

Extension specialists who will attend are Margaret Koenig, acting state leader; Assoc. Prof. Christine Wiggins; Ellen Batchelor; Isabel Dodrill, and Velma McGaugh, district home economics agents.

### Chemistry

Eight K-State undergraduate students in chemistry have been announced as winners of H. H. King and Richard James Van Winkle scholarships for the coming year by T. D. O'Brien, head of the department of chemistry.

The eight awards, which vary in value from \$300 to \$400, go to Sheila J. Nelson, Ch Soph; Carolyn Kingsbury, Ch Soph; Marilyn Mauck, Ch Fr; Richard Pannbacker, Ch Fr; Larry M. Seitz, ChE Fr; Richard Powell, Ch Fr; Leslie A. Freeman, Ch Fr; and Martin D. Shetlar, Chm Jr.

Several additional H. H. King and Richard James Van Winkle scholarships worth \$100 will be announced later for students who will be entering freshmen this fall.

H. H. King headed the K-State

department of chemistry for many years. Van Winkle was a K-State student who lost his life in World War II.

### Dairy Association

Three dairy husbandry students and seven members of the dairy husbandry staff attended the 54th annual meeting of the American Dairy Science Association this week at the University of Illinois.

Students making the trip were Ray Schooley, DH Gr; Ed Call, DH Gr; and John Koburger, DH Sr.

Faculty members attending were Prof. C. L. Norton, dairy department head; Assoc. Prof. G. B. Marion, Assoc. Prof. T. J. Claydon, Prof. W. H. Martin, Prof. Erle Bartley, Assoc. Prof. George Ward, and Asst. Prof. Richard Bassette, and Assoc. Prof. H. T. Gier of the zoology department.

### Food Institute

"Food Problems in India" will be the subject of a talk by Arthur D. Weber, dean of agriculture at tomorrow night's meeting of the Kansas City section of the Institute of Food Technologists. The dinner meeting will be in SU ballroom A, according to Miss Elizabeth Rust, institutional management instructor.

The organization, international

## KS Student Station Resumes Operation

"Radio station KSDB-FM is again in operation under the direction of Dr. Virginia Howe," said Tom Rees, student station manager.

The station will be in operation Monday through Friday during the hours 6 through 9:45 p.m. The programming consists mainly of music and news. Occasionally special features or sports events will be broadcast. KSDB-FM is a student training station operated entirely by students. The station is run on 10 watts of power and broadcasts on a frequency of 88.1 mg. The broadcast may also be picked up on Channel 6 of any TV set, according to Rees.

"Although there are no sports activities scheduled for broadcasting, we will probably broadcast some local sports from time to time," said Rees.

"The big problem during the summer is to find qualified personnel to broadcast these activities," he said.

There are now 13 students working at the station. A student may either take the course for one hour of credit or use it as an activity.

in scope, is made up of persons in research and technical phases of food, both in education and commerce. The 15 members of the K-State campus include faculty in milling, meats, and poultry, as well as in foods and institutional management.

### Visiting Professor

Dr. Grayce Goertz, professor of foods and nutrition, will spend the summer as a "visiting professor" at Oregon State college, Corvallis, Ore. She will teach two graduate level courses, one in general home economics and the other in foods and nutrition. Dr. Goertz taught three years at Oregon State before coming to K-State.

### Jazz Session

Tonight's jazz session at 7 in the Union dive will be performed by the Art Hobson sextet, the group which took first place in the K-State jazz festival last May 3.

## Four Wildcat Trackmen To Enter AAU Meet

Four Wildcat trackmen are entered in the AAU track meet at Colorado university tomorrow and Saturday. They are entered in six events and is the last competition for the Wildcat tracksters.

Tom Rodda, who has broken the varsity mile mark his last three times out, will compete in the 1500-meter race. DeLoss Dodds will enter the 400-meter event, while Jim Cain will compete in the shotput and the discus. Rex Stucker will enter two of the following races, low hurdles, high hurdles, or the 400-meter hurdles. He will compete in the two spaced farthest apart.

K-State tallied five points at the NCAA meet at Nebraska last weekend. Rodda made the

strongest showing of the five who competed. He ran the mile in 4:06.7, his best time of the season.

Stucker took sixth in both the high and low hurdles. Dodds, who just barely qualified for the finals in the 440-yard run, placed sixth in that event. Cain and Lowell Renz, who competed in the javelin, did not place.

The four Wildcats going to Boulder are all holders of varsity records. The records are Rodda's mile mark set at Lincoln, Dodds' 440 time of :46.9 set at the conference meet, Cain's indoor shotput throw of 55 feet, 1/2 inch, set at Colorado.

## Company Gives EE Department New Machine

The electrical engineering department is going to receive a "generalized machine" from the Westinghouse Electric corporation. According to Prof. R. M. Kerchner, the machine is valued at \$2,500 and will be sent to Kansas State sometime during the week of June 22.

Designed by the Massachusetts Institute of Technology staff to replace electrical machines already in use for laboratory instructional work, the machine is constructed to function as a direct or alternating current machine. Also it can work as an induction or synchronous motor or generator.

The MISS PAT 2-piece shirtwaist dress is Suttamatic finished to wash 'n dry automatically or drip-dry, ready-to-wear, as guaranteed by the Good Housekeeping Seal. The skirt is a full four yards of unpressed pleats with Miss Pat's unique 6-inch hem. Sizes 8-16. \$12.98.

## Professor's Art To Be Shown

Ceramic pieces by Angelo C. Garzio, an assistant professor of art, will be displayed this summer by the Smithsonian Institution, Washington, D.C., and the University of Minnesota at Duluth.

The Seventh International Exhibition of Ceramic Art at the Smithsonian will display work of about 50 American potters and 25 from Europe and Asia. Each will submit one piece.

"I don't know what I'm sending because I haven't made it yet," said Garzio. "It will probably be stoneware."

Garzio has also been invited to appear as one of the "Artists of the Day" in the workshop, where he will demonstrate pottery making and display some of his other pieces. The exhibition starts August 21 and ends September 25.

"Three Contemporary Potters" is the title of the Duluth show, to be held July 1 through August 31.

Among the 15 pieces sent by Garzio are a large bowl, a pitcher and mug set, a branch pot, two bud vases, a tall closed form, a small bowl, a tea pot and cups—all stoneware—and a small porcelain bowl.

## Graduate Students Elect This Summer's Officers

Shirley Thomson, IMG Grad, is the newly elected president of the Graduate Students' association. Other officers for the summer school session are Richard Shores, Ch Grad, vice-president; Betty Emery, FN Grad, secretary; and Shih-Chi Chang, Phy Grad, treasurer.

## 'Fourposter' Presented At 8 Tonight in Union

Appearing tonight at 8 p.m. in the Union little theater will be the Village Players in the two character comedy, "The Fourposter." The comedy centers around the story of a 35 year marriage and a fourposter bed. The play involves six scenes which all center around the bed and has had a very successful run of 79 weeks in New York.

Starring in the comedy will be Margery McDaniel as Agnes and Will Sandy as Michael.

Miss McDaniel, a graduate of DePau university of Green Castle, Ind., has appeared on such television shows as the "Kraft Theater" and "Star Tonight," as well as having appeared in leading hotels and supper clubs.

Sandy, who directs the production as well as acting in it, has more than 15 years of professional acting to his credit. He has appeared on television in "The Imaginary Invalid," and "The Importance of Being Earnest."

In the movie version and in the 79 week New York run plus the 10 week Chicago run the play has had six different acting couples. Of these six only the original couple were man and wife off stage.

The gentle human comedy written by Jan De Hartog has a simple central theme; Mama loves Papa.

The original version of the play had eight scenes including a scene dealing with the death of the wife and the return of her as a spirit 12 years later. This gave the play a grim outlook and it was decided that the play would enjoy a greater success as a comedy without these grim scenes. They were taken out and the play has been a success since that time.

The play in its present form starts with Michael carrying Agnes over the threshold where the action is centered from there on. The second scene involves the arrival of the first child, and the third scene takes place 10 years later when Michael is prevented from losing his head over

another woman. The fourth scene is about the realization that their son is growing up, while the fifth deals with their daughter's wedding. The play closes with Michael once more

carrying Agnes over the threshold, vacating the house which is to be torn down.

The play will run one night and will be free of charge to holders of activity tickets.

Margery McDaniel

Will Sandy

## Union's Family Night Cools Married Students, Children

"We're doing everything we can for married students, except to start a babysitting service," said Ollie White, Union program director, about the family night every Friday night at the Union.

Family night originated last summer because "we felt the Union had facilities that could be used by the married student's entire family," White said.

He termed family night a "great success" this summer. For instance, about 400 stu-

dents, wives, and children ate in the cafeteria last Friday night.

Except for July 3, family night will be held every Friday night during the summer term. Student families are invited to use the Union's regular facilities on family night, which is exclusive with summer school.

These facilities include dancing, discussion series, bowling, all kinds of games, and a children's movie for the kids as well as the parents. The movie admission prices are low, children under 12 are admitted for 10 cents and adults for 20 cents.

The reasons for having a special family night are twofold, according to White. First, it gives the student family a chance to get away from the summer heat and use the air-conditioned Union. Second, a good share of the summer school students go home on weekends. This leaves the Union only partially utilized on Friday nights. With family night, the Union can operate its facilities at full capacity and at the same time benefit many people.

No immediate plans are be-

### Graduates May Order Announcements in K101

Orders from graduation announcements for students graduating in August will be accepted next Monday in Kedzie 101. The dead line for the orders is 5 p.m. July 7.

## EE Scholarship To Abilene Youth

A 1959 Dickinson County Community high school graduate, Verle Wayne Haas, has been awarded a \$3,000 J. B. Ehrsam Manufacturing company scholarship for four years of engineering study at Kansas State, according to Max W. Milbourn, chairman of the K-State general scholarship committee.

Haas, plans to major in electrical engineering. He is from Abilene.

A scholarship supported by the J. B. Ehrsam company of Enterprise is awarded annually to a male student enrolling as a freshman in engineering here. The award provides \$750 annually for four years of undergraduate education. Scholarship recipients are selected on the basis of academic achievement and potential, excellence of character and citizenship, and indication of financial need. Preference is given to Dickinson county students.

At Dickinson County Com-

munity high school Haas ranked in the upper 10 per cent of his class, was president of the Hi-Y club, senior class Student Council representative and chairman of the student traffic court committee, and participated in dramatics and choral music.

### Enrollment Totals 1,994 For Nine Week Term

With enrollment completed for the full nine week session as well as the first three week session the total number of students stands at 1,994. When enrollment is in for the two later three-week sessions and the workshops, "enrollment will very probably go over 2,000," said E. M. Gerritz, director of admissions.

## McCain Talks At TVA Meet

College and university administrators must be concerned with efficient and economical use of all available resources, President James A. McCain told the Tennessee Valley Authority board, and college presidents of the TVA area Monday night at a conference in Sheffield, Ala.

McCain said universities are running their internal affairs efficiently.

He said administrators must be concerned with efficient use of all available staff and facilities of an entire region to solve the regional problems.

The President pointed out that through expanding programs of regional coordination, "our universities are adding a new dimension to their contributions to resource development, human and natural, and simultaneously achieving economies of operation without impairing quality."

But McCain made clear that progress toward regional coordination of university resources is not easy.

"Many legislators have still to be convinced that funds appropriated to pay student tuitions or finance research programs in other states might will represent savings to their own," he said.

## Students Rehearse For Summer Play

Final tryouts were held and rehearsals started last night on the K-State Players summer presentation of "Mrs. McPhing" which will be presented July 23.

The all student cast of the play, which is written by Mary Chase, are

Mrs. Howard V. Lerew, Sharon Nuttle; Carrie, Mrs. Margurieta Sparman; Sybil, Pat Green; Evva, Vera Russell; Maude Lewis, Tausca McClintock; Grace Lewis, Mrs. Stella Johnson; Nelson, James Pugh; Dirty Joe, Rodger Green; Stinker, James Brown; Posion Eddie, John McComb; Mrs. Schellenbach, Judith Hertneky; Mrs. McPhing, Helen Varney.

Parts yet to be cast include one male part and two small children's parts. In the casting of the children, Earl G. Hoover, Professor in Speech, who is directing the play is being assisted by Mrs. Warren of the Children's theatre in Manhattan.

Rehearsals will be on all week nights until the play is ready for presentation.

## Students in ROTC Train at Ft. Riley

Fort Riley became the temporary summer home for 48 advanced Army ROTC cadets from Kansas State this week when they arrived for the six week summer camp. These cadets are a part of the total of 1,800 trainees from 49 colleges and universities from 13 states who will take part in infantry field exercises.

Also taking part in the summer camp will be four officers from the ROTC detachment at K-State. They are Col. E. G. Clapp; Maj. John Gerrity; Capt. Donald Yoder; and Col. Alfred Edwards.

The arriving cadets had identification photos taken and received physical examinations be-

fore they were taken to their barracks where equipment and GI clothing awaited them.

The cadets were officially welcomed to Fort Riley last Monday morning by Gen. Harvey Fischer and Col. Max Kirkbride.

Operating from Camp Funston the cadets will position and fire all infantry weapons as well as study problems in patrolling and map reading. Those who pass the six week test in converting theory to practice will be eligible to receive commissions in the United States Army as Second Lieutenants.

Of the 48 attending from KSU 40 will be seniors. The others have already graduated.

## No Holiday For Students Next Friday

Classes will be held on July 3 but most state employees under civil service classification will get a holiday. All civil service employees except those few needed to keep K-State operating will be given the day off. Those civil service employees who do work will be given the equivalent time off some other time.

Students and state employees who are not under civil service will not get July 3 as a holiday. Mail deliveries and postal service will operate on July 3. All university offices will be closed July 4.

# Summer School Students Need Opportunities To Meet Socially

A gripe most frequently expressed by students about summer school is that there is nothing to do in and around Manhattan on weekends—socially that is. They say there is no place to dance and meet other students.

There has been one all-university dance since this term began, when the largest percentage of people attending were high school students who were here for music camp. The dance was a "flop" as far as the University students were concerned.

**ON FRIDAY NIGHTS**—a time when most students have time to take off from their studying—the married couples are using the Union and most "singles" stay away because the available activities do not attract them.

The reason that there are no planned activities in the Union, according to the Union officials, is that most single students go home on weekends. As long as this attitude remains the students will go home, but if there were something to do—some place to go—the students would stay.

**THE CITY OF MANHATTAN** offers a number of recreational sports for students along with a number of parks for picnics, but the students have to meet each other

before any of these facilities can be utilized. Perhaps the City should take the initiative to encourage students to stay here on weekends—if for no other reason, from purely an economic standpoint. Students probably spend as much money in stores on weekends as during the rest of the week.

We feel that more students would stay here on weekends if some type of activity was available rather than, the movies or the landlady's television. Students who go home drive 200 or 300 miles and return tired from the drive. However, if they stayed here and had something to do they would be more relaxed and able to study more efficiently.

**TONIGHT THE UNION** hosts one of the finest productions students and faculty members will get a chance to see. "Four-poster" probably has one of the smallest casts of any production with only two actors.

The play, a comedy, centers around the story of a 35 year marriage and a four-poster bed. It does not center around sex as the title of the play might lead you to think, but gives the ups and downs of a marriage over a long period of time.

Here is a chance to see a top production and it doesn't cost anything for admission.

## LITTLE MAN ON CAMPUS

"YES, OF COURSE I'M HOT, BUT—"

## Language Is Largest Problem Of Foreign Students; Jackson

By CHESTER PETERSON

Foreign students at Kansas State university aren't too much different from you and me. Most of them fit into the usual college patterns of Suzy Sophomore or Gus Grad-Student.

Oh sure, some of them may dress differently than American students do at times, or misunderstand the meaning of newly-coined beatnik words, but they're here to get an education just like we are.

And, speaking of slang and the American-English language, it's one of the bigger problems a foreign student faces either on or off campus. The language difficulty is a barrier to a majority of them, according to Ron E. A. Jackson, assistant dean of students. Although some Indian students speak a better quality English than we Americans do, most foreign students have quite a bit of trouble. Mr. Jackson says Oriental students in particular are hard pressed to understand what we say and write.

Another problem facing the foreign student on the K-State campus is the social one. They say our instructors are always friendly and helpful, but sometimes they have trouble making friends with other students.

Dean Jackson firmly states this fact shouldn't be interpreted the wrong way, but he does say, "There is a need to bridge the gap."

Perhaps one reason we "natives" are slightly cool to foreign students is because we believe they are curve-raisers. How many times have you groaned inwardly when several foreign students walked into your class the first day of the semester?

They are smart. If they didn't rank high in their home countries, and if they weren't fired with a desire to learn, why would they leave friends and family for a year or more? "Higher motivation on the whole," is the way Jackson sums it up.

But, he points out, just like any other group of students their intellectual capacity or ability to learn is stretched over a wide range. Some are exceptionally bright, some are average, and some just can't make the grade.

Of what does a foreign student need the most? The answer most nearly right is probably flexibility. They have to adapt to a strange set of surroundings and do their best to become a member of the community.

Mr. Jackson believes anything American students can do to help our foreign visitors get better acquainted with the United States would be a friendly and wise gesture. We should try to satisfy their curiosity about our country, he says. "Cultural exchange promises a greater success for international relations."

Presently there are 68 foreign students enrolled at K-State. About 2/3 of them are graduate students.

## Over the Ivy Line

# Students in England Use Hoax, Hole, Jail; Create Unforgettable Ending for School Year

**CERTAIN UNIVERSITIES** in England are combining colorful antics with solemn graduation ceremonies in order to make the end of their school year unforgettable.

At Exeter university four students broke into Exeter prison and spent the night there. They commented on its similarity to the residence halls.

Three men and a girl from Bristol university, claiming to be a student delegation from Russia, were treated royally by civic dignitaries and received full news coverage before the hoax was discovered.

London university students, dressed as road workers, erected "DANGER, MEN AT WORK" signs and diligently spent the whole day digging a hole in one of London's thoroughfares. Five days later, when no more work had been done on the hole, authorities began to suspect!

**IN ORDER** not to slight anyone, the Minnesota Daily compiled a list of people whom they had neglected to offend during the last year. It was written as follows:

### "LIST OF MUTTONHEADS"

Mushroom and Lichen Club  
Dean E. G. McIlhaus  
Frisbee Team  
College of Basketweaving  
Water Fountain Department  
University Pipe Fitters

..... (write your name here)

### The Kansas State Collegian

**ARE TODAY'S** institutions of higher learning "brain factors" or "marriage mills?" Of the 4,157 June graduates from Indiana university, 235 had received their "Mrs." degrees previously. But before we label colleges and universities as "match factories," let's look at these girls' scholastic records. Twenty-one of the married gals were graduated with honors and of the 72 who received graduate degrees, 10 obtained the title, "Doctor." So, perhaps college can successfully provide two "curriculums."

**TO LESSEN** heart ailments, Dr. Ernest Simonson of the University of Wisconsin suggests rowing. He says, "rowing develops the heart as no other sport can. This is comparable to having a large engine in a small car. Being large, the engine does not have to work nearly so hard and naturally lasts longer."

**IF THE SITUATION** at Doane college is really as bad as this poem indicates, maybe some of the girls should transfer to K-State, where the situation isn't quite so bad!

### "A Girl's Prayer"

At sweet sixteen, I first began  
To ask the good Lord for a man,  
At seventeen, I recall  
I wanted someone strong and tall.  
The Christmas I reached eighteen  
I fancied someone blond and lean.  
And then at nineteen, I was sure  
I'd fall for someone more mature.  
At twenty, I thought I'd find  
Romance with someone with a mind.  
I retrogressed at twenty-one  
And found college boys most fun.  
My viewpoint changed at twenty-two  
When "one man only" was my cue.  
I broke my heart at twenty-three  
And asked for someone kind to me.  
Then begged at blase' twenty-four  
For anyone who wouldn't bore.  
Now Lord that I am twenty-five,  
Just send me someone who's

ALIVE!

# Grad Enrollment Largest in History

"This summer's Graduate school enrollment is the largest on record for either Summer school or a regular semester," says Dean Harold Howe of the Graduate school.

The present total is 728, approximately 36 per cent of the total Summer school enrollment. A few more enrollees are expected for short courses later in the summer. Last summer's enrollment was 639, almost a hundred less than now.

Seven students are candidates for Doctor of Philosophy degrees at the August commencement. They are Robert Melvin Grossman, Harry Charles Mussman Jr., and George Washington Teresa, bacteriology; Jitigi Swappa Jayadevappa and Gene Franklin Morris, chemistry; Robert Richard Baron,

zoology; and Yoshitaka Suyama, genetics.

Between 90 and 100 are expected to receive their Master of Science degrees at the end of the summer semester.

Two-thirds of the students working toward master's degrees write theses, according to Dean Howe. A thesis counts for six to eight hours credit. Reports, worth two hours credit, are written by the other one-third of the students.

## Sneakers Cozy But Damaging

Sneakers and other canvas shoes are popular for campus wear this summer. Most of the girls and guys say they are more comfortable than regular shoes, and a few mention that they're generally less expensive.

"It's all right to wear sneakers for short periods of time," says Dr. Arnold E. Levenson, Manhattan foot specialist. "But they're not good for all-day wear."

Canvas shoes don't support the feet as well as leather ones. Although they are comfortable now, they may cause foot troubles later in life. Eighty per cent of American adults have foot ailments, according to the American Podiatry association.

Another result of wearing sneakers constantly is one nobody wants—smelly feet. The rubber soles cause excessive perspiration, which, in turn, produces odor-causing bacteria. This is true especially when the sneakers are worn without socks.

Sandals are a way to beat this problem, but they shouldn't be worn all day—either, says Dr. Levenson.

## Almost 100 Sign For English Pro

Each student enrolled in the undergraduate English Proficiency examination scheduled for July 7 is reminded to report to the office of his dean from June 29 to July 3 to sign his record card, according to Mary Frances White, associate professor of English. Students must do this in order to be eligible to take the examination. Ninety-seven students are enrolled this summer.

Twenty-two students are enrolled in writing laboratories, according to Asst. Prof. John Noonan of the English department. In the labs they work on spelling, punctuation, and mechanics of expression for about one week and spend the rest of the time writing.

Most of these students have failed their English Proficiency examinations before. The teachers go over the old English Proficiency papers with them to help them see the mistakes they made.

# Isotopes' Use for Medicine Outweighs Need for Power

Isotopes for medical use have far outweighed the value of nuclear power so far. Many of these useful isotopes are by-products of fission. In many cases they are economical to use.

The demand for power is increasing, said Robert Clack, nuclear engineering instructor, at Tuesday afternoon's discussion series in the Union art lounge.

At present we have almost burdensome supplies of fossilized fuel available. Yet millions are being spent to develop the nuclear energy field, said Clack.

As the demand for power increases, the supplies of present fuel sources will also increase, but not enough to keep pace with demand.

Clack pointed out that since

the invention of the steam engine the cost of power has steadily decreased. But with demand and the standard of living increasing more than production can keep up with, nuclear power must be used to close the gap.

Although the government may fly a nuclear powered airplane within five years, Clack sees commercial airplanes and trains powered by nuclear energy as "unlikely." He mentioned two reasons—cost and accident hazards.

There are many hazards in nuclear engineering, but there is danger connected with everything we do. Strong liquor and gasoline are poisons if used in excess or in the wrong way. So it is with nuclear power, he said.

# Power Plant Is Origin Of Cool Air for Union

An air conditioned Student Union sure is nice; but have you ever wondered how it's done?

"Water is cooled to 45°F. by a 400 ton water chiller in the basement of the power plant," said R. F. Gingrich, superintendent of the physical plant. "The cooled water is then pumped through 10 inch pipe to the air handling units in the Union. These are the same units which heat the Union in the winter," continued Gingrich.

The air conditioning system is operated and maintained by employees of the heat and power group of the physical plant.

"It takes 24 hours to cool the water for use in the system," said Gingrich, "therefore once either heating or cooling is started we never switch back. It is necessary for us to set up certain dates which one unit will be stopped and the other started."

When the chilled water passes through the air handling units, the hot air blowing over the coils causes about a 10 de-

gree rise in temperature. Gingrich figures a ½° loss in temperature in the transmission from the power plant to the Union.

The Student Union pays for the cost of the electricity, water and maintenance. This runs between \$500 and \$800 per month.

# Kansas State Construction Totals \$9 Million

By ARNOLD GOOD

Fall semester K-Staters will find about 4.5 million dollars worth of the new buildings and equipment ready for their use by the time school starts. This will be in the form of Justin hall and 264 new units in the Jardine Ter-

race housing addition.

The total of all construction now in progress at K-State, including the planned nuclear laboratory, is about \$9 million.

Justin hall, which is to be the new home of the Home Economics school, will be completed some

time in July and will have a total cost of approximately \$1.9 million. Added to this will be the \$225,000 allotted for equipping the building's laboratories and classrooms. This will bring the total cost of building and equipment to a little over \$2.1 million. The building is of modern design and is built of native stone, glass and aluminum.

The 264 new married student apartments in Jardine terrace will be completed in July, ready for occupation by incoming students and their families. Of the 264 apartments, one-third are double bedroom and the rest single bedroom units.

The two-story buildings with

their equipment and furnishings will cost approximately \$2.3 million of which housing fees will supply \$175,000. The remainder of the cost will be covered by 30 year bonds from the Federal Housing and Home Finance association.

The new Student Health building, which will house a clinic and a 40-bed hospital, should be completed by the end of September. "We are a little skeptical of this completion date," says R. F. Gingrich, head of the Physical Plant office. The new building, which replaces the old barracks, has an allotted cost from the Educational Building fund of \$450,000 and cannot exceed another \$125,000 from student health fees. The new building will cover the approximate area that the old building occupied.

The Kedzie addition carries a completion date of January 1960 and will house classrooms and laboratories of the journalism department. The building has an allotted budget of \$375,000 from the Educational Building Fund.

The new men's dormitory to house 600 single men students is due to be completed in July of 1960. This six-story structure and its accompanying cafeteria is to cost an approximate \$2.5 million. The cafeteria, which is in a separate building, can later be expanded to feed 1,200 men when the proposed second wing is built on the dormitory.

The addition to Eisenhower hall is to cost an estimated \$525,000 and is scheduled to be completed in March of 1960. The building will have 11 large classrooms. Ten of these will seat 100 students while the other will seat 200.

The rehabilitation of Waters hall and the building of the new flour mill will cost an estimated \$1.4 million. This cost will not include some \$450,000 of equipment that is hoped will be donated to the school. The project, which is to be com-

pleted in August of 1961, will house a flour mill and the Agronomy department.

Scheduled for a September of 1960 completion date but not yet started is the Nuclear laboratory. The Educational Building Fund has allotted \$280,000 for the construction of the building to house the 10 kilowatt nuclear teaching reactor. The Atomic Energy Commission has given Kansas State a \$150,000 grant for the construction of the reactor itself. Specifications for the reactor have not yet been set so the actual planning of the building itself cannot begin.

The nuclear laboratory will be located in the area south of the Military Science building and north of the Physical Plant building. The exact site is yet unknown.

All the present buildings under construction, except the Jardine terrace apartments and the men's dormitory are to be faced with native stone. The men's dormitory and the apartments are faced with brick for reasons of economy. The budget on these buildings would not allow for the luxury of native stone facing, according to Gingrich.

One luxury feature the men's dormitory will have is elevators. Instead of walking up and down stairs, K-Staters will have use of four elevators.

## Starlight Theater Presents Comedy

The first madcap comedy of the year, "Gentlemen Prefer Blondes," takes over the giant outdoor stage of the Starlight theater for a one-week run, Monday, June 29 through Sunday, July 5.

Blonde Iva Withers takes over the role of Lorelei Lee with her shipboard sidekick and co-worker in the chorus line played by comedienne Joan Kibrig.

Songs in the show include "Bye, Bye, Baby," "Diamonds Are A Girl's Best Friend," "A Little Girl From Little Rock" and other hit tunes that have made the show one of the most popular in Starlight history.

As a somewhat typical "dumb blonde," Lorelei Lee shows an amazing intelligence when it comes to diamonds. She and her friend Dorothy, on leave from the Follies, decide to go to Paris. Once out of sight of her fiancé, Gus Esmond, Lorelei looks for a new boyfriend.

Meeting a bachelor from Philadelphia, millionaire Henry Spofford, Lorelei decides he's just what her friend Dorothy needs. Then, having settled that, she turns her attention to a diamond tiara worn by the wife of a wealthy gentleman of noble blood. She acquires the necklace through various wiles, and then looks coyly at a rich zipper manufacturer who's also on board.

After the ship docks in Paris, the wife of the rich gentleman discovers her husband lent Lorelei the money to buy the necklace from her. Finally, after a hilarious series of events, everything works out for the best and affairs are happily settled.

The sister-brother team, Darvas and Julia, highest paid dance team in the world, is as popular in Europe as Maurice Chevalier. In their first Kansas City appearance, they are, in producer Richard Berger's estimation, "The greatest team I've ever seen."

An interesting sidelight to the career of Darvas and Julia is that Nicholas Darvas has acquired a fortune of \$2½ million in the stock market. This feat recently won them a full page story in Time magazine on the financial page—a slot not normally associated with show business.

Also in the cast are bouncy

Joan Kibrig, recently Ado Annie in the Starlight's production of "Oklahoma!"; as Dorothy; comedienne Barbara Heller as Mrs. Ella Spofford; dancer-singer Richard France as Harry Spofford; Webb Tilton as Gus Esmond; and Marguerite Shaw as Lady Beekman.

## Dames Club Hosts Activities of Interest

Five interest groups will be sponsored this summer by Dames club, according to Margo Wilson, president.

Chairman of the bowling group, which will meet every Thursday night, is Jeanne Shields. Marvis Guthrie is chairman of the bridge group, which will meet every Tuesday night in the Union. Other groups, for which meeting dates have not been chosen, and their chairmen are tennis, Wanda Withrow; golf, Dianne Sanborn; and swimming, Marilyn Klug.

About forty student wives and married women students attended the only general meeting of the summer last Wednesday night.

## Graduate Student Party Tomorrow

An informal party for graduate students will be held June 26 at Attebery's Canteen from 8 to 11:30 p.m. Activities will include dancing, cards, and games, according to Betty Emery, secretary of the Graduate Students' association.

You'll be pleased with a Collegian classified.

## Union Area Getting New Street Lights

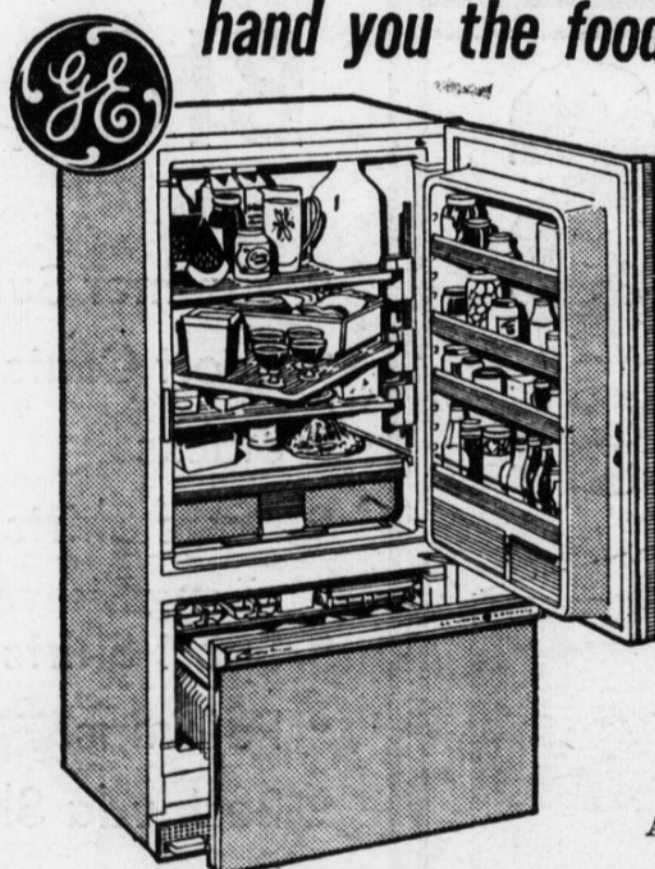

Dark areas in front of the Union and around three sides of the Field House will be eliminated by installation of 10 mercury vapor street lights. Work started on the project this week and completion time is not set. The lights, which are similar to those used in Jardine terrace, are being installed by the college and no costs or completion date are available.

## Sponsored by USCC United Church Group

The United Student Christian council is sponsoring a summer program for Kansas State university students. The program includes a morning church school at 10:15 in the All-Faith chapel. The group is studying the booklet "One Body, One Gospel, One World," by Leselie Newbigin.

The Sunday evening program is 5:30 in the Luther house, 915 Denison. The topic of study is "Faiths Which Compete for Our Loyalty." Luther house will also be open on Friday evenings from 7:30 until 11:00.

# Inside View Of New Buildings

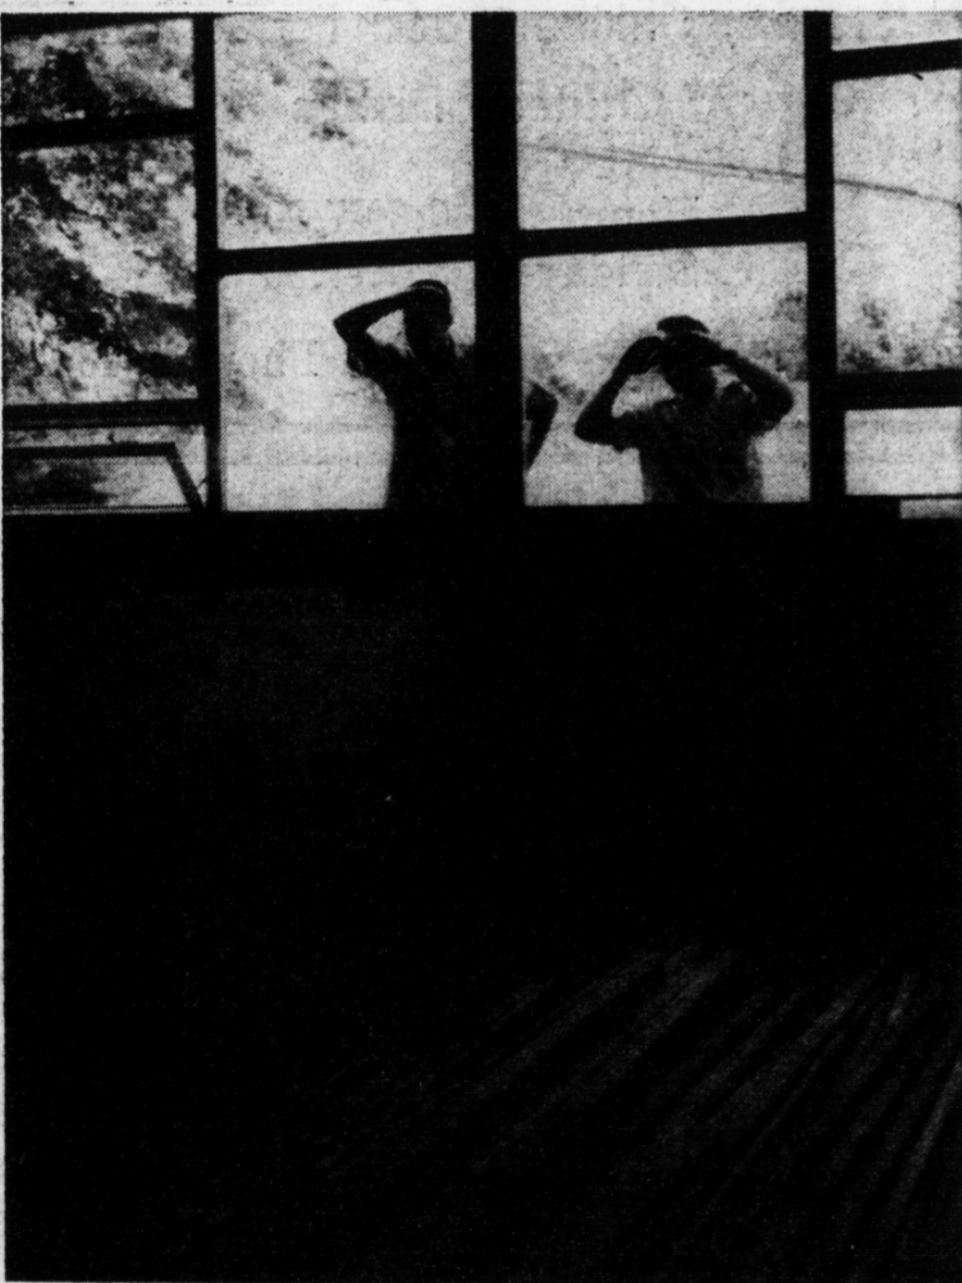

**WORKMEN ARE** getting the new Kedzie addition ready for another story to be poured soon. This may not look like the inside of the building but technically we are in a classroom. All that is missing are four walls and a roof.

**STUDENT HEALTH** is getting a new building but the forecast on the "winders" looks the same. With the new comfort and accommodations they will be able to offer, going to class will not be such an easy choice during the cold and flu season.

**WORK IS MOVING** along on the grounds recently vacated by Illustrations hall. Construction men are preparing to pour cement on the second floor of the Eisenhower hall addition. The addition will add 11 very large classrooms to the present Eisenhower hall.

**EVERY CONSTRUCTION** job has an inspection before final acceptance and Justin hall is not different. These two sidewalk superintendents give one room a look-see to find if their taxes were well spent.

Photos by  
Don Dailey

**WITH JUSTIN HALL** 90% completed about all that is left is what the laborer is doing, sweeping the floor. To complete the building furnishings and fixtures need to be installed.

# Cartoons Are Studied In Family Life Class

Cartoons are one of the teaching devices studied in the Family Life Education short course in the Family and Child Development department.

Twenty-one students, including both high school home economics teachers and elementary school teachers, are enrolled, according to Dr. Ruth Hoeflin, department head.

Each student is given two cartoons about family life, then asked to choose one and tell how she would use it in a teaching situation. Because of the tight schedule followed, each of the cartoons and suggestions were hung on a line in the classroom with plastic clothespins for everyone to look at.

The class meets five days a week from 9 a.m. to 4 p.m. Homework comes after this. Half of the students commute from their homes—some as far as 65 miles each way.

The purpose of the course is to strengthen the teaching of family relationships and/or child development through acquiring personal growth in attitudes, techniques, and basic knowledge.

How to work with the handicapped child is taught by Dr. Hoeflin. Besides the physical handicaps of blindness, deafness, speech defects and mental retardation, emotional handicaps such as fear and insecurity

stemming from a broken home are considered.

Dr. Dale Womble, associate professor of family and child development, is teaching the counseling section. Helen Scheve, state supervisor of the Home Making Education division of the State Department of Vocational Education, and Virginia Endly, both of Topeka, are teaching specific techniques.

Some of the techniques used in the course are panel discussions, lecture and forum programs, roll playing, and symposiums. One day children from the nursery school came to the class room and the group got practical experience on how to set up a play school for high school class work.

## Ketter Gets \$100 Scholarship to KS

Larry Francis Ketter, a 1959 graduate of Osborne high school, will be the first holder of a \$100 scholarship established at Kansas State by the Auxiliary of the Topeka chapter of the Kansas Engineering society.

The scholarship is to be awarded annually to an entering freshman in an engineering curriculum. Ketter, who won many awards in the state scholarship contests in mechanical drawing, plane geometry, and physics, will enroll in nuclear engineering.

# Students Can Get Equipment for Play

If you think summer school is dull, maybe it's your own fault. The city has a very extensive summer recreation program and five big parks for picnicking and sports.

"A student may check out equipment from the Manhattan Recreation Commission for volley ball, croquet, badminton, horseshoes, softball, and tennis," said Frank Anneberg, superintendent of recreation. The commission is located at 120 N. 4th, and is open from 8 a.m. to 5 p.m.

"A band concert is presented every Tuesday night at eight," said Anneberg. "There are two softball leagues that have games five nights a week. The industrial league has games on Monday, Wednesday, and Friday. The church league has games on Tuesday and Thursday. There is also a girls' softball team that plays games against outside opposition on Saturdays."

Anneberg continued, "The city provides and maintains five big parks with full facilities for picnicking and some have softball diamonds, horseshoe courts, etc. The newest of these and one of the nicest for picnicking is Warner Park located just west of town on K 18. The list continues with Sunset Park and Zoo, City Park, Goodnow Park at 5th and Thurston, and Northview Park adjacent to the Northview School."

Among the other activities is square dancing on Tuesdays from 8 to 11 p.m. at the community house at 120 N. 4th, an archery club with open membership on Fridays at 6:30 p.m. in the sunken garden of the City Park, and, of course, the swimming pool.

If you're one of those persons who has "nothing to do," perhaps you can find something of interest here.

PITCHING HORSESHOES is one of many recreation facilities available in Manhattan. The other facilities include softball, tennis, swimming, croquet, badminton, and picnicking.

# AAU Picks K-State Trackster

DeLoss Dodds, K-State track star, was selected by the National AAU track and field committee to one of the three teams named to compete in international meets in Germany and Scandinavia.

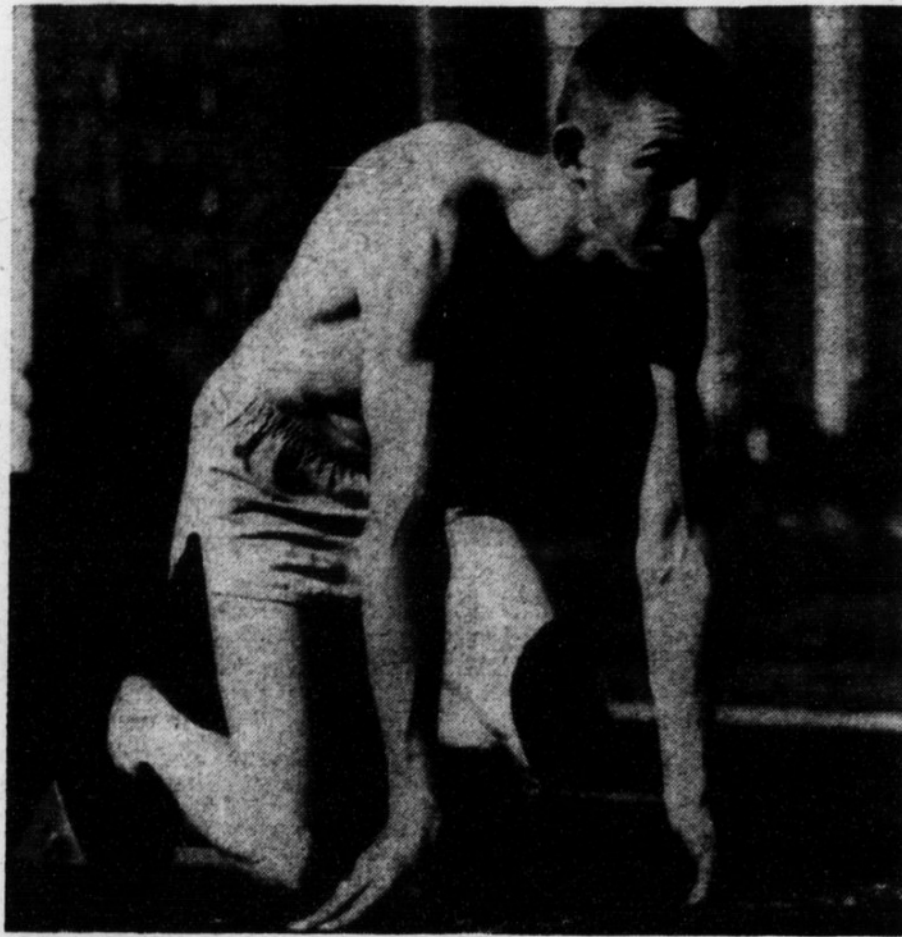

Dodds, who will run the 400 meters, will join fourteen other

thinclads who will take part in the world athletic championships in Helsinki, Finland, June 29 and 30. Dodds will leave this afternoon and expects to be back July 4 or 5. The only other Big Eight member the Helsinki

team includes is Dick Cochran, Missouri, discus thrower.

At the AAU meet last week at Colorado Dodds was the only K-Stater to score a "victory." He finished fourth in the 400 meters, enabling him to make the Pan-American team as an alternate. Only the first three places are awarded berths on the team. Dodds' time in the race was :46.7.

A six-man team left New York Monday on an eight-meet trip through Germany. Another six-man team will visit Scandinavian countries later this summer. A present and a former Big Eight performer are included on the Scandinavian team. They are Jim Graham, Oklahoma State university, a pole vaulter; and Bill Neider, former Kansas star, a shot put specialist.

DELOSS DODDS, K-State track star, left this afternoon by plane for New York from where he will then fly to Helsinki to compete in world athletic championships June 29 and 30. Dodds, who holds the K-State varsity mark in the 440 of :46.9, will compete in the 400 meters.

## Writers Attend Meeting at KU

A group of nine students and faculty members attended the Writers' Conference Tuesday night on the University of Kansas campus in Lawrence.

The evening's speaker was Howard Turtle, assistant feature editor of the Kansas City Star.

Attending were Marge Penrod, TJ Sr; Karen Peterson, HEJ Sr; Chester Peterson Jr., DH Gr; Amy Meyer, TJ Fr; Imogene Lamb, TJ Sr; Bill Koch, assistant professor of English; Dorothy Pettis, associate professor of modern languages; Ann Sturmer, professor emeritus of English, and Helen Hostetter, professor of journalism.

Most of those who went are members of Miss Hostetter's magazine article writing class.

# Student Questions Shorts; To Wear or Not To Wear

By CHESTER PETERSON Jr.

A summer-school student and his girl were ambling down a sidewalk during the break between classes.

Nudging his pretty partner, he exploded with laughter. Pointing at an otherwise wholesome looking blonde wearing Bermuda shorts, he exclaimed, "Look at her! Her legs are so knock-kneed they have to signal each other every time they pass."

Then, sighting another human addity strolling along, he fairly roared. "Am I glad I came to college! That babe is really bow-legged! And in Bermuda shorts, no less. How can any woman in her right mind wear 'em?"

At this, his shorts-clad gal rather heatedly replied, "Wha' da ya mean—how can any WOMAN wear 'em? Look at that big gorilla with the hairy legs! You can't say he looks good in shorts, now can you? And look at that skinny freshman in front of us. With his gams he could double for a stork!"

The foregoing conversation points out that this summer's battle of the sexes is not over sex, as usual, but over the wearing of Bermuda shorts. "To wear or not to wear"—that is the question.

Two unofficial factions have sprung up. One is the P.P.B.O.-A.S.W., or People's Party for Bermuda and Other Assorted Shorts Wearing. The other is the S.I.S., or Suffer In Summer committee.

Representatives of each may be heard to extoll on the virtues of their side's policy. And, of course, much mud is slung about recklessly. (This sad situation is due, in part, to the university's progressive building program, which leaves large piles of raw materials lying handily about.

Members of the Party have been known to gaily and decoratively flaunt the wearing of the red in the article of clothing that distinguishes them. However, they firmly deny any affiliation with a certain foreign power. This rumor was traced to a disgruntled S.I.S. man who claimed Party members were being paid to start a civil war.

The conservative S.I.S. was weakened recently when a group split off from the parent organization. This new group still believes in the old doctrine, but they come out heartily in favor of short shorts for girls of a certain age.

Surprisingly, one woman made the big switch with the otherwise

Photo by Don Dailey

**AFTER THE HOT** Bermuda shorts weather outside one of the Union's cold air vents is found by Kay Gardner, BMT Jr, and Larry Cowan, Phy Jr, to be a fast way to cool off.

all male group. Committee officials theorize this happened because she is up in years and notably deaf, thereby casting an "aye" when she thought the vote concerned a return to the Mother Hubbard.

What about short shorts? Is it or is it not 'nice' for a girl to wear them to class?

Of 129 students interviewed in a recent Collegian survey (only half were journalism majors) almost every one mentioned the cool, scrumptious comfort as the prime reason for wearing shorts.

But as Shift McGear, well-known mathematics whiz, once proved, if Bermuda shorts are X cool, then short shorts, being shorter, should be X + Y cooler. Could it be that the thought expressed by a perennial summer elementary education major runs through the minds of those in power? She said, "Short shorts are known to be worn for a different purpose."

But enough of this, Let's turn to another problem created by Bermuda wearing.

If you braved the vicious

brown spiders reported to be lurking at the swimming pool, you, no doubt, were able to tell at a glance persons who had worn Bermuda shorts.

Where their legs had been covered by the shorts, they were noticeably untanned. The color ranged from pink to fish-belly white. From the kneecaps down they were a rich golden-brown. This on girls who wouldn't be caught dead wearing clashing colors otherwise! One campus cutie was disqualified from a bathing beauty contest because of the startling two-tone color scheme.

So it boils down to this. Right now you're either cool and wearing shorts, but presenting a possible humorous appearance, or you're not wearing them, and therefore feeling you're lookin' good—but also feeling a bit hot.

## Magic of Cupid's Arrow Touches More Students

**Campbell-Baker**

Jeanette Campbell, BS '59, and Gary L. Baker, BS '59, were married June 7 in the First Methodist church, McPherson. Gary is an Alpha Kappa Lambda from Caldwell. Jeanette is from McPherson. They will be at home in Charleston, W. Va.

**Wildgen-Haymaker**

Susan Wildgen, BS '58, and Robert H. Haymaker, BS '57, were married June 13 in the Sacred Heart Catholic church, Larned. Susan, a Pi Beta Phi, is from Larned, and Robert, a Beta Theta Pi, is from Manhattan. The couple is at home in Oklahoma City.

**Santner-Wakeman**

Marilyn Jane Santner, BS '59, became the bride of Gordon D. Wakeman, BS '59, May 31 in a Danforth Chapel ceremony. Marilyn is from Gaylord, and Gordon is from Wathena. They are at home this summer at 308 North Campus Courts.

**Bergmier-Vincent**

Barbara Joyce Bergmier, Wakefield, and Larry L. Vincent, Manhattan, were married May 31 in the First Methodist church, Manhattan. Larry is a senior in economics. Barbara is employed by the University library. The couple's address is 1222 Laramie.

**Knight-Given**

Barbara Faye Knight, BS '58, was married to Bruce Given, BS '59, June 7 in the First Presbyterian church, Manhattan. They will be at home at Aspen Lodge, Estes Park, Colo., until September 7, when they will go to Eugene, Ore., where Bruce will be a teaching fellow in the University of Oregon department of psychology. Barbara, an Alpha Chi Omega, and Bruce are both from Manhattan.

**Sitz-Ebel**

June 14 was the wedding date of Carol Ann Sitz, BS '59, and Dean Leo Ebel, AEd Sr. Carol, a Chi Omega from Manhattan, and Dean, a Kappa Sigma from Wamego, are at home in Manhattan. They were married in the First Presbyterian church.

**Adams-Laddish**

Marilyn Sue Adams, BS '58, and George Peter Laddish, BS '58, were married June 6 in the Sacred Heart Cathedral, Salina. They are at home in Kansas City. Marilyn, from Salina, is a Delta Delta Del-

ta. George is a Sigma Phi Epsilon from Kansas City.

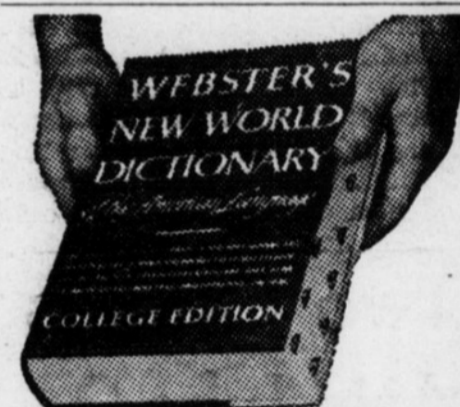

**Kuykendall-Haas**

Judy Ann Kuykendall, Topeka, and Harry D. Haas, Manhattan, were married June 7 in the First Presbyterian church, Manhattan. Judy, a former K-State student, is a Pi Beta Phi. Harry, a Beta Theta Pi, graduated from K-State in '58 and is a student at the University of Kansas Medical Center. The couple is at home at 1308 Valentine road, Kansas City, Mo.

**Edwards-Johns**

Margaret Anne Edwards, BS '59, became the bride of Charles Johns, AE Jr, June 14 in the Westmoreland Methodist church. Margaret, a Kappa Kappa Gamma from Westmoreland, will teach home economics in Wamego this fall, where the couple is at home at 715 Elm. Charles, a Beta Theta Pi, is from St. George.

# Chemist Receives Grant

A Kansas State chemist, Robert W. Kiser, has received a one-year \$12,500 grant from the Atomic Energy commission for studies in radiation chemistry.

The grant, which is for "Low Energy Investigations of Radiation Chemistry," will help finance the purchase of a mass spectrometer at K-State. The grant will pay about \$6,000 of the instrument's cost.

The mass spectrometer, explains Kiser, is employed in one of its many uses to analyze the various components of mixtures of gases and liquids. It will also be used by other K-State departments for such analytical work as finding the parts of dairy products which supply the flavor, and studying the various parts of blood.

## ASAE

A K-State agricultural engineering student's paper has been selected as one of the three best in the United States by the United States by the American Society of Agricultural Engineers.

As a result the student, Donald Anderson, BS '59, has received a \$25 cash award and he also will receive an all expense trip to Ithaca, N.Y., to present his paper before the 52nd annual meeting of the ASAE June 22. Should Anderson win at Ithaca, he would

receive an additional \$50 cash award. Anderson previously won \$25 with his paper at the Mid-Central section meeting of the ASAE at St. Joseph, Mo., last March.

Anderson was graduated at the spring commencement exercises recently and has been employed by Purina Mills, St. Louis.

The student paper is titled, "The Grain Spectrometer" and considers separation of grain by projection into still air. This is a promising method of grading grain.

## Leave of Absence

Associate Dean of the School of Engineering and Architecture, R. C. Potter, is leaving July 1 on a year's leave of absence. He will work as an engineer in the research laboratory of General Atomic, a division of General Dynamics at San Diego, Calif. While working he will also study nuclear reactor development.

## Staff Change

Lawrence W. Van Meir, Assistant professor of Agricultural Economics, has resigned his position, effective July 1, to join the Agricultural Marketing Service at Denver.

He will be in charge of the market news program for livestock producers of the Rocky Mountain states. The program includes publishing a monthly market magazine and a weekly news release during months of heavy livestock movements.

## NAPA

Dean of Students Herbert J. Wunderlich is in Boston today attending a meeting of the National Association of Personal Administrators. He will be back on campus July 1.

## Discussion Series

Dr. Joseph Hajda, assistant professor of government, will be the speaker at next Tuesday afternoon's Union discussion series. His subject is "A Cold War Battleground: the Vienna Youth Festival." Discussions are held in the Union art lounge every Tuesday at 3 p.m. Refreshments are served.

## Women's Hall

Kansas home demonstration women have raised approximately \$70,000 toward a goal of \$150,000 for a Georgianna H. Smurthwaite cooperative house for women at Kansas State university, Manhattan.

Latest gift, according to Kenneth M. Heywood, director of development, was a \$6,000 check

presented to President James A. McCain during the recent Kansas Home Demonstration Council workshop on campus.

The Smurthwaite house is a project of the Council, statewide organization of home demonstration unit members, to honor Miss Smurthwaite, former state home economics leader.

## Grants Awarded

Two chemical concerns have awarded \$500 grants to Otto Elmer, a Kansas State botanist, for research work during the coming year.

Elmer will be working on plant nematodes and their control. Nematodes are plant parasites which invade a plant through its roots and damage the growth of the plant.

The grants are from the Chemagro corporation, and the Shell Chemical company.

## Philosophers Confab

Attending a philosophers conference in Honolulu, Hawaii this week is Dr. Jose Benardete of the history, government and philosophy department. Benardete will be on the expense paid trip until the end of July. The Third East, West philosophers conference is being held on the campus of the University of Hawaii.

## Ice Cream Social

Homemade cakes, ice cream, coffee, and soft drinks will be on the menu at the fifth annual Ice Cream Social on the lawn of the Riley County Hospital, Wednesday evening, July 1, from 6:30 to 9:30 o'clock. In case of rain, the social will be moved to the hospital's dining room. The Riley County Hospital Auxiliary sponsors this event.

## Phi Delta Phi

John F. Helm, professor of architecture and allied arts, will attend meetings of the executive committee of Delta Phi Delta, national honorary are fraternity, at Lafayette, Ind., June 20 and 21.

The executive committee is composed of the national officers of the organization. Helm is national secretary. At this meeting officers will work on plans for the national convention in 1960 which will celebrate the 50th anniversary of the founding of the fraternity.

# Students Get Various Jobs During Summer Vacation

As you swelter in a classroom, do you ever wonder how the "other half" lives? That is, the students who are working at full-time jobs this summer instead of going to school.

"There was an increase over last year of about 100 organizations offering summer jobs," says Don Parks, graduate assistant in charge of the Summer Employment Program at the Placement Center. "I was able to locate in their chosen fields 80 per cent or more of the 950 students looking for jobs."

Three milling students are following the harvest for a large milling company. They pick up samples of wheat and send them

to the company, where the samples are processed and made into bread.

The wiring system of a semi-heavy manufacturing plant is being redesigned by an electrical engineering student.

A civil engineering student is working on "Mission 66," a development program set up by the National Park Development Service. It covers the area west of the Mississippi river and is to be completed by 1966.

A geology major is doing seismic exploration for off-shore oil in the Gulf of Mexico. An ag student is supervising a western Kansas 4-H camp.

Others are working in the dispatching division of a gas company, Agronne national laboratory, Los Alamos Scientific Laboratory, the Tennessee Valley Authority, as well as various business firms.

Perhaps the most enviable jobs are those of a newly married couple who are day manager and hostess at a large resort in the Colorado Rockies.

If you're completely dissatisfied with school life after reading this, you can always drown your sorrows in iced tea in the air conditioned Union, and dream.

## Library Closed Sundays

Farrell library is open from 8 a.m. till 10 p.m. on weekdays and from 8 a.m. till 5 p.m. on Saturday. The Library is closed on Sunday.

## COLLEGIAN CLASSIFIEDS

# Two Operas Are July 9

Rehearsals have started on two short operas to be presented by the Music department July 9. The contemporary operas, "The Telephone," by Menotti and "The Committee," by Matt Doran will be presented by a group of K-State students, faculty members and local citizens.

The cast of "The Telephone," a comedy will be Margery O'Shea, a Manhattan woman and William Scriven, a K-Stater.

The cast of "The Committee," will include these students: Sharon Toburen, Ester Aberle, Sandra Tenorio, Terry Bullock, Carl Bilger, and William Scriven. Also appearing in this production will be Homer D. Cain Jr., a faculty member and William Fischer, Leonardville.

Accompaniment for the operas will be furnished by Charles Stratton, music instructor, and Carol Stewart and Betty Larkin, both students.

Don Hermes will be in charge of technical production of both operas.

# Vaccine Received At Student Health

Student Health received a new supply of polio vaccine yesterday, according to Dr. Donald L. Cooper of Student Health. The supply had been depleted for some time.

The Clinic received enough for 90 inoculations.

"We had a standing order in for the vaccine, but there was none available," Dr. Cooper said.

"We're ripe for a polio epidemic," Dr. Cooper said. Conditions are right for the epidemic and an example is that Des Moines has had 14 cases already this year, according to Dr. Cooper.

Of the 14 Des Moines cases,

all but one had never received an injection of Salk polio vaccine.

Dr. Cooper advises those who are due for the third shot of the series to get it immediately for their protection. A fourth shot, taken a year after the third, is recommended to keep immunity at a maximum.

According to Dr. Cooper, polio vaccine isn't an entirely fool-proof guard against the disease. At best it's only 90 per cent effective, but even then it offers more protection than most vaccines do. Dr. Cooper says, "Nine out of ten persons are protected, and those are really good results."

A perfected oral polio preventative will soon be on the market. Although it hasn't as yet been tested extensively, preliminary research has shown it to be effective.

When available it will have an advantage over the vaccine because it will give less reaction. Also, children and persons adverse to needles can acquire immunity much easier if the preventative is taken by mouth.

## Dance Team Varies Style Last Night

Aileen Passloff and Mark Ryder presented a program of dancing and drama last night at the University auditorium. This was the third in a series of special entertainment numbers planned for the Summer school session.

Each dance on the program was different in style and history. Dances included a story of a silly puppet who transformed a foolish woman into a creature like himself, a Biblical dance about Jacob and Leah, and a ballet dance of death and a maiden to three Bach preludes.

Ryder has been a major soloist in New York dance group, the Doris Humphrey group, and has appeared on TV. He studied under Martha Graham in New York and toured with her after World War II.

Miss Passloff has appeared on Broadway as principal dancer in the "King and I," and in the motion pictures "Killer's Kiss," and "Edge of the City."

## Order Announcements; Tomorrow Is Deadline

"Deadline for ordering graduation announcements is tomorrow at 5 p.m.," said George R. Eaton, superintendent of the KSU Press. Announcement orders will be taken in K 101.

## Architecture Work Shown at Library

The work of six Kansas State architecture students will be on display at the Manhattan Public Library gallery until July 6, according to Murlin R. Hodgell of the Architecture and Allied Arts department.

The students are Roger Maxwell, Ar 05; Ronald P. Mentgen, Ar 05; Claude W. Shivers, Ar 05; E. T. McGraw, Ar Gr; David L. Van Wormer, Ar 05; and Charles J. Fager, Ar 05.

The exhibit is a sampling of recent work and constitutes a cross section of design from second year work through senior thesis. Two senior thesis problems, two design problems, and two city planning schemes are on display.

Three of the problems are concerned with proposed buildings in Manhattan. This includes a modernized Aggieville, a Lutheran church, and a new city library.

## Cadets Tasting Airman's Life

Twenty-Two Air Force ROTC cadets will attend summer camp at four different air force bases this summer. Summer camps at three of the bases started June 14 and will run until July 11, while the fourth camp starts August 2 and runs until August 29.

The cadets will ride in jets, stand inspections, do calisthenics and generally get a taste of Air Force life. All 22 of the cadets are juniors, and have one year of advanced ROTC class training to complete before being commissioned.

## English Pro Enrollees Must Sign Tomorrow

Each student enrolled in the undergraduate English proficiency examination scheduled for July 7 must report to the office of his dean before the July 3 deadline to sign his record card. This card must be signed before a student can be eligible to take the examination, according to Mary Frances White, assistant professor of English.

# 'It Won't Hurt Very Much'

LOOKING WORRIED before receiving her polio shot is Jeanie Sylvester, BMT Jr. The nurse, Mrs. Wallender, gets the vaccine ready for the inoculation. Student Health has been out of the vaccine for some time, but received a new supply yesterday.

# Kansas State Collegian

Kansas State University, Manhattan, Kansas, Thursday, July 2, 1959

NUMBER 154

## Special Courses in Math Offered to 47 Teachers

Forty-seven high school mathematics teachers from 19 states are attending summer school at K-State on grants from the National Science Foundation.

The teachers are taking three specially designed courses that last eight weeks. These courses are designed to improve mathematics teaching skills.

The project, which is part of the newly emphasized program on the teaching of mathematics in high schools, has a grant of \$56,500. Of this, \$6,000 will go for the expenses of the program and the remainder will pay the salaries of the teachers attending the special classes.

According to Dr. Leonard E. Fuller of the Mathematics department, who heads the project, there has been a need of a

program like this for some time.

"This problem of poor teaching of math has been known to exist for some time now. The launching of the Russian sputnik and the resulting investigations and studies enabled us to get the funds through Congress," he said.

The group is currently hearing lectures by the three staff members assigned to the project.

The Mathematics staff members are: Leonard E. Fuller, William L. Stamey, and John M. Marr.

The group will also hear special speakers at different times during the course. The next speaker to appear before the group will be, Philip G. Kirmser or one of his associates, speaking on "Satellite Tracking." Kirmser is in the Applied Mechanics department.

## Science Graduates Rate Big Demand

"Demand for technical and science graduates this last year was the highest ever, except possibly for the spring of '57," said Chester Peters, director of the Placement Center. "Salaries are the highest in history."

The May engineering graduate received an average starting salary of \$511 a month, compared with \$482 a month last year. The strongest demand is for electrical engineers.

Business administration salaries were up \$10 over last year at \$390. Salaries for accountants held steady at \$400 a month.

Emphasis on scholarship and

leadership is high in the non-technical fields, according to Peters. The demand in these fields is considerably stronger than last year.

Geology and geophysics, are stronger than in the past couple of years, and show signs of continued strength.

About 50 per cent of the home economics graduates entered teaching fields or business and government employment. There is an especially strong demand for dietitians and others in the food service area.

"There is continued emphasis on graduate work in agriculture, as is true of most other areas," Peters said. Demand is especially great in the feed industry.

Many organizations are increasing their qualifications on job specifications to include MS or PhD degrees. Approximately one-third of those receiving MS degrees in May are continuing graduate work. Eight per cent of those earning BS degrees are planning graduate work.

The Placement Center has been receiving late calls for engineering and science grads, as well as those in non-technical fields, from organizations which did not meet their needs through college recruitment programs.

## Placement Center Offers Varied Aid

Between 3,500 and 4,000 persons are helped each year by the Placement Center, according to Director Chester Peters. About 1,000 of these are seniors and graduate students.

The Center arranges interviews, assists in setting up records for job applicants, and offers job counseling. The Placement library, located near the Center in the basement of Anderson hall, contains information on 500 industrial concerns.

Peters, president of the Midwest College Placement association for the next year, organized the placement program about six years ago. Before it was completely centralized two years ago, the program was carried out through the various schools and departments.

# Independence Holiday Lacks Significance of Past Celebrations

Independence Day, commonly known as the Fourth of July, seems to have lost its significance to the American people. Most citizens seem to think it is a day of no work, fireworks, visiting, getting killed on highways, drowning, and generally a day for dissipation.

Americans need to sit back and take a look as to why this day was set aside in the first place. We all know the reasons, but there are times we need to be reminded. Independence Day was not originally a day for all the ballyhoo we go through now.

OF COURSE it was a day for celebration and fun, but it had seriousness and a thoughtful side to it.

Children observe the day, and remember

it as a day for picnics and firecrackers. This is fine for children, but when grown ups observe the day the same as children, only to a greater extent, it is carrying the observance in the wrong direction. Perhaps the grown ups have not grown up to realize our democratic way of life was not built on firecrackers.

An editorial in the Arkansas City Traveler said that the Fourth of July isn't quite the bang-up affair as it used to be, since politicians no longer shoot off their mouths at such great length and fewer people shoot off firecrackers because laws are more strict.

What this editorial failed to include is that the Fourth is probably a more bang-up affair—only in a different sense—that is, banging into bridges, other cars, and trees.

Why observe Independence Day at all if the only thing we are going to do is get our names in the vital statistics column? Americans might as well be working on the job earning more money than out on the highways killing each other.

Perhaps this is a pessimistic attitude to take, but the American citizen tends to let the other person do the thinking about the future and the past. He just sits back and worries about his own job and perhaps what he is going to do next weekend.

We feel the American people should stop to take a look at themselves to see exactly what the meaning of Independence Day is. We feel that if Americans would do this there would be less slaughter on our nation's highways. We hope you have a nice holiday and do not become a member of the death toll.—Loren Henry

## K-State Geography Prof Wins Fufbright Scholarship to Brazil

A Kansas State university geographer, Herbert L. Rau, Jr., has been granted a Fulbright scholarship to Brazil for eight months to lecture on regional and economic geography of the United States.

Rau reports in Washington, D.C., next week, and leaves this country on July 10. He will be stationed at the University of Brazil, Rio de Janeiro.

## LITTLE MAN ON CAMPUS

"FRANKLY, I DON'T BELIEVE IN USING GRADES AS A 'MOTIVATING' FORCE."

## Casement Collection of Papers Gives Glimpse of 19th Century

By ARNOLD GOOD

A glance at history is provided for K-Staters by the personal and family papers of the late Manhattan cattleman, Dan Casement, who was recently elected to the Cowboy Hall of Fame in Oklahoma City. The papers were turned over to Prof. James C. Carey of the History, Government, and Philosophy department, prior to Casement's death in 1953.

The papers include a land patent signed by Patrick Henry when he was governor of Virginia and two commissions signed by Abraham Lincoln and Andrew Johnson. One of the commissions is for Casement's father, L. Casement, making him a Brigadier Gen-

eral in the Union volunteers effective in 1865.

In 1866 the elder Casement and his brother laid some 1,000 miles of track for the Union Pacific railroad. Included in the collection is a letter to Jack Casement stating the terms of the track laying contract.

Also in the collection are two newspapers, one bearing a date of 1803 and giving an account of the Tripolitan war. The other is the last issue of the Vicksburg Rebel and bears a date of 1863. It is printed on wallpaper due to the paper shortage caused by the Civil War.

Carey has in mothballs a Union dress uniform worn by the elder Casement.

In the collection of papers there is a commission for a James Lang, making him a captain in the Pennsylvania militia effective 1804. Carey said, "We don't know just who James Lang was but he must have been a relative since the paper was in the collection."

Carey also has 57 letters from the late William Allen White to his friend, Dan Casement. These letters are now being photostatically copied.

Anyone who wishes to see these papers can do so by contacting Carey in the History, Government and Philosophy department.

Over the Ivy Line

## IU Men Fit To Be Tied But Girls Won't Reply

By Judy Krug

PERHAPS IF we follow an example by Indiana university graduate students, the lack of summer entertainment will not be so evident here at K-State. Rogers M, a men's dorm at I. U. has challenged Rogers N, a women's dorm, to a football game. The men have generously offered to abide by some self-inflicted restrictions. They are

1. No bad language.
2. No smoking or drinking during the game.
3. No padding (on either side).
4. All men will have ropes tied to their legs, permitting only eight inches of movement.

As yet the invitation has not been answered although "the women have been told 'RSVP if you dare.'"

INDIANA UNIVERSITY STUDENTS are "hot on the trail" of beatniks. Although they are determined to discover the "social significance" of the "beats," they are handicapped—most of their summer school enrollment consists of older students than appear during the regular sessions. Still, they're continuing the "pursuit of the truth" because they aren't sure of the beatnik age limit.

K-STATE MIGHT be in bad shape financially, but according to this article in the Minnesota Daily, Minnesota university is worse off. "A new student on campus for summer session says that he never believed all the stories he's heard about colleges and universities crying for money. At least he didn't believe them until yesterday, when he saw this sign tacked up on a campus tree: 'For sale, \$1.98. Call J. L. M.'"

THE PROBABLE perils that accompany our atomic age are topics of discussion everywhere. According to the Indiana Daily Student, the latest tune on the cosmic hit parade is a little ditty entitled, "Save Us from Strontium." Other popular songs are "The Mutation Waltz," "Tilt Orbit Blues," and "Show Me the Way to Get Out of This World."

If you're feeling badly about the large amounts of radiation present in the air, the same article suggests a way to combat its dangers—you wear lead clothing during work or play.

## Operating Budget for Next Year For K-State Totals \$15 Million

"Less than half of the \$15,595,924 budgeted receipts for the fiscal year which began yesterday is financed by state legislative appropriation," said Dan Beatty, K-State business manager.

STATE APPROPRIATED funds account for only 49.8 per cent of the budget.

Student tuition fees amount to 8.2 per cent of the total. The remaining funds for operating K-State come from various fees and receipts of auxiliary enterprises, such as Student Health, dormitories, and the Kansas Artificial Breeding Service Unit.

"THE OPERATING BUDGET is \$14,456,368. The difference between the operating budget and the budgeted receipts is accounted for in shrinkage," said Beatty.

"Salaries, including civil service, student, and faculty, account for 71.4 per cent of this amount. The percentage allocated for faculty salaries is about average with other land grant schools, while the administrative salaries fall below average," Beatty said.

"A thorough analysis is run on each member of

the faculty each year. This includes the per cent of research, number of students taught, hours in class, whether a PhD degree is held, and if it isn't, how much time is completed toward the degree. By this method, salaries for the coming year are determined," said Beatty.

HERE IS percentage account of the K-State budget—where the money comes from and where it goes. Civil Service employees salaries come under the classified salaries, and miscellaneous includes retirement and traveling expenses.

### BUDGETED RECEIPTS:

State appropriated funds .....	49.8%
Student tuition fees .....	8.2%
Federal appropriated funds .....	10.8%
Branch station fees .....	1.3%
Restricted fees .....	17.6%
Auxiliary enterprises .....	12.3%

### OPERATING BUDGET:

Classified salaries .....	11.9%
Administration and faculty .....	54.0%
Student salaries .....	5.5%
Miscellaneous .....	5.0%
Operating expenses .....	23.6%

IN ADDITION to his job as Dean of Engineering and Architecture, M. A. Durland was recently elected chairman of the Big Eight conference.

## Durland Elected Head Of Big Eight Group

M. A. Durland, dean of the School of Engineering and Architecture, recently was elected chairman of the Missouri Valley Intercollegiate Athletic Association (Big Eight) for the coming year.

Dean Durland was appointed

## Third Week For Bowling

Education, Fallen Angels, Jardine, J.T.s, and Millers, after three weeks play, are leaders of four of the five leagues in the Union Bowling league. Jardine and J.T.s are tied for the Women's league lead. No standings are available for the Men's Student league.

Education is the leader of the eight-team Faculty Men's league with a 9 and 3 won-lost record. For the season the individual high for three games is Tracy, with 549, and the individual high for a single game is Esau, with a 229.

In the Student Mixed league Fallen Angels own a 9 and 3 won-lost record to lead the eight-team pack. The individual high for three games is Huxman (men), 544, and Beardslee (women), 471. For a single game Huxman (men) has a 228 and Walters (women), owns a 166.

Millers lead the Faculty Mixed league with a 9½ and 2½ won-lost record. Individual high for three games is Tracy (men), 616, and Rice (women), 537. They also are high for one game. Tracy has a 225 and Rice has a 201.

Both Jardine and J.T.s have won four and lost none. There are only four teams in the league. The individual high for three games in this league is Walters, with a 401. Ritter has a 160 to top the league for a single game.

## Coaches Are Still Busy Recruiting, Clinics, Etc.

K-State coaches are having a busy summer as do most coaches. The duties of a coach do not start and end with the season of the sport that he happens to be engaged in. In the off season he has things to do, recruiting, checking eligibility, and talking to promising athletes. One coach has five clinics to attend.

Recruiting involves traveling all over Kansas and the midwestern states, talking to promising athletes and their parents. The coaches usually show the athlete the campus.

K-State's football coach "Bus" Mertes has been to the Chicago area already this summer on a recruiting trip and is back at the office. "I'm going to stick pretty close to the campus the rest of the summer," says Mertes.

Mertes has about 40 films of opponents to study and review before the season starts, and plans to spend about six to seven hours on each film. He also has assignment sheets to get out to the players as well as putting the finishing touches on his recruiting program.

"If I run out of anything to do, I can plan a vacation. That doesn't mean I'll take one, but I can at least plan one," says Mertes.

Basketball coach "Tex" Winter has been doing some traveling already this summer. He started out with speaking engagements in April and May and is now on his round of coaching clinics that will take him all over the United States before the summer is over. Bebe Lee, director of athletics, said that Winter will stress methods of coaching in these two and three day clinics.

Winter started the coaches clinic circuit with the Nevada university clinic on June 15. On August 3 and 4 he will be in South Carolina where he starts teaching in a series of high school association clinics.

From South Carolina he will

go to Indiana for two days. He goes to Oklahoma for the 10th and 11th and then on to Idaho for the 12th through the 14th. Winter winds up the circuit in Arizona with the 17th through the 21st days of August.

Bebe Lee is working on the program for the coming sports year. He is going to California round the 4th of July to do some recruiting work but will be back in about a week. From then on he is going to be on campus except for attending the Fellowship of Christian Athletes at Estes Park, Colorado from August 16 to 21.

Track coach Ward Haylett, is in California where he is working on a decathlon program. Haylett is on the 1960 Olympic decathlon committee and is getting some experience and ideas for future use. He will return to the campus from California after applying a few finishing touches to his recruiting program. He is expected to arrive about the 7th or 8th of July.

Baseball coach Ray Wauthier is teaching in summer school. According to Wauthier, "Between the teaching, my work on the Manhattan Recreation commission, and trying to travel over the state for baseball players, my summer is going to go pretty fast."

Big Eight Faculty Representative and chairman of the K-State Athletic Council to succeed R. I. Throckmorton, dean, emeritus of the School of Agriculture, in 1957. Durland succeeds Dean Earl Sneed Jr., of the University of Oklahoma as chairman of the Big Eight Faculty Representatives.

"The Faculty Representatives of the Missouri Valley Athletic Association make the rules and regulations by which all Big Eight athletics are governed," said Durland.

## Prof Places First In State Golf Meet

Natasha Matson, K-State physical education teacher, won the 1959 Kansas Women's Amateur golf championship at the Salina Country club Sunday.

Miss Matson had to fight off an early morning illness and a late rally by the defending champion Jackie Dack to score a 3 and 2 victory. This was her third state title, having been champion in 1956 and 1957. Miss Dack dethroned Miss Matson with a one-up victory over 18-holes in the first round of last year's tournament.

Miss Matson finished one-over par for the 34 holes and completed the six days of golfing action with a 6-under-par. This may be a record for the 37-year-old women's state tournament. She qualified with a 3-under-par 70 last Tuesday to gain medalist

honors as well as the championship.

The defending champion, Miss Dack, was six holes back after 21 holes and at the end of the 27th hole she was still five holes back. She rallied to take the 29th and 30th holes to pull up to within 3 holes. The next four holes were halved and the match ended.

Both Miss Matson and Miss Dack will go to the Broadmore tourney at Colorado Springs in the next two weeks.

# Press Scholarship Winners Named

Chester Peterson Jr. and Eldon Miller have been named recipients of Kansas City Press club scholarships for the coming school year. Each scholarship carries a \$200 stipend. The Press club is a professional chapter of Sigma Delta Chi, professional men's journalistic fraternity.

Peterson will receive a BS degree in agricultural journalism next spring. He is editor of the Kansas Agricultural Student, the student publication of the School of Agriculture, and a reporter for the Collegian. He is a student member of Sigma Delta Chi. He received a BS degree in dairy husbandry in May and is doing graduate work in that field.

Miller, who will be a senior this fall in technical journalism, is editor of the 1960 Royal Purple, the K-State yearbook. He is a past editor of the Collegian and president of the Kansas State chapter of Sigma Delta Chi.

To be eligible for the scholarships, men in journalism must be members of the junior class, be in the top half of the class scholastically, be unable to continue in college through his senior year without working to augment his income, and must show promise of a successful career in radio or newspaper journalism.

## Ag Engineering

Two Frenchmen, George Perol and Michael Rochette, will arrive at Kansas State in early July to study liquidified petroleum gas and its practical uses on farms.

Working with members of the agricultural engineering department, says Ralph I. Lipper, associate professor, they hope to find ways to utilize the large supplies of natural and liquidified petroleum gas in France.

## Air-Conditioning

Approximately 200 persons are expected to attend an air-conditioning conference July 20 to 21 in the Student Union. John E. Kitchens, assistant professor of continuing education, is in charge of the conference sponsored by the mechanical engineering department through the continuing education department.

Public school administrators, school board members, and representatives from industry will attend. The purpose of the conference is to acquaint school officials with the possibilities of air-conditioning in schools.

Prof. Ralph G. Nevins, head of

## Army Cadets Get New Uniforms

Basic cadets in the Army ROTC will be well dressed this fall when they receive their new uniforms. The uniforms to be issued this fall will be new army greens like the ones now in use by regular army enlisted men.

The new uniforms will be the same style now worn by the advanced cadets. The only difference will be in the quality of the uniform. The uniforms worn by the advanced cadets cost about \$20 more than the \$75 enlisted uniforms.

the mechanical engineering department, will present a paper on the "Human Requirements for and Ideal Indoor Climate."

## Bowling Tournament

Students can pick up entry blanks at the Student Union Games Desk for the July 8-9 bowling tournament. If enough entries are in, the tournament will be divided into two divisions—men's and women's.

## Northwest Officers

Newly elected officers at Northwest hall for the summer session are Glenda Reed, president; Deanna Swift, vice president; Ann McElfresh, secretary-treasurer; and Sheila Stacy, social and publicity chairman.

Members of the judicial board are Janet Lytle, Sharon Brabec, Ester Aberle, Sharon Coder, and Frances Falen.

## Discussion Series

Conrad Eriksen, associate professor of business administration, will lead a discussion on "Investments and the Stock Market" at next Tuesday's discussion series at 3:00 p.m. in the Student Union art lounge.

This is the fourth in the series of seven discussion hours sponsored by the Union Summer Program committee. Refreshments are served.

Professor Eriksen teaches Personal and Life Insurance in the economics department.

## Builders Discover Spring in Building

Workers excavating rock for the new Feed Technology wing struck water last week. Called a spring by some and a water seep by R. F. Gingrich, physical plant department head, it hindered work for a short time until sealed off with concrete.

The water originated at the northeast corner of the future basement. Two pumps were needed to keep the water from slowing down construction.

Gingrich says hitting water is fairly common when rock is being excavated. Water was found when Southeast hall was being built.

# Unique Plants Grow In KS Conservatory

The K-State conservatory, houses a variety of interesting plants not usually found in this part of the country. Several unusual plants are in bloom now, according to Ray A. Keen, associate professor of horticulture.

The Hairy Starfish plant, for instance, has a star-shaped flower which is brownish-purple in color. Unlike most other plants, it is propagated by the common fly instead of the bee, and has an offensive odor.

Several orchids are blooming on the east side of the conservatory. The orchid is widely distributed throughout the world,

except in polar regions and large deserts. About 85 per cent grow in the tropical and subtropical regions.

The banana tree started a large single tassel out of the top about the first of June, and will be ready for harvest during the Christmas vacation. Another 200 pound harvest is in prospect this year, according to Associate Professor Keen.

**KEEPING UP** with the news from the Far East is John Ting-Chung Shieh, former member of the army of the Republic of China. Shieh believes recent air battles near Formosa show the Republic's will to fight.

## Formosa Chinese Concerned Over Return to China—Shieh

Their return to the mainland ranks first in the minds of people of Formosa, says John Ting-Chung Shieh, Ag Econ graduate. Shieh was born in Kiangsi province, which is just north of Canton, China, and moved to Formosa with his family when the Nationalist government moved to the island stronghold in 1949.

In reference to last week-end's air battle over the Formosa strait Shieh had this to say. "The apparent superiority of the nationalist pilots probably is due to their will to fight and the fact that they have something to fight for."

Shieh spent a year and a half in the Republic of China's army and says that the Army is ready and willing to fight. Many of the men in the Army came to Formosa in 1949 when they were cut off from their families and homes and moved to the island with a desire to go back to their homes.

The fact that they have been training for ten years and have reached the status of professional soldiers makes them competent fighters indeed, according to Shieh.

The atmosphere on Formosa is not tense, says Shieh. The people are not afraid of the Communist threat, they believe it is the aim of the Communists to merely harass the people on Formosa, and do not believe that the Reds will come across the strait.

If such an invasion were to come, the Formosans have confidence in three things: their hatred for the Reds and their own military might; the United States Seventh Fleet; and the open expanse of water itself.

Shieh says it is not the aim of the Nationalists to return to the mainland through military might only. They believe that this will not be necessary. The feeling on Formosa is that the Communist system will fall of

its own weight and submission of freedom, with a little political and economic tampering by the non-Communists.

Formosans must work politically and economically so that they can build and maintain their strength until the time comes for the return to the mainland, says Shieh.

Shieh, who is 23, says that he would like to operate a farm after completion of his schooling. He feels that this would give him a chance to put his Agricultural Economics theories into practice.

# Health Insurance Plan for Students To Be Sponsored by New Firm

K-State's student health insurance program is under a new company starting with the fall semester, according to Steve Douglas, Gvt Sr, student body president. Last year, the first year for such a program, it was under the Mutual of Omaha company and is now under the Blue Cross-Blue Shield program.

Student Council had a four-fold purpose in setting the program up last year: first, it is completely voluntary for students; second, it is a supplement to the Student Health service; third, it covers students while they are off campus; fourth, it covers surgery, which Student Health does not.

Last year about 15 per cent of the student body participated in the insurance program, according to Douglas. Douglas said that the Council felt the program was not expanding the program as much as it could. This year's Council decided to reopen bids so other companies could set up a program acceptable to the Council.

The new program is comparable to last year's in the extent of benefits and charge for premiums.

The premiums are \$16.80 for one year for a single student; \$12.60 for nine months for single student; \$40.90 for student and wife for one year; \$30.70 for student and wife for nine months; \$50.90 for student, wife, and children for one year; and \$35.20 for student, wife, and children for nine months.

Policies purchased by students for the one year tenure will apply while the student is gone from school during summer vacation. If a student should graduate from the University before his policy expires, the policy is still good.

To be eligible for this pro-

gram students must be a bona-fide student at Kansas State and carry at least six semester credit hours during the regular semester.

In case of an accident the Blue Cross-Blue Shield plan gives full coverage for hospitalization in a semi-private room, and pays \$9.00 a day for private rooms.

For patients who can go in and out of the hospital all the general hospital expenses are covered if used for surgery or within 24 hours of an accident for emergency treatment.

Physician's services are covered in full except for certain surgical operations, which have a graduated pay according to the operation. Medical care by a physician is covered in full.

X-rays are divided into a payment schedule depending on the type of x-ray.

A supplemental accident benefits up to \$500 will be provided within 26 weeks of the date of accident or injury. These benefits include dental services, nursing care, and ambulance service.

Accidental death or dismemberment coverage, which is not in the basic program, has been added. This cost of \$1.80 is included in total premium and in case of death by accident will pay \$1,000.

"The only part of health insurance not covered in this program is maternity benefits," Chuch Moggie, summer chairman of the Council insurance committee, said.

## Vital Statistic—K-State Campus Has Sidewalks for Nine Miles

By ARNOLD GOOD

Take 180 acres of rolling land in Manhattan and add nine miles of sidewalk, 4,000 trees, and some 120 buildings and you have the campus of Kansas State university.

These 180 acres are the main part of the campus only. The university farms and barns are not included in the building total.

There are presently about two million feet of floor space on the campus proper.

"With the completion of the construction for this fall, we will have about 60 acres of floor space," says R. F. Gingrich, physical plant head.

If you think the nine miles of sidewalk on the surface of the campus forms a complicated pattern, you should be a plumb-

er. Underground there are three miles of steam tunnels, five and one-half miles of water mains, three and one-half miles of gas lines, and eight miles of sewer lines.

The 4,000 trees on campus represent 185 different species. The shrubs on campus total 300 different species.

The campus has many features found only in towns of county seat size in Kansas. For instance two indoor swimming pools, one radio station, a newspaper, a bowling alley, a movie theater, and a cafeteria, which feeds about 800 people in a day.

During any regular school day in the fall or spring semester there are approximately 8,500 people on campus, making it a well populated 180 acres.

## Over the Ivy Line

# Men at Indiana Hobbled, Refrain from Cussing; But Women Manage To Win Football Contest

By Judy Krug

**PERHAPS YOU** remember last week's item concerning a proposed football game between the Indiana university male and female graduate students. Here is the latest development on that game:

### "THE AMERICAN MALE?"

Oh 'twas A tragic, Disillusioning Day,  
When Fair Lassies Showed The Way.

The day was clear when the sun came up,  
And the men of Rogers M  
Had gallantly challenged to a football game  
The women of Rogers N.

The game was cast for Saturday,  
And the rules by which to abide—  
No bad language, or smoking, or drinking  
And no padding on either side.

Ropes were tied to the legs of the men  
To make the game fair during play;  
And the men laughed and prepared for the best—  
While the ladies looked forward to the day.

The game began, and the hopes ran high  
As the women ran through on a play.  
It stood 6-0, and the men frowned  
And thought they would call it a day.

But all was not lost or Rogers M  
As the men lashed back from defeat;  
And they scored 7 points and yelled and screamed—  
While gloom swept through Rogers N.

The end drew near, and the men held hopes  
To hold the game best they could.  
But the ladies came through and scored again,  
And the men became stilled as wood.

It's a happy day in Rogers N  
For the ladies had won the bout;  
But gloom is deep in Rogers M—  
The mighty men had struck out!"

**GREMLINS MAY** cause trouble at Indiana university, but intruders give Iowa State girls reason for greater concern. At 2:30 a.m. a visitor removed the screen and dropped it on a coed's bed. She awoke and screamed and the intruder made a hurried departure. Authorities feel that it was probably a student who wished to get into his room—not knowing that girls are now living in Helser Hall.

**ACCORDING TO** the Minnesota Daily, columnist Abigail Van Buren (Dear Abby) needs advice. She's moving from San Francisco to Minneapolis and must find a place large enough for seven secretaries to stay. The Daily suggests that she try 10B in Murphy Hall. Could that be the journalism department?

**AN ARTICLE** in the Collegio from Pittsburg State Teachers College illustrates that, although the time may vary from school to school, the problem remains the same. "The commuter who arrives at 7:45 o'clock each morning and searches for a parking place experiences the same feeling as the first grader who is left standing when the music stops in a game of "Musical Chairs."

VOLUME 65

Kansas State University, Manhattan, Kansas, Thursday, July 9, 1959

NUMBER 155

## Barracks, Trailers Being Closed Out

The West Campus Courts trailer facilities are slowly being closed out. The court has outlived its useful life, according to a Housing Office official.

Originally the court was set up for non-modern trailers under 32 feet in length. However, most trailers now on the market exceed that length and have modern facilities. When the second new men's dormitory is built, it will be located partially on the present trailer court site.

Five barracks, formerly used for married student housing, will be sold late this month. Bids are being taken at present.

Approximately 280 married student families are living in Jardine Terrace this summer. This fall when the rest of the units are completed 456 families

will be living there. This will make a total of 19 units in the housing project. Each unit provides living space for 24 families.

About 160 student families are living in the barracks and 74 student families in the two trailer courts this summer.

Next fall college housing will have room for 600 married students, 700 single women, and 400 single men.

## Clinic Short Of Vaccine

Student Health service has only a limited supply of Salk polio vaccine left in stock. A new supply was received a week ago last Tuesday, but according to Lee T. King of Student Health, it was quickly depleted when students read reminding articles in the Collegian and other papers advising to get protection fast.

"And of course," says Mr. King, "when we started recommending a fourth booster shot the added vaccinations lowered our supply still further."

Before Student Health can receive any more vaccine a contract must be let and even then it may be slow in arriving due to a nation-wide shortage of polio vaccine. He says, "We'll be ready and willing to start vaccinating again just as soon as the vaccine is available, whenever that is."

Photo by Don Dailey

THAT is Anderson Hall. Jim Carrico, Hiş Jr, (left), and Bob Vernon, BA Sr, are telling Carol Bousman, a pre-enrollee transfer student, where the landmark of the campus is located.

## Transfer Students, Frosh Pre-Enroll Until August 7

"Pre-enrollment for first semester freshmen and transfer students began last Monday with 65 students enrolling for the fall semester," said Ellsworth M. Gerritz, director of admissions and registrar. The enrollment rate is expected to continue at 65 to 100 students per

day until August 7, when pre-enrollment closes.

The pre-enrollment requires two days for entering freshmen and one day for transfer students. "So far, most of the pre-enrollees have been transfer students. This trend is expected to change by the end of the week," Gerritz said.

While on campus, the men are staying at Van Zile Hall, and the women at Northwest Hall.

Major change in the pre-enrollment procedure this year will be the addition of an hour and a half of testing by the counseling center. This eliminates the need for new students to take any tests in the fall.

Included in the enrollment activities are testing, physical examinations, and meetings with faculty and student leaders.

## Justin To House Home Ec by Fall

Some classes will be held this fall in Justin hall, according to Dean Doretta S. Hoffman of the School of Home Economics.

They will be classes without laboratories, such as applied nutrition and family finance. Bids for laboratory equipment will be opened in July.

The building itself will be completed in August. Dean Hoffman, Dr. Richard L. D. Morse, head of the Family Economics department, and Dr. Ruth Hoeflin, head of the Family and Child Development department, hope to be in their new offices by September 1.

Moving will be completed as equipment is installed during the 1959-60 school year.

Photo by Fred Seeler

REHEARSING for the contemporary opera, "The Committee," to be given tonight at 8, from left, are William Scriven, Carl Bilger, Sharon Toburen, William R. Fischer, and Esther Aberle.

## Operas Set for Tonight

Presented tonight in the University auditorium will be two chamber operas under the sponsorship of the Music department. Both contemporary operas, "The Telephone," and "The Committee," will be presented under the direction of William R. Fischer, of the Music department, and will star K-Staters, faculty members and local citizens.

"The Telephone" by Menotti, is the story of a long distance telephone conversation between a man and a woman. The cast, which consists of two people will be, Margery O'Shea, a Manhattan woman, and William Scriven, a student.

The cast of "The Committee" by Matt Doran will include these students: Sharon Toburen, Ester Aberle, Sandra Tenorio, Terry Bullock, Carl Bilger, and William Scriven. Also appearing in this production will be Homer D. Cain Jr.

"The Committee" is the story of an interview of a prospective music teacher by a committee of college professors.

Accompaniment for the operas will be furnished by Charles Stratton, music instructor and Carol Stewart and Betty Larkin, both students.

Don Hermes will be in charge of technical production of both operas.

## Defense Act Aids K-State Students

K-State has loaned \$53,114 to 92 students under provisions of the National Defense Education Act of 1958.

"About 250 applications have been processed," said Chester Peters, director of the Place-

ment bureau. "We expect more money to be available between September 1 and 15. When this money becomes available, the loans will be made immediately."

A student may borrow up to \$5000 at \$1000 per year with no interest accrued until a year after he graduates at that time the interest rate becomes three per cent. A student has ten years in which to repay the loan. For each year a loanee teaches in either an elementary or secondary school, 10 per cent of the loan is cancelled.

"Special consideration is given to students in the upper one-fourth of their class, students who desire to teach, or students enrolled in science, mathematics, engineering or a modern foreign language," said Peters.

Loans are made to full time students, and the student must be capable of good standing. The students must show real need for the loan, and use the money primarily for school expenses. Before receiving the loan the student must sign the United States loyalty affidavit, according to Peters.

## Dam Reservoir Lots Available

Approximately 185 lots are still available to students, faculty, and alumni at Tuttle Creek dam. Kenneth M. Heywood, Endowment and Development director, says about 100 lots have already been sold.

Most of the lots that have already been sold have gone to faculty members or alumni. Only three students have purchased lots as yet.

The lots are about one-third of an acre in size, with no two having the same shape or exact size. They average about 100 x 150 feet.

Prices range from \$875 to \$1075, with location primarily determining the lot's value. This amount includes the cost of roads and streets, plus surveying costs. It does not include sewer and water main installation.

## Royal Will Honor Retiring Shepherd

Tommy Dean, Kansas State shepherd, will be honored at the 1959 American Royal livestock show in Kansas City, Mo. The Royal's sheep show will be known as the Tommy Dean American sheep show in honor of the 70-year old retired sheepman. He has been at K-State since 1920.

Dean has shown at least 40 to 45 sheep every year at the Royal. In 1955 his Southdown lamb was grand champion.

The shepherd originally came from Leicestershire, England in 1911. He worked with draft horses, joined the army in World War I, and again worked with draft horses until he went to K-State.

Dean has judged sheep shows since 1925 in Michigan, Minnesota, Nebraska, Missouri, Oklahoma, and Kansas. He has been on the other side of the fence, too, showing sheep at Topeka, Hutchinson, and the American Royal, the Denver Western Livestock show, and the Chicago International Livestock Exposition.

## Four Kansas Schools Have Test Program

Four schools in Kansas including K-State have already signed up to participate in this coming year's American College Testing program, according to Dr. E. M. Gerritz, director of admissions and registrar here. Gerritz has just been named coordinator of the ACT program for Kansas institutions.

The four schools who have already signed are Wichita university, McPherson college, Mount St. Scholastica of Atchison, and K-State. Several other schools have indicated interest in the program.

ACT is a testing program given

to high school students in the fall who are interested in attending the institutions using the tests.

With increasing college enrollments and other factors it is necessary for colleges to have more and better data for advising and placing individual students. The cooperative tests given comparable information on all students who are tested, whether they are from small or large schools, or even from out of state schools, according to Dr. Gerritz.

The program has been used for the past two years by all colleges and universities in Iowa. It has proved so popular that attempts are being made to expand it throughout the midwest this year. Oklahoma's colleges have all signed up and those adjacent to Kansas are expected to do so.

The testing program will take three hours. Results will be available to the student as well as to three institutions that he designates.

### COLLEGIAN CLASSIFIEDS

#### FOR SALE

Two to choose from. Factory rebuilt Maytag automatic washers. One year parts and labor warranty. \$9.00 down, \$9.00 per mo. installed. Phone PR 85944. 155

Will do typing, dictation, mimeographing. Reasonable prices. Contact Mrs. Gordon D. Wakeman by calling 82461. Call 65228 after 5 p.m. 153-155

#### WANTED

Ride or riders to Wichita Friday evenings and back Sunday evenings. Call evenings, 68056.—Benton Tibbets. 155

## K-State Thindlad Returns From Meets in Europe

DeLoss Dodds, star K-State trackster returned home last Saturday from a three-meet tour in Finland and Sweden. Dodds took first in the 400-meters and placed fifth in the 200-meters at Helsinki. His winning time in the 400-meters was 47.2, while his time in the 200-meters, which was run around a curve, was 21.5. Winning time in this event was 21.3.

At Goteberg in the international "July games", Dodds finished

second behind Mal Spence of South Africa. He had defeated Spence in the world athletic championships in Helsinki. Spence's time was 47.5, while Dodds was time in 47.6.

Dodds will go to the Pan-American games in Chicago later this summer as an alternate. He earned this right at the AAU track meet in Colorado. Dodds may run the 400-meters and on the 1600-meter relay team. All the athletes from the Western hemisphere are invited to this meet.

## Access Street About Finished

A new access road connecting Jardine Terrace and Mid-campus road is nearing completion. Planned to relieve congestion at the intersection of Dennison and Claflin road, it will be especially helpful in lightening the noon rush traffic, says R. F. Gingrich, physical plant head.

The new road will serve the approximately 1,500 persons living in either Jardine Terrace or the adjoining trailer court. The road is also needed to provide access to the proposed dairy and poultry building that is now in the planning stage. The building will be west of the Animal Industries building.

A second road is planned to extend west from the service road near the planned building to Jardine Terrace.

# Farrell Library Grows; Could Use More Space

"Spend a lot of time in the library. Roam around," advises Prof. William F. Baehr, head librarian. "Drop into continuations occasionally to read your favorite magazines. Stroll around the reference room, too. And if you possibly can, become skilled in the use of the card catalog."

People who only know the subject they're searching for "about halfway" are better off if they tell a librarian their troubles, says Baehr. Surprisingly, graduate students sometimes give Kansas State librarians more trouble than freshmen.

Professor Baehr tells the story about the green freshman, who after an orientation tour, came up to the reference desk and told the librarian in an awed voice, "The most books I ever saw at one time before were the ones on my teacher's desk. Do people really read all these books?"

"Now there's a boy we can do a lot for," says Librarian Baehr. Farrell library has a lot of books. At the last count, over 230,000 volumes had been cataloged and placed on shelves. And this total is continually being added to at the rate of 10,000 books a year.

The library also receives 5,200 serial publications. This includes periodicals, bulletins, and academic journals. Because Kansas State is a depository of the United States government, numerous state and federal publications are sent here to be kept, too.

"An ideal library is one where everyone has free access to the books," Baehr comments.

## NW Has 97; Full in Fall

Northwest hall is the only women's campus housing being used this summer. A total of 97 women are permanent residents during Summer school, according to Miss Kay Wilson, Northwest hall director. In addition, as many as 15 more stay there for the duration of a particular workshop.

The original planned capacity of the dorm was 210. However, due to increased enrollment 230 women lived there last winter.

A "variety of students" are staying in the dorm for Summer school. Most of the women are full-time students going straight through for a degree. Also those enrolled in nursing study in the summer session. The rest of the residents are graduate students and older women completing work for a degree, plus nine new freshmen.

The dorms are already full for next fall. If conditions are too overcrowded, Van Zile may be used to either partially or wholly provide additional room for freshmen women.

Since 1924  
Aggieville Shopping Center

Due to circumstances the ideal can't be realized at K-State, although graduate students and certain undergraduates have stack privileges. However, if the library is added to, the free access plan will probably be put into effect.

"We need more work and office space," Baehr says. "If an addition is built we'd like to have more microfilm readers, a conference room, typewriters for student use, more reading room space, and a reading room where smoking would be permitted."

Baehr says the library needs more reading room space if a certain standard is to be met. Reading rooms should have seating space for 25 per cent of the student body. Here this means space for 1,750 students if winter enrollment of 7,000 is counted.

He comments, "Right now we can't seat a thousand at one time."

Besides expansion, the library personnel plan to start a program of improved research library facilities. They hope to emphasize research primarily in future years.

## Graduate Students Helped By National Science Group

Twelve graduate students are participating in two new fellowship programs supported by the National Science Foundation. The programs, both beginning this year, are Summer Fellowships for Graduate Teaching Assistants, and Cooperative Graduate Fellowships.

Taking part in the summer program are Janis C. Broman Butler and William J. Johnson, chemistry; Glenn F. Cochrane Jr. and Kenneth B. Michaels, engineering; and John H. Poorbaugh, zoology.

The purpose of the program is to make it possible for graduate teaching assistants in science, mathematics, and engineering to continue their study during the summer sessions. It also adds to the attractiveness of teaching assistantships as a means of graduate student support.

In order to apply, students must have completed one year of teaching prior to effective date of appointment. Recipients must spend full time in advanced scientific study or research.

The stipend is computed at a rate not to exceed \$75 a week and not less than \$50 a week. The Foundation will pay tuition and required fees. The tenure is a period of from eight to twelve weeks.

Those holding cooperative fellowships are John C. Crawford and Gerald Senecal, physics; Joseph P. Devlin and John K. Romary, chemistry; Norman L.

### Activities

## 'La Strada' Tonight

"La Strada," an Italian film with English sub-titles, will be shown as the fourth in the series of international film classics in the Union little theater tonight at 7:30.

The film has won the academy award for the best foreign film of 1956; grand prize winner at the International Film festival; and Golden Gate awards for best foreign film.

### Mennonite Fellowship

The Mennonite Fellowship is having a picnic at Sunset park tomorrow night at 6:30. Couples are to bring fried chicken and salad while single students are to bring 60 cents. Ice cream and cold drinks will be served according to Connie Dick, vice president of Mennonite Student Fellowship.

### Scholarship

Wayne Grover, Ag Soph, has been named winner of the \$250 Sears Roebuck Foundation Sophomore Scholarship for 1959-60. Grover ranked fourth in his freshman class of 197. His grade point average for his first year was 3.46.

### Ag Graduates

Of the 28 Agriculture School

students planning to graduate at the end of Summer school, 10 or 35 per cent are agricultural education majors, according to C. W. Mullen, assistant dean of agriculture. The second highest number will graduate from the animal husbandry curriculum.
